Hi Joe!

not sure...I will let Jeffrey know you are checking in and available to 'summarize' if need be!

Hi [REDACTED]

Just wanted to check in and see if Jeffrey had any questions on the invoice.

Some of the scientific articles I forwarded are pretty dense so I'm happy to summarize those for him if he would find that helpful.

Hi [REDACTED], would you mind passing on the following attachment and text below to Jeffrey? It was missing in my original invoice email.

Joe

Hi Jeffrey,

This attachment was missing from my original invoice email. A few points regarding this paper:

1. The pgp is not interested in pursuing this clinical metabolome research (too clinical), and now that I'll be working on my own study, they no longer have the medical expertise for this.
2. So, even though the data for this small exploratory/perspective piece was looked at with a small number of PGP samples, our follow up publication

(which would be an "original research" paper rather than exploratory/perspective piece) would involve a much larger number of samples from the MGH Virtual Genomics Clinic with accompanying biochemical data.

3. PGP has also abandoned the GPS analyses tool I was instrumental in creating (see Fig. 1 of attached). GPS could be resurrected or built from scratch with support from the bioinformatics part-time hire listed in the invoice. Cross comparisons of the 3 servers and 6 analyses tools in the first half of year 1 would help create a dramatically improved Genome Parsing System (GPS) - especially with respect to UI and genome visualization.
4. Because it is non-clinical and public, the PGP never fully implemented the participant survey found in Table 1. This will be fully implemented in the MGH VGC. Table 1 gives you an idea of the type of questionnaire we'll use in our study and rationale for collecting this data.

[REDACTED] thanks - my apologies again for the long wait on this.

I need drill down on a few more numbers but the invoice is essentially a comprehensive overview of the research I'm planning on making my life's work.

It's very ambitious and some initial funding will be critical in jump starting the whole project.

FANTASTIC!!!

Thank you soooo very much. Hope you had a great
time snow boarding!!

I will pass this along to Jeffrey and I'm sure he will be
in touch.

Hi [REDACTED],

Sorry for the delay. I was busy catching
up on clinical work and snowboarding all
last week with friends in Breckenridge.

Please pass on the attached invoice to Jeffrey. There are quite a few
attachments so I would instruct him to
start with the invoice which will make
reference to other attachments (and put
them in proper context).

I provided a lot of info (erring on the side of providing more
explanation rather than too little).

Jeffrey should feel free to contact me anytime with questions regarding
the invoice by email or cell phone [REDACTED]
[REDACTED]

Thanks!
Joe

Hello joe Hope you had a nice
weekend. Might you be able to give me
an update on the invoice Jeffrey would
like from you?

Thanks,
