Subject: Rafal the tile guy..

I see that Rafal has been to the house and re grouted Ty's bathroom...did you meet with him? He can do the tile for the master bath...ALSO, I am thinking we do the same marble ledge stone like in the master bath on the backsplash of the butlers pantry...we will need more of the stone though I'm sure. Can I ask Rafal to meet with you to look at the master bath project and the stone we have...then he can measure the butlers pantry area and let me know how much more ledge stone we should order.

LMK when you want him...I also want to know if you even knew he came to the house and did Ty's room...

thanks
