It's \$73.99 and on prime...then we can split or ask Diane to pitch in too? It would be \$37 if just we split or \$25 if we split 3 ways...(rounded)

Hi [REDACTED]

So sweet of you to ask. There is actually one thing that [REDACTED] wants:
Snap Circuits Snap Rover by Elenco. I just looked it up on Amazon and it is kind of expensive, so maybe you would want to ask a couple of more people to go in on it.
Otherwise, any other Snap circuits kit would be great.
He is so into that!

Funny what a new science teacher can do to you!

Hugs,
Lotten
