Subject: Naiad Inflatable Boats

I spoke with Stephen Connet the president of Naiad Inflatable boats. I explained to him what we were looking for in a boat. Their boats are all custom so they can basically build anything we want. We were mainly talking about their 10 and 11 meter versions. He said that the 10 could be very nicely outfitted to yacht quality for \$250K to \$300K. The 11 meter would run about \$20 to \$25K more. He has already sent quite a few photographs, I'm not sure if you would like to see all of them or just the highlights?

Thank You
