Epstein arrival at MCC

From [REDACTED]
To [REDACTED], [REDACTED]
Date 2019/08/12 13:17
Subject: Epstein arrival at MCC
Attachments: TEXT.htm

Please review for accuracy before I send to [REDACTED].

[REDACTED], here is a timeline of his arrival at the MCC:

7/6/19: Arrived at NYM (Saturday) in the Receiving and Discharge area. Moved by staff to general population (apparently USMS did not indicate that he was a high profile inmate and staff were unaware that he was coming so no pkans had been established).

7/7/19: Warden identified him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.

7/8/19: Upon return of Psych Svc Staff on Monday, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.

7/10/19: Returned to SHU with cell mate. Remains until 7/23.

Good morning all,

Per the above article, the Court was advised by the USAO that MCC did not preserve video from outside the cell shared by ██████████ and Epstein at the time of ██████████ alleged first suicide attempt. However, per the attached, SIS advised the footage was preserved. What search for the footage was performed prior to advising the USAO the footage could not be found? I would recommend searching again for the missing video. I have a call with the AUSAs in 20 minutes and will advise as to what other issues arose at ██████████ hearing.

Thank you,

██████████

Hello,

It was good to see you yesterday. Thank you for accommodating my visit with and giving him extra time to review his discovery. We very much appreciate that.

I am writing to request the preservation of all video surveillance that captures the hallway outside of cell on the date and time of the Epstein incident that is currently being investigated. I believe that the date and time is July 23 during the early morning hours. Accordingly, I would ask that all video surveillance from July 22 at 11 pm to July 23 at 4 am is preserved. If it is your understanding that the incident occurred at a different time, please let me know and preserve the relevant footage, including an hour before the incident and an hour afterwards. If the responding officers were wearing body cameras that captured the inside of the cell in the aftermath of the incident, I am requesting that such footage also be preserved.

We will be officially requesting this material through the appropriate means, but please consider this

email a formal preservation request.

Thank you.

Report of Suicide of High Profile Inmate at MCC New York
Provided by [REDACTED] at the request of
[REDACTED], ABV Solicitors

Jeffrey Epstein, a high profile, pre-trial inmate, Southern District of New York, was found unresponsive in his cell at MCC New York on August 10, 2019, at approximately 6:40 am. A short time later, he was taken to an outside community hospital where he was pronounced dead. His death was ruled been a suicide by hanging following an autopsy which was performed by the New York Medical Examiner. Two investigations, to be conducted by the Federal Bureau of Investigation (FBI), and Office of Inspector General(OIG), were ordered by United States Attorney General (AG), [REDACTED] and are currently ongoing.

At a press conference held on Monday, August 11, 2019, AG [REDACTED] stated, "the Department of Justice is learning about those "deeply concerning" irregularities at the MCC New York. I was appalled - and indeed the whole Department was - and frankly angry to learn of the [REDACTED] failure to adequately secure this prisoner." AG [REDACTED] further commented, "Mr. [REDACTED] death raises serious questions that must be answered." On Tuesday, August 12, 2019, AG [REDACTED] directed the Warden of MCC be reassigned to the Bureau of Prisons Northeast Regional Office and two other MCC employees, who had been assigned to Mr. [REDACTED] housing unit (9-South-Special Housing Unit), were placed on Administrative Leave. A Justice Department spokesperson stated "Additional actions may be taken as the circumstances warrant."

On August 19, 2019, AG [REDACTED] appointed a new Director and new Deputy Director to the Bureau of Prisons. The Acting Director will return to his regular duties. While it is a positive step to have these top positions filled, the concerns within the prisons remain unchanged.

Chronology of Events

July 23, 2019 - Law enforcement sources state Epstein was found unconscious in his jail cell with injuries to his neck. It was not clear if the injuries were self-inflicted as a result of a

suicide attempt or if he had been the victim of an assault. He was placed on Suicide Watch.

July 29, 2019 - Epstein is reportedly removed from Suicide Watch and returned to the Special Housing Unit (SHU), where he is placed with a cellmate. It is common practice to place inmates whose suicide watch has ended in a cell with another inmate, rather than to be housed alone. This provides some measure of safeguard. Termination of a Suicide Watch can only be made by a trained member of the Psychology Department. Dr. [REDACTED], Chief Psychologist, MCC New York, would have been involved in the decision to terminate [REDACTED] July 2019, Suicide Watch. Dr. [REDACTED] provided a Declaration of the Court in the case of [REDACTED]. In this case, because of [REDACTED] notoriety, it would not be uncommon to have several levels of review, to include the [REDACTED] input and possibly officials at a higher level. Details outlining the reasons [REDACTED] Suicide Watch terminated are uncertain. In my experience, inmates are not kept on suicide watch indefinitely. A typical suicide watch would normally last two to four days. If an inmate is persuasive, they can formulate an argument to talk their way off of a suicide watch and manipulate the Psychologist into believing they no longer pose a danger to themselves.

August 9, 2019 - Thousands of documents are unsealed in Court in connection with a defamation case against a woman accused of recruiting underage girls for Epstein. These documents revealed the names of dozens of high-profile individuals who were connected to Epstein. They allegedly indulged in parties with him and flew on his private plane. These documents included allegations of impropriety against several of these "prominent individuals."

At some point on Friday, August 9, 2019, [REDACTED] cellmate was moved to another location or transferred. For reasons the investigators are still exploring, he did not receive a new cellmate. This contradicts usual protocol as Epstein should not have been in his SHU cell alone, having recently been removed from Suicide Watch.

The Washington Post reported in an article published on August 11, 2019, the Correctional Officers assigned that night to the SHU Unit, had not checked on Epstein for several hours before he was found hanging in his cell Saturday morning. This was just

one in a series of missteps in the hours leading up to his death.

The New York Times and Associated Press reported the Correctional Officers slept through the 30-minute required checks and then falsified records to cover that up. They cite their source as Law Enforcement Officials. Surveillance video reviewed following the incident is said to have confirmed this information.

Procedure and Post Orders require Officers to conduct physical checks of all inmates every 30 minutes. It has been reported by several sources that these 30-minute checks were not being conducted by either of the two staff members working that morning shift in SHU unit. Additionally, the Union President of MCC advised both staff were working overtime and one of the individuals did not normally work as a Corrections Officer. It is my understanding from a source who currently is employed at MCC that the second individual assigned to SHU that shift is employed by the Warehouse and he had volunteered to work the overtime on Friday night/Saturday morning in SHU.

The Union President stated that MCC is currently functioning with less than 70 percent of the needed correctional officers, forcing many to work mandatory overtime and 60 to 70 hour work weeks. The Union President went on to say in an interview, "If it wasn't Mr. Epstein, it would have been somebody else because of the conditions at the institution. It wasn't a matter of how it happened or it happening, but it was only a matter of time for it to happen. It was inevitable. Our Staff is severely overworked."

August 9-10, 2019

According to several sources, Correctional Officers assigned to SHU did not check on Epstein for several hours, despite policy requiring physical checks of all SHU inmates every 30 minutes. Both staff were working overtime at the understaffed facility. One of the Officers was mandated to work the overtime and the Warehouse Employee volunteered to work the overtime in the midst of an 80-hour work week.

August 10, 2019

Epstein is found unconscious/unresponsive in his cell. He is later pronounced dead from an apparent suicide. Further it has been reported that Epstein committed suicide by hanging with the use of a bed sheet.

August 11, 2019

The investigations begin and the autopsy is performed. It is anticipated it will be several days before any official information is reported.

Conditions of Confinement at MCC New York

██████████, an Investigative New York Journalist, has extensively covered conditions of confinement at MCC New York over the last several years. Much of what she claims have recently been reported by numerous media outlets. The following excerpts were written by Ms. ██████████ and published August 2019, in the Columbia Journalism Review and June 2018, in the ██████████. Additional excerpts from the June 2018 and August 2019 publications of the ██████████, of former inmates of MCC, Attorneys, Prison Experts, Professors and other sources are also provided in the following section.

August 20, 2019 Columbia Journalism Review - (██████████)

"WHEN I AWOKE LAST SATURDAY to the news of Jeffrey ██████████ death, I realized that the moment had come: the Metropolitan Correctional Center (MCC), the federal prison where he died, was about to get its fifteen minutes of fame. As a freelance investigative reporter who frequently covers the prison system, I'd spent years trying to pitch stories about that facility, often without success. Last summer, I managed to publish an investigation into conditions at the MCC on the website, ██████████. The story documented that MCC was overcrowded and understaffed, plagued by vermin and overflowing toilets, dogged by allegations of corruption and abuse, and beset by an almost total lack of medical care. None of that got much attention at the time. But as soon as news of ██████████ death started circulating, so did my piece."

"There are no advocacy groups focused on improving conditions at federal prisons, in large part because there aren't really any elected officials responsible for safeguarding these institutions. Congress is technically charged with overseeing the Bureau of Prisons, but Congress is busy. And because federal institutions hold individuals from across the country, federal prisoners don't form a natural constituency, or represent a single newspaper readership."

June 19, 2018

"Half a block behind [REDACTED] federal courthouse, two blocks from City Hall, three blocks from the Brooklyn Bridge, and less than a mile from the hustle-and-bustle of Wall Street, sits a detention center that has been condemned by a United Nations human rights expert for exposing its inmates to conditions akin to torture.

While reports of the horrendous conditions on Rikers Island helped spur Mayor Bill de [REDACTED] pledge to shutter the [REDACTED] violence-plagued facilities, far less attention has been paid to the environment inside the Metropolitan Correctional Center, the federal jail which mainly holds people who have been charged but not yet convicted of crimes, who in the eyes of the law are still presumed innocent.

Yet those locked up at the MCC are subject to their own indignities and rights violations, say those who have spent time there on both sides of the bars. These include filthy conditions, vermin infestations, substandard medical care, and violence and abuse at the hands of guards. Interviews with a dozen people who have spent time locked up there as recently as 2017, as well as with attorneys who have represented clients at MCC, human rights groups, and others with direct knowledge of the prison, confirm that those incarcerated at MCC often endure a rat-infested, high-rise hell just yards from the federal courts that send them there.

"I thought there was nowhere worse than Rikers Island," [REDACTED], who spent three weeks at MCC, told [REDACTED]. In October 2016, [REDACTED] was arrested in the Bronx on federal charges for selling drugs to a confidential informant, as part of the largest gang raid in New York City history.

[REDACTED] said the bug and rodent infestation at MCC was particularly horrifying. "The cells [are] very small and at nighttime you hear the mouses, see waterbugs in the shower," he told [REDACTED]. At least one former MCC prisoner said the mice would find their way into commissary boxes, and gnaw away at their food.

"You asked about the conditions," wrote [REDACTED], another young man indicted as part of the Bronx gang raid. "We saw rats so big it seemed like they could only be in the sewer."

"But they wasn't in the streets or the sewers," [REDACTED] added.

"They were more like roommates."

In a special jail-within-a-jail called 10 South, alleged terrorists, mobsters and drug kingpins are subject to some of the most brutal conditions of solitary confinement in the nation. This extreme isolation, reserved for those charged with the most heinous crimes, was described as "a punitive measure that is unworthy of the United States as a civilized democracy," according to a former special monitor on torture and punishment for the United Nations who investigated the case of one prisoner held there for three years."

"Hundreds of people indicted in the Southern District of New York, as well as many individuals indicted in the Eastern District, based in [REDACTED] federal court across the river, end up at the jail awaiting trial for federal offenses including drug-related crimes, fraud, bribery, and sex offenses. Defendants facing terrorism charges have spent more than three years at the facility, attorneys say. But even those facing less high-profile charges generally spend at least one or two years there before their criminal cases are resolved."

New York attorney [REDACTED], who has represented clients at the notorious [REDACTED] facility at Guantanamo, says "in some regards, MCC—particularly 10 South — is worse." [REDACTED] said he has represented nearly a dozen people who have served time on 10 South, and countless others in MCC. He describes the prison as "soul-negating."

"[REDACTED] physically, mentally, psychologically, emotionally—as unaccommodating to the idea of being human as any place I've been," [REDACTED] told [REDACTED].

[REDACTED], a New York Attorney who has visited clients at MCC described the institution as "infested with rats and mold." He went on to state, "The Facility is run with a bad combination of laziness and cruelty," citing the Epstein death is one of the results. He describes the Special Housing Unit as "a place where an inmate sits in a box and stares at the wall."

[REDACTED] is a Distinguished Professor of Political

Science at Brooklyn College who has written extensively about conditions at MCC.

"If I described these conditions to you—filthy, freezing, no natural light, isolation so extreme that you're punished for speaking through the walls, absurd rules like prisoners not getting to see the newspapers unless they're 30 days old, secrecy so deep that people are force-fed and lawyers can be punished for describing the conditions their clients are experiencing—you'd be forgiven for thinking that this was Iran or Russia," she said.

"But in fact this gulag exists right here in lower Manhattan."

██████████, a civil rights attorney who has filed several lawsuits challenging conditions at the ████████ two federal jails in New York City, recalled suing the BOP on behalf of a prisoner at MCC who had had his fingertip chopped off by a cell door. Rather than being placed in an ambulance, alleges ████████, the man was chained at his ankles and wrists and brought to the hospital by correctional officers, bleeding profusely.

"I think ████████ a human rights violation," ████████ says of the medical care at MCC. "I think ████████ an Eighth Amendment violation—deliberate indifference."

In the past 15 years, at least one correctional officer at MCC has been convicted of beating an inmate, and at least three guards have been convicted of sexually assaulting inmates. In 2016, a former correctional officer at MCC was sentenced to seven years for raping an inmate. Most recently a former MCC Staff Member was convicted of taking bribes to smuggle food, alcohol and cellphones into the facility.

In a 2011 letter to then-Attorney General ██████████, Amnesty International expressed concern that conditions on 10 South "fall short of international standards for humane treatment" and "appear incompatible with the presumption of innocence." The brutal nature of life on the unit, including its extreme conditions of isolation, were also documented in a 2014 Human

Rights Watch Report, about human rights abuses in US terrorism prosecutions.

During his six-year term as the UN Special Rapporteur for Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, which ended in October 2016, the BOP prevented ██████ from speaking to suspected or convicted terrorists. ██████ was able to investigate the conditions at 10 South by interviewing family members of the incarcerated and contacting the State Department about the allegations. He ultimately determined that international human rights protections had been violated.

While there has been increasing advocacy for reforms to local jail and prison conditions, federal prisons remain a kind of political orphan, a situation compounded in the Trump era. "Rikers is a good example of the power of people in a democracy to hold their elected officials accountable," said ██████, "but in the federal context—federal facilities house people from all around the country, and so ██████ no natural constituency in the state, city, county they're located in" to express concern about ██████ happening on the inside.

As a result, for people locked up at MCC, ██████ little hope that conditions will improve anytime soon.

That could be exactly the way jailers and prosecutors want it. Pre-trial detention, which often lasts years, can become not only unsafe, but coercive; as a result, individuals are pressured to provide information to prosecutors or accept plea deals in their desperation to be released, say former prisoners.

"You want to plead guilty and get out of this dump to a prison," said ██████, the former inmate. "The feds have a 98% conviction rate for a reason," ██████, another former prisoner said. "They mentally break you."

Asked why he thought MCC has received so much less coverage than Rikers, ██████ replied, "I think [MCC] went unnoticed because people think just because ██████ the feds the conditions are better. There are certain things that go on in these places that the government covers so the public would never know."

But for years, MCC has been plagued by filthy conditions, abusive guards, and a severe lack of medical care, as ██████████ documented in an extensive investigation last year. Defense attorneys, former inmates, and others with direct knowledge of conditions at MCC said ██████████ death epitomized how all individuals, even the most infamous people on the planet, are treated in the facility.

██████████ has been working as a federal defense attorney and representing clients at MCC for about 30 years, and described the ██████████ recent condition as "the worst that ██████████ ever been."

██████████ said that one of her clients, a young man, has been in the Special Housing Unit—the unit where Epstein died—for the three and a half years.

"His entire window is covered in mold," she said, and because the hot and cold water in the cell come out of different taps, her client can't even take a shower without getting frozen or scorched.

She recalled that she'd had one client at the facility who was charged with observing and safeguarding suicidal prisoners, since there weren't enough correctional officers to do the job.

"So they have inmates patrolling the suicide block so that they keep an eye on the people rather than people [who] get paid by the government doing it," ██████████ said. "Do they really care? Do they watch? Who knows!"

██████████ described a third client who suffers from mental health issues as well as severe asthma, but has been unable to get the nebulizer treatment she says she needs to control the disease. During one visit, ██████████ said her ██████████ breathing was so labored she couldn't carry on a conversation: "I couldn't talk to her, because she couldn't breathe."

Over the spring, ██████████ was in touch with two women held at the facility, who said they were denied basic medical care, and that their cells routinely flooded with sewage.

"Toilet waste and feces were all over the floors of all the cells, common area, and other departments on the floor and the female inmates were the ones who had to clean it all up without proper equipment," one detainee wrote in a message. The woman, whose name is being withheld at her request out of fear of

retaliation, described how her floormates got feces on "their hands, legs, faces, hair, all over" and said the "difficulty breathing due to the smell was and is indescribable."

██████████ said that it makes little difference to the Correctional Officers at MCC whether an inmate is a billionaire financier or not—everyone is regarded with disdain. "[The prisoners would] be lucky if they were treated like dirt under somebody ██████████ shoe, but they're not even treated that well."

These conditions persist at MCC despite the fact that people held there have not yet been convicted of a crime, and thus are supposed to benefit from the presumption of innocence.

The following excerpt was taken from an article published in the Intercept, February 3, 2019, edition, written by ██████████, an inmate incarcerated in the 10 South Unit of MCC New York.

"AT THE TAIL end of the Obama administration, I was locked up a ██████████ throw away from ██████████" ██████████ at the Federal Bureau of Prisons' infamous Metropolitan Correctional Center, New York, or MCC NY, in downtown Manhattan, where ██████████ is currently being held during his ongoing federal trial. I was there writing and waging a hunger strike when ██████████ first arrived. Much has been written about ██████████ trial, but close to nothing about the conditions of his confinement, as the security around him has made access off limits to any journalist other than me.

I'm an imprisoned human rights activist and political journalist focusing on protecting institutionalized children from common tortures in America like these:

I'm currently suing the Bureau of Prisons and MCC NY for both state and federal civil rights violations, related to the conditions where ██████████ is held, and I'm exploring classaction certification. My lawsuit against MCC NY offers a new and rare glimpse into prison life in the solitary confinement cells that ██████████ has now called home for nearly two years. Besides simply recovering my fees and costs, however, my goals aren't

financial. Instead I'm asking the court to force MCC NY to respect human dignity, the First Amendment, federal regulations, and other human and civil rights."

In a letter written from MCC to officials at the Justice Department, the Federal Bureau of Prisons, and the Office of the Inspector General at the Justice Department, Mr. [REDACTED] calls attention to what he describes as appalling conditions inside the facility.

In his letter, he alleges there are severe threats to health, including rodent and insect infestations at the facility. "Roaches are found in the food, and I have personally observed insect eggs as well," [REDACTED] adds.

He describes how the heat is, for the most part, not functioning during the winter. A number of the cells are in the "50-degree range while others are much colder." Meanwhile, pools of water stand in the facility from leaks and are a "breeding ground for infections."

"The facility itself is trash, with cockroach-infested meal trays and frigid, leaky cells. One inmate resorted to drinking from his toilet when the water was shut off."

[REDACTED] a lot of mystery surrounding the 10-South unit at MCC where [REDACTED] is being housed. Much of that is fueled by the effects of it being a "SAMs" or "special administrative measures" unit. As such, the inmates aren't supposed to come into any visual or other contact with other inmates.

Even magazines they receive in the mail must be prescreened by the FBI for the supposed reason of intercepting hidden messages. Outbound communications are similarly restricted and monitored in real time.

Amnesty International

Amnesty International previously condemned the use of MCC to "house pretrial detainees in solitary confinement for months or even years before they face trial." With regards to the Special Housing Unit at MCC, the human rights organization says "detainees have little access to natural light and no provision for outdoor exercise." Amnesty International characterized

"the combined effects of prolonged confinement to sparse cells with little natural light, no outdoor exercise and extreme social isolation amount[ing] to cruel, inhuman or degrading treatment."

United States Representative [REDACTED] - August 1, 2018 and August 14, 2019

August 1, 2018 - A federal lawmaker is demanding officials running a prison in lower Manhattan detail how long it takes for those in the lockup to get medical care.

[REDACTED]. Rep. [REDACTED] is demanding answers as allegations of abuse continue to surface at the Metropolitan Correctional Center some prisoner advocates have compared to a gulag. "When inmates are placed at the mercy of our government, we have a moral responsibility to ensure they are treated humanely, something which MCC has allegedly failed to do," [REDACTED] said in a statement. "I am asking for a full explanation and immediate steps to ensure the safety of prisoners housed there." On Wednesday, she sent a letter to the Federal Bureau of Prisons citing "alarming conditions" at the prison which houses highprofiled terrorists and drug lord [REDACTED] [REDACTED]. The missive demands the number of violent incidents as well as the time it typically takes for prisoners to receive medical care.

The allegations of abuse, including prisoners forced to wait two months to be seen by a doctor, were first reported in [REDACTED]. Prison advocates have long argued that the facility is more restrictive than the Guantanamo Bay detention camp.

August 14, 2019 - Rep. [REDACTED] on Wednesday joined the growing number of officials calling for a soup-to-nuts investigation into the apparent suicide of accused child sex trafficker Jeffrey Epstein in the federal Metropolitan Correctional Center in Manhattan.

██████████ said she wrote a letter to the Justice ██████████ inspector general and the head of the FBI demanding answers not only about ██████████ death but about what she called other rampant abuses of detainees at the lockup.

"I write to voice concerns about the continued alleged culture of mismanagement and inadequate leadership at this facility," she said. She cited several other incidents at the MCC, in which corrections staff allegedly abused detainees.

Representative ██████████ posted the following on her Facebook Social Media account on August 14, 2019: "MCC is in our District, #NY7. I've been pressing for greater oversight of this institution for many years now!"

"Not only does ██████████ suicide raise questions about how his custody was handled, but it hearkens back to a litany of previous problems we've seen at this facility," ██████████ told The News.

"I'm glad DOJ and FBI are looking into this most recent episode and all of us, including his victims, need to know how Epstein died," she added. "Still, I think ██████████ also needed is a comprehensive review of the culture and management problems at MCC."

Conclusion/Opinions/Observations

MCC New York, like many other Federal Prisons nationwide is overpopulated and understaffed. It is reported the MCC was built to accommodate 474 inmates. On the day of Mr. ██████████ suicide, the ██████████ inmate population count was 763, almost twice the number it was designed to house.

Much talk and attention has been on the staffing shortages. Mainly, as a result of the 2017 Trump Administration Hiring Freeze, the Bureau of Prisons lost 7,300 employees.

MCC New York was recently described by Attorney General ██████████ ██████████ as an institution with "deeply concerning irregularities." AG ██████████ expressed outrage and says he was "appalled and angry" to learn of ██████████ "failure to adequately secure this prisoner." Other sources familiar with current conditions at MCC described it as "deplorable," and "bordering on inhumane treatment."

I personally maintain contact with several individuals who are currently employed with the Bureau of Prisons as well as MCC New York. Three current MCC Staff Members very recently described to me the current sanitation conditions at the facility. One stated, "The facility is so disgusting [REDACTED] like a prison in a third-world country. Cleaning supplies are not issued on a regular basis." The individual further advised, "Pest Control is horrible and ineffective, rats, mice and bugs are everywhere." Another Correctional Officer told me, "There are mice and bugs everywhere including inmates' cells." This information is consistent with my Court testimony on July 3, 2019, and my assessment in Paragraph 20 of my Declaration in the case of Mr. [REDACTED]. Further, it corroborates the many news reports, regarding the "rodent-infested MCC."

On a different, yet equally concerning topic, an MCC Correctional Officer advised me this past week, that there is blatant racial discord within the institution, especially amongst Correctional Officers. I did not witness this when I was Warden at MCC, and my contact advises it began a short time following my departure.

It is my belief that the excerpts I've cited in this report and statements from various sources of the MCC are credible and honest. The Staff have nothing to gain by sharing this information with me other than to express their dissatisfaction and frustration with current practices and conditions at MCC.

In my July 3, 2019, testimony in the London Court for the extradition case of [REDACTED] [REDACTED], I expressed concerns with MCC New York in regards to staff shortages, staff from other departments being "augmented" to fill in for correctional officer vacancies on a regular basis, conditions of confinement at MCC and various other matters related to the institution. I stated in my testimony and also in my Declaration that MCC New York or any other federal prison could not prevent anyone who is persistent from taking their own life. At best, they could only delay an inmate from committing suicide by placing his on a suicide watch. A suicide watch does not continue indefinitely. As previously stated in this report, a usual amount of days for a suicide watch would be two to four days, depending on circumstances. Once the suicide watch ends, that also ends the 24 hours of continuous inmate observation.

If Mr. [REDACTED] is extradited to the United States and housed at MCC or MDC, I am confident his mental health needs, given his propensity to commit self harm, will not be adequately addressed. I am more convinced of this now, following the Epstein suicide, numerous documents and recent information revealed, than I was during my testimony to the Court in July 2019. It appears the current conditions within the prison are extremely dire and certainly far worse than when I was assigned at MCC as Warden.

Numerous individuals have come forward in the last few weeks, including some former Bureau of Prisons' Wardens. They fervently state some serious missteps occurred at the MCC surrounding the death of Mr. Epstein. These individuals have been quick to point fingers and assign blame to top executives, psychology staff and correctional officers. Many are quick to say that Mr. Epstein should not have been removed from Suicide Watch or if he were removed, extra precautions/safeguards should have been in place. Some sources view the actions of staff who were assigned to [REDACTED] Housing Unit, as a blatant indifference to the care and welfare of inmates. Others, including Union Officials, are suggesting the Officers' disregard of conducting the required 30-minute cell checks were justified because of the long hours staff are forced to work, as a result of the institution being so understaffed.

While all of the investigations continue, it is premature to conclude exactly what did occur leading up to the death of Mr. Epstein. What we do know is that several policies were not followed or were simply ignored, several departments within MCC were involved and shortcuts were taken. MCC New York is heavily in the spotlight and under a microscope these past two weeks and likely for the next several weeks. It is my opinion that this only received such widespread attention because of the notoriety of Epstein. Had this been another inmate, less known, who was not a public figure, they likely would not have received media attention.

Once the investigations are concluded, it is probable that several recommendations will be provided. In order to correct problems that exist, one must look at the root of the cause and be willing to fix that also. Only time will tell if any future additional measures put in place will be adequate. If what is being reported by countless sources, is in fact what actually occurred, and staff completely ignored their responsibilities,

no recommendations and no additional measures would have changed the unfortunate outcome of what occurred on August 10, 2019, at the Metropolitan Correctional Center, New York.

The current problems at the MCC cannot, in my opinion, be cured by any quick fix solution. Even with the current spotlight on MCC, and assuming the Bureau of Prisons will put forth their best efforts to eradicate the broken parts, one still must account for human error and agency needs. Staff will continue to work overtime, staff will continue to take shortcuts, staff will continue to be tired on the job and fall asleep. No amount of effort on [REDACTED] part can change that and one can only hope that when these things occur, nothing bad happens. It would take many years to resolve the issues and problems that plague MCC, provided there is a real desire to make changes. This will not give any comfort to Mr [REDACTED] or the U.K Courts as to whether he or his mental health needs will be adequately managed if extradited to the United States.

Jeffrey Epstein jail 'a gulag' in lower Manhattan

12 August 2019

Jeffrey Epstein death

Questions are being asked how Jeffrey Epstein died in custody in New York while being held on sex trafficking charges. So what is the detention facility like where he spent his final days?

Built in 1975, the 12-story Metropolitan Correctional Center in lower Manhattan - where the financier died in a suspected suicide on Friday night - holds around 800 people awaiting trial or sentencing at the federal court house just a few blocks away.

The brick building has detained such high-profile criminals as Mexican drug kingpin [REDACTED], Gambino mafia crime boss John Gotti and World Trade Center bomber Ramzi Yousef.

Like other federal prisons, the Metropolitan Correctional Center (MCC) suffers from shortages of staff and resources, prisoner overcrowding and is plagued by violence and poor sanitary conditions.

The conditions

The jail was built to accommodate 474 inmates, but held 763 male prisoners at the time of [REDACTED] death, according to a statement from the Federal Bureau of Prisons.

Prisoners have described seeing large rats in their cells, air conditioner units so noisy it is impossible to sleep, and absence of any natural light or sanitary water.

As he was sent down for the rest of his life, Mexican drug cartel leader [REDACTED] took the opportunity to call the place "torture".

"Since the government will send me to a jail where my name will not ever be heard again, I take this opportunity to say there was no justice here," he said at his sentencing in July.

"It has been psychological and mental torture 24 hours a day."

Brooklyn College professor Jeanne Theoharis, who has written extensively about MCC, **told the [REDACTED] website in June** that the jail resembles conditions found in countries such as "Iran or Russia".

Calling the place a "gulag", she described conditions as "filthy, freezing, no natural light, isolation so extreme that you're punished for speaking through the walls, absurd rules like prisoners not getting to see the newspapers unless they're 30 days old, secrecy so deep that people are force-fed".

Lawyer ██████████, who is suing the US government after his client was beaten to death in MCC in 2015, says the ██████████ Island prison, which is run by the city, is much more violent than MCC.

He says ██████ too early to know whether ██████████ wealth may have played a role in his death, amid speculation in the US that he could have bribed guards to be left alone.

He notes that other ultra-rich white collar criminals from Wall Street, only blocks away, are frequent guests of MCC, including Bernie Madoff who was arrested in 2008 for running a multi-million dollar Ponzi scheme.

Mr ██████ says that more important than a ██████████ profile or means is the crime itself and the publicity it receives in the media. Sex criminals like Epstein, he says, are more likely to face issues from other inmates, making it unusual that Epstein was not being more closely watched.

The staffing

A representative for workers at the jail told CBS News in New York that the Epstein death is not surprising. Staffing, the representative says, is "completely inadequate", with many workers putting in more than 60 hours per week leaving them "overwhelmed" and "not alert".

According to the Associated Press (AP), the jail is so under-staffed that correctional officers are being offered a \$10,000 bonus to transfer there from other facilities.

Guards sometimes work 16 hours a day, **according to the AP**. A person familiar with the Epstein case told the news agency that a guard overseeing Epstein was working a fifth straight day of overtime - and another was working mandatory overtime - on the day the wealthy ██████ body was found.

Staff shortages were worsened after a government shutdown triggered by a budget stand-off between the White House and Democrats over President Donald ██████ insistence on funding for a southern border wall.

In January, during the shutdown, inmates staged a hunger strike over claims they were being denied family visitation rights.

The Bureau of Prisons is already under scrutiny for the death of Boston gangster James Whitey Bulger, who was fatally beaten by another inmate shortly after arriving at a West Virginia lock-up last October.

In February 2018, a British court ruled against extraditing accused hacker Lauri Love - who is diagnosed with Aspergers syndrome and would have probably been held in the MCC - on the grounds that he would present a high-risk of suicide if he was sent there.

Where Epstein stayed

According to the New York Times, Epstein had recently been moved from suicide watch to the Special Housing Unit where he was meant to be on 24-hour monitoring and given daily

psychiatric evaluations.

