Subject: Finishing UP

Bob, once we get the showers fixed and the attic fan completed (the fan not only needed a new motor, but needs new fan blades because these were bent...the dopes ordered the wrong fan blades...the correct ones should be in by Monday, then I hope to get Tony over one day next week) Tony also needs to fix the guest room electric (the electric keeps tripping the breaker...something is amiss)... anyway, then Sue can complete the spread sheets so we have for our records and we can finish up your balance we owe you!! We need to provide Sue with the totals of the landscaping and possibly other bills I have paid so we have an accurate account for the money we spent to build the house!!

I have asked Vicki for a quote on the tile for master shower and want to find out how many boxes we need of the guest room tile (we have several boxes left over and we may have enough...?)

Will get back to you....
