Hi [REDACTED]

Wanted to update you in regard to estimate generation. I have met on site with my irrigation system specialist , spoken with your builder in regard to site grading etc. Now with this additional information I will be able to finalize the estimate / budget for the property.

Carlos and I plan on meeting early this week to go over the numbers before we submit our design and pricing for the property.

I will contact to when I am ready to present our proposal for consideration.

Regards

Mike & Carlos