He was ordered there after he was found on the floor of his cell two weeks earlier with neck injuries, in an apparent attempted suicide.

According to the paper, two guards were meant to check on him every 30 minutes, but those procedures were not followed on the night of his death.

He was also meant to be housed with one other inmate, but his cellmate had reportedly been transferred and no replacement had yet arrived.

REUTERS

Mr [REDACTED], the lawyer, says CCTV captures what goes on in the Special Housing Unit, as well as for those prisoners being kept on suicide watch.

He says [REDACTED] too early to know what contributed to [REDACTED] death, until an FBI investigation is complete, but either way the prison is facing a "grossly negligent situation".

Investigative reporter [REDACTED], who spent a year researching the conditions at MCC, found that the facility shared a single psychiatrist with the other federal prison in New York, the Metropolitan Detention Center in Brooklyn, and only had a handful of psychologists on staff.

The two facilities had only one psychiatrist to oversee the more than 500 prisoners with diagnosed serious mental illnesses, she says, in addition to any prisoners that have been temporarily placed on suicide watch.

"When you're on suicide watch and a psychologist comes to speak with you, [REDACTED] not as though you're in a private room having a conversation. [REDACTED] like through a slot in the door," she tells BBC News.

REUTERS

Experts on prison safety say they are puzzled as to why Epstein, who had attempted to take his own life earlier, was not kept under closer watch.

Cameron Lindsey, a former warden at the federal jail in Brooklyn, told the Times that the psychological evaluation can only reveal so much about a [REDACTED] state of mind.

He said that the steady release of embarrassing and incriminating evidence against Epstein could have made him wish to kill himself, and that other prisoners would consider him a target due to his fame and the nature of his alleged crimes.

"A psychologist is going to think one way, but a warden needs to think a different way," said Mr Lindsey. "You have to take the conservative, safe route and keep an individual like this on suicide watch."

Union and lawmakers have long warned of 'dire' federal prison staffing shortages

By Evan Perez, Mark Morales and Kara Scannell, CNN

██████: Appalled and angry over failures to secure Epstein 00:45

(CNN) — Staffing shortages at the Bureau of Prisons are dire and widespread, according to agency employees and lawmakers who say they've been warning the Justice Department about the problem and demanding changes for years.

Attorney General ██████ has launched investigations into Jeffrey ██████ death. But earlier this year, he referred to delays in hiring new people at the Bureau of Prisons as a "snafu" caused by bureaucracy in the federal prison system.

██████ suicide has exposed what the employee union says are chronically overworked and short-staffed conditions at the Metropolitan Correction Center in Manhattan, including forced overtime and officers reassigned to guard duty.

A key US Senate committee has also repeatedly told the Justice Department to hire full-time correctional staff and end an "overreliance" on the type of reassignments that have existed in the MCC and elsewhere.

The Justice Department said Tuesday that it was reassigning the warden at the MCC and it was suspending two guards at the facility. The department didn't identify the guards or say whether they were the ones on duty and assigned to monitor Epstein when he died.

Days after ██████ death, BOP officials and FBI investigators are still piecing together even basic details of the incident such as how he was found and how long he was dead before an employee found him, people briefed on the matter said. Some employees have refused to cooperate with investigators and have hired lawyers, people briefed on the matter said.

There were cameras with a view of the hallway outside [REDACTED] cell but whether they showed anything or were operational -- and if not, why -- remain in question. That some basic details aren't clear suggests that whatever video exists doesn't show what happened.

A BOP suicide reconstruction team began working Tuesday to try to determine why Epstein killed himself. A BOP after action team, which looks into major incidents, is slated to arrive Wednesday to begin its work. That team is led by [REDACTED] southeast regional director and will bring in others from outside the northeast to review the Epstein case.

Two MCC guards were on duty and responsible for checking on Epstein every 30 minutes -- checks that weren't made for hours.

Of the two officers who would have had responsibility to monitor Epstein, one is not currently a detention guard, but was temporarily reassigned to that post, according to a person briefed on the matter. The guard, a man not identified by officials, had previously been trained as a corrections officer but had moved to another position. BOP rules allow for people who work in other jobs, such as teachers and cooks, to be trained to fill in at posts usually manned by corrections officers.

The second guard on Epstein duty, a woman, was a fully trained corrections officer, according to the person briefed on

CNN politics

Eric Young, national president of the American Federation of Government Employees, Council of Prison Locals, which represents BOP employees, says a hiring freeze put in place at the start of President Donald [REDACTED] presidency is the root of nationwide problems at federal prisons.

He called the situation "dire," with decreased staffing levels the root cause of issues from contraband getting in to safety of correctional workers and inmates.

AFGE represents workers at 122 facilities nationwide and BOP employs roughly 33,000, according to Young. That number was once at 38,000 workers but after the Trump hiring freeze, the problem was never fixed.

The Justice Department says [REDACTED] lifted the freeze in April and that BOP has been recruiting to fill positions. It typically takes months to bring on new federal employees.

"We felt betrayed," Young said of the hiring freeze. "Mr. President, we work for you. You say you're a law and order president and we thought we were going to reap the benefits of that, but we didn't."

In addition, more vacancies could soon be on the way; Young says an estimated 5,000 people are eligible for retirement at the end of the year.

A Justice official says the [REDACTED] hiring freeze applied to positions in BOP regional offices and at the [REDACTED] headquarters, not to prison facilities. The official said the [REDACTED] hiring practices -- filling positions one at a time -- caused delays in hiring. The bureau also faced staff losses from retirements. [REDACTED] in April ordered the bureau to speed up hiring by filling open positions concurrently.

The Justice official also disputed perceptions that BOP faced a Trump budget squeeze. [REDACTED] budget increased from nearly \$6.8 billion in the 2014 fiscal year to \$7.25 billion in fiscal 2019.

At the same time, employee and inmate numbers decreased. Prisoner releases have accelerated as a result of criminal justice revisions in the Obama and Trump administrations.

The bureau had 38,496 employees in 2014, compared with 35,123 in fiscal 2018.

BOP held 214,149 prisoners in 2014, compared with 181,698 in 2018.

How Jeffrey ██████ death became a political football 05:34

Bonuses, augmentation

To combat the drop in workers, BOP officials have been offering a retention bonus, which gives workers a 5% bonus if they decide to stay instead of retiring, Young said. They also have allowed retired correctional officers to come back on a part-time basis to ease the staffing issues at hard-to-staff prisons, Young said. The agency also approved the addition of 3,000 temporary positions for entry level workers.

Officials also offered workers a 10% relocation bonus if they opted to work at facilities that are hard to staff like MCC in New York, Hazelton in West Virginia, the Metropolitan Detention Center in Los Angeles and others. Part of the relocation agreement is for staffers to stay at the facility for at least two years.

Young draws the correlation of fewer guards to safety, saying the problem came to a head early Saturday morning in New York.

"Time was not on our side before Epstein killed himself," Young said. "We were on the right course of hiring but we just couldn't do it fast enough. We were stalemated by Trump."

The BOP has tried to address staffing shortages in part by using a practice called augmentation to temporarily assign employees who aren't corrections officers to staff posts intended for detention guards.

In October, four senators led by Democrat Joe Manchin of West Virginia, wrote a letter to then-Attorney General Jeff Sessions expressing their "deep concerns" about the use of augmentation and staffing levels at federal prisons in Pennsylvania and West Virginia following the deaths of a correctional officer and inmates.

"We cannot allow these dangerous staffing practices to continue," the senators wrote.

They noted that twice when approving ██████ budget, a Senate committee had issued a report that "included clear directions" to the Justice Department to stop "its overreliance on augmentation" in favor of hiring full-time correctional staff.

Last June, the Senate Appropriations Committee reiterated its demand.

"The Committee again directs BOP to curtail its overreliance on augmentation, particularly in housing units" the [REDACTED] report said. "BOP should instead hire additional full-time correctional staff before continuing to augment existing staff."

A February 2018 letter from 52 members of Congress was sent to Sessions asking him to reconsider eliminating 6,000 unfilled positions at federal prisons nationwide. "Augmentation was designed as a temporary solution to short-term staffing conflicts, not a long-term solution to respond to budget pressure," the lawmakers said.

Soon after [REDACTED] took office this year, he acknowledged to lawmakers that the Justice Department had "stumbled" in addressing the problem. In testimony before the Senate Appropriations Committee in April, he called the staffing shortages at prison facilities a "snafu" and blamed bureaucracy within the prison hiring system, not the hiring freeze.

"The shortages out in the prison facilities themselves was not the freeze." [REDACTED] said. "I think what it is is, frankly,

[REDACTED] said he believes the agency begins the process of hiring a new person into a position vacated by internal job shifts too late.

"It takes months and months and months to get that person on board. That makes no sense because every year we lose 2,600 of these correctional officers. So my view is we just have to turn on the spigot and keep these new entry level people coming in at a rate where we're going to be able to get up to and maintain our enacted level," [REDACTED] said.

"I think this is largely a snafu by the department and [REDACTED] how I interpret it and [REDACTED] how I'm approaching it," he added.

Subject: Follow up requests from UK re: extradition

Hi [REDACTED],

I'm sure you're inundated with inquiries right now, so I apologize for adding to your load. You may remember that we had consulted with you and BOP HQ regarding conditions at the MCC and MDC in connection with defendant [REDACTED] [REDACTED] opposition to extradition from the UK. Following Jeffrey [REDACTED] death, [REDACTED] has filed an additional report by former-warden [REDACTED] and attached news articles about the conditions at the MCC.

The attorneys in the UK handling the extradition have asked for our response. They recognize that we may not be able to address all of their questions in light of ongoing investigations, but is there any information we can provide with respect to the following (or could you let us know the proper person/people to talk to)?

- i. With regards to the warden of the MCC and two staff members whom are said to have been reassigned since the death of Mr Epstein, are you able to confirm that their roles have been filled with suitable alternatives? In particular please provide any information about the knowledge and experience of the new warden that you are able to. [page 1, [REDACTED] Report, dated 22 August 2019]
- ii. Is it possible to comment on the decision to take Mr Epstein off suicide watch and whether either, that decision was justified in the circumstances or if considered to be the wrong decision, that new measures are now in place to ensure any mistakes are not repeated. Please detail any new measures on this particular issue now in place if you are able to. [page 2, [REDACTED] Report, dated 22 August 2019]
- iii. Can you provide any explanation as to why Mr Epstein did not have a new inmate sharing his cell in the Special Housing Unit ("SHU") on 9 August 2019 after his other cellmate was moved? Do you accept that there should have been someone sharing his cell in light of his recent apparent suicide attempt? If so, have any new protocols been put in place to ensure this does not happen again? If you do not accept that this occurred or cannot comment on this directly, what general measures are in place to ensure people who have been moved to the SHU following a suicide attempt share a cell with others where possible? [page 2, [REDACTED] Report, dated 22 August 2019]
- iv. Is it correct that the two correctional officers due to be carrying out half-hourly checks on Mr Epstein did not carry out any check upon him for a period of several hours before he was discovered in his cell and were instead sleeping? If you accept this is correct what steps have been taken, if any, to prevent this occurring in future? If you do not accept that

this occurred or cannot comment on this directly, what general measures are in place to monitor those who have been moved to the SHU following a suicide attempt, and how is it ensured that those measures are safely carried out by staff members? [page 2/3, ██████████ Report, dated 22 August 2019]

- v. Is it correct that the correctional officers concerned falsified records in regards to the checks they should have carried out? If you accept this is correct what steps have been taken if any to prevent this occurring in future? If you do not accept that this occurred or cannot comment on this directly, what general measures if any are in place to ensure correctional officers do not falsify records and carry out their duties as required with regards to those who have been moved to the SHU following a suicide attempt? [page 3, ██████████ Report, dated 22 August 2019].
- vi. Ms ██████████, as well as a number of news reports, state that of the two staff members assigned to monitor Mr Epstein, one of them was not usually a corrections officer but rather was employed by the warehouse and had volunteered to work an extra shift. If you accept this is correct, do you consider it to be appropriate to have such staff members carrying out that type of task and if so what measures are in place to ensure they are able to carry out that particular role safely? If you do not accept that this occurred or cannot comment on this directly, what general measures if any are in place to ensure staff members who do not usually work as correctional officers carry out the task of monitoring those who have been moved to the SHU following a suicide attempt in a safe manner? [page 3, ██████████ Report, dated 22 August 2019]
- vii. In a news article, it is said that the BOP had tried to address staffing shortages “in part by using a practice called augmentation to temporarily assign employees who aren’t corrections officers to staff posts intended for detention guards”. Do you accept that this occurred at the MCC? If so, is this practice still in place and what general measures if any are in place to ensure staff members who do not usually work as correctional officers are able to safely carry out the work of correctional officers, (for example do they receive special training on security or monitoring prisoners considered to be a suicide risk). [CNN Politics Website, “Union and lawmakers ██████████ ██████████”]
- viii. Ms ██████████, as well as a number of news reports, state that of the two staff members assigned to monitor Mr Epstein, one of them (the corrections officer) had been working overtime and the other staff member was in the midst of an 80 hour week. Do you agree that many of the correctional officers at the MCC are required to work 60 – 70 hour weeks and if so what measures, if any, are in place to ensure that the prison is still run safely and suicidal prisoners are properly monitored? [page 3, ██████████ Report, dated 22 August 2019]
- ix. Ms ██████████ further states that the MCC is currently operating with less than 70% of the needed correctional officers. Do you accept that the MCC is operating with less than 70%

of the needed correctional officers and if not, how would you describe the current staffing levels? If you agree that the MCC is 70% staffed, what measures, if any, are in place to ensure that the prison is still run safely and suicidal prisoners are properly monitored? [page 3, ██████████ Report, dated 22 August 2019].

x. Ms ██████ states that the MCC was designed to house 474 inmates but that on the day of Mr ██████ death its population was 763. Do you agree with those figures, and if so is the prison able to safely house that sized population, and what measures, if any, are in place to deal with a prison population of that size and ensure the conditions they are housed in remain humane? [page 14, ██████████ Report, dated 22 August 2019].

xi. Ms ██████ states the following with regards to the sanitation conditions at MCC:

“Three current MCC Staff Members very recently described to me the current sanitation conditions at the facility. One stated, “The facility is so disgusting ██████ like a prison in a third-world country. Cleaning supplies are not issued on a regular basis.” The individual further advised, “Pest Control is horrible and ineffective, rats, mice and bugs are everywhere.” Another Correctional Officer told me, “There are mice and bugs everywhere including inmates’ cells.” This information is consistent with my Court testimony on July 3, 2019, and my assessment in Paragraph 20 of my Declaration in the case of Mr. ██████. Further, it corroborates the many news reports, regarding the “rodent-infested MCC.”

Do you have any comment to make on those observations? [page 15, ██████████ Report, dated 22 August 2019].

xii. Ms ██████ further states:

“On a different, yet equally concerning topic, an MCC Correctional Officer advised me this past week, that there is blatant racial discord within the institution, especially amongst Correctional Officers. I did not witness this when I was Warden at MCC, and my contact advises it began a short time following my departure.”

Do you have any comment to make on those observations? [page 15, ██████████ Report, dated 22 August 2019].

xiii. One news article referred to the fact that there was only one psychiatrist shared between the MCC and the other federal prison in New York, and a “handful of psychologists on the staff”. It further states that conversations between psychologists and individuals on suicide watch occur “through a slot in the door” rather than in person. Is it still the case that there is a single psychiatrist shared between the MCC and the MDC? Do you agree with the characterisation that there are a handful of psychologists and consultations are carried out through a slot in the door? Have any changes or improvements been made to psychiatric

and psychological care provision and staffing in the wake of the death of Mr Epstein or are any planned in the near future? Do you have any comment to make on the observations made generally? [News article "Jeffrey Epstein jail 'a gulag' in lower Manhattan", 12 August 2019]

Our response is due to the UK September 16.

Thank you so much,

[REDACTED]

Do you agree with those figures, and if so is the prison able to safely house that sized population, and what measures, if any, are in place to deal with a prison population of that size and ensure the conditions they are housed in remain humane? [page 14, ██████████ Report, dated 22 August 2019].
- xi. Ms ██████████ states the following with regards to the sanitation conditions at MCC:

“Three current MCC Staff Members very recently described to me the current sanitation conditions at the facility. rats, mice and bugs are everywhere. Another Correctional Officer told me, "There are mice and bugs everywhere including inmates' cells." This information is consistent with my Court testimony on July 3, 2019, and my assessment in Paragraph 20 of my Declaration in the case of Mr. [REDACTED]. Further, it corroborates the many news reports, regarding the "rodent-infested MCC."

Do you have any comment to make on those observations? [page 15, [REDACTED] Report, dated 22 August 2019].

xii. Ms [REDACTED] further states:

"On a different, yet equally concerning topic, an MCC Correctional Officer advised me this past week, that there is blatant racial discord within the institution, especially amongst Correctional Officers. I did not witness this when I was Warden at MCC, and my contact advises it began a short time following my departure."

Do you have any comment to make on those observations? [page 15, [REDACTED] Report, dated 22 August 2019].

xiii. One news article referred to the fact that there was only one psychiatrist shared between the MCC and the other federal prison in New York, and a "handful of psychologists on the staff". It further states that conversations between psychologists and individuals on suicide watch occur "through a slot in the door" rather than in person. Is it still the case that there is a single psychiatrist shared between the MCC and the MDC? Do you agree with the characterisation that there are a handful of psychologists and consultations are carried out through a slot in the door? Have any changes or improvements been made to psychiatric and psychological care provision and staffing in the wake of the death of Mr Epstein or are any planned in the near future? Do you have any comment to make on the observations made generally? [News article "Jeffrey Epstein jail 'a gulag' in lower Manhattan", 12 August 2019]

Our response is due to the UK September 16.

Good afternoon all,

We are assisting the [REDACTED] in an extradition request out of the UK and have to respond to the below points. Most of the response will be that we cannot comment on an open investigation. However, there are points to be made as to some of the statements (new wardens, post orders and training, staffing, inmate numbers, sanitation and pest control, alleged racial unrest, and how psychology staff interview suicide watch inmates). Is anyone aware of stock language Central Office has used to address these inquiries?

Subject: Follow up requests from UK re: extradition

Hi [REDACTED],

I'm sure you're inundated with inquiries right now, so I apologize for adding to your load. You may remember that we had consulted with you and BOP HQ regarding conditions at the MCC and MDC in connection with defendant [REDACTED] [REDACTED] opposition to extradition from the UK. Following Jeffrey [REDACTED] death, [REDACTED] has filed an additional report by former-warden [REDACTED] and attached news articles about the conditions at the MCC.

The attorneys in the UK handling the extradition have asked for our response. They recognize that we may not be able to address all of their questions in light of ongoing investigations, but is there any information we can provide with respect to the following (or could you let us know the proper person/people to talk to)?

- i. With regards to the warden of the MCC and two staff members whom are said to have been reassigned since the death of Mr Epstein, are you able to confirm that their roles have been filled with suitable alternatives? In particular please provide any information about the knowledge and experience of the new warden that you are able to. [page 1, [REDACTED] [REDACTED] Report, dated 22 August 2019]
- ii. Is it possible to comment on the decision to take Mr Epstein off suicide watch and whether either, that decision was justified in the circumstances or if considered to be the wrong decision, that new measures are now in place to ensure any mistakes are not repeated. Please detail any new measures on this particular issue now in place if you are able to. [page 2, [REDACTED] [REDACTED] Report, dated 22 August 2019]
- iii. Can you provide any explanation as to why Mr Epstein did not have a new inmate sharing his cell in the Special Housing Unit ("SHU") on 9 August 2019 after his other cellmate was moved? Do you accept that there should have been someone sharing his cell in light of his recent apparent suicide attempt? If so, have any new protocols been put in place to ensure this does not happen again? If you do not accept that this occurred or cannot comment on this directly, what general measures are in place to ensure people who have been moved to the SHU following a suicide attempt share a cell with others where possible? [page 2, [REDACTED] [REDACTED] Report, dated 22 August 2019]
- iv. Is it correct that the two correctional officers due to be carrying out half-hourly checks on Mr Epstein did not carry out any check upon him for a period of several hours before he was discovered in his cell and were instead sleeping? If you accept this is correct what steps have been taken, if any, to prevent this occurring in future? If you do not accept that this occurred or cannot comment on this directly, what general measures are in place to monitor those who have been moved to the SHU following a suicide attempt, and how is it ensured that those measures are safely carried out by staff members? [page 2/3, [REDACTED] [REDACTED] Report, dated 22 August 2019]

- v. Is it correct that the correctional officers concerned falsified records in regards to the checks they should have carried out? If you accept this is correct what steps have been taken if any to prevent this occurring in future? If you do not accept that this occurred or cannot comment on this directly, what general measures if any are in place to ensure correctional officers do not falsify records and carry out their duties as required with regards to those who have been moved to the SHU following a suicide attempt? [page 3, [REDACTED] Report, dated 22 August 2019].
- vi. Ms [REDACTED], as well as a number of news reports, state that of the two staff members assigned to monitor Mr Epstein, one of them was not usually a corrections officer but rather was employed by the warehouse and had volunteered to work an extra shift. If you accept this is correct, do you consider it to be appropriate to have such staff members carrying out that type of task and if so what measures are in place to ensure they are able to carry out that particular role safely? If you do not accept that this occurred or cannot comment on this directly, what general measures if any are in place to ensure staff members who do not usually work as correctional officers carry out the task of monitoring those who have been moved to the SHU following a suicide attempt in a safe manner? [page 3, [REDACTED] Report, dated 22 August 2019]
- vii. In a news article, it is said that the BOP had tried to address staffing shortages “in part by using a practice called augmentation to temporarily assign employees who aren’t corrections officers to staff posts intended for detention guards”. Do you accept that this occurred at the MCC? If so, is this practice still in place and what general measures if any are in place to ensure staff members who do not usually work as correctional officers are able to safely carry out the work of correctional officers, (for example do they receive special training on security or monitoring prisoners considered to be a suicide risk). [CNN Politics Website, “Union and lawmakers [REDACTED] [REDACTED]”]
- viii. Ms [REDACTED], as well as a number of news reports, state that of the two staff members assigned to monitor Mr Epstein, one of them (the corrections officer) had been working overtime and the other staff member was in the midst of an 80 hour week. Do you agree that many of the correctional officers at the MCC are required to work 60 – 70 hour weeks and if so what measures, if any, are in place to ensure that the prison is still run safely and suicidal prisoners are properly monitored? [page 3, [REDACTED] Report, dated 22 August 2019]
- ix. Ms [REDACTED] further states that the MCC is currently operating with less than 70% of the needed correctional officers. Do you accept that the MCC is operating with less than 70% of the needed correctional officers and if not, how would you describe the current staffing levels? If you agree that the MCC is 70% staffed, what measures, if any, are in place to ensure that the prison is still run safely and suicidal prisoners are properly monitored? [page 3, [REDACTED] Report, dated 22 August 2019].

x. Ms [REDACTED] states that the MCC was designed to house 474 inmates but that on the day of Mr [REDACTED] death its population was 763. Do you agree with those figures, and if so is the prison able to safely house that sized population, and what measures, if any, are in place to deal with a prison population of that size and ensure the conditions they are housed in remain humane? [page 14, [REDACTED] Report, dated 22 August 2019].

xi. Ms [REDACTED] states the following with regards to the sanitation conditions at MCC:

“Three current MCC Staff Members very recently described to me the current sanitation conditions at the facility. One stated, “The facility is so disgusting [REDACTED] like a prison in a third-world country. Cleaning supplies are not issued on a regular basis.” The individual further advised, “Pest Control is horrible and ineffective, rats, mice and bugs are everywhere.” Another Correctional Officer told me, “There are mice and bugs everywhere including inmates’ cells.” This information is consistent with my Court testimony on July 3, 2019, and my assessment in Paragraph 20 of my Declaration in the case of Mr. [REDACTED]. Further, it corroborates the many news reports, regarding the “rodent-infested MCC.”

Do you have any comment to make on those observations? [page 15, [REDACTED] Report, dated 22 August 2019].

xii. Ms [REDACTED] further states:

“On a different, yet equally concerning topic, an MCC Correctional Officer advised me this past week, that there is blatant racial discord within the institution, especially amongst Correctional Officers. I did not witness this when I was Warden at MCC, and my contact advises it began a short time following my departure.”

Do you have any comment to make on those observations? [page 15, [REDACTED] Report, dated 22 August 2019].

██████████ Report, dated 22 August 2019].
- vi. Ms ██████████, as well as a number of news reports, state that of the two staff members assigned to monitor Mr Epstein, one of them was not usually a corrections officer but

assigned to monitor Mr Epstein, one of them was not usually a corrections officer but rather was employed by the warehouse and had volunteered to work an extra shift. If you accept this is correct, do you consider it to be appropriate to have such staff members carrying out that type of task and if so what measures are in place to ensure they are able to carry out that particular role safely? If you do not accept that this occurred or cannot comment on this directly, what general measures if any are in place to ensure staff members who do not usually work as correctional officers carry out the task of monitoring those who have been moved to the SHU following a suicide attempt in a safe manner? [page 3, ██████████ Report, dated 22 August 2019]

vii. In a news article, it is said that the BOP had tried to address staffing shortages “in part by using a practice called augmentation to temporarily assign employees who aren’t corrections officers to staff posts intended for detention guards”. Do you accept that this occurred at the MCC? If so, is this practice still in place and what general measures if any are in place to ensure staff members who do not usually work as correctional officers are able to safely carry out the work of correctional officers, (for example do they receive special training on security or monitoring prisoners considered to be a suicide risk). [CNN Politics Website, “Union and lawmakers ██████████ ██████████”]

viii. Ms ██████████, as well as a number of news reports, state that of the two staff members assigned to monitor Mr Epstein, one of them (the corrections officer) had been working overtime and the other staff member was in the midst of an 80 hour week. Do you agree that many of the correctional officers at the MCC are required to work 60 – 70 hour weeks and if so what measures, if any, are in place to ensure that the prison is still run safely and suicidal prisoners are properly monitored? [page 3, ██████████ Report, dated 22 August 2019]

ix. Ms ██████████ further states that the MCC is currently operating with less than 70% of the needed correctional officers. Do you accept that the MCC is operating with less than 70% of the needed correctional officers and if not, how would you describe the current staffing levels? If you agree that the MCC is 70% staffed, what measures, if any, are in place to ensure that the prison is still run safely and suicidal prisoners are properly monitored? [page 3, ██████████ Report, dated 22 August 2019].

x. Ms ██████████ states that the MCC was designed to house 474 inmates but that on the day of Mr ██████████ death its population was 763. Do you agree with those figures, and if so is the prison able to safely house that sized population, and what measures, if any, are in place to deal with a prison population of that size and ensure the conditions they are housed in remain humane? [page 14, ██████████ Report, dated 22 August 2019].

xi. Ms ██████████ states the following with regards to the sanitation conditions at MCC:

“ Three current MCC Staff Members very recently described to me the current sanitation conditions at the facility. One stated, “The facility is so disgusting [REDACTED] like a prison in a third-world country. Cleaning supplies are not issued on a regular basis.” The individual further advised, “Pest Control is horrible and ineffective, rats, mice and bugs are everywhere.” Another Correctional Officer told me, “There are mice and bugs everywhere including inmates’ cells.” This information is consistent with my Court testimony on July 3, 2019, and my assessment in Paragraph 20 of my Declaration in the case of Mr. [REDACTED]. Further, it corroborates the many news reports, regarding the “rodent-infested MCC.”

Do you have any comment to make on those observations? [page 15, [REDACTED] Report, dated 22 August 2019].

xii. Ms [REDACTED] further states:

“On a different, yet equally concerning topic, an MCC Correctional Officer advised me this past week, that there is blatant racial discord within the institution, especially amongst Correctional Officers. I did not witness this when I was Warden at MCC, and my contact advises it began a short time following my departure.”

Do you have any comment to make on those observations? [page 15, [REDACTED] Report, dated 22 August 2019].

xiii. One news article referred to the fact that there was only one psychiatrist shared between the MCC and the other federal prison in New York, and a “handful of psychologists on the staff”. It further states that conversations between psychologists and individuals on suicide watch occur “through a slot in the door” rather than in person. Is it still the case that there is a single psychiatrist shared between the MCC and the MDC? Do you agree with the characterisation that there are a handful of psychologists and consultations are carried out through a slot in the door? Have any changes or improvements been made to psychiatric and psychological care provision and staffing in the wake of the death of Mr Epstein or are any planned in the near future? Do you have any comment to make on the observations made generally? [News article “Jeffrey Epstein jail ‘a gulag’ in lower Manhattan”, 12 August 2019]

Report of Suicide of High Profile Inmate at MCC New York
Provided by [REDACTED] at the request of
[REDACTED], ABV Solicitors

Jeffrey Epstein, a high profile, pre-trial inmate, Southern District of New York, was found unresponsive in his cell at MCC New York on August 10, 2019, at approximately 6:40 am. A short time later, he was taken to an outside community hospital where he was pronounced dead. His death was ruled been a suicide by hanging following an autopsy which was performed by the New York Medical Examiner. Two investigations, to be conducted by the Federal Bureau of Investigation (FBI), and Office of Inspector General(OIG), were ordered by United States Attorney General (AG), [REDACTED] and are currently ongoing.

At a press conference held on Monday, August 11, 2019, AG [REDACTED] stated, "the Department of Justice is learning about those "deeply concerning" irregularities at the MCC New York. I was appalled - and indeed the whole Department was - and frankly angry to learn of the [REDACTED] failure to adequately secure this prisoner." AG [REDACTED] further commented, "Mr. [REDACTED] death raises serious questions that must be answered." On Tuesday, August 12, 2019, AG [REDACTED] directed the Warden of MCC be reassigned to the Bureau of Prisons Northeast Regional Office and two other MCC employees, who had been assigned to Mr. [REDACTED] housing unit (9-South-Special Housing Unit), were placed on Administrative Leave. A Justice Department spokesperson stated "Additional actions may be taken as the circumstances warrant."

On August 19, 2019, AG [REDACTED] appointed a new Director and new Deputy Director to the Bureau of Prisons. The Acting Director will return to his regular duties. While it is a positive step to have these top positions filled, the concerns within the prisons remain unchanged.

Chronology of Events

July 23, 2019 - Law enforcement sources state Epstein was found unconscious in his jail cell with injuries to his neck. It was not clear if the injuries were self-inflicted as a result of a

suicide attempt or if he had been the victim of an assault. He was placed on Suicide Watch.

July 29, 2019 - Epstein is reportedly removed from Suicide Watch and returned to the Special Housing Unit (SHU), where he is placed with a cellmate. It is common practice to place inmates whose suicide watch has ended in a cell with another inmate, rather than to be housed alone. This provides some measure of safeguard. Termination of a Suicide Watch can only be made by a trained member of the Psychology Department. Dr. [REDACTED], Chief Psychologist, MCC New York, would have been involved in the decision to terminate [REDACTED] July 2019, Suicide Watch. Dr. [REDACTED] provided a Declaration of the Court in the case of [REDACTED]. In this case, because of [REDACTED] notoriety, it would not be uncommon to have several levels of review, to include the [REDACTED] input and possibly officials at a higher level. Details outlining the reasons [REDACTED] Suicide Watch terminated are uncertain. In my experience, inmates are not kept on suicide watch indefinitely. A typical suicide watch would normally last two to four days. If an inmate is persuasive, they can formulate an argument to talk their way off of a suicide watch and manipulate the Psychologist into believing they no longer pose a danger to themselves.

