[REDACTED], Jeffrey's picture needs to be printed on photo paper...needs to look exactly like a passport photo does...I am not good when it comes to pictures and printing or how you go about doing this... I know 86th Street Photo takes passport pictures..maybe they can print for you? We should get this done over weekend so we have for Monday...we are going to need to get these applications in ASAP...do you know if [REDACTED] would take the apps straight to the consulates?

[REDACTED], how were you planning to get these printed? Is this something can do in NY? We will need them for the visa applications..

Lesley its my last version of photo
i think its looks fine because the size of pic is pretty
small
