well this is one complete email!

Thank you so much! I will see if the place Jeffrey had the MRI can just send you a CD directly ...they should be able to. I am not sure if Jeffrey has the other reports/results you are requesting...will try to find out!

I will pass along the manuscript in progress to JE!

Thanks for all and I will be in touch... [REDACTED]

- yes, I asked JE to send me a CD w/ MRI images when we spoke Sun
- if he is willing and they are available, I would also like to review the reports/results of his electrophysiological studies, namely Nerve Conduction Studies (Electroneurography), needle EMG (Electromyography), and SSEPs (Somatosensory Evoked Potentials)
- I'm also attaching a PDF of a manuscript-in-progress about the neural coding of tonal consonance and dissonance by auditory-nerve fibers, which we discussed over the phone Sunday - the Figures at the end tell the computational part of the results I tried to relate verbally - the equations and graphs communicate so much better!

- my mailing address for the MR images:
