**Subject:** Precor

Below from merwin re Precor:

They replaced the console and it's still unsuccessful with programming it. He downloaded the files from the console and emailed it to precor to see what they are doing wrong. I will call John again tomorrow for any updates.

I asked him if he'd program one this consoles and he said yes but never had this problem.

I will update you once I hear from John

Thanks  
Merwin Dela Cruz
