Subject: Piano delivery to 301 on Friday Nov. 6th

Hi [REDACTED]...below is from [REDACTED] re where the piano should be set up in the apartment...please also send a picture when done...you can send to (And include me on the email as well please!). Also, the men should be delivering a bench, books/manuals, the power cord, remote control, and disks. I think the movers should arrive around 10:30/11am. :

[REDACTED]

Can [REDACTED] put it in the corner where the ventilator is now standing and move a bit the console to the door. It is a piano that can stand in a corner and does not require a lot of room space.

If [REDACTED] can send us a picture of it already in the apartment, Ehud will be delighted.

Really, a great achievement of yours.

Please confirm back to me! I will send you the movers contract so you have that as well...

thanks, Lesley
