Hi [REDACTED],  
Just want to update you.  
Locksmith was unsuccessful on opening the safe just because it's double locked.  
He ordered the key for that particular safe and it should be here middle of next week then I will meet with the Locksmith so he can give me the key and the code to open it as Mr and Mrs Barak will not be in the in town.  
Mrs Barak is aware of everything.

Thanks

After 3 pm is ok.  
We could not open the safe, so we have nothing inside. It is a safe not only with a combination but with a key hole that's why it is different from the usual hotel safes.

Hi Nili...we can have Merwin come over today after 3pm to have a look at the safe for you...Merwin is cc'd here. Could you please let him know when would be a good time for him to come by?  
He is asking if you have something already in the safe that you or one of your security people is around when he tries to open the safe for you...I believe it is just a combination

safe similar to those  
in hotels where you  
put in your own  
code to open.
