Hello Katie (or whom it may concern). Back around Oct 2013 I placed an order for 48 yards of Pattern: LEO Color: 97S5851 by JFFabrics. I am wondering if you could check and see about getting me 11 more yards of this same fabric. When the sofa from Crate and Barrel was finally delivered to us one of the delivery men accidentally sliced a side of the sofa with his knife while getting the plastic off! Can you check to see if we can still get the fabric? If so, would need pricing and ETA as well. Would love to hear from you as soon as possible on this. Of you need to reach me, [REDACTED]