August 9, 2019 - Thousands of documents are unsealed in Court in connection with a defamation case against a woman accused of recruiting underage girls for Epstein. These documents revealed the names of dozens of high-profile individuals who were connected to Epstein. They allegedly indulged in parties with him and flew on his private plane. These documents included allegations of impropriety against several of these "prominent individuals."

At some point on Friday, August 9, 2019, [REDACTED] cellmate was moved to another location or or transferred. For reasons the investigators are still exploring, he did not receive a new cellmate. This contradicts usual protocol as Epstein should not have been in his SHU cell alone, having recently been removed from Suicide Watch.

The Washington Post reported in an article published on August 11, 2019, the Correctional Officers assigned that night to the SHU Unit, had not checked on Epstein for several hours before he was found hanging in his cell Saturday morning. This was just

one in a series of missteps in the hours leading up to his death.

The New York Times and Associated Press reported the Correctional Officers slept through the 30-minute required checks and then falsified records to cover that up. They cite their source as Law Enforcement Officials. Surveillance video reviewed following the incident is said to have confirmed this information.

Procedure and Post Orders require Officers to conduct physical checks of all inmates every 30 minutes. It has been reported by several sources that these 30-minute checks were not being conducted by either of the two staff members working that morning shift in SHU unit. Additionally, the Union President of MCC advised both staff were working overtime and one of the individuals did not normally work as a Corrections Officer. It is my understanding from a source who currently is employed at MCC that the second individual assigned to SHU that shift is employed by the Warehouse and he had volunteered to work the overtime on Friday night/Saturday morning in SHU.

The Union President stated that MCC is currently functioning with less than 70 percent of the needed correctional officers, forcing many to work mandatory overtime and 60 to 70 hour work weeks. The Union President went on to say in an interview, "If it wasn't Mr. Epstein, it would have been somebody else because of the conditions at the institution. It wasn't a matter of how it happened or it happening, but it was only a matter of time for it to happen. It was inevitable. Our Staff is severely overworked."

August 9-10, 2019

According to several sources, Correctional Officers assigned to SHU did not check on Epstein for several hours, despite policy requiring physical checks of all SHU inmates every 30 minutes. Both staff were working overtime at the understaffed facility. One of the Officers was mandated to work the overtime and the Warehouse Employee volunteered to work the overtime in the midst of an 80-hour work week.

August 10, 2019

Epstein is found unconscious/unresponsive in his cell. He is later pronounced dead from an apparent suicide. Further it has been reported that Epstein committed suicide by hanging with the use of a bed sheet.

August 11, 2019

The investigations begin and the autopsy is performed. It is anticipated it will be several days before any official information is reported.

Conditions of Confinement at MCC New York

██████████, an Investigative New York Journalist, has extensively covered conditions of confinement at MCC New York over the last several years. Much of what she claims have recently been reported by numerous media outlets. The following excerpts were written by Ms. ██████████ and published August 2019, in the Columbia Journalism Review and June 2018, in the ██████████. Additional excerpts from the June 2018 and August 2019 publications of the ██████████, of former inmates of MCC, Attorneys, Prison Experts, Professors and other sources are also provided in the following section.

August 20, 2019 Columbia Journalism Review - (██████████)

"WHEN I AWOKE LAST SATURDAY to the news of Jeffrey ██████████ death, I realized that the moment had come: the Metropolitan Correctional Center (MCC), the federal prison where he died, was about to get its fifteen minutes of fame. As a freelance investigative reporter who frequently covers the prison system, I'd spent years trying to pitch stories about that facility, often without success. Last summer, I managed to publish an investigation into conditions at the MCC on the website, ██████████. The story documented that MCC was overcrowded and understaffed, plagued by vermin and overflowing toilets, dogged by allegations of corruption and abuse, and beset by an almost total lack of medical care. None of that got much attention at the time. But as soon as news of ██████████ death started circulating, so did my piece."

"There are no advocacy groups focused on improving conditions at federal prisons, in large part because there aren't really any elected officials responsible for safeguarding these institutions. Congress is technically charged with overseeing the Bureau of Prisons, but Congress is busy. And because federal institutions hold individuals from across the country, federal prisoners don't form a natural constituency, or represent a single newspaper readership."

June 19, 2018

"Half a block behind [REDACTED] federal courthouse, two blocks from City Hall, three blocks from the Brooklyn Bridge, and less than a mile from the hustle-and-bustle of Wall Street, sits a detention center that has been condemned by a United Nations human rights expert for exposing its inmates to conditions akin to torture.

While reports of the horrendous conditions on Rikers Island helped spur Mayor Bill de [REDACTED] pledge to shutter the [REDACTED] violence-plagued facilities, far less attention has been paid to the environment inside the Metropolitan Correctional Center, the federal jail which mainly holds people who have been charged but not yet convicted of crimes, who in the eyes of the law are still presumed innocent.

Yet those locked up at the MCC are subject to their own indignities and rights violations, say those who have spent time there on both sides of the bars. These include filthy conditions, vermin infestations, substandard medical care, and violence and abuse at the hands of guards. Interviews with a dozen people who have spent time locked up there as recently as 2017, as well as with attorneys who have represented clients at MCC, human rights groups, and others with direct knowledge of the prison, confirm that those incarcerated at MCC often endure a rat-infested, high-rise hell just yards from the federal courts that send them there.

"I thought there was nowhere worse than Rikers Island," [REDACTED], who spent three weeks at MCC, told [REDACTED]. In October 2016, [REDACTED] was arrested in the Bronx on federal charges for selling drugs to a confidential informant, as part of the largest gang raid in New York City history.

[REDACTED] said the bug and rodent infestation at MCC was particularly horrifying. "The cells [are] very small and at nighttime you hear the mice, see waterbugs in the shower," he told [REDACTED]. At least one former MCC prisoner said the mice would find their way into commissary boxes, and gnaw away at their food.

"You asked about the conditions," wrote [REDACTED], another young man indicted as part of the Bronx gang raid. "We saw rats so big it seemed like they could only be in the sewer."

"But they wasn't in the streets or the sewers," [REDACTED] added.

"They were more like roommates."

In a special jail-within-a-jail called 10 South, alleged terrorists, mobsters and drug kingpins are subject to some of the most brutal conditions of solitary confinement in the nation. This extreme isolation, reserved for those charged with the most heinous crimes, was described as "a punitive measure that is unworthy of the United States as a civilized democracy," according to a former special monitor on torture and punishment for the United Nations who investigated the case of one prisoner held there for three years."

"Hundreds of people indicted in the Southern District of New York, as well as many individuals indicted in the Eastern District, based in [REDACTED] federal court across the river, end up at the jail awaiting trial for federal offenses including drug-related crimes, fraud, bribery, and sex offenses. Defendants facing terrorism charges have spent more than three years at the facility, attorneys say. But even those facing less high-profile charges generally spend at least one or two years there before their criminal cases are resolved."

New York attorney [REDACTED], who has represented clients at the notorious [REDACTED] facility at Guantanamo, says "in some regards, MCC—particularly 10 South — is worse." [REDACTED] said he has represented nearly a dozen people who have served time on 10 South, and countless others in MCC. He describes the prison as "soul-negating."

"[REDACTED] physically, mentally, psychologically, emotionally—as unaccommodating to the idea of being human as any place I've been," [REDACTED] told [REDACTED].

[REDACTED], a New York Attorney who has visited clients at MCC described the institution as "infested with rats and mold." He went on to state, "The Facility is run with a bad combination of laziness and cruelty," citing the Epstein death is one of the results. He describes the Special Housing Unit as "a place where an inmate sits in a box and stares at the wall."

[REDACTED] is a Distinguished Professor of Political

Science at Brooklyn College who has written extensively about conditions at MCC.

"If I described these conditions to you—filthy, freezing, no natural light, isolation so extreme that you're punished for speaking through the walls, absurd rules like prisoners not getting to see the newspapers unless they're 30 days old, secrecy so deep that people are force-fed and lawyers can be punished for describing the conditions their clients are experiencing—you'd be forgiven for thinking that this was Iran or Russia," she said.

"But in fact this gulag exists right here in lower Manhattan."

██████████, a civil rights attorney who has filed several lawsuits challenging conditions at the ████████ two federal jails in New York City, recalled suing the BOP on behalf of a prisoner at MCC who had had his fingertip chopped off by a cell door. Rather than being placed in an ambulance, alleges ████████, the man was chained at his ankles and wrists and brought to the hospital by correctional officers, bleeding profusely.

"I think ████████ a human rights violation," ████████ says of the medical care at MCC. "I think ████████ an Eighth Amendment violation—deliberate indifference."

In the past 15 years, at least one correctional officer at MCC has been convicted of beating an inmate, and at least three guards have been convicted of sexually assaulting inmates. In 2016, a former correctional officer at MCC was sentenced to seven years for raping an inmate. Most recently a former MCC Staff Member was convicted of taking bribes to smuggle food, alcohol and cellphones into the facility.

In a 2011 letter to then-Attorney General ██████████, Amnesty International expressed concern that conditions on 10 South "fall short of international standards for humane treatment" and "appear incompatible with the presumption of innocence." The brutal nature of life on the unit, including its extreme conditions of isolation, were also documented in a 2014 Human

Rights Watch Report, about human rights abuses in US terrorism prosecutions.

During his six-year term as the UN Special Rapporteur for Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, which ended in October 2016, the BOP prevented ██████ from speaking to suspected or convicted terrorists. ██████ was able to investigate the conditions at 10 South by interviewing family members of the incarcerated and contacting the State Department about the allegations. He ultimately determined that international human rights protections had been violated.

While there has been increasing advocacy for reforms to local jail and prison conditions, federal prisons remain a kind of political orphan, a situation compounded in the Trump era. "Rikers is a good example of the power of people in a democracy to hold their elected officials accountable," said ██████, "but in the federal context—federal facilities house people from all around the country, and so ██████ no natural constituency in the state, city, county they're located in" to express concern about ██████ happening on the inside.

As a result, for people locked up at MCC, ██████ little hope that conditions will improve anytime soon.

That could be exactly the way jailers and prosecutors want it. Pre-trial detention, which often lasts years, can become not only unsafe, but coercive; as a result, individuals are pressured to provide information to prosecutors or accept plea deals in their desperation to be released, say former prisoners.

"You want to plead guilty and get out of this dump to a prison," said ██████, the former inmate. "The feds have a 98% conviction rate for a reason," ██████, another former prisoner said. "They mentally break you."

Asked why he thought MCC has received so much less coverage than Rikers, ██████ replied, "I think [MCC] went unnoticed because people think just because ██████ the feds the conditions are better. There are certain things that go on in these places that the government covers so the public would never know."

But for years, MCC has been plagued by filthy conditions, abusive guards, and a severe lack of medical care, as ██████ documented in an extensive investigation last year. Defense attorneys, former inmates, and others with direct knowledge of conditions at MCC said ██████ death epitomized how all individuals, even the most infamous people on the planet, are treated in the facility.

██████ has been working as a federal defense attorney and representing clients at MCC for about 30 years, and described the ██████ recent condition as "the worst that ██████ ever been."

██████ said that one of her clients, a young man, has been in the Special Housing Unit—the unit where Epstein died—for the three and a half years.

"His entire window is covered in mold," she said, and because the hot and cold water in the cell come out of different taps, her client can't even take a shower without getting frozen or scorched.

She recalled that she'd had one client at the facility who was charged with observing and safeguarding suicidal prisoners, since there weren't enough correctional officers to do the job.

"So they have inmates patrolling the suicide block so that they keep an eye on the people rather than people [who] get paid by the government doing it," ██████ said. "Do they really care? Do they watch? Who knows!"

██████ described a third client who suffers from mental health issues as well as severe asthma, but has been unable to get the nebulizer treatment she says she needs to control the disease. During one visit, ██████ said her ██████ breathing was so labored she couldn't carry on a conversation: "I couldn't talk to her, because she couldn't breathe."

Over the spring, ██████ was in touch with two women held at the facility, who said they were denied basic medical care, and that their cells routinely flooded with sewage.

"Toilet waste and feces were all over the floors of all the cells, common area, and other departments on the floor and the female inmates were the ones who had to clean it all up without proper equipment," one detainee wrote in a message. The woman, whose name is being withheld at her request out of fear of

retaliation, described how her floormates got feces on "their hands, legs, faces, hair, all over" and said the "difficulty breathing due to the smell was and is indescribable."

██████████ said that it makes little difference to the Correctional Officers at MCC whether an inmate is a billionaire financier or not—everyone is regarded with disdain. "[The prisoners would] be lucky if they were treated like dirt under somebody ██████████ shoe, but they're not even treated that well."

These conditions persist at MCC despite the fact that people held there have not yet been convicted of a crime, and thus are supposed to benefit from the presumption of innocence.

The following excerpt was taken from an article published in the Intercept, February 3, 2019, edition, written by ██████████, an inmate incarcerated in the 10 South Unit of MCC New York.

"AT THE TAIL end of the Obama administration, I was locked up a ██████████ throw away from ██████████" ██████████ at the Federal Bureau of Prisons' infamous Metropolitan Correctional Center, New York, or MCC NY, in downtown Manhattan, where ██████████ is currently being held during his ongoing federal trial. I was there writing and waging a hunger strike when ██████████ first arrived. Much has been written about ██████████ trial, but close to nothing about the conditions of his confinement, as the security around him has made access off limits to any journalist other than me.

I'm an imprisoned human rights activist and political journalist focusing on protecting institutionalized children from common tortures in America like these:

I'm currently suing the Bureau of Prisons and MCC NY for both state and federal civil rights violations, related to the conditions where ██████████ is held, and I'm exploring classaction certification. My lawsuit against MCC NY offers a new and rare glimpse into prison life in the solitary confinement cells that ██████████ has now called home for nearly two years. Besides simply recovering my fees and costs, however, my goals aren't

financial. Instead I'm asking the court to force MCC NY to respect human dignity, the First Amendment, federal regulations, and other human and civil rights."

In a letter written from MCC to officials at the Justice Department, the Federal Bureau of Prisons, and the Office of the Inspector General at the Justice Department, Mr. [REDACTED] calls attention to what he describes as appalling conditions inside the facility.

In his letter, he alleges there are severe threats to health, including rodent and insect infestations at the facility. "Roaches are found in the food, and I have personally observed insect eggs as well," [REDACTED] adds.

He describes how the heat is, for the most part, not functioning during the winter. A number of the cells are in the "50-degree range while others are much colder." Meanwhile, pools of water stand in the facility from leaks and are a "breeding ground for infections."

"The facility itself is trash, with cockroach-infested meal trays and frigid, leaky cells. One inmate resorted to drinking from his toilet when the water was shut off."

[REDACTED] a lot of mystery surrounding the 10-South unit at MCC where [REDACTED] is being housed. Much of that is fueled by the effects of it being a "SAMs" or "special administrative measures" unit. As such, the inmates aren't supposed to come into any visual or other contact with other inmates.

Even magazines they receive in the mail must be prescreened by the FBI for the supposed reason of intercepting hidden messages. Outbound communications are similarly restricted and monitored in real time.

Amnesty International

Amnesty International previously condemned the use of MCC to "house pretrial detainees in solitary confinement for months or even years before they face trial." With regards to the Special Housing Unit at MCC, the human rights organization says "detainees have little access to natural light and no provision for outdoor exercise." Amnesty International characterized

"the combined effects of prolonged confinement to sparse cells with little natural light, no outdoor exercise and extreme social isolation amount[ing] to cruel, inhuman or degrading treatment."

United States Representative [REDACTED] - August 1, 2018 and August 14, 2019

August 1, 2018 - A federal lawmaker is demanding officials running a prison in lower Manhattan detail how long it takes for those in the lockup to get medical care.

[REDACTED]. Rep. [REDACTED] is demanding answers as allegations of abuse continue to surface at the Metropolitan Correctional Center some prisoner advocates have compared to a gulag. "When inmates are placed at the mercy of our government, we have a moral responsibility to ensure they are treated humanely, something which MCC has allegedly failed to do," [REDACTED] said in a statement. "I am asking for a full explanation and immediate steps to ensure the safety of prisoners housed there." On Wednesday, she sent a letter to the Federal Bureau of Prisons citing "alarming conditions" at the prison which houses highprofiled terrorists and drug lord [REDACTED] [REDACTED]. The missive demands the number of violent incidents as well as the time it typically takes for prisoners to receive medical care.

The allegations of abuse, including prisoners forced to wait two months to be seen by a doctor, were first reported in [REDACTED]. Prison advocates have long argued that the facility is more restrictive than the Guantanamo Bay detention camp.

August 14, 2019 - Rep. [REDACTED] on Wednesday joined the growing number of officials calling for a soup-to-nuts investigation into the apparent suicide of accused child sex trafficker Jeffrey Epstein in the federal Metropolitan Correctional Center in Manhattan.

██████████ said she wrote a letter to the Justice ██████████ inspector general and the head of the FBI demanding answers not only about ██████████ death but about what she called other rampant abuses of detainees at the lockup.

"I write to voice concerns about the continued alleged culture of mismanagement and inadequate leadership at this facility," she said. She cited several other incidents at the MCC, in which corrections staff allegedly abused detainees.

Representative ██████████ posted the following on her Facebook Social Media account on August 14, 2019: "MCC is in our District, #NY7. I've been pressing for greater oversight of this institution for many years now!"

"Not only does ██████████ suicide raise questions about how his custody was handled, but it harkens back to a litany of previous problems we've seen at this facility," ██████████ told The News.

"I'm glad DOJ and FBI are looking into this most recent episode and all of us, including his victims, need to know how Epstein died," she added. "Still, I think ██████████ also needed is a comprehensive review of the culture and management problems at MCC."

Conclusion/Opinions/Observations

MCC New York, like many other Federal Prisons nationwide is overpopulated and understaffed. It is reported the MCC was built to accommodate 474 inmates. On the day of Mr. ██████████ suicide, the ██████████ inmate population count was 763, almost twice the number it was designed to house.

Much talk and attention has been on the staffing shortages. Mainly, as a result of the 2017 Trump Administration Hiring Freeze, the Bureau of Prisons lost 7,300 employees.

MCC New York was recently described by Attorney General ██████████ ██████████ as an institution with "deeply concerning irregularities." AG ██████████ expressed outrage and says he was "appalled and angry" to learn of ██████████ "failure to adequately secure this prisoner." Other sources familiar with current conditions at MCC described it as "deplorable," and "bordering on inhumane treatment."

I personally maintain contact with several individuals who are currently employed with the Bureau of Prisons as well as MCC New York. Three current MCC Staff Members very recently described to me the current sanitation conditions at the facility. One stated, "The facility is so disgusting [REDACTED] like a prison in a third-world country. Cleaning supplies are not issued on a regular basis." The individual further advised, "Pest Control is horrible and ineffective, rats, mice and bugs are everywhere." Another Correctional Officer told me, "There are mice and bugs everywhere including inmates' cells." This information is consistent with my Court testimony on July 3, 2019, and my assessment in Paragraph 20 of my Declaration in the case of Mr. [REDACTED]. Further, it corroborates the many news reports, regarding the "rodent-infested MCC."

On a different, yet equally concerning topic, an MCC Correctional Officer advised me this past week, that there is blatant racial discord within the institution, especially amongst Correctional Officers. I did not witness this when I was Warden at MCC, and my contact advises it began a short time following my departure.

It is my belief that the excerpts I've cited in this report and statements from various sources of the MCC are credible and honest. The Staff have nothing to gain by sharing this information with me other than to express their dissatisfaction and frustration with current practices and conditions at MCC.

In my July 3, 2019, testimony in the London Court for the extradition case of [REDACTED] [REDACTED], I expressed concerns with MCC New York in regards to staff shortages, staff from other departments being "augmented" to fill in for correctional officer vacancies on a regular basis, conditions of confinement at MCC and various other matters related to the institution. I stated in my testimony and also in my Declaration that MCC New York or any other federal prison could not prevent anyone who is persistent from taking their own life. At best, they could only delay an inmate from committing suicide by placing his on a suicide watch. A suicide watch does not continue indefinitely. As previously stated in this report, a usual amount of days for a suicide watch would be two to four days, depending on circumstances. Once the suicide watch ends, that also ends the 24 hours of continuous inmate observation.

If Mr. ██████ is extradited to the United States and housed at MCC or MDC, I am confident his mental health needs, given his propensity to commit self harm, will not be adequately addressed. I am more convinced of this now, following the Epstein suicide, numerous documents and recent information revealed, than I was during my testimony to the Court in July 2019. It appears the current conditions within the prison are extremely dire and certainly far worse than when I was assigned at MCC as Warden.

Numerous individuals have come forward in the last few weeks, including some former Bureau of Prisons' Wardens. They fervently state some serious missteps occurred at the MCC surrounding the death of Mr. Epstein. These individuals have been quick to point fingers and assign blame to top executives, psychology staff and correctional officers. Many are quick to say that Mr. Epstein should not have been removed from Suicide Watch or if he were removed, extra precautions/safeguards should have been in place. Some sources view the actions of staff who were assigned to ██████ Housing Unit, as a blatant indifference to the care and welfare of inmates. Others, including Union Officials, are suggesting the Officers' disregard of conducting the required 30-minute cell checks were justified because of the long hours staff are forced to work, as a result of the institution being so understaffed.

While all of the investigations continue, it is premature to conclude exactly what did occur leading up to the death of Mr. Epstein. What we do know is that several policies were not followed or were simply ignored, several departments within MCC were involved and shortcuts were taken. MCC New York is heavily in the spotlight and under a microscope these past two weeks and likely for the next several weeks. It is my opinion that this only received such widespread attention because of the notoriety of Epstein. Had this been another inmate, less known, who was not a public figure, they likely would not have received media attention.

Once the investigations are concluded, it is probable that several recommendations will be provided. In order to correct problems that exist, one must look at the root of the cause and be willing to fix that also. Only time will tell if any future additional measures put in place will be adequate. If what is being reported by countless sources, is in fact what actually occurred, and staff completely ignored their responsibilities,

no recommendations and no additional measures would have changed the unfortunate outcome of what occurred on August 10, 2019, at the Metropolitan Correctional Center, New York.

The current problems at the MCC cannot, in my opinion, be cured by any quick fix solution. Even with the current spotlight on MCC, and assuming the Bureau of Prisons will put forth their best efforts to eradicate the broken parts, one still must account for human error and agency needs. Staff will continue to work overtime, staff will continue to take shortcuts, staff will continue to be tired on the job and fall asleep. No amount of effort on [REDACTED] part can change that and one can only hope that when these things occur, nothing bad happens. It would take many years to resolve the issues and problems that plague MCC, provided there is a real desire to make changes. This will not give any comfort to Mr [REDACTED] or the U.K Courts as to whether he or his mental health needs will be adequately managed if extradited to the United States.

Jeffrey Epstein jail 'a gulag' in lower Manhattan

12 August 2019

Jeffrey Epstein death

CHRIS HONDROS

Questions are being asked how Jeffrey Epstein died in custody in New York while being held on sex trafficking charges. So what is the detention facility like where he spent his final days?

Built in 1975, the 12-story Metropolitan Correctional Center in lower Manhattan - where the financier died in a suspected suicide on Friday night - holds around 800 people awaiting trial or sentencing at the federal court house just a few blocks away.

The brick building has detained such high-profile criminals as Mexican drug kingpin [REDACTED], Gambino mafia crime boss John Gotti and World Trade Center bomber Ramzi Yousef.

Like other federal prisons, the Metropolitan Correctional Center (MCC) suffers from shortages of staff and resources, prisoner overcrowding and is plagued by violence and poor sanitary conditions.

The conditions

The jail was built to accommodate 474 inmates, but held 763 male prisoners at the time of [REDACTED] death, according to a statement from the Federal Bureau of Prisons.

Prisoners have described seeing large rats in their cells, air conditioner units so noisy it is impossible to sleep, and absence of any natural light or sanitary water.

As he was sent down for the rest of his life, Mexican drug cartel leader [REDACTED] took the opportunity to call the place "torture".

"Since the government will send me to a jail where my name will not ever be heard again, I take this opportunity to say there was no justice here," he said at his sentencing in July.

"It has been psychological and mental torture 24 hours a day."

Brooklyn College professor Jeanne Theoharis, who has written extensively about MCC, **told the [REDACTED] website in June** that the jail resembles conditions found in countries such as "Iran or Russia".

Calling the place a "gulag", she described conditions as "filthy, freezing, no natural light, isolation so extreme that you're punished for speaking through the walls, absurd rules like prisoners not getting to see the newspapers unless they're 30 days old, secrecy so deep that people are force-fed".

GETTY IMAGES

Lawyer ██████████, who is suing the US government after his client was beaten to death in MCC in 2015, says the ██████████ Island prison, which is run by the city, is much more violent than MCC.

He says ██████ too early to know whether ██████████ wealth may have played a role in his death, amid speculation in the US that he could have bribed guards to be left alone.

He notes that other ultra-rich white collar criminals from Wall Street, only blocks away, are frequent guests of MCC, including Bernie Madoff who was arrested in 2008 for running a multi-million dollar Ponzi scheme.

Mr ██████ says that more important than a ██████████ profile or means is the crime itself and the publicity it receives in the media. Sex criminals like Epstein, he says, are more likely to face issues from other inmates, making it unusual that Epstein was not being more closely watched.

The staffing

A representative for workers at the jail told CBS News in New York that the Epstein death is not surprising. Staffing, the representative says, is "completely inadequate", with many workers putting in more than 60 hours per week leaving them "overwhelmed" and "not alert".

According to the Associated Press (AP), the jail is so under-staffed that correctional officers are being offered a \$10,000 bonus to transfer there from other facilities.

Guards sometimes work 16 hours a day, **according to the AP**. A person familiar with the Epstein case told the news agency that a guard overseeing Epstein was working a fifth straight day of overtime - and another was working mandatory overtime - on the day the wealthy ██████ body was found.

Staff shortages were worsened after a government shutdown triggered by a budget stand-off between the White House and Democrats over President Donald ██████ insistence on funding for a southern border wall.

In January, during the shutdown, inmates staged a hunger strike over claims they were being denied family visitation rights.

The Bureau of Prisons is already under scrutiny for the death of Boston gangster James Whitey Bulger, who was fatally beaten by another inmate shortly after arriving at a West Virginia lock-up last October.

In February 2018, a British court ruled against extraditing accused hacker Lauri Love - who is diagnosed with Aspergers syndrome and would have probably been held in the MCC - on the grounds that he would present a high-risk of suicide if he was sent there.

Where Epstein stayed

According to the New York Times, Epstein had recently been moved from suicide watch to the Special Housing Unit where he was meant to be on 24-hour monitoring and given daily

psychiatric evaluations.

He was ordered there after he was found on the floor of his cell two weeks earlier with neck injuries, in an apparent attempted suicide.

According to the paper, two guards were meant to check on him every 30 minutes, but those procedures were not followed on the night of his death.

He was also meant to be housed with one other inmate, but his cellmate had reportedly been transferred and no replacement had yet arrived.

REUTERS

Mr [REDACTED], the lawyer, says CCTV captures what goes on in the Special Housing Unit, as well as for those prisoners being kept on suicide watch.

He says [REDACTED] too early to know what contributed to [REDACTED] death, until an FBI investigation is complete, but either way the prison is facing a "grossly negligent situation".

Investigative reporter [REDACTED], who spent a year researching the conditions at MCC, found that the facility shared a single psychiatrist with the other federal prison in New York, the Metropolitan Detention Center in Brooklyn, and only had a handful of psychologists on staff.

The two facilities had only one psychiatrist to oversee the more than 500 prisoners with diagnosed serious mental illnesses, she says, in addition to any prisoners that have been temporarily placed on suicide watch.

"When you're on suicide watch and a psychologist comes to speak with you, [REDACTED] not as though you're in a private room having a conversation. [REDACTED] like through a slot in the door," she tells BBC News.

REUTERS

Experts on prison safety say they are puzzled as to why Epstein, who had attempted to take his own life earlier, was not kept under closer watch.

Cameron Lindsey, a former warden at the federal jail in Brooklyn, told the Times that the psychological evaluation can only reveal so much about a [REDACTED] state of mind.

He said that the steady release of embarrassing and incriminating evidence against Epstein could have made him wish to kill himself, and that other prisoners would consider him a target due to his fame and the nature of his alleged crimes.

"A psychologist is going to think one way, but a warden needs to think a different way," said Mr Lindsey. "You have to take the conservative, safe route and keep an individual like this on suicide watch."

Union and lawmakers have long warned of 'dire' federal prison staffing shortages

By Evan Perez, Mark Morales and Kara Scannell, CNN

██████: Appalled and angry over failures to secure Epstein 00:45

(CNN) — Staffing shortages at the Bureau of Prisons are dire and widespread, according to agency employees and lawmakers who say they've been warning the Justice Department about the problem and demanding changes for years.

Attorney General ██████ has launched investigations into Jeffrey ██████ death. But earlier this year, he referred to delays in hiring new people at the Bureau of Prisons as a "snafu" caused by bureaucracy in the federal prison system.

██████ suicide has exposed what the employee union says are chronically overworked and short-staffed conditions at the Metropolitan Correction Center in Manhattan, including forced overtime and officers reassigned to guard duty.

A key US Senate committee has also repeatedly told the Justice Department to hire full-time correctional staff and end an "overreliance" on the type of reassignments that have existed in the MCC and elsewhere.

The Justice Department said Tuesday that it was reassigning the warden at the MCC and it was suspending two guards at the facility. The department didn't identify the guards or say whether they were the ones on duty and assigned to monitor Epstein when he died.

Days after ██████ death, BOP officials and FBI investigators are still piecing together even basic details of the incident such as how he was found and how long he was dead before an employee found him, people briefed on the matter said. Some employees have refused to cooperate with investigators and have hired lawyers, people briefed on the matter said.

There were cameras with a view of the hallway outside [REDACTED] cell but whether they showed anything or were operational -- and if not, why -- remain in question. That some basic details aren't clear suggests that whatever video exists doesn't show what happened.

A BOP suicide reconstruction team began working Tuesday to try to determine why Epstein killed himself. A BOP after action team, which looks into major incidents, is slated to arrive Wednesday to begin its work. That team is led by [REDACTED] southeast regional director and will bring in others from outside the northeast to review the Epstein case.

Two MCC guards were on duty and responsible for checking on Epstein every 30 minutes -- checks that weren't made for hours.

Of the two officers who would have had responsibility to monitor Epstein, one is not currently a detention guard, but was temporarily reassigned to that post, according to a person briefed on the matter. The guard, a man not identified by officials, had previously been trained as a corrections officer but had moved to another position. BOP rules allow for people who work in other jobs, such as teachers and cooks, to be trained to fill in at posts usually manned by corrections officers.

The second guard on Epstein duty, a woman, was a fully trained corrections officer, according to the person briefed on

CNN politics

Eric Young, national president of the American Federation of Government Employees, Council of Prison Locals, which represents BOP employees, says a hiring freeze put in place at the start of President Donald [REDACTED] presidency is the root of nationwide problems at federal prisons.

He called the situation "dire," with decreased staffing levels the root cause of issues from contraband getting in to safety of correctional workers and inmates.

AFGE represents workers at 122 facilities nationwide and BOP employs roughly 33,000, according to Young. That number was once at 38,000 workers but after the Trump hiring freeze, the problem was never fixed.

