Ok, can you change the closet with all the shelves to shelves on the bottom (like 3 rows) then a hanging bar above?...what is price tag for that...

ok great! I want to add in the long hanging, off the floor for this area...36" for a mirror will be perfect.

Can you send me a new quote. [REDACTED] will remain the same (not to the floor)...in my closet the only place I would do to the floor is the wall with the double hanging...every where else not to the floor...If you can sharpen your pencil a tad it would help with my husband! I am close!! ;)

Thanks, [REDACTED]

Hi [REDACTED]

Yes, so sorry for the delay! We did not do crown molding but there is a 2 ½" fascia trim which hides the hardware and makes the system look finished.

<image002.jpg> <image004.jpg>

If we add a section on long hanging that's 21" wide, that will leave 36" of open space for your mirror. Will that be enough?

Here's the pricing for that unit:

To the floor -- \$533

Off the floor -- \$398

Morning Cheryl...something else I thought of...do you think we could do another strip of long hanging to the left of the mirror in my closet? What would that add to cost? (finished out to the ground and not to the ground)

LMK! Thanks, [Redacted]

Hi [REDACTED]

Thanks – let me know what you decide. You can install the carpet before the closet system is installed.

Hi Cheryl. So sorry for delayed response! We are still gathering thoughts and quotes. But thank you for following. Will be in touch. Question (which I'm sure I could ask my builder) does the carpet need to be installed before the closet?
