ok great...I actually just want to add that little thingy on...not
resize...if i make the ring smaller I can't get it over my knuckle..but it
twists all around my finger and is annoying...so the little thing he
added on is perfect. I just need to find the time to get over there!
thanks

Hi Les, he just added the cheap little thing on the inside,
it was a couple of dollars, are you having yours
completely resized?

Hi Sue...just curious..how much did the guy charge you
to fix your ring so it fits?