The Justice Department says [REDACTED] lifted the freeze in April and that BOP has been recruiting to fill positions. It typically takes months to bring on new federal employees.

"We felt betrayed," Young said of the hiring freeze. "Mr. President, we work for you. You say you're a law and order president and we thought we were going to reap the benefits of that, but we didn't."

In addition, more vacancies could soon be on the way; Young says an estimated 5,000 people are eligible for retirement at the end of the year.

A Justice official says the [REDACTED] hiring freeze applied to positions in BOP regional offices and at the [REDACTED] headquarters, not to prison facilities. The official said the [REDACTED] hiring practices -- filling positions one at a time -- caused delays in hiring. The bureau also faced staff losses from retirements. [REDACTED] in April ordered the bureau to speed up hiring by filling open positions concurrently.

The Justice official also disputed perceptions that BOP faced a Trump budget squeeze. [REDACTED] budget increased from nearly \$6.8 billion in the 2014 fiscal year to \$7.25 billion in fiscal 2019.

At the same time, employee and inmate numbers decreased. Prisoner releases have accelerated as a result of criminal justice revisions in the Obama and Trump administrations.

The bureau had 38,496 employees in 2014, compared with 35,123 in fiscal 2018.

BOP held 214,149 prisoners in 2014, compared with 181,698 in 2018.

How Jeffrey ██████ death became a political football 05:34

Bonuses, augmentation

To combat the drop in workers, BOP officials have been offering a retention bonus, which gives workers a 5% bonus if they decide to stay instead of retiring, Young said. They also have allowed retired correctional officers to come back on a part-time basis to ease the staffing issues at hard-to-staff prisons, Young said. The agency also approved the addition of 3,000 temporary positions for entry level workers.

Officials also offered workers a 10% relocation bonus if they opted to work at facilities that are hard to staff like MCC in New York, Hazelton in West Virginia, the Metropolitan Detention Center in Los Angeles and others. Part of the relocation agreement is for staffers to stay at the facility for at least two years.

Young draws the correlation of fewer guards to safety, saying the problem came to a head early Saturday morning in New York.

"Time was not on our side before Epstein killed himself," Young said. "We were on the right course of hiring but we just couldn't do it fast enough. We were stalemated by Trump."

The BOP has tried to address staffing shortages in part by using a practice called augmentation to temporarily assign employees who aren't corrections officers to staff posts intended for detention guards.

In October, four senators led by Democrat Joe Manchin of West Virginia, wrote a letter to then-Attorney General Jeff Sessions expressing their "deep concerns" about the use of augmentation and staffing levels at federal prisons in Pennsylvania and West Virginia following the deaths of a correctional officer and inmates.

"We cannot allow these dangerous staffing practices to continue," the senators wrote.

They noted that twice when approving ██████ budget, a Senate committee had issued a report that "included clear directions" to the Justice Department to stop "its overreliance on augmentation" in favor of hiring full-time correctional staff.

Four days later, James "Whitey" Bulger, the Boston mob boss was brutally beaten and killed at the federal prison in Hazelton.

Last June, the Senate Appropriations Committee reiterated its demand.

"The Committee again directs BOP to curtail its overreliance on augmentation, particularly in housing units" the [redacted] report said. "BOP should instead hire additional full-time correctional staff before continuing to augment existing staff."

A February 2018 letter from 52 members of Congress was sent to Sessions asking him to reconsider eliminating 6,000 unfilled positions at federal prisons nationwide. "Augmentation was designed as a temporary solution to short-term staffing conflicts, not a long-term solution to respond to budget pressure," the lawmakers said.

Soon after [redacted] took office this year, he acknowledged to lawmakers that the Justice Department had "stumbled" in addressing the problem. In testimony before the Senate Appropriations Committee in April, he called the staffing shortages at prison facilities a "snafu" and blamed bureaucracy within the prison hiring system, not the hiring freeze.

"The shortages out in the prison facilities themselves was not the freeze." [redacted] said. "I think what it is is, frankly,

[redacted] said he believes the agency begins the process of hiring a new person into a position vacated by internal job shifts too late.

"It takes months and months and months to get that person on board. That makes no sense because every year we lose 2,600 of these correctional officers. So my view is we just have to turn on the spigot and keep these new entry level people coming in at a rate where we're going to be able to get up to and maintain our enacted level," [redacted] said.

"I think this is largely a snafu by the department and [redacted] how I interpret it and [redacted] how I'm approaching it," he added.

He also complained that he is in Attorney Conference from about 8 AM to about 8 PM each day and he said yesterday he only received one meal, a sandwich at about 4:15 PM. He said he should be getting lunch and dinner.

Also additional information on the toilet that reportedly flushed for 45 minutes. He stated to avoid the toilet from doing that again because he stated he found it so aversive and disorienting, he has been urinating in a cup. I already sent an e-mail to Mr. Nobile about the toilet.

Good morning,

Thank you.

Inmate Epstein seems psychologically stable.

He complained that his right arm was numb and hanging earlier. Nurse [REDACTED] saw him.

He again said his right arm still feels somewhat numb and he said he cannot make a fist with that hand. He also said he has numbness on his neck. I informed Nurse [REDACTED].

He stated the toilet in his cell was running for 45 minutes last night and he could not take the noise. He is going to try the toilet before going to legal today and if it does not shut off, he will be moved to another cell.

Thanks,

[REDACTED]

Psychology Epstein Reconstruction Responses

1. Single Cell Placement

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

Psychology verbally notifies the Lieutenant when inmates are removed from suicide watch and communicates to the Lieutenant that they will need to be placed with a cellmate (Providing direct communication and instructions). Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

3. Cellmate Assignments

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology discuss the [REDACTED] needs. The Staff Attorney also assists when the [REDACTED] attorney or court are concerned about an [REDACTED] mental health. Psychology Services are involved in making recommendations regarding the types of

cellmates that inmates at-risk for suicidality should be celled with. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and share their knowledge with Executive Staff.

4. Documentation Accuracy

Psychology considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each [REDACTED] self-report of a situation as they may be perceived differently.

The Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

The Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch documents in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, Correctional Staff are required to perform routine rounds every hour. The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide or observation watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, feeding meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

6. Direct Observation

The Psychology Department has eliminated Psychology Observation at MCC-NY.

Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

7. Follow Up

Staff have been trained when they have concerns for an [REDACTED] mental health, they need to make verbal contact with either Psychology Staff or a Lieutenant. If Psychology is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden is notified.

All Psychology Staff added a response to their incoming emails. This automatic replay states, "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied more immediately and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed more immediately prior to being released to a unit.

R&D staff have been reminded of the Marshall and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden is notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

8. Inmate Accountability and Assignment Accuracy

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in the hospital area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have Sentry Assignments of H01-001L – H01-004L.

11. Post Orders & SHU Training

The Suicide Watch Post Orders is located in the [REDACTED] Office with a quarterly sign-in sheet. All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch.

With regard to SHU Suicide Prevention training, this continues to be carried out on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, they see the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

12. Staffing

The current Drug Abuse Coordinator position is currently a shared position. The Warden is currently working on re-establishing the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position has been formally announced.

13. Sex Offense Risk Factors

The Chief Psychologist or her representative continues to be present at all Executive Staff Meetings, Department Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Institution Familiarization (IF) and Annual Training (AT), about the sex offender specific risk factors and suicidality.

FYI...AW portion for page 10 regarding SW cell assignment.

Guidance was sent to the Lieutenants regarding keying of suicide watch bed assignments after hours. The Lieutenants were instructed that upon placing an inmate on suicide watch, they are responsible for contacting C&A and providing the cell assignment. Additionally, the Lieutenant will run a PP30 (Population Monitoring Roster) with the selection category for suicide watch. The Lieutenant will email the roster to the Captain, as he will be responsible for verifying that each inmate is in the appropriate cell. This verification process will ensure inmates placed on suicide watch are keyed into inaccurate bed assignments and will eliminate inmates being keyed into the same cell.

Additionally, the Lieutenants were instructed to contact the Captain and on-call Psychology staff when the need for suicide watch placement is determined after hours. Psychology staff have been instructed to contact the warden upon receiving said notification. After consultation with the warden, psychology staff will designate whether a staff or inmate companion will be assigned. Psychology staff will in turn inform the Shift Lieutenant of this determination.

If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist.

FYI...AW portion for page 10 regarding SW cell assignment.

Guidance was sent to the Lieutenants regarding keying of suicide watch bed assignments after hours. The Lieutenants were instructed that upon placing an inmate on suicide watch, they are responsible for contacting C&A and providing the cell assignment. Additionally, the Lieutenant will run a PP30 (Population Monitoring Roster) with the selection category for suicide watch. The Lieutenant will email the roster to the Captain, as he will be responsible for verifying that each inmate is in the appropriate cell. This verification process will ensure inmates placed on suicide watch are keyed into inaccurate bed assignments and will

eliminate inmates being keyed into the same cell.

Additionally, the Lieutenants were instructed to contact the Captain and on-call Psychology staff when the need for suicide watch placement is determined after hours. Psychology staff have been instructed to contact the warden upon receiving said notification. After consultation with the warden, psychology staff will designate whether a staff or inmate companion will be assigned. Psychology staff will in turn inform the Shift Lieutenant of this determination.

Inmate suicides like Jeffrey [REDACTED] are increasing — and predictable, senator says

The Washington Post

https://www.washingtonpost.com/national/inmate-suicides-like-jeffrey-epsteins-are-increasing--and-predictable-senator-says/2019/08/30/e9169afe-cb55-11e9-a1fe-ca46e8d573c0_story.html

Federal inmates were killing themselves at escalating rates when the Trump administration slashed 5,156 officers and staff positions through a hiring freeze and budget cuts — a downsizing of 14 percent. The suicide rate continued to rise as staffing vacancies increased and permanent cuts were made in 2018, with more than two dozen inmates taking their lives as prison staff and leaders failed to curb the growing problem.

R. Kelly moved to general population of federal jail in Chicago, feds say. 'I'm so popular here, like yeah man'

Chicago Tribune

<http://www.chicagotribune.com/news/criminal-justice/ct-r-kelly-general-population-jail-20190903-z4kpqwj22ngrjgzmkaubb3rupq-story.html>

After weeks of griping about the circumstances of his incarceration, disgraced R & B singer R. Kelly has been moved to the general population of the federal jail in Chicago while he awaits trial on sexual abuse-related charges, prosecutors said Tuesday.

Democrats in Florida Delegation Want DOJ to Expand Investigation of Jeffrey Epstein Death, Plea Deal

Florida Daily

<https://www.floridadaily.com/democrats-in-florida-delegation-want-doj-to-expand-investigation-of-jeffrey-epstein-death-plea-deal/>

At the end of last week, four Democrats representing South Florida in the [REDACTED] House wrote [REDACTED] Attorney General [REDACTED] calling on the [REDACTED] Justice Department to expand its efforts examining Jeffrey [REDACTED] suicide and a plea deal he made back in 2008.

Next Arena for Criminal Justice Reform: A Roof Over Their Heads

The New York Times

<https://www.nytimes.com/2019/09/03/us/politics/criminal-justice-reform-housing.html>

When Thad Tatum was released from a Louisiana prison after serving 28 years for armed robbery and the attempted murder of a police officer, he found his trials were far from over.

'An uphill battle': Harvard students urge school to pull investments that support prisons

NBC News

<https://www.nbcnews.com/news/us-news/uphill-battle-harvard-students-urge-school-pull-investments-support-prisons-n1038686>

The rare opportunity to confront Harvard [REDACTED] president presented itself last [REDACTED] Day, and a group of five students pounced on the chance. During an open office hour with President Lawrence [REDACTED] Bacow, the students asked him: How much of [REDACTED] almost \$40 billion endowment is invested in companies that profit from the mass incarceration of Americans? And would he commit to withdrawing the [REDACTED] investment funds from prisons and related companies?

Aging in prison, but not losing hope

USA Today- OPINION

<https://www.usatoday.com/in-depth/opinion/lifers/2019/09/03/aging-in-prison-letters-from-lifers-policing-the-usa/3407369002/>

In 1988, I was incarcerated in a federal prison in Pennsylvania. I had committed a nonviolent drug offense. At the age of 41, I was sentenced to life, and was eventually moved to New [REDACTED] Federal Correctional Institution at Otisville. After serving more than 20 years, in November 2013, I was given a glimmer of hope. At the age of 67, as an aging inmate, I had petitioned the Department of Justice for early release, and it looked like I was going to get my wish. The Bureau of Prisons (BOP) inmate locator site reflected a change in my release date, from "life" to April 11, 2019.

Also, the two officers that we are putting on AL, one is scheduled off today already and the other didn't show (so far). So the urgency of putting them on AL is less if they are not there. [REDACTED] is checking on the schedule of the others.

Thanks. And please confirm the work schedules of those COs in question Their recent over tone and the time the worked leading up to the incident.

Thanks. This is helpful. We can talk tomorrow about the timing. It will also be helpful to get some information about staffing at MCC I've seen additional press reports trying to link the staffing shortages, overtime and this incident. Thanks,

Subject: Draft language

[REDACTED], as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called

█ and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

Preferred:

Today, the Bureau of Prisons placed two staff who work in MCC NY on administrative leave pending the outcome of the investigation into the apparent suicide of Jeffrey Epstein. Additional actions may be taken as the circumstances of the investigations warrant.

A more detailed version of above could read:

Today, the Bureau of Prisons placed on administrative leave the two staff who worked in the Special Housing Unit at MCC NY pending the outcome of the investigation into the apparent suicide of Jeffrey Epstein. Additional actions may be taken as the circumstances of the investigations warrant.

If a third staff member is added either version can be changed to read "three."

If the warden is added, the following is proposed:

The Bureau of Prisons also temporarily reassigned the MCC NY Warden to the Northeast Regional Office pending the outcome of the investigation. FCI Otisville Warden █ has been named Acting Warden of the MCC NY.

While I prefer not to state the █ name in this release, if you decide it needs to be added, his name is █.

[REDACTED], as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called Ray and told him the US Attorney is meeting with him at 10 am tomorrow. So

this probably should be some time after that interview.

Preferred:

Today, the Bureau of Prisons placed two staff who work in MCC NY on administrative leave pending the outcome of the investigation into the apparent suicide of Jeffrey Epstein. Additional actions may be taken as the circumstances of the investigations warrant.

A more detailed version of above could read:

Today, the Bureau of Prisons placed on administrative leave the two staff who worked in the Special Housing Unit at MCC NY pending the outcome of the investigation into the apparent suicide of Jeffrey Epstein. Additional actions may be taken as the circumstances of the investigations warrant.

If a third staff member is added either version can be changed to read “three.”

If the warden is added, the following is proposed:

The Bureau of Prisons also temporarily reassigned the MCC NY Warden to the Northeast Regional Office pending the outcome of the investigation. FCI Otisville Warden [REDACTED] has been named Acting Warden of the MCC NY.

While I prefer not to state the [REDACTED] name in this release, if you decide it needs to be added, his name is [REDACTED].

Thank you.

In addition to the statements attributed to Mr. [REDACTED] we are asking did for all the reports and Video regarding [REDACTED] attempted suicide on July 22-23rd.

I believe we sent a letter to the MCC shortly after the event asking that the video be preserved.

Thank you.
In addition to the statements attributed to Mr. [REDACTED] we are asking did for all the reports and Video regarding [REDACTED] attempted suicide on July 22-23rd.

I believe we sent a letter to the MCC shortly after the event asking that the video be preserved.

Hi [REDACTED],

Pursuant to FOIA/Privacy Act and Touhy regulations, we need a release from the inmate, Touhy letter, and subpoena for the request to be considered locally. Please also be advised that we would have to seek authority under Touhy through the USAO.

Thank you,

FYI...AW portion for page 10 regarding SW cell assignment.

Guidance was sent to the Lieutenants regarding keying of suicide watch bed assignments after hours. The Lieutenants were instructed that upon placing an inmate on suicide watch, they are responsible for contacting C&A and providing the cell assignment. Additionally, the Lieutenant will run a PP30 (Population Monitoring Roster) with the selection category for suicide watch. The Lieutenant will email the roster to the Captain, as he will be responsible for verifying that each inmate is in the appropriate cell. This verification process will ensure inmates placed on suicide watch are keyed into inaccurate bed assignments and will eliminate inmates being keyed into the same cell.

Additionally, the Lieutenants were instructed to contact the Captain and on-call Psychology staff when the need for suicide watch placement is determined after hours. Psychology staff have been instructed to contact the warden upon receiving said notification. After consultation with the warden, psychology staff will designate whether a staff or inmate companion will be assigned. Psychology staff will in turn inform the Shift Lieutenant of this determination.

Psychology Epstein Reconstruction Responses

1. Single Cell Placement

A system has been put in place to ensure inmates are not single celled. A single cell report is completed during each shift by the SHU Lieutenant during Day Watch and the Operations Lieutenant during the Morning Watch and Evening Watch. Notifications are made to the Institution Duty Officer (IDO) and Executive Staff.

Psychology discusses the status of inmates who are at-risk for suicidality, their housing needs, as well as their needs for cellmates during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings.

When inmates are placed on and off suicide watch, the Warden is notified verbally, regardless of the time of day. The Warden then determines which suicide watch area a suicidal inmate will be housed and if they will be observed with an inmate companions or a staff member.

Psychology verbally notifies the Lieutenant when inmates are removed from suicide watch and communicates to the Lieutenant that they will need to be placed with a cellmate (Providing direct communication and instructions). Cellmates are recommended not only for SHU inmates being removed from suicide watch, but also for inmates returning to the general population setting.

Once an inmate is removed from suicide watch, psychology staff sends an e-mail to the Executive Staff, IDO, and Lieutenants informing them the inmate is being removed from suicide watch and can return to a cell with a cellmate. The e-mail contains the name of the staff member whom psychology verbally spoke with. This recommendation for a cellmate and conversation with the Lieutenant is also documented in the Post Suicide Watch Report and placed in BEMR/PDS.

Psychology Services has eliminated the use of Psychological Observation to avoid any confusion as to the needs of inmates on a watch status.

3. Cellmate Assignments

Inmates with serious mental illness and those at-risk for suicidality are discussed during staff meetings, department head meetings, SHU meetings, morning meetings, and close out meetings. The Captain, Associate Wardens, Warden and Psychology discuss the [REDACTED] needs. The Staff Attorney also assists when the [REDACTED] attorney or court are concerned about an [REDACTED] mental health. Psychology Services are involved in making recommendations regarding the types of

cellmates that inmates at-risk for suicidality should be celled with. Psychology Services takes into consideration the suicide risk factors involved with a particular inmate and share their knowledge with Executive Staff.

4. Documentation Accuracy

Psychology considers the information from more than one source when making decisions about suicide watch placement. Clinical judgment is used to make determinations taking into consideration each [REDACTED] self-report of a situation as they may be perceived differently.

The Chief Psychologist has spoken to all psychology staff members concerning proof reading all documents entered to reduce typos and to improve information accuracy. Additionally, there is a second Staff Psychologist in the department which helps reduce the workload on current psychologists, allowing more time for documentation review.

The Chief Psychologist and Drug Abuse Coordinator counseled the Drug Treatment Specialist (DTS) concerning her documentation in the suicide watch log book. There was no ill-intent on the part of the DTS as all log books were maintained; the original log book written by the officer and the one documented by the DTS. The DTS indicated a desire to assist the officer as he had written in the wrong log book. Specifically, he wrote in the inmate companion log book rather than the staff log book. However, she was informed that this is not her role and she is not to document in a log book for anyone else observing an inmate on suicide watch. In the future, only the staff member watching the inmate on suicide watch documents in the suicide watch log book. Log books are now being closely monitored on a daily basis by the Chief Psychologist.

The Psychology Department has eliminated Psychology Observation at MCC-NY. Both Staff and the Lieutenants received additional training on when they are required to complete rounds and sign Suicide Watch log books. With regard to suicide watch log books signatures, Correctional Staff are required to perform routine rounds every hour. The 2 Sally Officer on Monday- Friday during Day Watch is required to perform rounds on suicide or observation watch inmates as prescribed by the Captain. After-hours, the Unit 2 Officer will be responsible for making rounds, feeding meals, collecting trash in the area, and performing the count with the Internal 1 or Internal 2 assisting with duties as assigned by the Captain. Additionally, Psychology staff check the suicide watch logs daily when they interview the inmates on suicide watch. If it is noted hourly rounds are not being conducted by the Unit Officer and/or the Lieutenants are not rounding and signing the books each shift, the Associate Warden over Programs and the Captain are notified immediately and enforce accountability.

6. Direct Observation

The Psychology Department has eliminated Psychology Observation at MCC-NY.

Inmates on Suicide Watch are only provided legal visits under special circumstances as deemed by the Court.

7. Follow Up

Staff have been trained when they have concerns for an [REDACTED] mental health, they need to make verbal contact with either Psychology Staff or a Lieutenant. If Psychology is not in the institution, an inmate is placed on suicide watch, and the on-call psychologist and Warden is notified.

All Psychology Staff added a response to their incoming emails. This automatic replay states, "If you are emailing about an inmate that may be at risk for suicide or self-harm, this is an emergency situation. Please make sure that you make contact (verbally) to Psychology Staff or the on-call psychologist. Please ensure to maintain constant visual observation of the inmate until formal steps can be taken to ensure his/her safety pending a formal assessment by a Psychologist."

The Psychology Department uses PSY ALERT codes more frequently with high profile cases and with inmates with a history or charge of a sex offense. The PSY ALERT code is applied more immediately and not just when an inmate is about to leave the institution. If an inmate is moved in and out of our institution for court, etc., the inmate is assessed more immediately prior to being released to a unit.

R&D staff have been reminded of the Marshall and Court alert notices. Psychology Staff are notified immediately if there are suicidal concerns noted by the Courts. If Psychology is not in the institution, an inmate that enters the institution with an alert notice is placed on suicide watch, and the on-call psychologist and Warden is notified. These inmates receive a suicide risk assessment by a psychologist before being released to the general population.

8. Inmate Accountability and Assignment Accuracy

With regard to the accuracy and accountability of inmates placed on suicide watch status in the hospital area, Psychology Services now runs a daily Sentry roster of all the inmates on suicide watch in the hospital area. The roster is examined to ensure that the inmates placed on suicide watch in a suicide watch cell are keyed into SENTRY with the correct cell assignment noted. The Associate Warden, Programs, is notified if there are any inconsistencies. Moreover, the four suicide watch cells now all have Sentry Assignments of H01-001L – H01-004L.

11. Post Orders & SHU Training

The Suicide Watch Post Orders is located in the [REDACTED] Office with a quarterly sign-in sheet. All staff members assigned to a suicide watch post are responsible for signing the post orders prior to performing the staff suicide watch.

With regard to SHU Suicide Prevention training, this continues to be carried out on a quarterly basis. However, the sign-in sheets for this training are now be examined by the SHU Lieutenant for accuracy. If a staff member who is assigned to SHU misses the training, they see the Chief Psychologist and schedule a time to receive a make-up session for the SHU Suicide Prevention Training.

12. Staffing

The current Drug Abuse Coordinator position is currently a shared position. The Warden is currently working on re-establishing the Drug Abuse Coordinator position as a full-time position to provide the Psychology Department with an additional supervisory psychologist to perform critical clinical services. At the current time, the position has been formally announced.

13. Sex Offense Risk Factors

The Chief Psychologist or her representative continues to be present at all Executive Staff Meetings, Department Head Meetings, and SHU meetings. During these meetings, the Chief Psychologist offers feedback regarding the treatment and management of sex offender inmates. Additionally, the Chief Psychologist continues to educate all staff during Institution Familiarization (IF) and Annual Training (AT), about the sex offender specific risk factors and suicidality.

Hello [REDACTED],

I'm a reporter with BuzzFeed News. I'm reaching out on a story regarding Jeffrey [REDACTED] death. We have found a series of posts that were made on the website 4chan prior to any public announcement of [REDACTED] death. The first post was made at 8:15 AM and the subsequent posts described in detail the first responders' actions. The first news report about [REDACTED] death was at roughly 9 AM.

I've pasted one of the posts below.

Can you verify the accuracy of [REDACTED] been posted? Would speaking publicly about an [REDACTED] death break any procedures? If so, does MCC plan to take any action on the matter or investigate it?

Please get back to me as soon as possible today.

Thank you,
Jane

Attempted Suicide

TEXT.htm, Suicide Note.pdf, Photos.pdf

[REDACTED]

The synopsis below describes events related to an attempted suicide this morning in one of our GP units and the fine job by Correctional Officer Raymond Colon, a new staff member who has been with us since June 10th of this year. I attached the note, recovered by staff from the inmates cell, as he references the recent suicide of inmate Epstein at MCC New York. Also attached is a photo of the cell depicting the physical arrangement of the nooses.

On September 13, 2019 at approximately 10:54 am, the Housing Unit 3 North officer called for medical assistance. Specifically, the unit officer was conducting rounds when he approached cell 323 and found inmate [REDACTED] Reg. No. 51517-066, with a noose around his neck anchored to his locker. The inmate also had a noose tied around his feet anchored to the upper bed frame. The officer immediately untied the inmate. He did not lose consciousness and advanced life saving measures were not necessary due to the quick actions of the officer. The inmate was medically assessed, photographed, interviewed by Psychology staff, and placed on suicide watch. No staff injuries were reported.

Please let me know if you have further questions.

Thanks,

[REDACTED]

[REDACTED],

I am sorry to have to bring these issues to you in the last weeks of your leadership. But because there is no warden at MCC NY, and the following is an emergency we bring to your attention and you will know what to do.

Michael [REDACTED] 90791-054 is fighting for his life, and it seems to be neglected in a most terrible manner.

He writes that he has complained to his unit counselor and to health. He has migraines for over two weeks, throwing up and diarrhea. All who see him, can see he is in distress. His hands and body shake with tremors and he feels he is becoming weaker every day. He has problems focusing because of all this, and no one seems to care. This is the same facility where staff was caught sleeping and forging the log, the night Epstein committed suicide. He needs to brace himself against the wall when he walks.

It is an emergency matter and lets hope for the best, as it has already deteriorated to the extreme.

Thank you.

His hands and body shake with tremors and he feels he is becoming weaker every day. He has problems focusing because of all this, and no one seems to care. This is the same facility where staff was caught sleeping and forging the log, the night Epstein committed suicide. He needs to brace himself against the wall when he walks.

It is an emergency matter and lets hope for the best, as it has already deteriorated to the extreme.

Thank you.

[REDACTED]

With apologies for the weekend email, we have a defendant, Jeffrey Epstein, who was arrested last night and is currently being detained at MCC, and is expected to be pres of-state.

We're concerned about the defendant not having access to his attorney in advance of the presentment (as we would be for any defendant) and so I wanted to reach out to

thanks very much,

As an update, I spoke with the AUSAs. They advised the Court there was no video because the FBI had the DVR (pulled for the 8/10 incident) which went back to the 7/23 attempt. The FBI reported the DVR footage was corrupted as to the 7/23 video and, thus there was no footage. The AUSAs are asking that SIS check to see where Pina preserved the 7/22-23 video to see if that copy is not corrupted. They will be reaching out to her directly.

The AUSAs also want to know where the orange rope from the 7/23 attempt is preserved.

Good morning all,

Per the above article, the Court was advised by the USAO that MCC did not preserve video from outside the cell shared by [REDACTED] and Epstein at the time of [REDACTED] alleged first suicide attempt. However, per the attached, SIS advised the footage was preserved. What search for the footage was performed prior to advising the USAO the footage could not be found? I would recommend searching again for the missing video. I have a call with the AUSAs in 20 minutes and will advise as to what other issues arose at [REDACTED] hearing.

Thank you,

FYI...AW portion for page 10 regarding SW cell assignment.

Guidance was sent to the Lieutenants regarding keying of suicide watch bed assignments after hours. The Lieutenants were instructed that upon placing an inmate on suicide watch, they are responsible for contacting C&A and providing the cell assignment. Additionally, the Lieutenant will run a PP30 (Population Monitoring Roster) with the selection category for suicide watch. The Lieutenant will email the roster to the Captain, as he will be responsible for verifying that each inmate is in the appropriate cell. This verification process will ensure inmates placed on suicide watch are keyed into inaccurate bed assignments and will eliminate inmates being keyed into the same cell.

Additionally, the Lieutenants were instructed to contact the Captain and on-call Psychology staff when the need for suicide watch placement is determined after hours. Psychology staff have been instructed to contact the warden upon receiving said notification. After consultation with the warden, psychology staff will designate whether a staff or inmate companion will be assigned. Psychology staff will in turn inform the Shift Lieutenant of this determination.

As an update, I spoke with the AUSAs. They advised the Court there was no video because the FBI had the DVR (pulled for the 8/10 incident) which went back to the 7/23 attempt. The FBI reported the DVR footage was corrupted as to the 7/23 video and, thus there was no footage. The AUSAs are asking that SIS check to see where Pina preserved the 7/22-23 video to see if that copy is not corrupted. They will be reaching out to her directly.

The AUSAs also want to know where the orange rope from the 7/23 attempt is preserved.

Thanks all,

Good morning all,

Per the above article, the Court was advised by the USAO that MCC did not preserve video from outside the cell shared by [REDACTED] and Epstein at the time of [REDACTED] alleged first suicide attempt. However, per the attached, SIS advised the footage was preserved. What search for the footage was performed prior to advising the USAO the footage could not be found? I would recommend searching again for the missing video. I have a call with the AUSAs in 20 minutes and will advise as to what other issues arose at [REDACTED] hearing.

Thank you,

Thanks. This is helpful. We can talk tomorrow about the timing.

It will also be helpful to get some information about staffing at MCC I've seen additional press reports trying to link the staffing shortages, overtime and this incident.

Thanks,

[REDACTED]

[REDACTED], as discussed, several options are below. Please note that we should discuss timing of all this. I will need to ensure staff are notified first, and I should let my Executive Staff know so they are not taken off guard as they will no doubt get a lot of questions from their staff and other wardens. Also note that the Warden just called [REDACTED] and told him the US Attorney is meeting with him at 10 am tomorrow. So this probably should be some time after that interview.

Preferred:

Today, the Bureau of Prisons placed two staff who work in MCC NY on administrative leave pending the outcome of the investigation into the apparent suicide of Jeffrey Epstein. Additional actions may be taken as the circumstances of the investigations warrant.

A more detailed version of above could read:

Today, the Bureau of Prisons placed on administrative leave the two staff who worked in the Special Housing Unit at MCC NY pending the outcome of the investigation into the apparent suicide of Jeffrey Epstein. Additional actions may be taken as the circumstances of the investigations warrant.

If a third staff member is added either version can be changed to read "three."

If the warden is added, the following is proposed:

The Bureau of Prisons also temporarily reassigned the MCC NY Warden to the Northeast Regional Office pending the outcome of the investigation. FCI Otisville Warden [REDACTED] has been named Acting Warden of the MCC NY.

While I prefer not to state the [REDACTED] name in this release, if you decide it needs to be added, his name is [REDACTED].

