James, I am so sorry to do this, but Jeffrey must cancel his appointment with you and David Carter on Sunday June 1...he is ill and says he will reschedule for later in the month...

Once again, so sorry for any inconvenience.

Dear James,

Like I have said in an earlier
email. I am looking for an
"investing partner" to match
(50%/50%) the money Russian
Venture Capital plans to invest in
USA based Biotechnology. They
will provide half of the capital to

develop a variety of technologies that are of interest to their country. For their investment they get commercialization rights to the technologies they finance for Russia and the CIS. For us, on the USA side, this is a major source of capital to start a series of companies that have great potential as therapeutic technologies, and we get commercialization rights for the USA, and rest of the world markets. Basically, we get the rights that are valuable to us at "half price".

Over the next several years our plan is to identify seven/eight technologies that are worthy of development. RVC has already agreed to finance the first (MAJI) and is looking at the next two—Prediction Biosciences, and OvationBio. I have several more currently in diligence. (The original Investor Presentation made in Moscow is attached)

So, I am looking for a source of capital that thinks this is an interesting investment theme, and is willing to consider the idea as something they might want to implement. My belief is that there is more money in NYC, seeking an investment home, than there are "quality investment ideas". I could be wrong, but I have to believe that people running a lot of capital in New York would want to hear new, creative, and GOOD new investment ideas. I think this idea is the kind of idea that is

worth a look, and worth serious consideration. I think we are talking \$150M over a five year horizon.

Best, David
