Subject: Re: Back to work

Hi Lesley this is between us. Did I do something wrong because it took our boss time to approved my request?
The time he was here(not the latest) before he left he said he might be allergic to cats wants carpet steam. That was done very well by Stanley Steamer. After tidying the house. Outside cushions cleaned & put away Renato asked for off & was approved and I am happy for him. If you recall I did not asked even if I already worked more than 7 days. Since we do not know when he will be back I planned to strip all rooms of linens, mattress covers washed clean even if two guests rooms were not occupied but the cat visited it. So it's ready any time he comes. That time too stuff from the big plane was all over the garage. Since Renato was off and Janusz was just sitting down I asked his help to bring heavy coats of the Boss to the laundry room for me to hang & organized . Grudgingly he help but called me names. He is ok if Renato is around. Renato knows how to work he was sweet to say he learned to be meticulous from me. He is a gentleman and respects me. He knows when I work I work. He said he cannot imagine how our co-worker here can just sit down and not even offer a compliment to help. Most of the time I do errands he offers to drive this way learning where stores are., I guided him where Boss orders pizza, steak sushi & etc. Lesley when the surroundings is full of positive energy heavy work becomes light and time just fly away!
Thank you for reading this knowing how busy you are.
Wondering ???
