2 MR. [REDACTED]: Yes.  
3 MR. [REDACTED]: Thank you, sir. Again,  
4 it's a voluntary interview, if you don't

6 to rephrase.  
7 MR. [REDACTED]: Yeah.  
8 MR. [REDACTED]: Or ask for any  
9 clarification. I would be happy to provide it.  
10 Were you previously interviewed by the OIG at  
11 the MCC on July 15th, 2019?  
12 MR. [REDACTED]: Yes.  
13 MR. [REDACTED]: Great. And that was by  
14 me and Special Agent [REDACTED]. Correct?  
15 MR. [REDACTED]: Yes.  
16 MR. [REDACTED]: Great. Is it correct  
17 that the MCC camera -. Or sorry. Before I go  
18 on that, are you still at the MCC?  
19 MR. [REDACTED]: Yes, I am.  
20 MR. [REDACTED]: Are you still the  
21 electronics technician?  
22 MR. [REDACTED]: Yes, I am.  
23 MR. [REDACTED]: Great. Has anything  
24 changed since we spoke on July 15th, 2019?  
25 MR. [REDACTED]: No.

6  
1 kind has been used against me."  
2 So, take a look. If you understand it,  
3 and are agreeing, and are willing to continue,  
4 can you just please sign where it says employee  
5 signature? Thank you very much for signing.  
6 DO you understand the form?  
7 MR. [REDACTED]: Mm-hmm. Yes, I do.  
8 MR. [REDACTED]: Okay. Do you understand  
9 this is a voluntary interview?  
10 MR. [REDACTED]: Yes.  
11 MR. [REDACTED]: Perfect. Thank you.  
12 Okay. Today's date, again, is September 29th.  
13 So, I'm writing 09/29/21. The place is OIG,  
14 MYFO. And the time is 8:19 a.m. And I am  
15 signing my name as the Special Agent. ASAC  
16 [REDACTED], can you sign as a witness, please?  
17 [REDACTED]: Mm-hmm.  
18 MR. [REDACTED]: Thank you, sir.  
19 [REDACTED]: Thank you.  
20 MR. [REDACTED]: All right. Before  
21 starting the interview, I would like to place  
22 you under oath. Mr. [REDACTED], can you please  
23 raise your right hand? Do you swear to tell  
24 the truth and nothing but the truth --  
25 MR. [REDACTED]: Yes.

8  
1 MR. [REDACTED]: No. Great. Is it  
2 correct that the MCC cameras were not working  
3 properly in August 2019?  
4 MR. [REDACTED]: Yeah. Well, the recorders  
5 wasn't working. The cameras were working. The  
6 recorders weren't working.  
7 MR. [REDACTED]: So, the live feed was  
8 working, but the recordings were not.  
9 MR. [REDACTED]: Yes.  
10 MR. [REDACTED]: Correct. When did you  
11 first learn that the MCC cameras were not  
12 working properly?  
13 MR. [REDACTED]: That day. This was, I  
14 believe, that day. Towards the end of my  
15 shift. I'm not sure what time.  
16 MR. [REDACTED]: So, you still think it  
17 was August 9th, 2019, that you learned?  
18 MR. [REDACTED]: Yes.  
19 MR. [REDACTED]: After giving it some  
20 thought, do you think maybe it happened the day  
21 before, on August 8th, 2019?  
22 MR. [REDACTED]: I don't know if I spoke to  
23 somebody. I don't know why it would be the  
24 8th.  
25 MR. [REDACTED]: All right. When we go

