I will get you a quote on sprinkler soon. Chill. I have to grade and do a bunch of stuff. We may want to take it one step at a time. First sprinkler guy then I can just get topsoil and seed and do the plants after. Let me get the sprinkler thing straighten out today.

Ask the girl how much a plan would cost?

Subject: Landscaping ?

Hey Bob. Where are you with landscaping quotes? Can you get someone to give you actual pricing as a quote so we can compare? Please oh please I hope you can do better. I need to follow up with Anna also (who you met) and see what she has going on. I think we are comfortable good faith Dobson for irrigation because they installed our current system and have been good. Their price seems to be in line.
