Ok

Let me know.

Also we do custom fit our covers so they do not tear or blow away also will not pool with water.

They include zippers as needed and any attaching straps.

I do! One mile away...we are at 159 Oenoke Ridge (stone house across from the NC Nature Center)
The furniture is on the back patio...feel free to come on by anytime and measure...I took the pillows off because of the weather...is that ok? You can accommodate your measurements?

I will measure the furniture this week. Do you live near Paula? If so that is close to my house and can stop on the way to work or on the way home.

I would be happy for you to send someone out to measure my furniture..could we set up a day/time...I definitely love what you did for my friend but know she paid less with you...I do think I have more pieces than she has, but perhaps the 2 benches could be one cover (?) They sit right next to each other. Could someone possibly come out this week?
