Just got back from County Appliance.couple of questions.

-Dryer is gas? I think we said yes on this.

YES

-Do you know if the cabinetry in the kitchen is designed for a cooktop or a range? I can't recall what the cabinetry looks like there.the picture I have shows a range.maybe I should ask Chris at Nukitchens to be sure...

NOT A DROP IN COOK TOP IT WILL SIT ON TOP OF CABINET A BIG RECTANGLE NO HOLE
NEEDS TO BE CUT

-Is the cooktop/range propane? (we will need to buy converter kit if it is)

IT WILL BE PROPANE.

-Outdoor grill will be propane that is hooked up to the house?

YES GRILL WILL BE HOOKED TO THE HOUSE PROPANE
