yeah, our machine is not cooperating today either. Please note that the instructions in the manual are different than the ones that I typed up from the separate sheet of paper. So maybe look it up online just to be on the safe side.

Hm, that's odd. It's showing as having been sent. I'll try to re-send again.
Okay, but just in case it doesn't go through again, it's "Trilogy DL2700 Programming Instructions" so maybe "Trilogy" is the name.

Sorry, there was actually one more piece of paper in there that I didn't
notice.
It says:

How to Reset Lock on 11B

- Touch "AL" Button in Lower Right Corner
- Touch # 1 Button
- Touch "AL" Button again
- Type in new number
- Touch "AL" button
- Type in new number again

You should hear 6 beeps! Then you know it is done.
Before closing the door test your new number!

HI Polina...can you please look for the folder titled:

"Lock Information for 11B (also how to Hard Reset Lock)"

This folder is in File Cabinet 2, Drawer 3 in the Redweld Titled: JE MISC. 2012. The folder should be in the middle of the Redweld.

Julia, who lives at the apartments and is cc'd here, needs to reset her lock. Once you find this folder, can you give us the model number of the lock so we can find the instructions on how to reset the lock on line...

Thanks, [REDACTED]
