Subject: Bluestone for outdoor grill-YES

I love the blue stone for the counter for outside! Do it!

When is mike coming? We Need sink in powder room moved.... Ray is going to install mirror down to baseboard. He can't get proper measurements until its moved. And we need the sink in game room installed. Which I know you know. Let me know when mike can come and do this so I can coordinate with ray. He would love to be done this week or early next week if possible.

When is the door guy coming? Sliding doors need work, Ty's closet, Ike's office is wide open again(?). Anyway you know the doors that need fixin

Love the stone in the bathroom and the fixture. All is looking spectacular. Think I hire movers for may 19?
