She is busy with something. She is already coming from downtown to take care of letting her in then has to go back downtown or something. If you want to call [REDACTED] and tell her what to do and see if she has time to do it by all means do! Maybe she can.

[REDACTED] when you come back to city (whenever that is) can you please go to 11J and take care of the dirty linens for us? Ehud and Nili are gone and not coming back until end of November so it is not a rush to do. It can wait for when you get back.
