>> Vicki, do you think it would be possible for you or Dale to come to our house and take a look at the master shower floor? I am just wondering if the pitch of the shower is what it is because of the size of the shower? I see the water heading toward the drain when I turn off the water and perhaps there is enough pitch? It is just the corner and one wall we feel the need to take our foot and drag the water down to the drain...

>>

>> I hate to order all this stone, have the guy come and tear out what is there... re-mud and tile and then we are left with a pitch in a shower that looks like a locker room.

>>

>> Honestly, I just don't know and would love if someone with the knowledge and eye for this sort of thing could have a look. If Bob was here I would ask him, but he is in NJ...
