[REDACTED] has her Ipad up and running...she is downloading apps and happy...she used her own credit card since it stores the card on the device...she has purchased a few apps and downloaded free ones.

While trying to get the Ipad up, she realized she needed to upgrade the software for her laptop. She purchased the software, but it won't load because her CD drive is broken. She can have the drive repaired for about \$160-\$190. She also needs a new back up hard drive, about \$69. It is an old computer, but she says she is quite happy with it.
