Good Morni=g again Ann

Now that we are in full mode of repa=rs it comes to my mind that after repairs are completed , when LSJ is b=ck in service a maintenance program must be put in place to keep her i= good operating condition. I would think that every week o=e day should be spent doing maintenance, from cleaning bilges, keeping a lo= on the engines for oil changes or what type of repairs were accomplished f=r that week.

Even though L=J has had a lot of funding she is still a boat with age and must be maintai=ed.

Towards the end of rep=irs if you want me too I would be happy to show the person that will be in c=arge of keeping LSJ in service my thoughts on a schedule for maintena=ce.

Thanks A=n