Good afternoon all,

I will need the following information to assist the AUSAs in their reply, keeping in mind we will not provide any information about the Epstein investigation as it is ongoing:

- 1) Warden [REDACTED] bio
- 2) Psychology/SHU measures that have been put in place to address suicide watch removal procedures, double celling inmates in SHU, and ensuring staff make their 30 minute rounds
- 3) Increasing staffing
- 4) Inmate numbers (constitutionally supported)
- 5) Language used re sanitation and pest control ([REDACTED] - what did you provide the news media)
- 6) Racial unrest (none that we are aware of, right?)
- 7) How psych interviews are performed in SHU (e.g. are any inmates removed from the cells to talk to psych staff)?

Thank you,

Good afternoon all,

We are assisting the [REDACTED] in an extradition request out of the UK and have to respond to the below points. Most of the response will be that we cannot comment on an open investigation. However, there are points to be made as to some of the statements (new wardens, post orders and training, staffing, inmate numbers, sanitation and pest control, alleged racial unrest, and how psychology staff interview suicide watch inmates). Is anyone aware of stock language Central Office has used to address these inquiries?

Thank you,

Subject: Follow up requests from UK re: extradition

Hi [REDACTED],

I'm sure you're inundated with inquiries right now, so I apologize for adding to your load. You may remember that we had consulted with you and BOP HQ regarding conditions at the MCC and MDC in connection with defendant [REDACTED] [REDACTED] opposition to extradition from the UK. Following Jeffrey [REDACTED] death, [REDACTED] has filed an additional report by former-warden [REDACTED] and attached news articles about the conditions at the MCC.

The attorneys in the UK handling the extradition have asked for our response. They recognize that we may not be able to address all of their questions in light of ongoing investigations, but is there any information we can provide with respect to the following (or could you let us know the proper person/people to talk to)?

- i. With regards to the warden of the MCC and two staff members whom are said to have been reassigned since the death of Mr Epstein, are you able to confirm that their roles have been filled with suitable alternatives? In particular please provide any information about the knowledge and experience of the new warden that you are able to. [page 1, [REDACTED] Report, dated 22 August 2019]
- ii. Is it possible to comment on the decision to take Mr Epstein off suicide watch and whether either, that decision was justified in the circumstances or if considered to be the wrong decision, that new measures are now in place to ensure any mistakes are not repeated. Please detail any new measures on this particular issue now in place if you are able to. [page 2, [REDACTED] Report, dated 22 August 2019]
- iii. Can you provide any explanation as to why Mr Epstein did not have a new inmate sharing his cell in the Special Housing Unit ("SHU") on 9 August 2019 after his other cellmate was

moved? Do you accept that there should have been someone sharing his cell in light of his recent apparent suicide attempt? If so, have any new protocols been put in place to ensure this does not happen again? If you do not accept that this occurred or cannot comment on this directly, what general measures are in place to ensure people who have been moved to the SHU following a suicide attempt share a cell with others where possible? [page 2, ██████████ Report, dated 22 August 2019]

iv. Is it correct that the two correctional officers due to be carrying out half-hourly checks on Mr Epstein did not carry out any check upon him for a period of several hours before he was discovered in his cell and were instead sleeping? If you accept this is correct what steps have been taken, if any, to prevent this occurring in future? If you do not accept that this occurred or cannot comment on this directly, what general measures are in place to monitor those who have been moved to the SHU following a suicide attempt, and how is it ensured that those measures are safely carried out by staff members? [page 2/3, ██████████ Report, dated 22 August 2019]

v. Is it correct that the correctional officers concerned falsified records in regards to the checks they should have carried out? If you accept this is correct what steps have been taken if any to prevent this occurring in future? If you do not accept that this occurred or cannot comment on this directly, what general measures if any are in place to ensure correctional officers do not falsify records and carry out their duties as required with regards to those who have been moved to the SHU following a suicide attempt? [page 3, ██████████ Report, dated 22 August 2019].

vi. Ms ████████, as well as a number of news reports, state that of the two staff members assigned to monitor Mr Epstein, one of them was not usually a corrections officer but rather was employed by the warehouse and had volunteered to work an extra shift. If you accept this is correct, do you consider it to be appropriate to have such staff members carrying out that type of task and if so what measures are in place to ensure they are able to carry out that particular role safely? If you do not accept that this occurred or cannot comment on this directly, what general measures if any are in place to ensure staff members who do not usually work as correctional officers carry out the task of monitoring those who have been moved to the SHU following a suicide attempt in a safe manner? [page 3, ██████████ Report, dated 22 August 2019]

vii. In a news article, it is said that the BOP had tried to address staffing shortages “in part by using a practice called augmentation to temporarily assign employees who aren’t corrections officers to staff posts intended for detention guards”. Do you accept that this occurred at the MCC? If so, is this practice still in place and what general measures if any are in place to ensure staff members who do not usually work as correctional officers are able to safely carry out the work of correctional officers, (for example do they receive special training on security or monitoring prisoners considered to be a suicide risk). [CNN Politics Website, “Union and lawmakers have long warned of ‘dire’ federal prison staffing shortages”, 14 August 2019]

Report of Suicide of High Profile Inmate at MCC New York
Provided by [REDACTED] at the request of
[REDACTED], ABV Solicitors

Jeffrey Epstein, a high profile, pre-trial inmate, Southern District of New York, was found unresponsive in his cell at MCC New York on August 10, 2019, at approximately 6:40 am. A short time later, he was taken to an outside community hospital where he was pronounced dead. His death was ruled been a suicide by hanging following an autopsy which was performed by the New York Medical Examiner. Two investigations, to be conducted by the Federal Bureau of Investigation (FBI), and Office of Inspector General(OIG), were ordered by United States Attorney General (AG), [REDACTED] and are currently ongoing.

At a press conference held on Monday, August 11, 2019, AG [REDACTED] stated, "the Department of Justice is learning about those "deeply concerning" irregularities at the MCC New York. I was appalled - and indeed the whole Department was - and frankly angry to learn of the [REDACTED] failure to adequately secure this prisoner." AG [REDACTED] further commented, "Mr. [REDACTED] death raises serious questions that must be answered." On Tuesday, August 12, 2019, AG [REDACTED] directed the Warden of MCC be reassigned to the Bureau of Prisons Northeast Regional Office and two other MCC employees, who had been assigned to Mr. [REDACTED] housing unit (9-South-Special Housing Unit), were placed on Administrative Leave. A Justice Department spokesperson stated "Additional actions may be taken as the circumstances warrant."

On August 19, 2019, AG [REDACTED] appointed a new Director and new Deputy Director to the Bureau of Prisons. The Acting Director will return to his regular duties. While it is a positive step to have these top positions filled, the concerns within the prisons remain unchanged.

Chronology of Events

July 23, 2019 - Law enforcement sources state Epstein was found unconscious in his jail cell with injuries to his neck. It was not clear if the injuries were self-inflicted as a result of a

suicide attempt or if he had been the victim of an assault. He was placed on Suicide Watch.

July 29, 2019 - Epstein is reportedly removed from Suicide Watch and returned to the Special Housing Unit (SHU), where he is placed with a cellmate. It is common practice to place inmates whose suicide watch has ended in a cell with another inmate, rather than to be housed alone. This provides some measure of safeguard. Termination of a Suicide Watch can only be made by a trained member of the Psychology Department. Dr. [REDACTED], Chief Psychologist, MCC New York, would have been involved in the decision to terminate [REDACTED] July 2019, Suicide Watch. Dr. [REDACTED] provided a Declaration of the Court in the case of [REDACTED]. In this case, because of [REDACTED] notoriety, it would not be uncommon to have several levels of review, to include the [REDACTED] input and possibly officials at a higher level. Details outlining the reasons [REDACTED] Suicide Watch terminated are uncertain. In my experience, inmates are not kept on suicide watch indefinitely. A typical suicide watch would normally last two to four days. If an inmate is persuasive, they can formulate an argument to talk their way off of a suicide watch and manipulate the Psychologist into believing they no longer pose a danger to themselves.

August 9, 2019 - Thousands of documents are unsealed in Court in connection with a defamation case against a woman accused of recruiting underage girls for Epstein. These documents revealed the names of dozens of high-profile individuals who were connected to Epstein. They allegedly indulged in parties with him and flew on his private plane. These documents included allegations of impropriety against several of these "prominent individuals."

At some point on Friday, August 9, 2019, [REDACTED] cellmate was moved to another location or transferred. For reasons the investigators are still exploring, he did not receive a new cellmate. This contradicts usual protocol as Epstein should not have been in his SHU cell alone, having recently been removed from Suicide Watch.

The Washington Post reported in an article published on August 11, 2019, the Correctional Officers assigned that night to the SHU Unit, had not checked on Epstein for several hours before he was found hanging in his cell Saturday morning. This was just

one in a series of missteps in the hours leading up to his death.

The New York Times and Associated Press reported the Correctional Officers slept through the 30-minute required checks and then falsified records to cover that up. They cite their source as Law Enforcement Officials. Surveillance video reviewed following the incident is said to have confirmed this information.

Procedure and Post Orders require Officers to conduct physical checks of all inmates every 30 minutes. It has been reported by several sources that these 30-minute checks were not being conducted by either of the two staff members working that morning shift in SHU unit. Additionally, the Union President of MCC advised both staff were working overtime and one of the individuals did not normally work as a Corrections Officer. It is my understanding from a source who currently is employed at MCC that the second individual assigned to SHU that shift is employed by the Warehouse and he had volunteered to work the overtime on Friday night/Saturday morning in SHU.

The Union President stated that MCC is currently functioning with less than 70 percent of the needed correctional officers, forcing many to work mandatory overtime and 60 to 70 hour work weeks. The Union President went on to say in an interview, "If it wasn't Mr. Epstein, it would have been somebody else because of the conditions at the institution. It wasn't a matter of how it happened or it happening, but it was only a matter of time for it to happen. It was inevitable. Our Staff is severely overworked."

August 9-10, 2019

According to several sources, Correctional Officers assigned to SHU did not check on Epstein for several hours, despite policy requiring physical checks of all SHU inmates every 30 minutes. Both staff were working overtime at the understaffed facility. One of the Officers was mandated to work the overtime and the Warehouse Employee volunteered to work the overtime in the midst of an 80-hour work week.

August 10, 2019

Epstein is found unconscious/unresponsive in his cell. He is later pronounced dead from an apparent suicide. Further it has been reported that Epstein committed suicide by hanging with the use of a bed sheet.

August 11, 2019

The investigations begin and the autopsy is performed. It is anticipated it will be several days before any official information is reported.

Conditions of Confinement at MCC New York

██████████, an Investigative New York Journalist, has extensively covered conditions of confinement at MCC New York over the last several years. Much of what she claims have recently been reported by numerous media outlets. The following excerpts were written by Ms. ██████████ and published August 2019, in the Columbia Journalism Review and June 2018, in the ██████████. Additional excerpts from the June 2018 and August 2019 publications of the ██████████, of former inmates of MCC, Attorneys, Prison Experts, Professors and other sources are also provided in the following section.

August 20, 2019 Columbia Journalism Review - (██████████)

"WHEN I AWOKE LAST SATURDAY to the news of Jeffrey ██████████ death, I realized that the moment had come: the Metropolitan Correctional Center (MCC), the federal prison where he died, was about to get its fifteen minutes of fame. As a freelance investigative reporter who frequently covers the prison system, I'd spent years trying to pitch stories about that facility, often without success. Last summer, I managed to publish an investigation into conditions at the MCC on the website, ██████████. The story documented that MCC was overcrowded and understaffed, plagued by vermin and overflowing toilets, dogged by allegations of corruption and abuse, and beset by an almost total lack of medical care. None of that got much attention at the time. But as soon as news of ██████████ death started circulating, so did my piece."

"There are no advocacy groups focused on improving conditions at federal prisons, in large part because there aren't really any elected officials responsible for safeguarding these institutions. Congress is technically charged with overseeing the Bureau of Prisons, but Congress is busy. And because federal institutions hold individuals from across the country, federal prisoners don't form a natural constituency, or represent a single newspaper readership."

June 19, 2018

"Half a block behind [REDACTED] federal courthouse, two blocks from City Hall, three blocks from the Brooklyn Bridge, and less than a mile from the hustle-and-bustle of Wall Street, sits a detention center that has been condemned by a United Nations human rights expert for exposing its inmates to conditions akin to torture.

While reports of the horrendous conditions on Rikers Island helped spur Mayor Bill de [REDACTED] pledge to shutter the [REDACTED] violence-plagued facilities, far less attention has been paid to the environment inside the Metropolitan Correctional Center, the federal jail which mainly holds people who have been charged but not yet convicted of crimes, who in the eyes of the law are still presumed innocent.

Yet those locked up at the MCC are subject to their own indignities and rights violations, say those who have spent time there on both sides of the bars. These include filthy conditions, vermin infestations, substandard medical care, and violence and abuse at the hands of guards. Interviews with a dozen people who have spent time locked up there as recently as 2017, as well as with attorneys who have represented clients at MCC, human rights groups, and others with direct knowledge of the prison, confirm that those incarcerated at MCC often endure a rat-infested, high-rise hell just yards from the federal courts that send them there.

"I thought there was nowhere worse than Rikers Island," [REDACTED], who spent three weeks at MCC, told [REDACTED]. In October 2016, [REDACTED] was arrested in the Bronx on federal charges for selling drugs to a confidential informant, as part of the largest gang raid in New York City history.

[REDACTED] said the bug and rodent infestation at MCC was particularly horrifying. "The cells [are] very small and at nighttime you hear the mice, see waterbugs in the shower," he told [REDACTED]. At least one former MCC prisoner said the mice would find their way into commissary boxes, and gnaw away at their food.

"You asked about the conditions," wrote [REDACTED], another young man indicted as part of the Bronx gang raid. "We saw rats so big it seemed like they could only be in the sewer."

"But they wasn't in the streets or the sewers," [REDACTED] added.

"They were more like roommates."

In a special jail-within-a-jail called 10 South, alleged terrorists, mobsters and drug kingpins are subject to some of the most brutal conditions of solitary confinement in the nation. This extreme isolation, reserved for those charged with the most heinous crimes, was described as "a punitive measure that is unworthy of the United States as a civilized democracy," according to a former special monitor on torture and punishment for the United Nations who investigated the case of one prisoner held there for three years."

"Hundreds of people indicted in the Southern District of New York, as well as many individuals indicted in the Eastern District, based in [REDACTED] federal court across the river, end up at the jail awaiting trial for federal offenses including drug-related crimes, fraud, bribery, and sex offenses. Defendants facing terrorism charges have spent more than three years at the facility, attorneys say. But even those facing less high-profile charges generally spend at least one or two years there before their criminal cases are resolved."

New York attorney [REDACTED], who has represented clients at the notorious [REDACTED] facility at Guantanamo, says "in some regards, MCC—particularly 10 South — is worse." [REDACTED] said he has represented nearly a dozen people who have served time on 10 South, and countless others in MCC. He describes the prison as "soul-negating."

"[REDACTED] physically, mentally, psychologically, emotionally—as unaccommodating to the idea of being human as any place I've been," [REDACTED] told [REDACTED].

[REDACTED], a New York Attorney who has visited clients at MCC described the institution as "infested with rats and mold." He went on to state, "The Facility is run with a bad combination of laziness and cruelty," citing the Epstein death is one of the results. He describes the Special Housing Unit as "a place where an inmate sits in a box and stares at the wall."

[REDACTED] is a Distinguished Professor of Political

Science at Brooklyn College who has written extensively about conditions at MCC.

"If I described these conditions to you—filthy, freezing, no natural light, isolation so extreme that you're punished for speaking through the walls, absurd rules like prisoners not getting to see the newspapers unless they're 30 days old, secrecy so deep that people are force-fed and lawyers can be punished for describing the conditions their clients are experiencing—you'd be forgiven for thinking that this was Iran or Russia," she said.

"But in fact this gulag exists right here in lower Manhattan."

██████████, a civil rights attorney who has filed several lawsuits challenging conditions at the ████████ two federal jails in New York City, recalled suing the BOP on behalf of a prisoner at MCC who had had his fingertip chopped off by a cell door. Rather than being placed in an ambulance, alleges ████████, the man was chained at his ankles and wrists and brought to the hospital by correctional officers, bleeding profusely.

"I think ████████ a human rights violation," ████████ says of the medical care at MCC. "I think ████████ an Eighth Amendment violation—deliberate indifference."

In the past 15 years, at least one correctional officer at MCC has been convicted of beating an inmate, and at least three guards have been convicted of sexually assaulting inmates. In 2016, a former correctional officer at MCC was sentenced to seven years for raping an inmate. Most recently a former MCC Staff Member was convicted of taking bribes to smuggle food, alcohol and cellphones into the facility.

In a 2011 letter to then-Attorney General ██████████, Amnesty International expressed concern that conditions on 10 South "fall short of international standards for humane treatment" and "appear incompatible with the presumption of innocence." The brutal nature of life on the unit, including its extreme conditions of isolation, were also documented in a 2014 Human

Rights Watch Report, about human rights abuses in US terrorism prosecutions.

During his six-year term as the UN Special Rapporteur for Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, which ended in October 2016, the BOP prevented Juan Méndez from speaking to suspected or convicted terrorists. Méndez was able to investigate the conditions at 10 South by interviewing family members of the incarcerated and contacting the State Department about the allegations. He ultimately determined that international human rights protections had been violated.

While there has been increasing advocacy for reforms to local jail and prison conditions, federal prisons remain a kind of political orphan, a situation compounded in the Trump era. "Rikers is a good example of the power of people in a democracy to hold their elected officials accountable," said ██████, "but in the federal context—federal facilities house people from all around the country, and so ██████ no natural constituency in the state, city, county they're located in" to express concern about ██████ happening on the inside.

As a result, for people locked up at MCC, ██████ little hope that conditions will improve anytime soon.

That could be exactly the way jailers and prosecutors want it. Pre-trial detention, which often lasts years, can become not only unsafe, but coercive; as a result, individuals are pressured to provide information to prosecutors or accept plea deals in their desperation to be released, say former prisoners.

"You want to plead guilty and get out of this dump to a prison," said ██████, the former inmate. "The feds have a 98% conviction rate for a reason," ██████, another former prisoner said. "They mentally break you."

Asked why he thought MCC has received so much less coverage than Rikers, ██████ replied, "I think [MCC] went unnoticed because people think just because ██████ the feds the conditions are better. There are certain things that go on in these places that the government covers so the public would never know."

But for years, MCC has been plagued by filthy conditions, abusive guards, and a severe lack of medical care, as ██████████ documented in an extensive investigation last year. Defense attorneys, former inmates, and others with direct knowledge of conditions at MCC said ██████████ death epitomized how all individuals, even the most infamous people on the planet, are treated in the facility.

██████████ has been working as a federal defense attorney and representing clients at MCC for about 30 years, and described the ██████████ recent condition as "the worst that ██████████ ever been."

██████████ said that one of her clients, a young man, has been in the Special Housing Unit—the unit where Epstein died—for the three and a half years.

"His entire window is covered in mold," she said, and because the hot and cold water in the cell come out of different taps, her client can't even take a shower without getting frozen or scorched.

She recalled that she'd had one client at the facility who was charged with observing and safeguarding suicidal prisoners, since there weren't enough correctional officers to do the job.

"So they have inmates patrolling the suicide block so that they keep an eye on the people rather than people [who] get paid by the government doing it," ██████████ said. "Do they really care? Do they watch? Who knows!"

██████████ described a third client who suffers from mental health issues as well as severe asthma, but has been unable to get the nebulizer treatment she says she needs to control the disease. During one visit, ██████████ said her ██████████ breathing was so labored she couldn't carry on a conversation: "I couldn't talk to her, because she couldn't breathe."

Over the spring, ██████████ was in touch with two women held at the facility, who said they were denied basic medical care, and that their cells routinely flooded with sewage.

"Toilet waste and feces were all over the floors of all the cells, common area, and other departments on the floor and the female inmates were the ones who had to clean it all up without proper equipment," one detainee wrote in a message. The woman, whose name is being withheld at her request out of fear of

retaliation, described how her floormates got feces on "their hands, legs, faces, hair, all over" and said the "difficulty breathing due to the smell was and is indescribable."

██████████ said that it makes little difference to the Correctional Officers at MCC whether an inmate is a billionaire financier or not—everyone is regarded with disdain. "[The prisoners would] be lucky if they were treated like dirt under somebody ██████████ shoe, but they're not even treated that well."

These conditions persist at MCC despite the fact that people held there have not yet been convicted of a crime, and thus are supposed to benefit from the presumption of innocence.

The following excerpt was taken from an article published in the Intercept, February 3, 2019, edition, written by ██████████, an inmate incarcerated in the 10 South Unit of MCC New York.

"AT THE TAIL end of the Obama administration, I was locked up a ██████████ throw away from ██████████" ██████████ at the Federal Bureau of Prisons' infamous Metropolitan Correctional Center, New York, or MCC NY, in downtown Manhattan, where ██████████ is currently being held during his ongoing federal trial. I was there writing and waging a hunger strike when ██████████ first arrived. Much has been written about ██████████ trial, but close to nothing about the conditions of his confinement, as the security around him has made access off limits to any journalist other than me.

I'm an imprisoned human rights activist and political journalist focusing on protecting institutionalized children from common tortures in America like these:

I'm currently suing the Bureau of Prisons and MCC NY for both state and federal civil rights violations, related to the conditions where ██████████ is held, and I'm exploring classaction certification. My lawsuit against MCC NY offers a new and rare glimpse into prison life in the solitary confinement cells that ██████████ has now called home for nearly two years. Besides simply recovering my fees and costs, however, my goals aren't

financial. Instead I'm asking the court to force MCC NY to respect human dignity, the First Amendment, federal regulations, and other human and civil rights."

In a letter written from MCC to officials at the Justice Department, the Federal Bureau of Prisons, and the Office of the Inspector General at the Justice Department, Mr. [REDACTED] calls attention to what he describes as appalling conditions inside the facility.

In his letter, he alleges there are severe threats to health, including rodent and insect infestations at the facility. "Roaches are found in the food, and I have personally observed insect eggs as well," [REDACTED] adds.

He describes how the heat is, for the most part, not functioning during the winter. A number of the cells are in the "50-degree range while others are much colder." Meanwhile, pools of water stand in the facility from leaks and are a "breeding ground for infections."

"The facility itself is trash, with cockroach-infested meal trays and frigid, leaky cells. One inmate resorted to drinking from his toilet when the water was shut off."

[REDACTED] a lot of mystery surrounding the 10-South unit at MCC where [REDACTED] is being housed. Much of that is fueled by the effects of it being a "SAMs" or "special administrative measures" unit. As such, the inmates aren't supposed to come into any visual or other contact with other inmates.

Even magazines they receive in the mail must be prescreened by the FBI for the supposed reason of intercepting hidden messages. Outbound communications are similarly restricted and monitored in real time.

Amnesty International

Amnesty International previously condemned the use of MCC to "house pretrial detainees in solitary confinement for months or even years before they face trial." With regards to the Special Housing Unit at MCC, the human rights organization says "detainees have little access to natural light and no provision for outdoor exercise." Amnesty International characterized

"the combined effects of prolonged confinement to sparse cells with little natural light, no outdoor exercise and extreme social isolation amount[ing] to cruel, inhuman or degrading treatment."

United States Representative [REDACTED] - August 1, 2018 and August 14, 2019

August 1, 2018 - A federal lawmaker is demanding officials running a prison in lower Manhattan detail how long it takes for those in the lockup to get medical care.

[REDACTED]. Rep. [REDACTED] is demanding answers as allegations of abuse continue to surface at the Metropolitan Correctional Center some prisoner advocates have compared to a gulag. "When inmates are placed at the mercy of our government, we have a moral responsibility to ensure they are treated humanely, something which MCC has allegedly failed to do," [REDACTED] said in a statement. "I am asking for a full explanation and immediate steps to ensure the safety of prisoners housed there." On Wednesday, she sent a letter to the Federal Bureau of Prisons citing "alarming conditions" at the prison which houses highprofiled terrorists and drug lord [REDACTED] [REDACTED]. The missive demands the number of violent incidents as well as the time it typically takes for prisoners to receive medical care.

The allegations of abuse, including prisoners forced to wait two months to be seen by a doctor, were first reported in [REDACTED]. Prison advocates have long argued that the facility is more restrictive than the Guantanamo Bay detention camp.

August 14, 2019 - Rep. [REDACTED] on Wednesday joined the growing number of officials calling for a soup-to-nuts investigation into the apparent suicide of accused child sex trafficker Jeffrey Epstein in the federal Metropolitan Correctional Center in Manhattan.

██████████ said she wrote a letter to the Justice ██████████ inspector general and the head of the FBI demanding answers not only about ██████████ death but about what she called other rampant abuses of detainees at the lockup.

"I write to voice concerns about the continued alleged culture of mismanagement and inadequate leadership at this facility," she said. She cited several other incidents at the MCC, in which corrections staff allegedly abused detainees.

Representative ██████████ posted the following on her Facebook Social Media account on August 14, 2019: "MCC is in our District, #NY7. I've been pressing for greater oversight of this institution for many years now!"

"Not only does ██████████ suicide raise questions about how his custody was handled, but it hearkens back to a litany of previous problems we've seen at this facility," ██████████ told The News.

"I'm glad DOJ and FBI are looking into this most recent episode and all of us, including his victims, need to know how Epstein died," she added. "Still, I think ██████████ also needed is a comprehensive review of the culture and management problems at MCC."

Conclusion/Opinions/Observations

MCC New York, like many other Federal Prisons nationwide is overpopulated and understaffed. It is reported the MCC was built to accommodate 474 inmates. On the day of Mr. ██████████ suicide, the ██████████ inmate population count was 763, almost twice the number it was designed to house.

Much talk and attention has been on the staffing shortages. Mainly, as a result of the 2017 Trump Administration Hiring Freeze, the Bureau of Prisons lost 7,300 employees.

MCC New York was recently described by Attorney General ██████████ ██████████ as an institution with "deeply concerning irregularities." AG ██████████ expressed outrage and says he was "appalled and angry" to learn of ██████████ "failure to adequately secure this prisoner." Other sources familiar with current conditions at MCC described it as "deplorable," and "bordering on inhumane treatment."

I personally maintain contact with several individuals who are currently employed with the Bureau of Prisons as well as MCC New York. Three current MCC Staff Members very recently described to me the current sanitation conditions at the facility. One stated, "The facility is so disgusting [REDACTED] like a prison in a third-world country. Cleaning supplies are not issued on a regular basis." The individual further advised, "Pest Control is horrible and ineffective, rats, mice and bugs are everywhere." Another Correctional Officer told me, "There are mice and bugs everywhere including inmates' cells." This information is consistent with my Court testimony on July 3, 2019, and my assessment in Paragraph 20 of my Declaration in the case of Mr. [REDACTED]. Further, it corroborates the many news reports, regarding the "rodent-infested MCC."

On a different, yet equally concerning topic, an MCC Correctional Officer advised me this past week, that there is blatant racial discord within the institution, especially amongst Correctional Officers. I did not witness this when I was Warden at MCC, and my contact advises it began a short time following my departure.

It is my belief that the excerpts I've cited in this report and statements from various sources of the MCC are credible and honest. The Staff have nothing to gain by sharing this information with me other than to express their dissatisfaction and frustration with current practices and conditions at MCC.

In my July 3, 2019, testimony in the London Court for the extradition case of [REDACTED] [REDACTED], I expressed concerns with MCC New York in regards to staff shortages, staff from other departments being "augmented" to fill in for correctional officer vacancies on a regular basis, conditions of confinement at MCC and various other matters related to the institution. I stated in my testimony and also in my Declaration that MCC New York or any other federal prison could not prevent anyone who is persistent from taking their own life. At best, they could only delay an inmate from committing suicide by placing his on a suicide watch. A suicide watch does not continue indefinitely. As previously stated in this report, a usual amount of days for a suicide watch would be two to four days, depending on circumstances. Once the suicide watch ends, that also ends the 24 hours of continuous inmate observation.

If Mr. [REDACTED] is extradited to the United States and housed at MCC or MDC, I am confident his mental health needs, given his propensity to commit self harm, will not be adequately addressed. I am more convinced of this now, following the Epstein suicide, numerous documents and recent information revealed, than I was during my testimony to the Court in July 2019. It appears the current conditions within the prison are extremely dire and certainly far worse than when I was assigned at MCC as Warden.

Numerous individuals have come forward in the last few weeks, including some former Bureau of Prisons' Wardens. They fervently state some serious missteps occurred at the MCC surrounding the death of Mr. Epstein. These individuals have been quick to point fingers and assign blame to top executives, psychology staff and correctional officers. Many are quick to say that Mr. Epstein should not have been removed from Suicide Watch or if he were removed, extra precautions/safeguards should have been in place. Some sources view the actions of staff who were assigned to [REDACTED] Housing Unit, as a blatant indifference to the care and welfare of inmates. Others, including Union Officials, are suggesting the Officers' disregard of conducting the required 30-minute cell checks were justified because of the long hours staff are forced to work, as a result of the institution being so understaffed.

While all of the investigations continue, it is premature to conclude exactly what did occur leading up to the death of Mr. Epstein. What we do know is that several policies were not followed or were simply ignored, several departments within MCC were involved and shortcuts were taken. MCC New York is heavily in the spotlight and under a microscope these past two weeks and likely for the next several weeks. It is my opinion that this only received such widespread attention because of the notoriety of Epstein. Had this been another inmate, less known, who was not a public figure, they likely would not have received media attention.

Once the investigations are concluded, it is probable that several recommendations will be provided. In order to correct problems that exist, one must look at the root of the cause and be willing to fix that also. Only time will tell if any future additional measures put in place will be adequate. If what is being reported by countless sources, is in fact what actually occurred, and staff completely ignored their responsibilities,

no recommendations and no additional measures would have changed the unfortunate outcome of what occurred on August 10, 2019, at the Metropolitan Correctional Center, New York.

The current problems at the MCC cannot, in my opinion, be cured by any quick fix solution. Even with the current spotlight on MCC, and assuming the Bureau of Prisons will put forth their best efforts to eradicate the broken parts, one still must account for human error and agency needs. Staff will continue to work overtime, staff will continue to take shortcuts, staff will continue to be tired on the job and fall asleep. No amount of effort on [REDACTED] part can change that and one can only hope that when these things occur, nothing bad happens. It would take many years to resolve the issues and problems that plague MCC, provided there is a real desire to make changes. This will not give any comfort to Mr [REDACTED] or the U.K Courts as to whether he or his mental health needs will be adequately managed if extradited to the United States.

Jeffrey Epstein jail 'a gulag' in lower Manhattan

12 August 2019

Jeffrey Epstein death

Questions are being asked how Jeffrey Epstein died in custody in New York while being held on sex trafficking charges. So what is the detention facility like where he spent his final days?

Built in 1975, the 12-story Metropolitan Correctional Center in lower Manhattan - where the financier died in a suspected suicide on Friday night - holds around 800 people awaiting trial or sentencing at the federal court house just a few blocks away.

The brick building has detained such high-profile criminals as Mexican drug kingpin [REDACTED], Gambino mafia crime boss John Gotti and World Trade Center bomber Ramzi Yousef.

Like other federal prisons, the Metropolitan Correctional Center (MCC) suffers from shortages of staff and resources, prisoner overcrowding and is plagued by violence and poor sanitary conditions.

The conditions

The jail was built to accommodate 474 inmates, but held 763 male prisoners at the time of [REDACTED] death, according to a statement from the Federal Bureau of Prisons.

Prisoners have described seeing large rats in their cells, air conditioner units so noisy it is impossible to sleep, and absence of any natural light or sanitary water.

