Jeffrey Epstein VI Foundation
[REDACTED]

Dear Mr. Epstein:

We are so grateful for your continued support of our work at the Melanoma Research Alliance (MRA). We were delighted to receive your commitment to MRA's biennial benefit dinner at Sotheby's to support MRA's research portfolio.

More than 200 supporters joined us in celebrating the progress taking place in the field of melanoma research during our benefit dinner last month. It truly was a wonderful night, as we honored the scientists and doctors who are dedicated to defeating this disease, and also raised \$5.8 million. As you know, 100% of all funds raised go directly to support MRA's research program.

Please allow this letter to serve as confirmation of your pledge for \$225,000 for a Young Investigator Award. The Young Investigator Award program aims to attract early career scientists with novel ideas into melanoma research, thereby recruiting and supporting the next generation of melanoma scientists.

Since we began our work, we have seen dramatic progress in the field, with 11 new

therapies coming to market for patients with melanoma – including three in the last month! MRA has been at the forefront of some of the most promising research, providing critical funding to elevate the pace of discovery. The impact is being felt throughout the field of oncology.

Enclosed please find an invoice for your commitment. Please contact Logan Kastner, Director of Development and Marketing, at (202) 336-8944 or lkastner@CureMelanoma.org, with any questions.

At the Melanoma Research Alliance, we are committed to funding the best research and brightest minds throughout the world. With your support, we will continue to change the field for all those impacted by melanoma.

With sincere appreciation,
<image001.jpg>
Margaret Anderson
Acting President & CEO
