FYI!! :)
Looks like another symposium is happening...

Sounds like we do have a quorum for Feb 22,23, let's protect that weekend while we
    settle.
Jeff/I████, what are the logistics of getting to/from there? If we invite others, what's a
    good total number to shoot for?

If Jeff's goal is understanding deception, and mine is brain-building as a test case for
    aligning the representations of hardware and software, Ed/Judith/Sebastian, what
    are your one-liner goals? Intent is to focus prep on what could be done collectively
    that doesn't fit individually.

Neil

    That weekend still works for me also.

    I should be able to make most of 2/22-2/23, although as noted I'll be
a little late.

    Neil,

I might have a conflict on Feb 22-23 but I can head that off if we
decide on that date very soon.
