Hi Bob and Tony...Attached is a list of the lighting and mirrors for the house. Unfortunately, the pictures did not come over so well... but the style number for each product is there and should coordinate with every box delivered. I am not positive what lights I want over the island in the kitchen or in our Master Bath. I ordered a couple of items for each area and want to look at them and decide which I want to actually keep and hang.

Tony, will we be receiving your quote for the dimmers shortly? I have spoken with Ike about it. If you could please be sure to include on the quote the price for normal dimmers as well so we can see the price difference. Thanks [REDACTED]