As he was sent down for the rest of his life, Mexican drug cartel leader [REDACTED] took the opportunity to call the place "torture".

"Since the government will send me to a jail where my name will not ever be heard again, I take this opportunity to say there was no justice here," he said at his sentencing in July.

"It has been psychological and mental torture 24 hours a day."

Brooklyn College professor Jeanne Theoharis, who has written extensively about MCC, **told the [REDACTED] website in June** that the jail resembles conditions found in countries such as "Iran or Russia".

Calling the place a "gulag", she described conditions as "filthy, freezing, no natural light, isolation so extreme that you're punished for speaking through the walls, absurd rules like prisoners not getting to see the newspapers unless they're 30 days old, secrecy so deep that people are force-fed".

GETTY IMAGES

Lawyer ██████████, who is suing the US government after his client was beaten to death in MCC in 2015, says the ██████████ Island prison, which is run by the city, is much more violent than MCC.

He says ██████ too early to know whether ██████████ wealth may have played a role in his death, amid speculation in the US that he could have bribed guards to be left alone.

He notes that other ultra-rich white collar criminals from Wall Street, only blocks away, are frequent guests of MCC, including Bernie Madoff who was arrested in 2008 for running a multi-million dollar Ponzi scheme.

Mr ██████ says that more important than a ██████████ profile or means is the crime itself and the publicity it receives in the media. Sex criminals like Epstein, he says, are more likely to face issues from other inmates, making it unusual that Epstein was not being more closely watched.

The staffing

A representative for workers at the jail told CBS News in New York that the Epstein death is not surprising. Staffing, the representative says, is "completely inadequate", with many workers putting in more than 60 hours per week leaving them "overwhelmed" and "not alert".

According to the Associated Press (AP), the jail is so under-staffed that correctional officers are being offered a \$10,000 bonus to transfer there from other facilities.

Guards sometimes work 16 hours a day, **according to the AP**. A person familiar with the Epstein case told the news agency that a guard overseeing Epstein was working a fifth straight day of overtime - and another was working mandatory overtime - on the day the wealthy ██████ body was found.

Staff shortages were worsened after a government shutdown triggered by a budget stand-off between the White House and Democrats over President Donald ██████ insistence on funding for a southern border wall.

In January, during the shutdown, inmates staged a hunger strike over claims they were being denied family visitation rights.

The Bureau of Prisons is already under scrutiny for the death of Boston gangster James Whitey Bulger, who was fatally beaten by another inmate shortly after arriving at a West Virginia lock-up last October.

In February 2018, a British court ruled against extraditing accused hacker Lauri Love - who is diagnosed with Aspergers syndrome and would have probably been held in the MCC - on the grounds that he would present a high-risk of suicide if he was sent there.

Where Epstein stayed

According to the New York Times, Epstein had recently been moved from suicide watch to the Special Housing Unit where he was meant to be on 24-hour monitoring and given daily

psychiatric evaluations.

He was ordered there after he was found on the floor of his cell two weeks earlier with neck injuries, in an apparent attempted suicide.

According to the paper, two guards were meant to check on him every 30 minutes, but those procedures were not followed on the night of his death.

He was also meant to be housed with one other inmate, but his cellmate had reportedly been transferred and no replacement had yet arrived.

REUTERS

Mr [REDACTED], the lawyer, says CCTV captures what goes on in the Special Housing Unit, as well as for those prisoners being kept on suicide watch.

He says [REDACTED] too early to know what contributed to [REDACTED] death, until an FBI investigation is complete, but either way the prison is facing a "grossly negligent situation".

Investigative reporter [REDACTED], who spent a year researching the conditions at MCC, found that the facility shared a single psychiatrist with the other federal prison in New York, the Metropolitan Detention Center in Brooklyn, and only had a handful of psychologists on staff.

The two facilities had only one psychiatrist to oversee the more than 500 prisoners with diagnosed serious mental illnesses, she says, in addition to any prisoners that have been temporarily placed on suicide watch.

"When you're on suicide watch and a psychologist comes to speak with you, [REDACTED] not as though you're in a private room having a conversation. [REDACTED] like through a slot in the door," she tells BBC News.

REUTERS

Experts on prison safety say they are puzzled as to why Epstein, who had attempted to take his own life earlier, was not kept under closer watch.

Cameron Lindsey, a former warden at the federal jail in Brooklyn, told the Times that the psychological evaluation can only reveal so much about a [REDACTED] state of mind.

He said that the steady release of embarrassing and incriminating evidence against Epstein could have made him wish to kill himself, and that other prisoners would consider him a target due to his fame and the nature of his alleged crimes.

"A psychologist is going to think one way, but a warden needs to think a different way," said Mr Lindsey. "You have to take the conservative, safe route and keep an individual like this on suicide watch."

Union and lawmakers have long warned of 'dire' federal prison staffing shortages

By Evan Perez, Mark Morales and Kara Scannell, CNN

██████: Appalled and angry over failures to secure Epstein 00:45

(CNN) — Staffing shortages at the Bureau of Prisons are dire and widespread, according to agency employees and lawmakers who say they've been warning the Justice Department about the problem and demanding changes for years.

Attorney General ██████ has launched investigations into Jeffrey ██████ death. But earlier this year, he referred to delays in hiring new people at the Bureau of Prisons as a "snafu" caused by bureaucracy in the federal prison system.

██████ suicide has exposed what the employee union says are chronically overworked and short-staffed conditions at the Metropolitan Correction Center in Manhattan, including forced overtime and officers reassigned to guard duty.

A key US Senate committee has also repeatedly told the Justice Department to hire full-time correctional staff and end an "overreliance" on the type of reassignments that have existed in the MCC and elsewhere.

The Justice Department said Tuesday that it was reassigning the warden at the MCC and it was suspending two guards at the facility. The department didn't identify the guards or say whether they were the ones on duty and assigned to monitor Epstein when he died.

Days after ██████ death, BOP officials and FBI investigators are still piecing together even basic details of the incident such as how he was found and how long he was dead before an employee found him, people briefed on the matter said. Some employees have refused to cooperate with investigators and have hired lawyers, people briefed on the matter said.

There were cameras with a view of the hallway outside [REDACTED] cell but whether they showed anything or were operational -- and if not, why -- remain in question. That some basic details aren't clear suggests that whatever video exists doesn't show what happened.

A BOP suicide reconstruction team began working Tuesday to try to determine why Epstein killed himself. A BOP after action team, which looks into major incidents, is slated to arrive Wednesday to begin its work. That team is led by [REDACTED] southeast regional director and will bring in others from outside the northeast to review the Epstein case.

Two MCC guards were on duty and responsible for checking on Epstein every 30 minutes -- checks that weren't made for hours.

Of the two officers who would have had responsibility to monitor Epstein, one is not currently a detention guard, but was temporarily reassigned to that post, according to a person briefed on the matter. The guard, a man not identified by officials, had previously been trained as a corrections officer but had moved to another position. BOP rules allow for people who work in other jobs, such as teachers and cooks, to be trained to fill in at posts usually manned by corrections officers.

The second guard on Epstein duty, a woman, was a fully trained corrections officer, according to the person briefed on

CNN politics

Eric Young, national president of the American Federation of Government Employees, Council of Prison Locals, which represents BOP employees, says a hiring freeze put in place at the start of President Donald [REDACTED] presidency is the root of nationwide problems at federal prisons.

He called the situation "dire," with decreased staffing levels the root cause of issues from contraband getting in to safety of correctional workers and inmates.

AFGE represents workers at 122 facilities nationwide and BOP employs roughly 33,000, according to Young. That number was once at 38,000 workers but after the Trump hiring freeze, the problem was never fixed.

The Justice Department says [REDACTED] lifted the freeze in April and that BOP has been recruiting to fill positions. It typically takes months to bring on new federal employees.

"We felt betrayed," Young said of the hiring freeze. "Mr. President, we work for you. You say you're a law and order president and we thought we were going to reap the benefits of that, but we didn't."

In addition, more vacancies could soon be on the way; Young says an estimated 5,000 people are eligible for retirement at the end of the year.

A Justice official says the [REDACTED] hiring freeze applied to positions in BOP regional offices and at the [REDACTED] headquarters, not to prison facilities. The official said the [REDACTED] hiring practices -- filling positions one at a time -- caused delays in hiring. The bureau also faced staff losses from retirements. [REDACTED] in April ordered the bureau to speed up hiring by filling open positions concurrently.

The Justice official also disputed perceptions that BOP faced a Trump budget squeeze. [REDACTED] budget increased from nearly \$6.8 billion in the 2014 fiscal year to \$7.25 billion in fiscal 2019.

At the same time, employee and inmate numbers decreased. Prisoner releases have accelerated as a result of criminal justice revisions in the Obama and Trump administrations.

The bureau had 38,496 employees in 2014, compared with 35,123 in fiscal 2018.

BOP held 214,149 prisoners in 2014, compared with 181,698 in 2018.

How Jeffrey ██████ death became a political football 05:34

Bonuses, augmentation

To combat the drop in workers, BOP officials have been offering a retention bonus, which gives workers a 5% bonus if they decide to stay instead of retiring, Young said. They also have allowed retired correctional officers to come back on a part-time basis to ease the staffing issues at hard-to-staff prisons, Young said. The agency also approved the addition of 3,000 temporary positions for entry level workers.

Officials also offered workers a 10% relocation bonus if they opted to work at facilities that are hard to staff like MCC in New York, Hazelton in West Virginia, the Metropolitan Detention Center in Los Angeles and others. Part of the relocation agreement is for staffers to stay at the facility for at least two years.

Young draws the correlation of fewer guards to safety, saying the problem came to a head early Saturday morning in New York.

"Time was not on our side before Epstein killed himself," Young said. "We were on the right course of hiring but we just couldn't do it fast enough. We were stalemated by Trump."

The BOP has tried to address staffing shortages in part by using a practice called augmentation to temporarily assign employees who aren't corrections officers to staff posts intended for detention guards.

In October, four senators led by Democrat Joe Manchin of West Virginia, wrote a letter to then-Attorney General Jeff Sessions expressing their "deep concerns" about the use of augmentation and staffing levels at federal prisons in Pennsylvania and West Virginia following the deaths of a correctional officer and inmates.

"We cannot allow these dangerous staffing practices to continue," the senators wrote.

They noted that twice when approving ██████ budget, a Senate committee had issued a report that "included clear directions" to the Justice Department to stop "its overreliance on augmentation" in favor of hiring full-time correctional staff.

Four days later, James "Whitey" Bulger, the Boston mob boss was brutally beaten and killed at the federal prison in Hazelton.

Last June, the Senate Appropriations Committee reiterated its demand.

"The Committee again directs BOP to curtail its overreliance on augmentation, particularly in housing units" the ██████ report said. "BOP should instead hire additional full-time correctional staff before continuing to augment existing staff."

A February 2018 letter from 52 members of Congress was sent to Sessions asking him to reconsider eliminating 6,000 unfilled positions at federal prisons nationwide. "Augmentation was designed as a temporary solution to short-term staffing conflicts, not a long-term solution to respond to budget pressure," the lawmakers said.

Soon after ██████ took office this year, he acknowledged to lawmakers that the Justice Department had "stumbled" in addressing the problem. In testimony before the Senate Appropriations Committee in April, he called the staffing shortages at prison facilities a "snafu" and blamed bureaucracy within the prison hiring system, not the hiring freeze.

"The shortages out in the prison facilities themselves was not the freeze." ██████ said. "I think what it is is, frankly,

██████ said he believes the agency begins the process of hiring a new person into a position vacated by internal job shifts too late.

"It takes months and months and months to get that person on board. That makes no sense because every year we lose 2,600 of these correctional officers. So my view is we just have to turn on the spigot and keep these new entry level people coming in at a rate where we're going to be able to get up to and maintain our enacted level," ██████ said.

"I think this is largely a snafu by the department and ██████ how I interpret it and ██████ how I'm approaching it," he added.

As an update, I spoke with the AUSAs. They advised the Court there was no video because the FBI had the DVR (pulled for the 8/10 incident) which went back to the 7/23 attempt. The FBI reported the DVR footage was corrupted as to the 7/23 video and, thus there was no footage. The AUSAs are asking that SIS check to see where Pina preserved the 7/22-23 video to see if that copy is not corrupted. They will be reaching out to her directly.

The AUSAs also want to know where the orange rope from the 7/23 attempt is preserved.

Good morning all,

Per the above article, the Court was advised by the USAO that MCC did not preserve video from outside the cell shared by [REDACTED] and Epstein at the time of [REDACTED] alleged first suicide attempt. However, per the attached, SIS advised the footage was preserved. What search for the footage was performed prior to advising the USAO the footage could not be found? I would recommend searching again for the missing video. I have a call with the AUSAs in 20 minutes and will advise as to what other issues arose at [REDACTED] hearing.

As an update, I spoke with the AUSAs. They advised the Court there was no video because the FBI had the DVR (pulled for the 8/10 incident) which went back to the 7/23 attempt. The FBI reported the DVR footage was corrupted as to the 7/23 video and, thus there was no footage. The AUSAs are asking that SIS check to see where Pina preserved the 7/22-23 video to see if that copy is not corrupted. They will be reaching out to her directly.

The AUSAs also want to know where the orange rope from the 7/23 attempt is preserved.

Thanks all,

Good morning all,

Per the above article, the Court was advised by the USAO that MCC did not preserve video from outside the cell shared by [REDACTED] and Epstein at the time of [REDACTED] alleged first suicide attempt. However, per the attached, SIS advised the footage was preserved. What search for the footage was performed prior to advising the USAO the footage could not be found? I would recommend searching again for the missing video. I have a call with the AUSAs in 20 minutes and will advise as to what other issues arose at [REDACTED] hearing.

Thank you,

[REDACTED] - NY DAILY NEWS

Questions & Proposed Responses:

Hello, I'm working on a story about morale at MCC in Manhattan in the wake of charges against [REDACTED] and Michael [REDACTED]. I've spoken to an AFGU union official and [REDACTED] defense attorney. The story will run over the weekend so I'd appreciate a response by COB today.

The thrust of the story is that morale has plummeted at the facility in the wake of the falsification of documents charges. Morale was already bad because of staffing issues. The story will also note that the facility itself is in very bad shape and that, according to people I spoke to, there has not been a hiring surge or any major reforms in the wake of Jeffrey [REDACTED] suicide.

(1) Has any money been allocated for improving MCC as a facility since [REDACTED] death?

RESPONSE: Yes, examples include money for staff positions at MCC New York (are we saying we are adding staff positions in the future or have already added them and already hired new staff now working there after [REDACTED] death) and overtime work performed at MCC New York by staff on temporary assignment from other Bureau of Prisons correctional institutions. The BOP has expended over \$500,000 bringing staff to MCC New York from other facilities (since Epstein?).

MCC New York has spent approximately 2.6 million in infrastructure repairs since March 2019 and continues to make appropriate enhancements and repairs thought the facility.

(2) Has there been a hiring surge since [REDACTED] suicide?

RESPONSE: 21 staff have been hired since inmate [REDACTED] death. (I may need to confirm with Central [REDACTED] HRM)

(3) Any changes in BOP policies following [REDACTED] suicide?

RESPONSE: [REDACTED] will get more info to supplement this: There have been a number of policy changes implemented under a "back to basics" approach in recent months. MCC NY has made several changes and implementing managerial oversight pertaining to inmate accountability. This includes reviewing restrictive housing (SHU) video footage to ensure rounds are conducted timely and accurately, lieutenants conducting counts in (SHU) on morning watch, staff conducting single cell reports for inmates housed alone in cells, and mandatory notification to the warden for review of inmates placed on suicide watch. In addition daily bed book audits supervised by Executive Staff.

(4) Is it correct that [REDACTED] and [REDACTED] were responsible for roughly 50 to 70 inmates the night of the suicide?

RESPONSE: The BOP does not comment on matters related to investigations or pending litigation.

(5) What is the attrition rate for BOP correctional officers? [REDACTED] the average length of time a person stays in the job? (NYC-area would be best if [REDACTED] available.)

RESPONSE: [REDACTED] is checking to see if HRM can answer this; if not, then we could say the following: Some staff have been working at MCC New York for 30 years. However the average staff member assigned to MCC NY has 11.5 years with the agency.

(6) Can you share anything supervisors at MCC have told the rank and file in the wake of these charges? [REDACTED] the message to overworked, disgruntled correctional officers?

RESPONSE: MCC New York Executive staff have been transparent with staff pertaining to staffing levels and its progress on hiring. Management has worked with the local union representatives and held a recruitment fair which was held in August to recruit Correctional Officers. The Executive staff has held staff recalls and meetings emphasizing that the [REDACTED] leadership understands [REDACTED] concerns and is doing the best to increase staffing levels. Staff have been told and regularly see the many staff who are assigned temporarily to MCC New York from all over the country to assist with shortages in multiple departments at MCC New York from correctional services, food service, safety, education, psychology, medical mechanical services, As new positions post and staff see temporary staff coming in to alleviate the burdens of overtime work, the morale at MCC NY is improving.

Hi Deputy [REDACTED],

Thanks again for speaking with us yesterday. While we wait for the medical summary from the UK, I've attached a report from an expert hired by [REDACTED] attorneys, which outlines the following conditions:

- High cholesterol (takes Simvastatin)
- Hypertension (takes Amlodipine)
- Blood tests suggest Mottiwala is pre-diabetic
- Takes aspirin to prevent blood clots
- Fatty deposits on liver, due to alcohol consumption
- History of depression, including at least two overdoses (Diazepam)
- Taking Sertraline for depression (previously took Mirtazapine)
- Suicidal thoughts (scored 47 of Beck Depression Inventory)
- Anxiety disorder
- Scored 59 on Impact of Events Scale-Revised, suggestive of a diagnosis of PTSD

Thanks,

Psychiatric Court Report
(In Confidence)

Name	[REDACTED]
Prison number	A5973EF
URN Number	86SX2789218
Date of birth	6 November 1966 (aged 52)
Date of report	25 June 2019

Introduction

1. I prepare this report at the request of The Crown Prosecution Service. I am a medical practitioner, employed by The South London & Maudsley NHS Foundation Trust and work as Consultant Forensic Psychiatrist. I am approved under Section 12(2) of The Mental Health Act 1983 (2007 amended).
2. I have been a qualified medical practitioner since 1988 and a consultant psychiatrist since 1998. Until April 2015, I worked for around 19 years' full time at HMP Belmarsh. In that time, I assessed and examined around two thousand defendants charged with homicide and thousands of prisoners charged with other offences. I have extensive experience as an expert witness in both preparing medicolegal reports and attending court. For around two decades I have been regularly instructed by courts, defence, Government Legal, Treasury Solicitors and The Crown Prosecution Service on a range of criminal cases but especially cases such as homicide, terrorism and other serious and high-profile offences. This includes giving evidence on mental health issues such as fitness to plead, diminished responsibility, insanity and sentencing with appearances at The Magistrates Court, The Crown Court, Coroners Court and The High Court/Court of Appeal.
3. I also undertake regular work on civil cases and prison related issues. I have been asked to prepare reports The Ministry of Justice, The Department of Health and other government departments. I have been asked to prepare reports for coroners, The Treasury Solicitors on deaths in custody and on near deaths under Article 2 – this includes the D inquiry. I have been asked by the Department of Health and The Prison Service to review several prison related issues. I am now the clinical lead for Criminal Justice Liaison and Diversion Services for The South London & Maudsley NHS Foundation Trust. I provide services at Camberwell Green Magistrates Court, Croydon Magistrates Court and various police stations in South London. I was in the past clinical lead for three other court liaison and diversion services in South London. For three years, I worked one day a week at The Central Criminal Court, where I gave advice and helped challenging cases through the court. I am well respected and in good standing within courts across London and known to Judges, solicitors and counsel at all levels.

4. My areas of specialism and expertise are in mental health services in prisons, Forensic psychiatry, general adult psychiatry, substance misuse and neurodevelopmental psychiatry.
5. To prepare this report I have used as a basis an interview with Mr [REDACTED] on 20 June 2019 and the following:
 - Statements and depositions surrounding the index offence.
 - A list of previous convictions
 - Copies of medical records from HMP Wandsworth
 - Family medical records from Pakistan
 - Medical records of Mr [REDACTED] from Pakistan
 - Psychiatric reports prepared by Professor [REDACTED], Emeritus Professor of Neuropsychiatry dated 16 May 2019 and 22 June 2019
 - Supplementary documents (see appendix)
6. I understand that Mr [REDACTED] is charged with conspiracy to launder money and conspiracy to collect credit extension by extortionate means and is sought for extradition to the United States of America for trial

Background

7. I went through with Mr [REDACTED] the background history provided by Professor [REDACTED] to confirm this was correct. Thus, he confirmed that his father Mr [REDACTED] Moti died in 2011 at the age of 70 from congestive cardiac failure following a myocardial infarction and stroke. Prior to this his father had suffered from high blood pressure, diabetes as well as depression and anxiety with the comment from Mr [REDACTED] that he believed his father had seen a psychiatrist and suffered from asthma. He had been close to his father and said that they shared a business and had commented that his parents lived separate lives as his father was often travelling. He commented that his mother was more of a housewife with little in the way of education.
8. His mother, [REDACTED] is aged 78 and lives in Karachi; she had been his first wife and lives with Mr [REDACTED] and his second wife. There is reference in the report of Professor [REDACTED] that she had recently had a silent heart attack and in the past a cardiac angioplasty with the comment that she suffered from high blood pressure and diabetes. He added when I saw her that her heart showed 30% efficiency. She also had seen a psychiatrist for depression in the past and he reported a good relationship with her. He said, *'she is everything to me, sacrificed for me.'* He told me that he speaks to her each day on the phone and said that she often cries.
9. He has an older brother and a sister; his brother, [REDACTED] is 53 and involved in the family business. Of this he told me that it involved stocks and shares and had been running as such since 1953 and explained that it was founded by his grandfather, which his father

then took over. His brother is married with three children and suffers from depression and potentially had seen a psychiatrist in the past and Mr [REDACTED] commented, 'due to the pressure'. His sister, [REDACTED] is 54 and separated from her husband but had four children. He said that one child had encephalitis and died in 2013. As with others in the family, she suffered from high blood pressure, diabetes and depression – for the latter she has seen a psychiatrist and was on anti-depressants.

10. He was born and grew up in Karachi and had a comfortable and affluent lifestyle; he was close to both parents but saw more his mother as his father was often travelling. There is no reported history of any traumas or abusive experiences as a child.
11. He attended a primary and private missionary secondary school; he found school reasonable but was quiet and academic, though played sports and in various teams. He took his matriculation and then higher examinations with the latter in science and pre-medical subjects.
12. After leaving school at 18 he went to Hyderabad Dental College for 3 years out of a 4-year course and had at the same time being continuing with his own business which ultimately led him to leave college and prioritise his business and family interests. He had told Professor [REDACTED] that he had dealt in stocks and shares from the age of 15/16 and not particularly interested in dental work.
13. From 1988 to 1995 he worked abroad and introduced private clients to companies such as Merrill Lynch for which he received a commission. He later developed an office in Hong Kong and in 1995 set up a factory in Dubai making insulation for air conditioning units and retained a residence there from around 1989.
14. In 1997 he stood for election in Pakistan but lost by a small margin and had told Professor [REDACTED] that he did not like the political way of life and explained that there was a lot of corruption and so left politics to return to business in 1998. He had outlined that his business developed into Real Estate in both Pakistan and Dubai. He said that he was involved in development and buying and selling whilst making commissions. He said that he made good money and lived comfortably but had a lot of people to support and later told me that he had limited savings. I asked what he did for pleasure and he said this was mainly going to casinos, restaurants, time with the family, the beach and so forth.
15. He divides his time between Dubai and Karachi with usually two periods of 5 days each month in Dubai but also has travelled extensively and outlined the various countries he had been in such as Cyprus before he came to the UK at the time of his arrest. He said that he works 16 to 18 hours a day and from the moment he wakes up to when he goes to sleep; he said that he works 365 days a week. He said that the only break is when he travels adding that the stress is too much. He told me that he likes the work but also is bound/tied to it and due to the family complexities, he must keep going. He said that his

brother works in the business for his own family but also his three families and his sister and other in-laws connected to his second wife.

16. He had first come to the UK in July 1981 with his father and then several subsequent short breaks and said that these were mainly pleasure. He had been to the USA twice; once in 1986 for 6 months and the second occasion was in 2011 for only a few days whilst visiting London and visiting a friend in Atlantic city.
17. When he was arrested, he had been in the UK for an 8-day holiday and was due to fly back to Pakistan two days later and for the festival of Eid.
18. He was first married to ██████ (now 47) in 1996 through a Moslem ceremony and civil registration with reports from Mr ██████ that it was a love marriage but precipitated when she became pregnant. He has reported that the relationship developed more into a friendship and described her as not well educated. The two have a son, ██████ who is currently a college student and taking his higher school exams. He has said that his son has had problems with substance misuse and has led to two periods in rehab. Differences in how to bring up their son had led to difficulties between Mr ██████ and his wife. The two live in one of his homes in Karachi and he would visit them regularly when he was in Pakistan.
19. He was next married to ██████ (now 36) in 2004 and once more through a Moslem ceremony and civil registration; again, he said this was a love marriage. He and ██████ had two children, ██████ (son) aged 12 and ██████ (daughter) aged 8 with the comment that his son has congenital hydrocephalus and had a shunt to relieve the CSF pressure. At the time of his arrest he had come to the UK with his ██████ medical documents to seek a second opinion.
20. He also has a third wife, ██████ who he developed a relationship with whilst married to ██████ with Mr ██████ commenting that he now has three wives and remains married to all. ██████ had been an air hostess with Pakistan International Airlines. They have two children, ██████ aged 2 (daughter) and Hadi (son) aged 8 months adding that he travelled shortly after his birth and saw him for only 1 hour. His third wife also lives in Pakistan and he had reportedly visited all wives each day and would spend some time with each with reports that he employs around 40 to 50 people who look after his families. He told me that family is very important to him

Past psychiatric history – account from Mr ██████

21. Mr ██████ told me that his mental health difficulties became apparent in 1991 when his business was booming, and he was introducing clients to large firms and working as an agent/worker to various major companies. There was a jolt in the market, and he suffered a financial blow and a loss of respect within the community he was working in. He informed me of the concept of Memon and added, '*the Jews of the East*' and how in his

position, it meant that he had to fulfil financial commitments despite the hardship on himself. He said that he had been taught to be dedicated by his father and for example would always be early at [REDACTED] homes and even before they woke up.

22. At that time, he felt low in mood and did not want to see anyone and began to isolate himself; he also experienced anxiety and had less self-respect. He said that for 6 months he had thoughts of taking his own life and isolated himself and can recall being in a room the whole day, sneaking out at night. He eventually managed to fulfil his commitments and over time turn things around through loans and small commissions. He said that he went to see a psychiatrist but only went on perhaps one or two occasions and was put on a tranquilliser adding that he was suffering from insomnia.
23. He said that he had problems on and off until 2008, when there was a big market crash and at the same time problems with his wife and [REDACTED] adding that his wife did not let him see him due to having a second wife. He said that financial problems also occurred, and his father had a stroke. He felt under considerable stress. He said that the world around him began to fall apart and this then impacted on his health. He commented that he was already suffering from hypertension. He told me he went to see a psychiatrist and was put on an anti-depressant and propped up by motivation from his second wife.
24. He reported that his mood was low from 2008 until today. He said that he had periods when his mood is better and more in control. He said that this is partly the reason why he would take short breaks to help him relax. He commented that he has never been out of his home country (Pakistan) for more than 15 days in his life. He said that he has been on an anti-depressant since 2008.
25. He told me that he would see a psychiatrist intermittently and occasional follow ups such as every 6 months but would go more often if he felt worse.
26. He told me that there were in fact 3 overdoses in 2008, 2011 (following his [REDACTED] death) and 2015. He said that on each occasion he had taken an overdose of medication combined with alcohol. He told me *'of course I wanted to die'* when I asked if he had intended to take his own life. He said that in 2011, he had been with Malia and who took him to the hospital and on the last occasion, he had been drinking a bottle of spirits and added that he had regular blackouts.
27. Mr [REDACTED] also has a range of physical health issues and told me that he has some blockages within his coronary arteries and said that he also has a fatty liver which he thought was partly related to alcohol.
28. He told me that in the UK he was on a statin and a blood thinner (aspirin); he was also on medication for his blood pressure. He was on Olanzapine and Mirtazapine. He said that he was not at the time of his arrest taking the anti-depressant and said that he had felt

better. I asked why he was taking an anti-psychotic and he said that this was prescribed in Karachi.

Past psychiatric history – account from records

29. I have read through previous records and the summary from Professor [REDACTED], including the recent report which summarises the witness statement of Dr [REDACTED], Consultant Psychiatrist at the Rahim Hospital in Karachi. In that report Dr [REDACTED] states that he had agreed with the report and opinion of Professor [REDACTED]. Dr [REDACTED] was surprised to hear that Mr [REDACTED] was in prison and went on to say that he had seen Mr [REDACTED] around 20 times since 2008 and that he was severely depressed and a suicide risk adding that he had tried to take his life on at least 3 previous occasions. Professor [REDACTED] also outlines some handwritten notes from Dr [REDACTED] which I have amalgamated into my report.
30. Professor [REDACTED] has also spoken to Dr [REDACTED] on the telephone and again re-iterated that Mr [REDACTED] is suffering from severe depression and anxiety. He said that Mr [REDACTED] was sometimes non compliant with treatment and financial crises and domestic issues had led to the suicide attempts; additionally he commented that his alcohol intake had increased over time. After outlining symptoms, he believed that Mr [REDACTED] would deteriorate if extradited and prone to get depressed if he did not see his son with the comment that he had talked about cutting his wrists. He was certain that he would attempt suicide if he was extradited.

2008

31. On 10 July 2008 he presented with some physical health complaints including shortness of breath, abdominal pain and palpitations; this led to various investigations and the following day had an exercise stress test which had to be stopped. A resting ECG was normal as was an ultrasound though some fatty changes to his liver was seen.
32. On 3 September 2008 he was discharged from hospital following an overdose of prescribed medication; at that he had been on Haloperidol (5mg TDS), procyclidine and ranitidine. He was given a stomach wash out and admitted for observation and discharged the following day. It was planned that he would have psychiatric follow up. The hand written notes from Dr [REDACTED] outlined that he had seen him for the first time that year having been referred through the department of medicine following a suicide attempt after some heavy business losses. He was agitated with negative thoughts and was diagnosed with depression and anxiety.

2009

33. On 21 February 2009 he complained of abdominal pain, loss of appetite and weight loss. The hand written notes from Dr [REDACTED] outlined that he saw Mr [REDACTED] on 10 March 2009

when he was agitated but had insight; he continued to complain of conflicts at home, poor sleep, aches and palpitation. Dr [REDACTED] saw him again on 20 September of the same year when he was again severely depressed due to family problems.

2010

34. The hand written notes from Dr [REDACTED] outlined that on 28 March 2010, Mr [REDACTED] admitted to frequent suicidal thoughts partly due to marital problems; he had become more agitated and only able to sleep for 3.5 hours at a time. He continued to complain of mood swings; his previous treatment was continued. On 1 July 2010, he presented with heartburn, abdominal pain and pain on passing urine. On 5 July 2010, his cholesterol was found to be raised. Dr [REDACTED] saw Mr [REDACTED] again that year on 30 September 2010 when he once more had negative thoughts but also an inability to control his anger and the comment that he was frequently shouting at family members. His alcohol and smoking had increased and he once more had body aches and frequency of passing urine.