1 over the reports, we will see if that can help  
 2 freshen, you know, help you recall. First,  
 3 we're just going to ask you some questions for,  
 4 like, you know, so you can, from memory, recall  
 5 exactly --  
 6 MR. [REDACTED]: What happened.  
 7 MR. [REDACTED]: -- when it was, and then  
 8 we will go over the reports, and see if that  
 9 helps jog anything. But to your recollection,  
 10 it was on August 9th, 2019?  
 11 MR. [REDACTED]: Yes.  
 12 MR. [REDACTED]: And what is --  
 13 MR. [REDACTED]: It was that Friday.  
 14 MR. [REDACTED]: -- what is it that makes  
 15 you think that it was on that Friday?  
 16 MR. [REDACTED]: Because that's when I went  
 17 to the room. That's the only thing I really  
 18 remember. Because it was a lot of hours after  
 19 that.  
 20 MR. [REDACTED]: Okay.  
 21 MR. [REDACTED]: That day.  
 22 MR. [REDACTED]: So, it was just --  
 23 MR. [REDACTED]: Yeah.  
 24 MR. [REDACTED]: -- it was a lot of things  
 25 going on.

1 9th, is when you first noticed it, and that  
 2 half of the cameras, or --  
 3 MR. [REDACTED]: Half of them was on --  
 4 MR. [REDACTED]: -- half the cameras on --  
 5 MR. [REDACTED]: -- DVR-1.  
 6 MR. [REDACTED]: -- DVR-1, and half were  
 7 on DVR-2.  
 8 MR. [REDACTED]: DVR-2.  
 9 MR. [REDACTED]: And one of the, one of  
 10 those DVRs, which included half of the cameras  
 11 --  
 12 MR. [REDACTED]: Cameras.  
 13 MR. [REDACTED]: -- they stopped --  
 14 MR. [REDACTED]: Yeah. Stopped working.  
 15 MR. [REDACTED]: -- working.  
 16 MR. [REDACTED]: Yeah.  
 17 MR. [REDACTED]: So, what is your  
 18 knowledge or recollection of when those half of  
 19 cameras --?  
 20 MR. [REDACTED]: I don't know when those  
 21 half the cameras stopped working?  
 22 MR. [REDACTED]: So, when you were trying  
 23 to obtain video after the fact, you never  
 24 learned, like, when they're --  
 25 MR. [REDACTED]: This is the first time --

1 MR. [REDACTED]: Yeah. There was a lot of  
 2 things going on. But I remember the 9th  
 3 because everything happened the next day.  
 4 MR. [REDACTED]: Okay.  
 5 MR. [REDACTED]: On Saturday.  
 6 MR. [REDACTED]: And are you aware, now,  
 7 after the fact, that the cameras stopped  
 8 recording on July 29th, 2019?  
 9 MR. [REDACTED]: No.  
 10 MR. [REDACTED]: So, you're not aware of  
 11 that?  
 12 MR. [REDACTED]: No. Nobody. It's the  
 13 first time somebody has told me that.  
 14 MR. [REDACTED]: Okay. So, by reviewing  
 15 the recording system, or anything like that,  
 16 you didn't learn that they stopped on July  
 17 29th?  
 18 MR. [REDACTED]: No. The recorders were  
 19 still working. Because the recorders were  
 20 still working for the building. All the --  
 21 Not all the cameras were working, but some of  
 22 the recorders were working. (Indiscernible  
 23 \*00:06:26).  
 24 MR. [REDACTED]: So, when we spoke last  
 25 time, you explained to us that on, like, August

1 MR. [REDACTED]: -- the last video?  
 2 MR. [REDACTED]: -- yeah, this is the first  
 3 time I heard that, was July.  
 4 MR. [REDACTED]: Okay.  
 5 MR. [REDACTED]: Yeah.  
 6 MR. [REDACTED]: So, when is the first  
 7 time you found out, then, that the recordings  
 8 were, in fact, not working?  
 9 MR. [REDACTED]: When I went to go try to  
 10 fix it on that Friday.  
 11 MR. [REDACTED]: Okay. On the 9th?  
 12 MR. [REDACTED]: Yeah.  
 13 MR. [REDACTED]: Okay. But on the 9th,  
 14 did you -- I thought you had told us you  
 15 couldn't gain access to it on the 9th. So,  
 16 when did you actually gain access to the room,  
 17 to be able to --  
 18 MR. [REDACTED]: I went up there --  
 19 MR. [REDACTED]: -- determine --?  
 20 MR. [REDACTED]: -- in the afternoon, to go  
 21 do work. They said I couldn't stay because [REDACTED]  
 22 had to leave, so the video room.  
 23 MR. [REDACTED]: Okay.  
 24 MR. [REDACTED]: Yeah.  
 25 MR. [REDACTED]: So, [REDACTED] had to leave, so

