ok, ... reading what you just typed totally made me laugh!...
I know you mean the sink in the powder ...and I am completely fine with you taking it off! But what about the sink in the game room and faucet that need to be installed? you can't install those mirrors till the plumber installs them...I don't want you to have to come back for that ...or I suppose you could come and install that when you drop off the 60" round glass? Would you prefer that? then you could get paid for this other stuff you want to complete.

Hi [REDACTED]

Is the sink out of the hall bathroom yet so I can complete the job next week.

Thanks,

Ray
