Subject: Dr Mechanick

I left 2 more messages and just spoke with Gabrielle in Dr Mechanick's office. I told Gabrielle Dr Mechanick did not call you and you really need him to call you on your cell. ... Reminded her we have been asking since Monday... She says she will tell Dr Mechanick and she will initiate the call to your cell and patch him in sometime today. I said she could try me if you don't pick up and I can then try more phone numbers to reach you at.