1 you couldn't stay to do the work?  
 2 MR. [REDACTED]: Yeah. I couldn't stay to  
 3 do the work, because I don't have a key, I  
 4 don't have access to the room. Because it's  
 5 the property room.  
 6 MR. [REDACTED]: And when you say "they,"  
 7 who was it that told you this?  
 8 MR. [REDACTED]: I was talking to Officer  
 9 [REDACTED]. But it's no -. Everybody knows that SIS,  
 10 that's their room, and I don't have access to  
 11 go in the room. At the time, I didn't have  
 12 access to fix the recorders.  
 13 MR. [REDACTED]: Okay. Did you ever talk  
 14 to a [REDACTED]?  
 15 MR. [REDACTED]: That day?  
 16 MR. [REDACTED]: Any day, about these  
 17 recordings.  
 18 MR. [REDACTED]: Yeah. I've talked to  
 19 people numerous times about me getting access  
 20 to the room, that I should have access to the  
 21 room.  
 22 MR. [REDACTED]: No, I'm talking about,  
 23 like, on August 8th or August 9th, about the  
 24 cameras. Do you recall having a conversation -  
 25 -

1 MR. [REDACTED]: All right. Do you know  
 2 what stopped them from recording?  
 3 MR. [REDACTED]: I just know that the  
 4 system was old, and it had a lot of problems.  
 5 MR. [REDACTED]: Okay. Do you know if  
 6 someone did, like, an improper shutdown, or  
 7 that power surge created it to shut off?  
 8 MR. [REDACTED]: They were on UPSs, and no  
 9 power surge that would have created it. It  
 10 would have just been mechanical.  
 11 MR. [REDACTED]: Okay.  
 12 MR. [REDACTED]: Or, yeah, yeah.  
 13 MR. [REDACTED]: Just from age?  
 14 MR. [REDACTED]: Just from age, and wear  
 15 and tear. Yes.  
 16 MR. [REDACTED]: Okay. And again, on  
 17 August 8th, you don't recall ever having  
 18 conversations with anybody regarding these  
 19 cameras, or first learning on August 8th that  
 20 the cameras went down?  
 21 MR. [REDACTED]: August 8th? The day  
 22 before? I don't really recall (Indiscernible  
 23 \*00:09:09).  
 24 MR. [REDACTED]: And you don't recall  
 25 having the conversation with SIS [REDACTED]

1 MR. [REDACTED]: I don't recall.  
 2 MR. [REDACTED]: -- with [REDACTED]  
 3 [REDACTED]?  
 4 MR. [REDACTED]: No.  
 5 MR. [REDACTED]: No. Or [REDACTED]? The  
 6 [REDACTED].  
 7 MR. [REDACTED]: I don't remember.  
 8 MR. [REDACTED]: No. Okay. So, you don't  
 9 remember learning that, on July 29th, 2019, the  
 10 cameras stopped recording?  
 11 MR. [REDACTED]: This is the first time --  
 12 MR. [REDACTED]: From (Indiscernible  
 13 \*00:08:19).  
 14 MR. [REDACTED]: -- I heard it.  
 15 MR. [REDACTED]: That's the very first  
 16 time you heard?  
 17 MR. [REDACTED]: That it was July. Yeah.  
 18 MR. [REDACTED]: Okay.  
 19 MR. [REDACTED]: Because that's, like, two  
 20 weeks out, I wouldn't - not know it was  
 21 recording for two weeks. That doesn't make any  
 22 sense.  
 23 MR. [REDACTED]: Okay. So, you don't  
 24 think that that would be accurate?  
 25 MR. [REDACTED]: No.