2011

35. The hand written notes from Dr [REDACTED] outlined that he was seen on 20 March 2011 when again he was severely depressed and following the death of his nephew. He had been intoxicated at his funeral; he was non compliant with medication. Dr [REDACTED] saw him again that year on 6 September following an overdose of drugs and alcohol. It was seen as an impulsive overdose and was in denial and again conflict with the family was noted. His father had also died and he was suffering from poor sleep.

2012

36. The hand written notes from Dr [REDACTED] outlined that he saw Mr [REDACTED] on 9 September when again he had poor sleep and ongoing family problems. He was still drinking and remained concerned about his son. Further mood swings and aggression was noted on 14 October 2012; Mr [REDACTED] said that the medication was not helping and had had a manic episode when he almost slapped his wife. His Haloperidol (an anti-psychotic) was increased to 5mg three times daily.

2013

37. The hand written notes from Dr [REDACTED] outlined that Mr [REDACTED] was seen on 16 April when he blamed his family for his aggression and negativity. He was compliant with his medication. On 19 July 2013, he presented with gastric disturbance, abdominal pain, nausea and vomiting. On 24 July 2013 his liver function tests were abnormal in the form of a raised gamma GT as well as raised cholesterol and other lipid function tests. He saw Dr [REDACTED] next on 20 October 2013 when he was noted to be '*severely depressed, doesn't respond to simple questions...has little or no interest in interacting with people.*' He said that everyone made him agitated and continued to have problems with his family.

2014

38. The hand written notes from Dr [REDACTED] outlined that Mr [REDACTED] was seen on 5 April 2014 when he asked for his medication to be increased; family fights remained an issue and also had concern about his [REDACTED] drug habit. He had difficulties in controlling his impulsivity (I believe to alcohol). Dr [REDACTED] saw him on 12 December 2014 when he remained depressed and was avoiding his family.

2015

39. On 6 June 2015, Mr [REDACTED] was admitted following a drug overdose (with reports he had been on haloperidol, olanzapine, haloperidol, clonazepam and omeprazole) and again given a washout. He was found to be confused, agitated and aggressive. He was prescribed haloperidol intravenously and admitted for observation. On 6 July 2015 he saw Dr [REDACTED] and once more complained of depression and anxiety; the overdose of benzodiazepenes was noted. He was admitted for observation but refused to talk about his family. His alcohol intake had increased and he was suffering from palpitations.

2016

40. The hand written notes from Dr [REDACTED] outlined that Mr [REDACTED] was seen on 15 February 2016 when again he had symptoms of depression, anxiety, palpitations, insomnia and chest pain. On 25 June 2016 he again presented with frequency of micturition, weakness, joint pain and palpitation. A history of depression and anxiety was noted. On 29 June 2016 he was investigated for diabetes and showed an elevated blood glucose. On 31 October 2016 he saw a psychiatrist, Dr [REDACTED] [REDACTED] who noted that he had depression, high blood pressure and cholesterol. It was noted that he had shortness of breath on exertion as well as palpitations and chest pain on his left side.
41. Following a referral to see a cardiologist, he had a further exercise stress test on 4 November 2016 and again had to be terminated due to shortness of breath and fatigue. An ECG and echocardiogram were completed, the latter showed a mild concentric hypertrophy of his left ventricle.

2017

42. On 12 September 2017, Mr [REDACTED] reported heartburn and epigastric pain and on 11 November 2017 he had a cardiac angiogram which showed mild to moderate diffuse plaques in the left middle coronary artery and moderate mixed plaque in the left ascending artery as well as mild disease in four other arteries. The hand written notes from Dr [REDACTED] outlined that he saw Mr [REDACTED] on 12 November 2017 with complaints of heartburn and exertional palpitations.

2018

43. On 17 July 2018 he presented with depression as well as anxiety, high blood pressure, anorexia and heartburn. The hand written notes from Dr [REDACTED] outlined that on that day he seemed paranoid and only focussing on negative things. He remained concerned about his [REDACTED] drug habit and complained that the current dose of medication was not working.
44. Additional to the records, Professor [REDACTED] has also reviewed witness statements from family including his mother [REDACTED], brother [REDACTED], sister [REDACTED] and all three wives. These are not repeated here but in summary his mother said that her son had been plagued with illness, particularly depression and that the family all suffered. She went on to outline his personality and attitude to life, again commenting that he had made attempts on his life. She said that the family were in a financial crisis and had recently had a heart attack.
45. His brother said that Mr [REDACTED] was the engine of the family and selfless; he said that his [REDACTED] depression was severe and again confirmed the attempts on his life. Mr [REDACTED] had asked for his body to be repatriated.
46. His sister said that Mr [REDACTED] was the glue of the family and looked after all financially. She said that they were close and he was law abiding and again suffered from depression with the comment that at times he was so low that he had tried to end his life.
47. His first wife [REDACTED], said that Mr [REDACTED] was selfless and had a close relationship with him; once more she said that he had depression and was not that strong. His second wife, [REDACTED] confirmed many of the issues which have already been outlines about their son and how Mr [REDACTED] mental health had deteriorated since his father died in 2011 and a strong family history of depression. She said that her husband tried to conceal his depression and in 2018 and shortly before his arrest had confided to her that he had thoughts of ending his life. She said that he was very low and was petrified he would take his own life.
48. His third wife, [REDACTED] said that her husband was well respected and again confirmed he had suffered from depression. She had recalled finding him slumped unconscious with an empty bottle of pills in around July 2015 and following a feud with his previous wife. She said that he was rushed to hospital. She said that since he had been arrested he had become more and more upset and down. She was worried she would lose their home.

Use of alcohol and illegal drugs

49. Mr [REDACTED] has not used illegal drugs but had drank alcohol (despite being against his religion) to relieve stress. In the preceding 5 years he had been drinking around half a bottle of spirits each day or beer if spirits were not available. Professor [REDACTED] had reported that he had fatty deposits in his liver and had also suffered from blackouts. There is no sign of dependency and I noted that he tended to start drinking at around 10

pm and said that he would not sleep until around 0600 adding *'because of the stress and insomnia.'*

Forensic History

50. I noted that Mr [REDACTED] has never been in trouble with the law and indeed has never had a driving certificate.

Index offence – account from Mr [REDACTED]

51. I asked Mr [REDACTED] what his understanding was of the charges against him. He seemed to demonstrate knowledge of the allegations against him and thus he reflected that he could not be sure that the evidence about meeting informants was not made up. He said that what he knows about D-Company is from the news. He told me that he was shocked about the allegations against him and said, *'there was one guy whom I met who was trying to lure me into something illegal, but I reported it to the authorities.'* He told me that he has found it difficult to concentrate on the papers which he had been provided with.
52. I asked Mr [REDACTED] what it would mean if he were found guilty. He demonstrated a clear knowledge and fear about the consequences of being found guilty and told me he would get 20 to 25 years or life without parole for one of the offences. I asked Mr [REDACTED] what a jury was. He told me that they are there to try the case and give a verdict. I asked Mr [REDACTED] what the function of the judge was. He told me that he tries the case and agreed that he gave the sentence. He told me that he due in court in early July for the main hearing and trial at Westminster Magistrates Court.
53. He told me that the claims that he has been involved with D Company is, *'100 percent rubbish'*. He told me that he is not involved with any such organisation. He told me that he has always been open about his travels and thus before London was in Cyprus and listed the various countries, he had been in. I went through the various issues and he said that is all false
54. He said that he feels confident that he can prove his innocence and added, *'I am not involved in any illegal activity'* and he questioned that he did not trust the USA and added *'the whole world does not trust them'* and believed he would have an unfair trial and also cited the Prison conditions in the USA. He said also, *'the racism, the food, the prison conditions, the isolation, the torture'* and said that he would be physically tortured. He said, *'they will kill you for nothing'*. He said that there is justice in the UK and a country where his rights would not be deprived.
55. He said that his knowledge is not based on personal experience but what he has read in the news and what he has been told. He told me, *'everyone knows; it is an open secret.'*

56. I asked about what would happen if the deportation was inevitable and he said that he would take his own life and added, *'that is the only choice.'* He cited a recent supreme court ruling in which appeals had been denied. He said that you cannot defend abusive process in the court of law in the USA. He told me that he is objecting to the extradition due to not getting a fair trial, and that he is innocent as well as complaints about the prison conditions and that it will impact on his mental health. He also cited his human rights.

Index offence – account from statements

57. Mr █████ is charged with conspiracy to launder money and conspiracy to collect credit extension by extortionate means and is sought for extradition to the United States of America for trial.
58. The documents are extensive but in summary, it is alleged that Mr █████ (referred to as █████ █████) is a lieutenant in D-Company, an international criminal organisation based in Pakistan, India and the United Arab Emirates. The leader █████ and his top lieutenant Anis Ibrahim have been in fugitives since 1993 when D Company was linked to the coordinated bombings in Mumbai. It is alleged that Mr █████ main responsibility is conducting money laundering and extortionate debt collections for D Company. Mr █████ is reported to travel extensively and conducts meetings on behalf of █████.
59. Mr █████ has been investigated and is alleged to have spoken to 3 confidential FBI sources. The first CS-1 posed as a representative of La Cosa Nostra and Russian organised crime entities based in New York. CS-1 and CS-2 attempted to facilitate criminal dealings between those groups and D Company. CS-1 met Mr █████ in the United States in 2011 and subsequently visited with Mr █████ in Pakistan in December 2011 and May 2012. During their meetings in Pakistan in December 2011, CS-1 explained that the criminal organizations for which he works are involved in narcotics trafficking that generates large amounts of cash. Mr █████ offered to assist CS-1 in laundering the proceeds of his organized crime associates' narcotics trafficking. In turn, Mr █████ introduced CS-1 to a co-conspirator ("CC-1"), who Mr █████ explained is the lead money launderer for D-Company.
60. Since returning to the United States from Pakistan in late 2011, CS-1 has communicated with Mr █████ and CC-1 via telephone and email in furtherance of the money-laundering scheme described above. To date, CS-1 has laundered approximately \$1,400,000 of purported narcotics proceeds with the assistance of Mr █████ and CC-1. The evidence of the money laundering scheme includes: [1] multiple recorded calls between CS-1 and Mr █████, and between CS-1 and CC-1; [2] dozens of emails between CS-1 and CC-1; [3] the deposit receipts for the cash deposits in the United States; and [4] the fraudulent receipts meant to make the round-trip money laundering transactions appear to have resulted from legitimate transactions.

61. During the meetings in Pakistan in December 2011, Mr █████ and CS-1 also discussed Mr █████'s involvement in extortionate debt collections by D-Company. Mr █████ explained that, for a fee, D-Company uses its power and capacity for violence to resolve business disputes. In meetings with CS-1 and CS-2, Mr █████ has discussed various extortionate debt collections by D-Company both in the United States and abroad.
62. Mr █████ explained that D-Company uses its reputation for violence and ability to reach family members in Pakistan and India to resolve disputes stemming from business deals (either licit or illicit) by pressuring the debtor parties to make their payments. D-Company collects a fee of up to 50 percent of the amount collected for its role in resolving the dispute.
63. In May 2012, Mr █████ helped a D-Company associate based in New York ("CC-2") collect a debt of \$80,000 from two lower-level D-Company associates based in New Jersey. Mr █████ then demanded an approximately 40-percent payment from CC-2 for having helped to collect the debt. Mr █████ used his status in D-Company to intimidate the targets of both collections and induce the targets to pay the money they owed. In addition, during a meeting with CS-2 in the United States in 2011, Mr █████ referenced D-Company involvement in extortions in the United States generally, and his role in a extortionate debt collection in Florida in 2010. The FBI has identified the debtor who was targeted by Mr █████ and has spoken to a confidential source in Florida ("CS-3"); who was part of a three-way call in 2010 between Mr █████ and the debtor.
64. In that call, Mr █████ made it clear that he was with D-Company and told the debtor that if the debtor did not pay, Mr █████ would do "what had to be done." In discussing the Florida debt collection with CS-2 during the Atlantic City meeting in 2011, Mr █████ explained that D-Company had identified the father-in-law of the debtor who lived "back home" [India or Pakistan] and Mr █████'s associates had gone to the house of the father-in-law two or three times [to intimidate the father-in-law].
65. The father-in-law had then pressured the debtor to pay. During CS-1's first trip to Pakistan in December 2011, CS-1 explicitly discussed with Mr █████ and CC-1 CS-1's interest in importing heroin from Pakistan to New York. After those conversations, CS-1 discussed the details of the heroin importation with CC-1. During a subsequent trip to Pakistan, CC-1 introduced CS-1 to a heroin and hashish supplier. In 2014, CC-1 arranged for a two-kilogram sample shipment of heroin to be sent to New York via Toronto, Canada. Over a series of calls, CS-1 confirmed that CC-1 and his associates would ship multiple kilograms of heroin to CS-1 as a sample of their narcotics supply. CC-1 and the CS-1 discussed price, transportation logistics, and tracking number. Ultimately, CS-1 was notified that four kilograms of heroin had been sent instead of two.
66. As detailed Mr █████'s knowledge of the subsequent four-kilogram delivery is corroborated by multiple recorded conversations, following the delivery, where Mr █████ demands repayment.

67. After the heroin was delivered in Toronto on or about June 4, 2014, it was seized and tested by Canadian law enforcement working in conjunction with the FBI. Thereafter, in order to avoid paying for the drugs, CS-1 explained to CC-1 and Mr ██████ that the quality was so bad that CS-1 was unable to sell it. In several recorded calls, CS-1 and Mr ██████ discuss the money that CS-1 owes Mr ██████ for the heroin. CS-1 tells Mr ██████ of CS-1's inability to pay off the drug debt, to which Mr ██████ responded by invoking ██████ and threatening CS-1's life if CS-1 did not pay. Ultimately, CS-1 paid a partial payment of approximately \$19,500 on Mr ██████ at a bank account provided.

Progress in custody

2018

68. Mr ██████ was remanded into HMP Wandsworth on 17 August 2018 and it was identified that he had a variety of medication on him in a dispensing box. He later told the GP that he had arrived in the UK on the 11 August 2018 and thus had no GP in the UK. He said that he suffered from high blood pressure and was on medication for this (Amlodipine) but denied any other medical or psychiatric issue. He was observed to be calm, easy to engage, made good eye contact and no thoughts of self-harm.
69. Following some screening on 23 August 2018 he was deemed suitable to manage his own medication. Again, on 30 August 2018 he was noted to have high blood pressure. He said that otherwise he was fine.
70. His medication of Amlodipine and Aspirin was continued. He reported a stuffy nose on 6 November 2018 and had some routine blood tests on 6 December 2018. He had other appointments with a GP on 18 December 2018 where some blood tests were completed such as for diabetes and cholesterol.

2019

71. Subsequent appointments with primary care were in the context of physical health complaints and the first mention of mental health issues is on 17 January 2019 when he reported that he had a history of depression and had been on anti-depressants in the past. He said that he felt low and anxious about potential extradition to the USA. The GP commented that he was calm, easy to engage, made good eye contact and showed normal speech with no thoughts of self-harm. He was commenced on the anti-depressant Mirtazapine.
72. He reported a painful thumb on 7 February 2019 and on 14 February 2019 told a nurse that the anti-depressant was not working and that he had been on a higher dose in the community – the nurse requested that his anti-depressant was increased to 30mg. This appears not to have taken place and in any event on 5 March 2019 he complained of side

effects in the form of feeling tired and lethargic and told the nurse that he still felt low in mood and had negative thoughts. The nurse commented that he made good eye contact, showed a good rapport and no evidence of being distracted and no thoughts of self-harm. His anti-depressant was increased at that time.

73. However, on 12 March 2019, he refused to take his medication as he was fasting but agreed to resume the following day. I noted that the prison medical records from this point on have not been provided.

Mental State Examination (20 June 2019)

74. Mr ██████ engaged well with the assessment and concentrated well, correcting minor details in my report and that of Professor ██████. He smiled at a few points in the interview and there was no evidence of psychomotor retardation or agitation. His speech was of normal rate and volume and overall, he did not appear significantly depressed, though his mood did seem to dip when asked about the case and particularly that extradition might be inevitable.
75. He told me that everything about prison is difficult but said that the disrespect is the worse and every single minute is torture. He told me that he has not seen a psychiatrist in the prison and his mental health has been managed by a GP (though he has asked to see a psychiatrist). He produced some slips to demonstrate that despite his request to see one and how his appointments have clashed. He showed me a letter of complaint. He laughed when he told me that he is the Healthcare representative and the irony of not being able to see a psychiatrist himself. I noted that he became more subdued when talking about this and his family. He told me that his concentration is poor (though this did not seem evident in the consultation).
76. I asked about his experience of prison; he said that he has been in prison for some 10 months and commented that prison was disrespectful, and he never expected to queue for food or clean his cell. He told me that his current predicament is the worst period of his life and he added, *'too much depression and anxiety, I don't deserve what I am going through'* and when I asked about going to the USA he told me, *'if they sent me there it would be the last nail in the coffin'* and reflected how his family would suffer. He told me, *'they are doing this to me, it is so unfair, my mother is unwell, my family needs me the most.'*
77. He told me that he struggled with being locked up 24 hours a day and coping with the shouting and banging, adding that this was especially so when he is suffering from depression and anxiety. He told me that he felt traumatised and cited how he would be handcuffed when he went to court. He told me that it has caused a loss of self-respect and added, *'always in my life, I have been law abiding'* and described how he had tried to be a role model and mediate in other ██████ problems but now feels helpless and hopeless.

78. He told me that he remains in his cell all the time and does not go out for association or exercise and said that he also feels terrified in the cell and having to look at the same thing. He has not had any visitors to see him and the difficulties in getting visas
79. He told me that his mood is becoming worse and felt that it is the worst it has ever been. He told me that he often cries when he is praying and uses religion to help divert his thoughts. He told me that he has ongoing negative thoughts and feels hopeless, worthless and can see no future. Though he seemed to concentrate well in the interview, he told me that there is nothing he can do to take his mind off things and though he might watch TV he does not concentrate. He told me that he has also lost his appetite and thus some weight and estimated 8 to 9 Kilos. He said that he does not like the food and additionally has no interest or enjoyment in it. He is on the phone through the day and night to his family and has a phone in his cell.
80. In terms of his sleep he said that he has poor sleep and finds it difficult to get to sleep, often being awake until the early hours and sometimes awake when the morning comes or is disturbed from sleeping by the sounds of the prison. He said that he tries to get some sleep in the day. He told me that he feels very tired, low energy levels and fatigue. He also has feelings of worthlessness and added, *'you cannot do anything'* and, *'I feel a good for nothing.'*
81. In terms of his concentration he said that it used to be a lot better but his time in prison has affected his ability to make decisions and added that he has many people depending upon him. He told me that no one can look after his business and added, *'I am the engine of the train and if I am not there it will fall apart.'* He commented that he has few savings and must work each day to support his family and added, *'you have to be there'* (for the clients).
82. I asked thoughts of death or suicide; he told me that he has daily negative thoughts and such thoughts were, *'coming into my mind all the time'* and this was partly the reason why he wanted to see a psychiatrist in prison. When I asked about specific plans, he smiled and said, *'I will discuss it with you when the time comes.'* He said, *'when things are getting out of control you have to...'*
83. I asked about auditory hallucinations and he said no; he said that he felt paranoid due to the panic he feels the way he is handled in the prison. He said that he is startled by the noises and said that only a few weeks ago, someone hung themselves and had been after medication himself. I noted that he did not appear startled when I smacked down a pen.
84. He reflected that he is surrounded by hearing people getting long sentences and has seen and experienced people self-harming around him in other cells. He said that he has not self-harmed but sometimes he has banged his head or hand hard when it is too much.

85. He said that when he wakes, he then begins to feel anxious and he has flashbacks to the time when he was arrested and taken to the police station. He gave an account of this and said he was sleeping in his hotel (a suite at The Hilton in Paddington) after having had a good dinner and night with his wife, explaining that they were due to return to Pakistan. At 1000 the police burst into the room; he said that it was a shock and added that the people had guns and he was taken to the police station and then the court some 12 to 14 hours later, before on to HMP Wandsworth. He commented on how he had to share a cell, *'with someone I don't know, a druggie or hood and I can never forget, the way they handled it bang you up here bang you up there, bang handcuffs, bang you up in a cell.'* He said that it is a shock and he has flashbacks and nightmares as to what had happened and added, *'every single day.'* He said that the whole experience of prison reminds him as to what had happened. I noted that he did not startle when I hit a pen on the table

Opinion and recommendations

86. Mr [REDACTED] is a 52-year-old man charged with conspiracy to launder money and conspiracy to collect credit extension by extortionate means and is sought for extradition to the United States of America for trial

Diagnosis

87. Depression: Mr [REDACTED] has a history of depression dating back over a decade; in the main his condition has been managed through outpatient services (though there is reference to being admitted but no detail on this) and principally seeing a psychiatrist with reports from Mr [REDACTED] that he has been on an anti-depressant for over a decade now. There is also reports from Mr [REDACTED] of overdoses on three occasions which is supported by documentation from Pakistan and strong confirmation from his family that he had suffered from depression and had made attempts on his life. I noted from reviewing the records that the management of his depression has been through the use of an anti-depressant and an anti-psychotic. The latter is unusual, and I would expect being utilised for its sedative and anti-anxiety effect.
88. There appears to be a reasonable family history of depression and additionally a relationship between his symptoms and the stress that he feels under at any one time (and this probably explains his use of alcohol to help manage that stress). In that respect it would be logical to expect the stress of prison to impact on his mental health.
89. Earlier in my report, I have outlined the current profile of difficulties but in summary he presents with many of the symptoms, which one might expect in depression. I have underlined the symptoms relevant to Mr [REDACTED] and in relation to the diagnosis using DSM (Diagnostic Statistical Manual Version 5) where it is known as major depressive disorder. This is a condition in which the individual experiences a depressed mood for most of the day, nearly every day as indicated by either subjective report or observation made by others such as appearing tearful. There is a markedly diminished interest or pleasure in all

or almost all activities most of the day, nearly every day. There is a significant weight loss or sometimes weight gain as well as a decrease or increase in appetite nearly every day. Insomnia or hypersomnia occur as well as psychomotor agitation or retardation. The individual experiences fatigue and loss of energy as well as feelings of worthlessness or excessive or inappropriate guilt nearly every day. There is a diminished ability to think or concentrate, indecisiveness nearly every day as well as recurrent thoughts of death, recurrent suicidal ideation with or without a specific plan or suicidal attempt or specific plans for committing suicide. These symptoms cause clinically significant distress or impairment in social, occupational or other important areas of functioning. The episode is not attributable to the physiological effects of substance or to another medical condition.

90. In terms of his current functioning, I also utilised some self-report questionnaires to help give some perspective on his symptoms. I firstly asked him to complete the Becks Depression Inventory – Version 2. The BDI-II is a self-report questionnaire with a series of responses in a number of domains, which go towards a total score. There are 3 bands, minimal (0-13), mild (14-19), Moderate (20-28) and severe (29-63). Mr [REDACTED] scores 48 i.e. within the upper end of the severe group. I also asked him to complete the PHQ-9 and the GAD-7. The former is an easy to use self-report questionnaire, which has a 61% sensitivity and 94% specificity in adults. Mr [REDACTED] showed a result of 25 indicating severe depression (0-4 none, 5-9 mild, 10-14 moderate and 20-27 severe). The GAD-7 is a measurement of anxiety, scores of 5, 10, and 15 are taken as the cut-off points for mild, moderate and severe anxiety, respectively. When used as a screening tool, further evaluation is recommended when the score is 10 or greater. Using the threshold score of 10, the GAD-7 has a sensitivity of 89% and a specificity of 82% for GAD. With Mr [REDACTED] this showed a result of 19, indicating severe anxiety.
91. PTSD: Mr [REDACTED] has also reported being traumatised by the nature of his arrest in the Hilton Hotel (see paragraph 87). The essential features of PTSD are the development of characteristic features following exposure to one or more traumatic events. There is the emergence of intrusive symptoms (memories, distressing dreams, dissociative reactions, intense or prolonged psychological distress and physiological reactions) as well as avoidance of stimuli associated with the trauma. Patients with the condition may have negative alterations in cognitions and mood (an inability to remember an important aspect of the trauma, negative beliefs about oneself, distorted cognitions, a persistent negative emotional state such as fear/anger/guilt/shame, a markedly diminished interest in significant activities, feelings of detachment and inability to experience positive emotions. Finally, there are marked alterations in arousal and reactivity such as irritable behaviour, reckless or self-destructive behaviour, hypervigilance, an exaggerated startle response, problems with concentration and sleep disturbance. The duration of the symptoms is more than one month, it should cause clinically significant distress or impairment in social, occupational or other areas of important functioning
92. To ascertain what is currently present, I utilised a well validated tool, the Impacts of Event Scale- Revised - again, there should be caution, as the reports of symptoms are all largely

self-reported. This tool, measures difficulties in the preceding 7 days. Mr [REDACTED] scored high on most of the items in the scale. It is subdivided into subscales of avoidance, intrusion and hyperarousal. In the latter, he scored for Intrusion (31), avoidance (22) and hyperarousal (21). The total score was 74 out of a maximum of 88. This would indicate significant PTSD with the recognition that overall scores of 24 represents partial PTSD and 33 or more indicating PTSD is present.

93. In terms of his current symptom profile, Mr [REDACTED] has reported a range of symptoms which I have outlined above. The use of self-report questionnaires seems to indicate that his symptoms of anxiety, depression and PTSD are severe. It would be wrong to rely solely on self-report questionnaires and to take into account context and clinical impression. I found that clinically the reports of severe symptomatology were not evident in the interview in comparison to many I have seen in prison. I found that within the interview he engaged well and did not appear overtly or obviously depressed and was able to concentrate throughout without issue and as noted, there were points where he smiled and showed a reactive mood. I noted that the medical records from the prison have confirmed that his care has been managed entirely by primary mental health care (i.e. a GP) and he has not been thought to have required the input of secondary mental health care services in the prison such as in-reach or a psychiatrist. Though Mr [REDACTED] has asked to see a psychiatrist, the gate keeping mechanism of nurses and [REDACTED] has not felt this necessary. I also noted there has never been a time when he has required to be on an ACCT (Assessment Care Custody and Teamwork - a document to monitor and manage self-harm/risk).
94. Thus in terms of his current presentation, though his reports of symptoms suggest they are severe, clinically I found that this is largely self-reported and is not supported by the prison clinical records and not evident in the interview I had with him. I would accept that having only met Mr [REDACTED] on one occasion, my perception of his illness may not be accurate, for example if he is concealing more symptoms.
95. In consideration of his previous reports of how stress and financial pressures affected him, it would be reasonable to consider that the symptoms he does experience most likely relate to the prospect of extradition and the potential outcome in the USA. I would expect that most individuals facing an uncertain future and removal to a system which is unfamiliar and perhaps harsh, would be troubled and impact on their mental health to cause depression and anxiety.
96. I did not find his symptoms unique and in my experience, his clinical presentation is seen reasonably often in prison and not of a nature or degree to require any significant intervention beyond what is being provided. I noted that he is on an anti-depressant and even if he were to see a psychiatrist, this would likely lead to some changes in medication management but with the acceptance that medication will have a limited value whilst the pressures of being in prison and extradition remain. Thus, it would be unusual to expect anyone in Mr [REDACTED] position to be cheerful and happy. However, cognisant of the

concerns about his mental health from the family, I believe that in consideration of the reported severity, it would be prudent to inform the prison and facilitate more supervision at this time.

97. Having worked in a high security prison for almost two decades, I have a reasonably strong perspective on how prison affects an individual in terms of their mental health. Perhaps not surprisingly there is a wide range of responses but in the main there are relatively few who would find it a positive experience, apart from those where they are extricated from spiralling drug problems or where the containing effect of prison is beneficial.
98. Taking this into account, it would be reasonable to assert that prison impacts on the majority of people and significantly mental health. Setting aside the concept of people being held in prison who are innocent, in my experience, uncertainty is a key factor. This is seen in those who have an indeterminate sentence or in the past, those on a control order. Many prisoners highlight that prison provides a landscape of no control and powerlessness. Thus, with Mr [REDACTED] experiencing a sense of uncertainty combined with loss of control is especially relevant in terms of someone who has been a hardworking man, who has always been in control of his life and responsible for the lives of others. I would add that the argument for a person being in optimum mental health should be balanced with the argument that sometimes, getting on with a matter is also positive as the uncertainty comes to an end. I have often observed this in those who with the prospect of a trial or a sentence, find that once the trial is underway or a sentence is finally passed, then they 'know where they stand' though I would accept with Mr [REDACTED] that the movement to the USA is simply another step and not necessarily a resolution.
99. Prisons in the UK and around the world vary enormously in their structure, regime, environment, facilities, levels of occupation and so forth and it is fair to say that there are good and bad examples of prisons throughout the world. Prisons have different processes and facilities aligned to their country, resources, history, legislation and economies to manage prisoners.
100. Healthcare is one such variable in prison; throughout Europe and the world, healthcare remains a challenge. In particular mental health is a specific issue which is widely recognised and overall rates of mental ill health in prison are of broadly similar levels around the world. There are various models in how mental health care is delivered and it is reasonable to say that there is not a consensus on what works best. Regulatory bodies around the world continue to highlight difficulties and in England and Wales, there are regular concerning reports from the Prison Inspectorate in England and Wales which highlight problems with prisons and inadequacies of health care and indeed Mr [REDACTED] has highlighted his struggle to see a psychiatrist in HMP Wandsworth.
101. I would not wish to challenge any of the papers Professor [REDACTED] has cited in terms of sensory deprivation; they are exactly that, scientific papers. Again, I have no comment to

make on the findings in that literature. In an ideal world, prisons would be healthy environments which have no impact on an individual, but that is not the case and they are and always will be adverse.

102. The issue of isolation and segregation is not unique to the USA and can occur in all countries depending on the facility and regime. The UK is no exception, with reports in prisons in England and Wales of being 'banged up' for 22 hours a day or more and for some long periods in a segregation unit. There are many examples of this in various literature and for the potential for sensory deprivation to occur in prisons around the world. It is reasonable to say that though certain prison regimes and levels of isolation can cause an effect of sensory deprivation it is not necessarily equivalent. The definition of what exactly is isolation and deprivation needs to be understood; for example, what role does having a TV, access to books, visits from family and legal representatives and exercise have in such a definition. Literature cited by Professor ██████ such as ██████, refers to specific and controversial work in that area and for example the use of sensory deprivation tanks. I would not argue that isolation and sensory deprivation does not occur – it is noted that around 80,000 are subject to solitary confinement each year in the USA and at levels of being in a cell 23 hours a day. There are many reasons why this might occur and what this might mean and whether that equates with sensory deprivation. Overall, I believe there should be caution in drawing too many conclusions about what can go on, which might occur and how that effect might impinge on an individual.
103. I noted paragraphs 8 and 9 in the opinion section of Professor ██████ report. Earlier in the report Professor ██████ had reviewed the statement of ██████ and ██████ ██████, which outlines where Mr ██████ might be held and particularly being held in solitary confinement in a federal prison. I have of course not seen such a prison (██████) and have no reason to challenge the opinion and description of the facilities and likely difficulties.
104. I noted the statement of ██████ and ██████; both comment on the conditions pre-trial and post conviction, the various levels of security and their prediction about how and where he will be managed. They also comment on the potential outcome with such comments '*if convicted*' and the potential of life imprisonment in a maximum secure facility. ██████ has indicated that whilst awaiting trial Mr ██████ will likely be held in MDC (Metropolitan Detention Centre) or MCC (Metropolitan Correctional Centre) in New York and is also his view that, '*it is almost certain Mr ██████ will not be given bail.*' Additionally, he comments that in view of the potential connections to terrorism he would be subject to Special Administrative Measures (██████) which often includes the use of solitary confinement.
105. I noted in the declaration of ██████ that there is a further description of the conditions in the prisons in New York. There is also reference to one psychiatrist who divides his/her time between MDC and MCC with responsibility for 2,500 people, as well as long waiting times to see health care and comments, '*given all this, I believe Mr*

██████████ health would be at serious risk at MCC.' The report also provides a description of health complaints and issues in the special housing units. I have no specific comment on these remarks and would suggest that it is for the federal prison authorities to provide a defence to these assertions (see below).

