Hi Julia...you can speak with Jeffrey for sure...our problem is our available apartments are slim right now. I only have 11J and 11P as proper apartments to offer Jeffrey's guests...we have guests coming to stay in these apartments throughout the month... [REDACTED] has moved into 10B (not sure for how long) 8A is livable from what I understand (there are some items in there that need to be sorted out...I know [REDACTED] has removed the items she was storing in there) 8A is available now for you...We had a guest depart 11J yesterday and it is in need of cleaning [REDACTED] is to clean that tomorrow. [REDACTED] leaves on Tues. and [REDACTED] can clean 11P that morning...We will have a place for you to stay temporarily for sure while your bathroom gets fixed...But as a solution for tonight, the only option is 8A.

Have you let the building know of this!? You need repairs ASAP! Get them to come fix this for you! In interim, you can stay in 8a. Let me know if you need help with building. In fact, I will email them now and include you.

Oh oops! Sorry. You are correct! What happened to your bathroom in 10N? I believe
8A is up and running. There are some miscellaneous items in
there but the bathroom works and there is a bed. Code 45369. Go have a look.