1 [REDACTED] and [REDACTED], about the cameras not  
 2 recording on August 8th, 2019? On Thursday?  
 3 MR. [REDACTED]: No. I don't recall.  
 4 MR. [REDACTED]: You don't. Do you  
 5 remember them, towards the end of your shift,  
 6 bringing you in the office because they  
 7 couldn't get the recordings to rewind, and  
 8 asked you to fix the problem?  
 9 MR. [REDACTED]: On the 8th?  
 10 MR. [REDACTED]: On the 8th.  
 11 MR. [REDACTED]: Hmm. I don't recall that.  
 12 No.  
 13 MR. [REDACTED]: Do you remember having -  
 14 at any time - a conversation prior to Epstein's  
 15 death, with [REDACTED], with SIS [REDACTED]  
 16 [REDACTED] and [REDACTED]?  
 17 MR. [REDACTED]: Together? At the same  
 18 time? No. I don't recall it. Yeah.  
 19 MR. [REDACTED]: What about separately?  
 20 MR. [REDACTED]: Separately, probably. We  
 21 probably talked about it. But not together.  
 22 At the same time.  
 23 MR. [REDACTED]: Well, do you recall the  
 24 conversations that you had, then, prior to  
 25 Epstein dying on the - or being found - on the

1 10th. What conversations did you have with  
 2 each of those individuals?  
 3 MR. [REDACTED]: Right. I was just busy  
 4 working. On the 10th, the day it happened, or  
 5 -?  
 6 MR. [REDACTED]: No. Prior to the 10th.  
 7 So, the 8th, the 9th, or anywhere back to the  
 8 July 29th, really.  
 9 MR. [REDACTED]: Oh. That we were working  
 10 o the problem, trying to figure out what was  
 11 causing it, and that's when I ordered new hard  
 12 drives to replace all the drives. That was my  
 13 next step. That's what I was going to do that  
 14 day. But I couldn't.  
 15 MR. [REDACTED]: And what made you do  
 16 that, though? Who told you to replace the hard  
 17 drives?  
 18 MR. [REDACTED]: Talking through SigNet,  
 19 and the former com tech, [REDACTED], he's the  
 20 computer services manager and we talked about  
 21 buying hard drives. I actually got a purchase  
 22 order, too. Yeah.  
 23 MR. [REDACTED]: So, who was the computer  
 24 service manager?  
 25 MR. [REDACTED]: [REDACTED].

1 that present time - he was the computer  
 2 services manager.  
 3 MR. [REDACTED]: He was?  
 4 MR. [REDACTED]: Yes.  
 5 MR. [REDACTED]: Okay. So, he was  
 6 actually working at the MCC?  
 7 MR. [REDACTED]: Yes.  
 8 MR. [REDACTED]: And he was your boss?  
 9 MR. [REDACTED]: No. It's just, I talked  
 10 to him about computer stuff, because he knows a  
 11 little bit more than I do. That's his  
 12 specialty.  
 13 MR. [REDACTED]: Okay. What was his kind  
 14 of, like, job role at the time?  
 15 MR. [REDACTED]: His job role was to take  
 16 care of the computers. Infrastructure of the  
 17 building.  
 18 MR. [REDACTED]: Okay.  
 19 MR. [REDACTED]: Yeah.  
 20 MR. [REDACTED]: And what was the  
 21 conversation you had with him, and where?  
 22 MR. [REDACTED]: I think, that's when we  
 23 were talking about actually just replacing all  
 24 of the hard drives because they keep failing  
 25 all the time. So, the next step was to replace

