Hi [REDACTED]

I'm sorry but Jim is traveling at this time. Hope it's okay to come back to you next week.

Have a great weekend!

Kind regards,

I enjoyed my discussion with Jeffrey last week and the chance to discuss how our interdisciplinary team of planners, architects, landscape architects and interior designers could help set the vision for Great St. James Island. It sounds like a spectacular setting and just the kind of opportunity we enjoy.

As discussed, I have attached a package to further introduce how we work and the range of environments we have helped shape around the world.

I look forward to following-up and continuing the conversation.

Regards,

Jim
