Bob, we will need corner pieces for the fireplace...can you have installer tell you how many square feet we need for the corners and how many square feet for the rest of the fireplace?

I have been in touch with Builders direct and they would ship to us from GA (they have warehouses all of the US) Would take approximately 8 days to ship. Vicki says there is not much in stock of what I liked at her store yesterday so she is holding the lot for us...must decide by friday.

Can you get me quantity numbers...Ike and I are deciding which we prefer...

thanks, [REDACTED]