1 MR. [REDACTED]: Can you spell the first  
 2 and last name?  
 3 MR. [REDACTED]: [REDACTED]. And [REDACTED]. [REDACTED]-  
 4 [REDACTED].  
 5 MR. [REDACTED]: And did you say [REDACTED]  
 6 [REDACTED].  
 7 MR. [REDACTED]: [REDACTED]. [REDACTED] Yes. That's an  
 8 [REDACTED]. Yeah.  
 9 MR. [REDACTED]: [REDACTED] or -?  
 10 MR. [REDACTED]: Yeah. [REDACTED].  
 11 MR. [REDACTED]: So, no [REDACTED].  
 12 MR. [REDACTED]: No [REDACTED].  
 13 MR. [REDACTED]: Okay.  
 14 MR. [REDACTED]: And that's an [REDACTED].  
 15 MR. [REDACTED]: And that was the CSM?  
 16 MR. [REDACTED]: Yup. [REDACTED]. [REDACTED].  
 17 I'm sorry. And it's an [REDACTED]. Not an [REDACTED] At the  
 18 end.  
 19 MR. [REDACTED]: All right. So, [REDACTED].  
 20 [REDACTED] - [REDACTED]?  
 21 MR. [REDACTED]: Yes.  
 22 MR. [REDACTED]: Okay. Great. And who  
 23 was that person?  
 24 MR. [REDACTED]: He was the previous com  
 25 tech before I got there, and now, he was - at

1 all the hard drives.  
 2 MR. [REDACTED]: And do you remember when  
 3 you had that conversation?  
 4 MR. [REDACTED]: A few days before this  
 5 happened. And we've had numerous conversations  
 6 about this for weeks because - and probably  
 7 months - because of the way the hard drives  
 8 kept failing. The drives would, the recorders  
 9 would stop working.  
 10 MR. [REDACTED]: So, did you know, then, a  
 11 few days before this? I'm assuming, when you  
 12 say "this," August 9th, 2019, that the hard  
 13 drives had failed?  
 14 MR. [REDACTED]: I knew it was a  
 15 possibility they failed. At the time, or the  
 16 before I left, I knew everything was working.  
 17 MR. [REDACTED]: Before you left when?  
 18 MR. [REDACTED]: I'm not too sure, but I'm  
 19 just saying, like, overall, as far as, like, as  
 20 far as everything recording, because I've  
 21 checked the recorders. It looked like  
 22 everything was recording.  
 23 MR. [REDACTED]: What day are you speaking  
 24 about, though?  
 25 MR. [REDACTED]: Oh, specifically, before

1 the incident happened, on the 9th.  
 2 MR. [REDACTED]: So, on the 9th,  
 3 everything was recording?  
 4 MR. [REDACTED]: Well, when I checked it,  
 5 of course it wasn't recording. That's why I  
 6 went up there to check.  
 7 MR. [REDACTED]: It was not?  
 8 MR. [REDACTED]: It was not recording.  
 9 MR. [REDACTED]: Okay. So, when is the  
 10 first time you found out that it was not  
 11 recording?  
 12 MR. [REDACTED]: Oh. I guess the 9th.  
 13 Everybody keep saying the 8th, but I don't  
 14 really remember the 8th.  
 15 MR. [REDACTED]: Okay. So, the 9th, and  
 16 is that when you --  
 17 MR. [REDACTED]: Because I --.  
 18 MR. [REDACTED]: -- are saying you had the  
 19 conversation with [REDACTED]?  
 20 MR. [REDACTED]: Yes. Well, I had the  
 21 conversation before, with [REDACTED], about what I  
 22 was going to do next.  
 23 MR. [REDACTED]: Okay.  
 24 MR. [REDACTED]: Because it happened  
 25 before, so the next step was just to replace

1 remember exactly when you spoke with him?  
 2 MR. [REDACTED]: No. Some time around that  
 3 time, because I have to get the purchase, I  
 4 have to get the parts to make the repairs, or  
 5 change the drives out.  
 6 MR. [REDACTED]: All right. So, until we  
 7 go over this, I'm going to run through these,  
 8 just so we keep on track. But it sounds like  
 9 I'm going to have to show you these documents,  
 10 to help maybe clarify some things.  
 11 MR. [REDACTED]: Mm-hmm.  
 12 MR. [REDACTED]: Do you know, did you know  
 13 that the recorders - that the cameras weren't  
 14 recording prior to August 9th, 2019?  
 15 MR. [REDACTED]: Yeah. I know there was  
 16 failures in the system. Yes.  
 17 MR. [REDACTED]: So, you knew that they  
 18 were not recording?  
 19 MR. [REDACTED]: Not that day. But I know  
 20 that, overall, there was going to be system  
 21 failures.  
 22 MR. [REDACTED]: And did you know that it  
 23 was half of them, all on DVR-1 or 2?  
 24 MR. [REDACTED]: I wasn't too sure what it  
 25 was.

