it did reset the signal. I saw it on my computer.
now I unplugged (I'll do it now whenever I come back) and we shall see if it is satisfactory in the bedroom as well.

Nili

Nili, we have been in touch with Time Warner Cable and they are suggesting the router needs to be unplugged and plugged back in once a month...this modum has been plugged in for 129 days with out unplugging...can you try this? We also had TWC reset the signal...
