**Subject:** Re: Update

[REDACTED]  
I am happy to report that Jeffrey & I finally had a short phone visit and although he didn't feel his foundation would be a likely source to fund our research initiative per se, he did offer a personal contribution of \$25,000 at this time to help us with our efforts.

We are, as I assured him, a 501 (c)(3) and will formally acknowledge his donation for tax purposes. He asked that I convey these details to you.

Checks should be made out to:

Fortunate Blessings Foundation

and sent by mail to:

[REDACTED]  
We are also able to receive wire transfers directly into our account at JP Morgan and also welcome donations of stock transferred directly into our TD Ameritrade account. Please let me know if you would like any of those conveyance details.

I appreciate your own diligence to connect us and move all of this forward — I'm very grateful for your care.

Warm regards,

Bill

I am coming into NYC this morning and will stay for two days. I have continued to refine our research methodology and am now happy to report that we have been joined by two exceptional scholars and published scientists who are prepared to lead our research initiative, attached below, which has been thoroughly updated.

<ProposedMethodologyOverview.doc>

The researchers are Neuroscientist Laurie Leitch, PhD, formerly Co-Director of the Trauma Resource Institute and Brigadier General Laurie Sutton, M.D., the highest ranking psychiatrist in the U.S. Army.

<http://www.thresholdglobalworks.com/about/co-founders/>

These researchers have previously been funded by the Rockefeller Foundation's Bellagio Institute

<https://www.youtube.com/watch?v=64nZ7WBnA8w>

and have now joined our Advisory Council.

If there is any way to meet with Jeffrey and to discuss these developments further, I would be most grateful.

Warm regards,

Bill

"If I were not a physicist, I would probably be a musician. I often think in music. I live my daydreams in music. I see my life in terms of music."  
Albert Einstein