1 all the hard drives.  
 2 MR. [REDACTED]: Like, it happened long  
 3 before, or when are you talking about --  
 4 MR. [REDACTED]: It happened --  
 5 MR. [REDACTED]: -- (Indiscernible  
 6 \*00:13:11)  
 7 MR. [REDACTED]: -- multiple times before,  
 8 where the recorders would stop working.  
 9 MR. [REDACTED]: Okay.  
 10 MR. [REDACTED]: Yes.  
 11 MR. [REDACTED]: So, you were trying to  
 12 preemptively stop that from happening?  
 13 MR. [REDACTED]: Happening again, yes.  
 14 MR. [REDACTED]: Okay. So --  
 15 MR. [REDACTED]: So --.  
 16 MR. [REDACTED]: -- you didn't talk to  
 17 him based upon the system stopping recording.  
 18 You were talking about it --  
 19 MR. [REDACTED]: Mm-hmm.  
 20 MR. [REDACTED]: -- doing preventative  
 21 maintenance?  
 22 MR. [REDACTED]: Maintenance. Yes.  
 23 MR. [REDACTED]: Is that correct?  
 24 MR. [REDACTED]: Yes.  
 25 MR. [REDACTED]: Okay. But you don't

1 MR. [REDACTED]: Okay.  
 2 MR. [REDACTED]: But I know there was a  
 3 failure. I didn't check to see exactly where  
 4 they were.  
 5 MR. [REDACTED]: So, you knew there was a  
 6 failure with the system, prior to August 9th.  
 7 You just didn't know what the failure was?  
 8 MR. [REDACTED]: Yes.  
 9 MR. [REDACTED]: And how did you know  
 10 that?  
 11 MR. [REDACTED]: Well, I would have to go  
 12 check if there was video, there was no recorder  
 13 videos, live videos, but there was no recorder  
 14 video.  
 15 MR. [REDACTED]: So, you personally had  
 16 checked to see if there were recorded video?  
 17 MR. [REDACTED]: Yes.  
 18 MR. [REDACTED]: And when did you do that?  
 19 MR. [REDACTED]: I had, well, I had checked  
 20 that day, before I had to go upstairs to look  
 21 at everything.  
 22 MR. [REDACTED]: August 9th?  
 23 MR. [REDACTED]: August 9th. Yes.  
 24 MR. [REDACTED]: So, that's where I'm  
 25 saying. So, when you say, prior to the time,

1 you're talking about the same day, August 9th,  
 2 is when you checked the --  
 3 MR. [REDACTED]: Checked the recording.  
 4 MR. [REDACTED]: -- the recording.  
 5 MR. [REDACTED]: Yeah.  
 6 MR. [REDACTED]: Prior to August 9th, did  
 7 you check the recording to see if it  
 8 (Indiscernible \*00:14:46)?  
 9 MR. [REDACTED]: Multiple times before.  
 10 Yes.  
 11 MR. [REDACTED]: And were they recorded?  
 12 MR. [REDACTED]: From what I believe, yes.  
 13 I'm not too sure.  
 14 MR. [REDACTED]: Okay. Would you check  
 15 that system to check on the recordings, every  
 16 day?  
 17 MR. [REDACTED]: No. There was no thing  
 18 that says I have to check it.  
 19 MR. [REDACTED]: Sure.  
 20 MR. [REDACTED]: The thing with the  
 21 recorders is, I'm not really supposed to, like,  
 22 mess with the system. I just, I'm maintenance.  
 23 I'm not really supposed to, like, oh, today,  
 24 SIS, that's their job to tell me, hey, [REDACTED],  
 25 there is no video, or something, there is a

