**Subject:** Re: Keys

yes, please...lets get all the guest mailboxes replaced with new locks and keys...we should have 2 sets of keys for each lock. If any of the girls have keys to their mailboxes already (including you) we can keep the lock in place BUT we need to have an extra key made so we can keep on hand at the house along with the other keys...Can you head this project with Andrew please? I'll send an email out to the girls asking if they have a key to their mailbox now...
