OK, something I need to schedule you in to come and do? This week works...are you going to see Rich or anyone this week at Lex location?

Yes, those should be installed.

At some point in the future, we need to upgrade the OS on both of your iMacs (71st & Lex Ave). Apple will announce the new OS today, and I don't want to let you be too far behind everyone else.

Safari 6.1.4  
Itunes  
Security Update 2014-002

Should I go ahead and update my computer with these things? I always hate to click "install" unless I know it is good to go..

Please let me know..
