HI James....below is Jeffrey's response:
im not in [REDACTED] but happy to see you both after

Might it be possible to schedule something the beginning of June?

Jeffrey, David Carter
(Company information is attached), is in NY today and tomorrow morning, and I felt that it could be beneficial and timely for you to further learn about this opportunity if there was interest on your end. Please take a moment to review the attached material, and let me know if you would like to meet while David is in NYC. Best Regards, James

Dear James,

Like I have said in an earlier email. I am looking for an "investing partner" to match (50%/50%) the money Russian Venture Capital plans to invest in USA based Biotechnology. They will provide half of the capital to develop a variety of technologies that are of interest to their country. For their investment they get commercialization rights to the technologies they finance for Russia and the CIS. For us, on the USA side, this is a major source of capital to start a series of companies that have great potential as therapeutic technologies, and we get

commercialization rights for the USA, and rest of the world markets. Basically, we get the rights that are valuable to us at "half price".

Over the next several years our plan is to identify seven/eight technologies that are worthy of development. RVC has already agreed to finance the first (MAJI) and is looking at the next two—Prediction Biosciences, and OvationBio. I have several more currently in diligence. (The original Investor Presentation made in Moscow is attached)

So, I am looking for a source of capital that thinks this is an interesting investment theme, and is willing to consider the idea as something they might want to implement. My belief is that there is more money in NYC, seeking an investment home, then there are "quality investment ideas". I could be wrong, but I have to believe that people running a lot of

capital in New York
would want to hear
new, creative, and
GOOD new
investment ideas. I
think this idea is the
kind of idea that is
worth a look, and
worth serious
consideration. I
think we are talking
\$150M over a five
year horizon.

Best, David
