Hi [REDACTED]..I rec'd a call from our Amex Rep Natasha saying she had a message from someone speaking Russian needing a flight to LA....but no name was left and no phone number was given...I think this may have been you? Always remember to give your name and number or else the person you want to hear from won't be able to call you back ;)

Natasha figured it may be someone from our office because she doesn't have any other russian speaking clients...
