Subject: Re: frame

Hi Sarah

I have spoke to Mano about this new idea - matching the frame around the do=r. We will have to get a mold kit and make a mold of it and take to the=framer. I will keep you posted as to time frame on getting sample back for=JE.

JE is asking if they can make a frame o=t of wood to match the door frame to the right of the cross in white. Same size and design as the door frame in wood painted white.

Thanks Wendy..

Sarah Here are new pics. Please note : the picture is 10'2" and from the=top of the baseboard to the bottom of the molding the measurement is also =0'2". The frame is 4 inches wide with 1" 1/4 thickness. With=the frame attached, the picture will sit at the top of the cross hangers o= the molding. (They will have to be moved to the ceiling for it to fit.

Let me know any new thoughts.....
