Subject: stuff...

-The guy who is installing the hardware says he can't open the drawers in the butlers pantry because the molding is blocking them...can you look into this?

-Did you take back the sink and faucet you purchased for the mud room that we are no longer using?

-The mirrors in Ty's bath and the basement look super! Love them..makes me want to get rid of the mirror in the guest room even more...and I am going to!

-Reminder to look into the wrought iron brackets for the pass through counter..not sure how long that will take to order and install...
