It's safe to install — I've never seen it fail — but it's not as critical as Microsoft makes it out to be.

I got home just after 8, so not too bad. The 6 train was a mess, but then when isn't it?

Happy I got to get your home straightened out.

HI James...hope you were not home too terribly late last night...my computer here at Jeffrey's house says I need to update my Microsoft Office 2011 14.4.3 Udate and its "critical" Do you recommend I Install this?

Please let me know...thanks! [REDACTED]