1 MR. [REDACTED]: All right. So, we were  
 2 just talking about the recording and how Mr.  
 3 [REDACTED] would not go in and review a recording  
 4 without someone requesting him to do so. He  
 5 doesn't recall specifically who made that  
 6 request for him to review the recording, but he  
 7 believes that he reviewed the recording on the  
 8 9th, and that's when he determined that it  
 9 wasn't recording properly. Is that correct?  
 10 MR. [REDACTED]: Yes.  
 11 MR. [REDACTED]: All right. And you - and  
 12 again - you don't remember why you were  
 13 reviewing that recording?  
 14 MR. [REDACTED]: No. Because we're in the  
 15 middle of a -. Well, no, this -. Before  
 16 Epstein happened, we were in the middle of a  
 17 camera project, we had people TDY. So, I was,  
 18 like, the lead in the building, trying to tell  
 19 everybody what needs to get done. And I think  
 20 the day before, I was on 10 South, I was  
 21 putting in a (Indiscernible \*00:16:52), so I  
 22 was busy that day, and I had a TDY guy on me.  
 23 MR. [REDACTED]: And when you - on the  
 24 8th?  
 25 MR. [REDACTED]: Yeah.

1 problem.  
 2 MR. [REDACTED]: So, how did you know that  
 3 the recording wasn't being able to rewind, and  
 4 check recording? Why were you in there  
 5 checking that?  
 6 MR. [REDACTED]: I just, I guess I spoke to  
 7 somebody, or maybe I checked it. I'm not too  
 8 sure.  
 9 MR. [REDACTED]: But it would have been  
 10 based upon someone requesting you to do so?  
 11 MR. [REDACTED]: Yes.  
 12 MR. [REDACTED]: And you believe that  
 13 happened on the 9th?  
 14 MR. [REDACTED]: Yes.  
 15 MR. [REDACTED]: Okay.  
 16 [REDACTED]: And just, and the call  
 17 dropped. Let me get [REDACTED] back on.  
 18 MR. [REDACTED]: Absolutely.  
 19 MR. [REDACTED]: Agent [REDACTED].  
 20 [REDACTED]: Hey, [REDACTED]. You hear us fine  
 21 now?  
 22 MR. [REDACTED]: Yes. I apologize. I  
 23 don't know why the call dropped.  
 24 MR. [REDACTED]: Mm-hmm.  
 25 [REDACTED]: Okay.

1 MR. [REDACTED]: You got a TD guy with  
 2 you.  
 3 MR. [REDACTED]: Yeah.  
 4 MR. [REDACTED]: And who was that TD guy  
 5 Y? (Indiscernible \*00:16:59).  
 6 MR. [REDACTED]: [REDACTED]. His last name was  
 7 [REDACTED], and I don't remember his first name.  
 8 He was an electrician.  
 9 MR. [REDACTED]: An electrician. Do you  
 10 know which facility he came from?  
 11 MR. [REDACTED]: No. I'm not too sure.  
 12 MR. [REDACTED]: You don't know the first  
 13 name?  
 14 MR. [REDACTED]: I forgot his first name.  
 15 We just call everybody by their last name.  
 16 MR. [REDACTED]: But he's not from MCC?  
 17 MR. [REDACTED]: No. He's not in from MCC.  
 18 MR. [REDACTED]: After the interview, can  
 19 you just see if you can identify who that  
 20 person is, and then send me an email?  
 21 MR. [REDACTED]: Okay.  
 22 MR. [REDACTED]: Of the person's name.  
 23 But the August 8th, 2019, you believe this --  
 24 MR. [REDACTED]: Yeah.  
 25 MR. [REDACTED]: -- this TDY employee,

