Hi Lesley,

I've just asked my lab in Richmond, VA to send a kit to Jeffrey's address at 9 E 71.

Separately, I'm sending the paperwork to the same address.

When they both arrive, please let Ciera know and we'll schedule to our phlebotomist to come out to Jeffrey's home or office to do the blood draw.

The whole thing takes a little over 2 hours.

Consider Ciera your go-to for any questions.

Jeffrey, I'll get the results about a week after the blood draw.

Thanks,
Peter