106. In this context I have seen the various program documents from the Federal Bureau of Prisons (BOP) correctional facilities and the statements from the medical director and the chief psychologist. I am aware of course that policy and procedure documents sometimes have limited weight and practical application.
107. In many respects, Mr ██████████ conceptualises the difficulties facing a psychiatrist working in prison. Thus there is a recognition that prison is adverse and can impact on a ██████████ mental health and that those with an existing mental health disorder might deteriorate further. This is widely known and potentially universally accepted in the UK and across the world. It is also acknowledged that the regime, uncertainty and consequences weigh heavily on a person and their mental health and that harsher regimes can have a more powerful effect. This observation is of course balanced by the recognition that if the individual was released or the charges dropped then that ██████████ mental health would likely improve, though some will come to be affected for years to come. The psychiatrist and prison mental health services have a role to assist in mitigating as best he or she can the effect that imprisonment has on an individual; however, there will be limitations as to what can be achieved. Despite all these concerns about how prison impacts on mental health, there is of course still a need for prisons and it would be facile to suggest that because prisons affect mental health, they should not exist.
108. Prisons by their nature are often hostile and adverse environments and around the world there will be criticisms raised in each country; even in the UK our prison inspectorate will highlight specific difficulties including levels of mental health disorder, healthcare inadequacies, rodent infestation, time out of cell and suicide. I noted that suicide rate has been highlighted as an issue in federal prisons but a recent paper by Professor Seena Fazel has found that overall, the rate of prison suicides in prisons in England and Wales is greater than the USA (though I noted the specific rates being higher in the USA in those in solitary confinement).
109. I noted the statements of Dr ██████████, who is the BOP medical director and who has signed a statement dated 12 June 2019. In his statement he has reviewed the report of Professor ██████████ and has commented on both the general provision of medical and mental health care and more specifically the capability of the prison() to manage Mr ██████████ individual needs, diagnoses and medication. He has stated that in his opinion BOP, *'will be able to provide appropriately for his health care needs.'* The statement of Dr ██████████ is supported by Dr ██████████, chief psychologist at MCC. Though not referring to Mr ██████████ specifically, the statement again describes the structure and approach to managing mental health in the prison and comments that, *'MCC and MDC are well equipped to manage mentally ill inmates including those with bipolar disorder, schizophrenia,*

depression and PTSD. Finally, after reading the statements of [REDACTED], [REDACTED] and [REDACTED] he states in response to concerns in those documents, *'it is my opinion that the BOP is equipped to safely house defendant [REDACTED].'*

110. Mr [REDACTED] has been very clear that if an attempt at extradition is attempted he will make an attempt on his life. Noting a previous history of self-harm and suicide attempts, would indicate that his risk is greater than the average prisoner and the risk should be given appropriate weight. It is more likely to occur in the UK and prior to the actual extradition and thus, if extradition is supported, the court, prison transport and prison will need appropriate awareness and recognition to help mitigate that risk. As in the UK, the prison system in the USA will have appropriate measures and structures to help manage that risk and although such a risk cannot be eliminated, knowing of the risk and his current intention means that managing that risk should be possible and I note the specific comment in that regard by Dr [REDACTED].
111. In summary, though Mr [REDACTED] is depressed, I did not find his presentation severe in my assessment of him and at this stage can be and has been managed in prison well (it would be useful to have some more up to date prison medical records). Even if my judgement was incorrect and his condition was severe, I remain of the view that his care can be managed in prison.
112. If I were to be responsible for his care in prison, I would not at this stage be recommending his admission to the Healthcare Centre/inpatient unit at HMP Wandsworth and similarly I would not be recommending his removal from prison to hospital, through The Mental Health Act (this provision of course does not apply in the USA). I might adjust his medication and implement other approaches such as counselling, support and structure but overall, setting aside what he is charged with, Mr [REDACTED] is not unusual in terms of his symptom profile. I would not necessarily wish to indicate at this time what issues would cause me to change my approach to admission to the Healthcare Centre/inpatient unit or transfer to hospital, as I do not wish to provide a template for Mr [REDACTED]. Taking account of his emphasis on taking his own life before extradition, I would recommend that the prison review him for consideration of opening an ACCT (Assessment Care Custody and Teamwork - a document to monitor and manage self harm/risk).
113. There is concern that his mental state might deteriorate if he were to be transferred to a prison in the USA; in my opinion this is a reasonable expectation but only in the sense that it would likely apply to most people who are about to be extradited. I would accept that his deterioration might be greater but again should be manageable in a USA prison. The USA is not a third world country and indeed quite the opposite. Being transferred to a prison in the USA does not mean he is excluded from healthcare input and indeed should be able to access services in some shape or form. Medication will be available and I would expect that his current regime (or an equivalent) will be continued. Noting that in the UK his care has been managed at a primary care level, it is possible that this also may suffice.

114. The documents from [REDACTED] and [REDACTED] provide a gloomy perspective on the conditions in the USA but I contrast this with the statements of Dr [REDACTED] and Dr [REDACTED]; It is not my role to determine which is correct but would comment that there is a reality that if a person is alleged to have committed a serious offence then the consequences can be also be serious. Countries around the world have individual approaches to manage those they consider dangerous (in its widest sense) and it is simplistic to assume that rigid and what appear to be harsh regimes are simply punitive but may be based and developed on a recognition of managing risk. In this context, it is for the prison to provide health care and mitigate risk and deterioration as best it can in such environments. The statements from the above authorities indicate that they have confidence that his mental health and self-harm/suicide risk can be managed.

Dr [REDACTED] MB BS FRCPsych

Consultant Forensic Psychiatrist

Approved under Section 12(2) of the Mental Health Act 1983 (2007 amended)

DECLARATION:

I, DR [REDACTED] DECLARE THAT:

1. I understand that my duty is to help the court to achieve the overriding objective by giving independent assistance by way of objective, unbiased opinion on matters within my expertise, both in preparing reports and giving oral evidence. I understand that this duty overrides any obligation to the party by whom I am engaged or the person who has paid or is liable to pay me. I confirm that I have complied with and will continue to comply with that duty.
2. I confirm that I have not entered into any arrangement where the amount or payment of my fees is in any way dependent on the outcome of the case.
3. I know of no conflict of interest of any kind, other than any which I have disclosed in my report.
4. I do not consider that any interest which I have disclosed affects my suitability as an expert witness on any issues on which I have given evidence.
5. I will advise the party by whom I am instructed if, between the date of my report and the trial, there is any change in circumstances which affect my answers to points 3 and 4 above.
6. I have shown the sources of all information I have used.
7. I have exercised reasonable care and skill in order to be accurate and complete in preparing this report.
8. I have endeavoured to include in my report those matters, of which I have knowledge or of which I have been made aware, that might adversely affect the validity of my opinion. I have clearly stated any qualifications to my opinion.
9. I have not, without forming an independent view, included or excluded anything which has been suggested to me by others including my instructing lawyers.
10. I will notify those instructing me immediately and confirm in writing if for any reason my existing report requires any correction or qualification.
11. I have read Part 33 of the Criminal Procedure rules and I have complied with its requirements.
12. I confirm that I have acted in accordance with the Code of Practice for Experts.
13. I will notify those instructing me immediately and confirm in writing if for any reason my existing report requires any correction or qualification.

STATEMENT OF TRUTH

I confirm that the contents of this report are true to the best of my knowledge and belief and that

I make this report knowing that, if it is tendered in evidence, I would be liable to prosecution if I have wilfully stated anything which I know to be false or that I do not believe to be true.

FYI...AW portion for page 10 regarding SW cell assignment.

Guidance was sent to the Lieutenants regarding keying of suicide watch bed assignments after hours. The Lieutenants were instructed that upon placing an inmate on suicide watch, they are responsible for contacting C&A and providing the cell assignment. Additionally, the Lieutenant will run a PP30 (Population Monitoring Roster) with the selection category for suicide watch. The Lieutenant will email the roster to the Captain, as he will be responsible for verifying that each inmate is in the appropriate cell. This verification process will ensure inmates placed on suicide watch are keyed into inaccurate bed assignments and will eliminate inmates being keyed into the same cell.

Additionally, the Lieutenants were instructed to contact the Captain and on-call Psychology staff when the need for suicide watch placement is determined after hours. Psychology staff have been instructed to contact the warden upon receiving said notification. After consultation with the warden, psychology staff will designate whether a staff or inmate companion will be assigned. Psychology staff will in turn inform the Shift Lieutenant of this determination.

First line, spelled plans pkans.

This is accurate from the information I have, unless Alison has additional information. Thanks

[REDACTED], here is a timeline of his arrival at the MCC:

7/6/19: Arrived at NYM (Saturday) in the Receiving and Discharge area. Moved by staff to general population (apparently USMS did not indicate that he was a high profile inmate and staff were unaware that he was coming so no pkans had been established).

7/7/19: Warden identified him as high profile and moved him to Special Housing Unit due to his concerns for his personal safety in general population.

7/8/19: Upon return of Psych Svc Staff on Monday, he was moved to Psychology Observation for evaluation by Psych Svc Staff. This is NOT suicide watch and the system notes reflect suicide watch not warranted. He was under 24 hour observation during this time to assess his readiness to move to SHU.

7/10/19: Returned to SHU with cell mate. Remains until 7/23.

This appears consistent with PDS. The one edit I suggest based on PDS is to delete the text I colored red and replace it with the green. PDS reflects he was placed in Psyc Observation that night after he returned from court and was assessed the next morning.

Journalist calls for more transparency around prison extreme isolation practices

The Hill

<https://thehill.com/hilltv/rising/452500-journalist-calls-for-more-transparency-around-prison-extreme-isolation-practices>

Investigative reporter [REDACTED] on Wednesday called for more transparency around the [REDACTED] federal prison [REDACTED] use of severe isolation. The [REDACTED] Bureau of Prisons employs SAMs — or Special Administrative Measures — against high-risk inmates, such as terrorists and mass murders, in order to prevent further harm to society, according to the Justice Department. But [REDACTED] argues that prisoners are often left in the dark over why they are subjected to SAMs and for how long.

Colorado settles suit by transgender inmate who alleged rape

FOX Denver

<https://kdvr.com/2019/07/10/colorado-settles-suit-by-transgender-inmate-who-alleged-rape/>

Colorado reached a \$170,000 settlement with a transgender woman who sued the state and alleged being raped, assaulted and harassed while held in a [REDACTED] prison, state officials said Wednesday.

'Direct result' of border situation: 2nd Mississippi prison now holding immigrants for ICE

Clarion Ledger

<https://www.clarionledger.com/story/news/2019/07/10/second-mississippi-prison-natchez-ms-holding-immigrants-ice/1694206001/>

A second Mississippi prison is now holding undocumented immigrants for [REDACTED]. Immigration and Customs Enforcement, an official confirmed Wednesday. Adams County Correctional Center is housing undocumented immigrants, ICE spokesperson Bryan Cox said Wednesday, adding that it is a "direct result" of the "situation at the Southwest border."

Multiple West Virginia prisoners found dead in recent weeks as inmate mortality rates climb

WDTV

<https://www.wdtv.com/content/news/String-of-West-Virginia-inmate-deaths--512543311.html>

Two inmates have died in as many weeks at the North Central Regional Jail in Doddridge County. In all, five inmates have died at state prisons across West Virginia since June 23. Foul play isn't expected in any of the deaths. It highlights a growing problem in West [REDACTED] and the United [REDACTED] correctional systems: Deaths behind bars.

ICE detainees housed at Adams County Correctional Center

The Natchez Democrat

<https://www.natchezdemocrat.com/2019/07/11/ice-detainees-housed-at-adams-county-correctional-center/>

As space at the Adams County Correctional Facility is vacated by the transfer of Federal Bureau of Prisons inmates to other facilities, the Adams County facility is steadily being filled by inmates from the [REDACTED]. Immigration, Customs and Enforcement agency as the prison works to secure a new contract with the facility,

officials said.

Broad Coalition Defeats Plan to Build Federal Prison on Toxic Former Mountaintop Removal Coal Site

Between the Lines

<https://btlonline.org/broad-coalition-defeats-plan-to-build-federal-prison-on-toxic-former-mountaintop-removal-coal-site/>

In June, the Federal Bureau of Prisons announced that it was cancelling the construction of a maximum security prison that it had been planning to build on top of a former mountaintop removal coal site in Letcher County, in eastern Kentucky.

Epstein joins ██████ in notorious jail as inmate 76318-054

Providence Journal

<https://www.providencejournal.com/news/20190710/epstein-joins-█████-in-notorious-jail-as-inmate-76318-054>

Bernie Madoff did time there. So did John Gotti Jr. Paul Manafort is currently in residence. Jeffrey Epstein -- inmate 76318-054 -- just moved in. The hulking Metropolitan Correctional Center in Lower Manhattan is several miles and worlds away from the mansion near Central Park that Epstein may have been planning to head for when he was arrested by the FBI after touching down at Teterboro Airport in New Jersey on July 6. Among his new neighbors is the Mexican drug lord ██████ "█████", who has been holed up in the federal ██████ notorious 10 South wing for more than two years.

Kidnapper, sex offender Scott Tyree accused of violating terms of his release from prison

Pittsburgh Action News 4

<https://www.wtae.com/article/kidnapper-sex-offender-scott-tyree-accused-of-violating-terms-of-his-release-from-prison/28303871>

Convicted kidnapper and sex offender Scott Tyree has been accused of violating the terms of his release from prison. According to court paperwork, Tyree accessed a website that allows access to pornographic images and live sexual videos while at a halfway house in Pittsburgh that he was assigned to. A probation officer confronted Tyree on June 10, when he admitted that he accessed the website. The paperwork also said that Tyree used countermeasures during a polygraph examination to defeat the test.

Deputy Attorney General Jeffrey Rosen not yet briefed on DOJ probe into origins of Russia probe

USA Today

<https://www.usatoday.com/story/news/politics/2019/07/05/deputy-ag-jeffrey-rosen-not-yet-briefed-doj-surveillance-probe/1655150001/>

Deputy Attorney General Jeffrey Rosen said that he has yet to be briefed on the potentially volatile inquiry into possible surveillance abuses by federal authorities in the early days of the Russia investigation. Rosen, in an interview with USA TODAY this week, said that he was unaware of the [REDACTED] status and did not know whether it has since morphed into a criminal inquiry.

'You don't know what you did for me': Released from prison by Obama, now on the [REDACTED] list

USA Today

<https://www.usatoday.com/in-depth/news/education/2019/07/08/prison-reform-inmate-felon-clemency-pell-grant-ban-the-box/1624740001/>

The sun glowed gold, and a second line parade was tuning its horns just a few streets away. But Danielle Metz had missed half her life already, and she couldn't spare the afternoon, even one as unseasonably warm as this mid-February Sunday. She climbed the stairs to the shotgun house her mom had bought in uptown New Orleans more than half a century ago. Metz slipped through the screen door, then shut it tight enough to keep out the sun. Inside, she dug through a box next to her bed and pulled out the clothbound journal that a woman had given her in 1996, when they were both incarcerated in the Federal Correctional Institute in Dublin, California. Metz hadn't kept much from the 23 years she spent in prison, but the journal had been too special to leave behind. She opened it and read the dedication as a reminder of what she hoped to accomplish now that she was out.

John [REDACTED] brother seeks compassionate jail release under [REDACTED] 'First Step Act'

FOX

<https://www.foxnews.com/us/john-gottis-brother-compassionate-release-trumps-first-step-act>

"Dapper Don" John [REDACTED] remorseful, ailing older brother wants to be sprung from prison under the prison reform bill that President Trump signed into law last year. Gambino crime family boss Peter Gotti, now 79,

last month moved for compassionate release under the First Step Act of 2018 with 13 more years to go on a lengthy prison sentence for racketeering and murder conspiracy. He has been incarcerated since his arrest in 2002.

This Mississippi prison put gangs in charge. 'It ain't right, but [REDACTED] the truth.'

Sun Herald

<https://www.sunherald.com/news/state/mississippi/article231973502.html>

It was a prison brimming with violence, awash in weapons — and severely short on guards to patrol its cell blocks. But security-camera footage caught the action when Brad Fitch arrived in unit F at [REDACTED] Wilkinson County Correctional Facility on Jan. 31, 2018. The two sets of sneakers, pacing outside the cell he had occupied for six hours. His race through the dayroom, his white T-shirt soaked in blood. His desperate run for the locked exit, chased by two prisoners. The slash of a handmade knife — a shank — as he stumbled.

First Step Act Moves Are On Schedule, Rosen Says

The Crime Report

<https://thecrimereport.org/2019/07/07/first-step-act-moves-are-on-schedule-rosen-says/>

New Deputy [REDACTED]. Attorney General Jeffrey Rosen, who toured the federal prison in Englewood, Co., last week, said that the Justice Department is “pushing hard” to abide by the requirements of the First Step Act, reports USA Today. Rosen said DOJ is on schedule to deliver a critical tool to assess the needs and risks of future recidivism for federal prisoners. The program, required by the law, is due by July 19. On the same date, the Federal Bureau of Prisons is set to recalculate the amount of “good time” earned by federal offenders, an action that is expected to result in the release of 2,200 offenders to their home communities.

Jeffrey Epstein Is Accused of Luring Girls to His Manhattan Mansion and Abusing Them

The New York Times

<https://www.nytimes.com/2019/07/07/nyregion/jeffrey-epstein-sex-trafficking.html>

Federal prosecutors appear to have resurrected a federal sex crimes case against the billionaire financier Jeffrey Epstein by focusing on accusations that he sexually assaulted girls at his mansion in Manhattan — more than a decade after a widely criticized plea deal shielded him from similar charges in Florida.

Judge in Jeffrey Epstein case says jail death was 'unthinkable,' calls for prison reform

CNBC

<https://www.cnn.com/2019/11/26/judge-in-jeffrey-epstein-case-calls-for-prison-reforms-after-death.html>

The federal judge who oversaw Jeffrey [REDACTED] child sex trafficking case says "it is unthinkable" that any jail inmate — let alone one with such a high profile as Epstein — would die in custody, as the wealthy investor did this summer.

Federal prison system plagued by staffing crisis, violence

Legal News AP Story

<http://legalnews.com/macomb/1481777/>

WASHINGTON (AP) — For years, the federal Bureau of Prisons has been plagued by systematic failures, from massive staffing shortages to chronic violence. But the largest agency in the Justice Department has largely stayed out of the public view.

Jason Van Dyke No Longer in Federal Custody

WTTW News

<https://news.wttw.com/2019/11/26/jason-van-dyke-no-longer-federal-custody>

Former Chicago police Officer Jason Van Dyke is no longer being held in a federal prison in New York – or in federal custody, period – but [REDACTED] unclear where he will serve out the remainder of his sentence for the murder of black teen Laquan McDonald in 2014. Van Dyke, who was convicted last year of second-degree murder for shooting McDonald 16 times, spent time in two federal prisons on the East Coast this year. But the Federal Bureau of Prisons on Tuesday confirmed that Van Dyke is no longer at the medium security federal correctional institution in Otisville, New York, where he had been incarcerated since March.

INSIGHT: As First Federal Execution in 16 Years Nears, Will the Government Follow the Law?

Bloomberg Law

<https://news.bloomberglaw.com/white-collar-and-criminal-law/insight-as-first-federal-execution-in-16-years-nears-will-the-government-follow-the-law>

John Wonderlich, executive director of the Sunlight Foundation, says if the federal government carries out its first execution in 16 years, it will do so in violation of the Administrative Procedure Act. Adhering to the APA allows for public comment and ensures the necessary oversight for the most serious punishment a government can mete out, he explains.

The federal government recently signaled its intention to resume executions following a 16-year hiatus by simultaneously announcing its new lethal injection procedure and scheduling five execution dates, with the first to take place in early December.

OPM urges US federal agencies to hire military spouses and ex-prisoners

Global Government Forum

<https://www.globalgovernmentforum.com/opm-urges-us-federal-agencies-to-hire-military-spouses-and-ex-prisoners/>

The US government aims to increase diversity within the federal workforce by encouraging human capital officers to take full advantage of two existing hiring programs that make it easier for military spouses and ex-prisoners to progress through the application process.

As an update, I spoke with the AUSAs. They advised the Court there was no video because the FBI had the DVR (pulled for the 8/10 incident) which went back to the 7/23 attempt. The FBI reported the DVR footage was corrupted as to the 7/23 video and, thus there was no footage. The AUSAs are asking that SIS check to see where Pina preserved the 7/22-23 video to see if that copy is not corrupted. They will be reaching out to her directly.

The AUSAs also want to know where the orange rope from the 7/23 attempt is preserved.

Thanks all,

Good morning all,

Per the above article, the Court was advised by the USAO that MCC did not preserve video from outside the cell shared by [REDACTED] and Epstein at the time of [REDACTED] alleged first suicide attempt. However, per the attached, SIS advised the footage was preserved. What search for the footage was performed prior to advising the USAO the footage could not be found? I would recommend searching again for the missing video. I have a call with the AUSAs in 20 minutes and will advise as to what other issues arose at [REDACTED] hearing.

Thank you,

Questions & Proposed Responses:

Hello, I'm working on a story about morale at MCC in Manhattan in the wake of charges against [REDACTED] and Michael [REDACTED]. I've spoken to an AFGE union official and

The thrust of the story is that morale has plummeted at the facility in the wake of the falsification of documents charges. Morale was already bad because of staffing issues.

(1) Has any money been allocated for improving MCC as a facility since [REDACTED] death?

RESPONSE: Yes, examples include money for staff positions at MCC New York (are we saying we are adding staff positions in the future or have already added them and

(2) Has there been a hiring surge since [REDACTED] suicide?

RESPONSE: __ (12?) staff have been hired since January roughly [REDACTED] can get exact numbers from his institution' HRM, I may need to confirm with Central [REDACTED] HRM)

(3) Any changes in BOP policies following [REDACTED] suicide?

RESPONSE: [REDACTED] will get more info to supplement this: There have been a number of policy changes implemented under a "back to basics" approach in recent months. TI

(4) Is it correct that [REDACTED] and [REDACTED] were responsible for roughly 50 to 70 inmates the night of the suicide?

RESPONSE: The BOP does not comment on matters related to investigations or pending litigation.

(5) What is the attrition rate for BOP correctional officers? [REDACTED] the average length of time a person stays in the job? (NYC-area would be best if [REDACTED] available.)

RESPONSE: [REDACTED] is checking to see if HRM can answer this; if not, then we could say the following: We do not have this information readily available, but it varies signfica

(6) Can you share anything supervisors at MCC have told the rank and file in the wake of these charges? [REDACTED] the message to overworked, disgruntled correctional office

RESPONSE: MCC New York has had staff recalls and meetings emphasizing that the [REDACTED] leadership understands [REDACTED] concerns and is doing the best we can. Staf

Justice Department drafts legislation to expedite executions of convicted mass murderers in shooting aftermath

The Hill

<https://thehill.com/homenews/administration/459646-justice-department-drafts-legislation-to-expedite-executions-of>

The Department of Justice (DOJ) has reportedly drafted legislation to expedite the execution of convicted mass murderers as a response to multiple recent deadly mass shootings.

Epstein Suicide Suggests a Breach in Prison Protocol

In Public Safety

<https://inpublicsafety.com/2019/09/epstein-suicide-suggests-a-breach-in-prison-protocol/>

If you work or have worked in corrections, you have likely dealt or are familiar with prisoners who have attempted suicide or completed the act before officers, staff, or even fellow prisoners could intervene. During my 16-year career in corrections, a number of prisoners committed suicide despite all the precautionary measures in place to prevent it. In some instances, there were no signs or indications of suicidal behavior, but at other times, it was due to some degree of negligence by the prison. Jeffrey [REDACTED] suicide would fit in the latter category of negligence based on the information that has been presented to the media.

Prosecutors Call R. Kelly A Liar Over His Solitary Confinement Claims

Yahoo

<https://www.yahoo.com/entertainment/prosecutors-call-r-kelly-liar-160823081.html>

The prosecutors going after R. Kelly say the [REDACTED] his claims of being mistreated while in 'solitary confinement' are lies, pointing to him having multiple cell mates. According to court documents obtained by The Blast, the government is responding to [REDACTED] recent plea to get out of solitary confinement and demanded he not be allowed out on bond.

Staffing concerns raised as prison suicides climb

Northwest Arkansas Democrat Gazette

<https://www.nwaonline.com/news/2019/sep/01/staffing-concerns-raised-as-prison-suic/>

Federal inmates were killing themselves at escalating rates when President Donald [REDACTED] administration dropped 5,156 officer and staff positions through a hiring freeze and budget cuts -- a downsizing of 14%. The suicide rate continued to rise as staffing vacancies increased and as permanent cuts were made in 2018, with more than two dozen inmates taking their lives as prison workers and leaders failed to curb the growing problem.

Wild Mustangs Help Military Veterans And Prison Inmates

WAMC

<https://www.wamc.org/post/wild-mustangs-help-military-veterans-and-prison-inmates>

The overpopulation of wild horses in the western United States has led the federal government to remove some of them. How best to protect the animals is up for debate. Some activists feel the horses should be free, while the [REDACTED] Bureau of Land Management seeks to re-distribute them across the country, including in the Northeast.

Questions & Proposed Responses:

Hello, I'm working on a story about morale at MCC in Manhattan in the wake of charges against [REDACTED] and Michael [REDACTED]. I've spoken to an AFGE union official and

The thrust of the story is that morale has plummeted at the facility in the wake of the falsification of documents charges. Morale was already bad because of staffing issues.

(1) Has any money been allocated for improving MCC as a facility since [REDACTED] death?

RESPONSE: Yes, examples include money for staff positions at MCC New York (are we saying we are adding staff positions in the future or have already added them and

(2) Has there been a hiring surge since [REDACTED] suicide?

RESPONSE: __ (12?) staff have been hired since January roughly [REDACTED] can get exact numbers from his institution' HRM, I may need to confirm with Central [REDACTED] HRM)

(3) Any changes in BOP policies following [REDACTED] suicide?

RESPONSE: [REDACTED] will get more info to supplement this: There have been a number of policy changes implemented under a "back to basics" approach in recent months. TI

(4) Is it correct that [REDACTED] and [REDACTED] were responsible for roughly 50 to 70 inmates the night of the suicide?

RESPONSE: The BOP does not comment on matters related to investigations or pending litigation.

(5) What is the attrition rate for BOP correctional officers? [REDACTED] the average length of time a person stays in the job? (NYC-area would be best if [REDACTED] available.)

RESPONSE: [REDACTED] is checking to see if HRM can answer this; if not, then we could say the following: We do not have this information readily available, but it varies signfica

(6) Can you share anything supervisors at MCC have told the rank and file in the wake of these charges? [REDACTED] the message to overworked, disgruntled correctional office

RESPONSE: MCC New York has had staff recalls and meetings emphasizing that the [REDACTED] leadership understands [REDACTED] concerns and is doing the best we can. Staf

Questions & Proposed Responses:

Hello, I'm working on a story about morale at MCC in Manhattan in the wake of charges against ██████████ and Michael ██████████. I've spoken to an AFGE union official and

The thrust of the story is that morale has plummeted at the facility in the wake of the falsification of documents charges. Morale was already bad because of staffing issues.

(1) Has any money been allocated for improving MCC as a facility since ██████████ death?

RESPONSE: Yes, examples include money for staff positions at MCC New York (are we saying we are adding staff positions in the future or have already added them and

(2) Has there been a hiring surge since ██████████ suicide?

RESPONSE: __ (12?) staff have been hired since January roughly ██████████ can get exact numbers from his institution' HRM, I may need to confirm with Central ██████████ HRM)

(3) Any changes in BOP policies following ██████████ suicide?

RESPONSE: ██████████ will get more info to supplement this: There have been a number of policy changes implemented under a "back to basics" approach in recent months. TI

(4) Is it correct that ██████████ and ██████████ were responsible for roughly 50 to 70 inmates the night of the suicide?

RESPONSE: The BOP does not comment on matters related to investigations or pending litigation.

(5) What is the attrition rate for BOP correctional officers? ██████████ the average length of time a person stays in the job? (NYC-area would be best if ██████████ available.)

RESPONSE: ██████████ is checking to see if HRM can answer this; if not, then we could say the following: We do not have this information readily available, but it varies signfica

(6) Can you share anything supervisors at MCC have told the rank and file in the wake of these charges? ██████████ the message to overworked, disgruntled correctional office

RESPONSE: MCC New York has had staff recalls and meetings emphasizing that the ██████████ leadership understands ██████████ concerns and is doing the best we can. Staf

Good morning [REDACTED],

Unfortunately, if your client has a noon hearing tomorrow, the USMS are going to come pick him up first thing. As such, it is doubtful he will be here past 7 or 8 am tomorrow. Bobbi is coming to see him around noon today. Are you able to come with Bobbi or after the count?

Thank you,

I wasn't able to get to see [REDACTED] over the weekend so I have to seem tomorrow before court on Tuesday. I hope that is ok. I will be at the facility by 8:00.

Thank you for the social visit on Friday. [REDACTED] and his mom are very grateful and I am glad that it was accomplished before court. It will be very helpful to us.

Good morning all,

Per the above article, the Court was advised by the USAO that MCC did not preserve video from outside the cell shared by [REDACTED] and Epstein at the time of [REDACTED] alleged first suicide attempt. However, per the attached, SIS advised the footage was preserved. What search for the footage was performed prior to advising the USAO the footage could not be found? I would recommend searching again for the missing video. I have a call with the AUSAs in 20 minutes and will advise as to what other issues arose at [REDACTED] hearing.

Thank you,

Dear [REDACTED],

Thank you for your letter of August 10, 2019 regarding the death of Jeffrey Epstein. Mr. [REDACTED] death is a tragedy to everyone involved in his case.

One open question, among others, is whether the investigations referenced in your letter will include the incident at MCC involving Mr. Epstein on or about July 23, 2019. To my knowledge, it has never been definitively explained what the BOP concluded about that incident.

C/O [REDACTED] was assigned to staff watch; however, the wrong book was used (I/M companion log) in lieu of Staff Suicide Watch log.

Coates, DTS discovered the wrong log was used. Coates completed a 2nd log using Suicide Watch log (Coates initialed the log for [REDACTED]).

Entries are identical in both logs.
