**Subject:** Re: Updates Ready to Install....

Restart. That's a security update that needs to be run.

(If you click the message itself, rather than the buttons it should open the AppStore to tell you what the updates are.)

HI James...my computer here at HBRK as well as my computer at home say I have Updates Ready To Install...it is not telling me what updates these are...my only options are to "restart" or "later"...should I install these updates?
