Subject: update

Hi Jeffrey and Rich,

ug shot: I just requested today that the image be removed fr=m their media server as well-- not just the article.

Forbes: I was v. discouraged that this did not hit =he first page-- since it's a feature. Tyler is adamant though that th= Forbes will climb to the 1st page in a couple of weeks-- =/div> Please let's wait to see if this is indeed a viable solution. </=iv>

In the meantime, I am drafting more feature artic=es--and backing them up with press releases.

I =iso want to retrace the steps I took that led to 1 negative 6 months ago: =hat is, sending out a short press release once a week and updating the business directories. Press releases have no staying power but they fo=tify the foundation's websites and blogs.