1 [REDACTED], was with you?  
 2 MR. [REDACTED]: Yeah. He was with me. We  
 3 were together all day because we were doing the  
 4 piping, and trying to put the rack in.  
 5 MR. [REDACTED]: And what is a rack?  
 6 MR. [REDACTED]: Where the -. Well, for  
 7 the new camera system, that's where the power  
 8 supply, the switch would go, the camera feed,  
 9 the (Indiscernible \*00:17:38) five cables would  
 10 go. Everything will go on the rack.  
 11 MR. [REDACTED]: So, it had to do with the  
 12 camera system?  
 13 MR. [REDACTED]: The upgrading the new  
 14 camera system. Yes.  
 15 MR. [REDACTED]: Is that anything that  
 16 could have possibly caused the cameras to stop  
 17 recording?  
 18 MR. [REDACTED]: No. That's -. Nothing  
 19 was hooked up. It was just the hardware.  
 20 There was no wiring or nothing.  
 21 MR. [REDACTED]: Okay. So, that could not  
 22 have affected the camera?  
 23 MR. [REDACTED]: The cameras? No.  
 24 MR. [REDACTED]: All right. And do you  
 25 remember, prior to August 9th, checking on the

1 they weren't working before. So, I had to  
 2 rebuild one of the drives. I had to change one  
 3 of the drives out.  
 4 MR. [REDACTED]: Okay.  
 5 MR. [REDACTED]: That's when I went to say,  
 6 let me order a whole bunch of drives, to  
 7 replace all the drives together, at once.  
 8 MR. [REDACTED]: And are you able to  
 9 determine when you made that order?  
 10 MR. [REDACTED]: Yes. We have a purchase  
 11 order. Yes.  
 12 MR. [REDACTED]: All right. So, those two  
 13 things so far. Can you give me the name of  
 14 [REDACTED], and the second thing is the purchase  
 15 order, with regard to --  
 16 MR. [REDACTED]: Yeah.  
 17 MR. [REDACTED]: -- when you made that  
 18 order --  
 19 MR. [REDACTED]: Yeah.  
 20 MR. [REDACTED]: -- for the new drives?  
 21 MR. [REDACTED]: Mm-hmm.  
 22 MR. [REDACTED]: I'll send you an email  
 23 after this.  
 24 MR. [REDACTED]: Okay.  
 25 MR. [REDACTED]: Just kind of reminding

1 camera system, though, to make sure it was  
 2 recording?  
 3 MR. [REDACTED]: Yes. After we had the  
 4 problem, yes.  
 5 MR. [REDACTED]: No, no, no. Prior to the  
 6 9th.  
 7 MR. [REDACTED]: Yes. Prior to the 9th.  
 8 MR. [REDACTED]: And when did you check  
 9 on, prior, like, how many days before? Do you  
 10 remember?  
 11 MR. [REDACTED]: I don't really remember.  
 12 MR. [REDACTED]: Are you talking about,  
 13 like, a few days leading up, a day leading up,  
 14 or are you talking about, like, a month or two?  
 15 MR. [REDACTED]: Maybe, like, weeks. Not  
 16 months. It wouldn't have been a month.  
 17 MR. [REDACTED]: Like, a few weeks?  
 18 MR. [REDACTED]: Yeah, because I had to  
 19 order the parts. I don't know when I ordered  
 20 the parts. But I had to know that they weren't  
 21 working.  
 22 MR. [REDACTED]: But I thought you just  
 23 said that they were working, and you only  
 24 ordered them as preventative maintenance?  
 25 MR. [REDACTED]: Well, I - yeah -. Well,

1 you of what it is we're hoping to get. And  
 2 there, but again, you ordered that because  
 3 there was a problem with the --  
 4 MR. [REDACTED]: Recorders.  
 5 MR. [REDACTED]: -- with the recorders --  
 6 MR. [REDACTED]: Yes.  
 7 MR. [REDACTED]: -- you fixed that  
 8 problem.  
 9 MR. [REDACTED]: Temporarily. But I knew  
 10 it was going to happen again. And the best  
 11 thing to do was replace all the drives.  
 12 MR. [REDACTED]: Okay. So, you knew that  
 13 it would stop recording again?  
 14 MR. [REDACTED]: I knew there was going to  
 15 be a problem again. Yes.  
 16 MR. [REDACTED]: Okay. And what made you  
 17 know that  
 18 MR. [REDACTED]: Talking to the vendor, and  
 19 talking to [REDACTED], and the age of the unit,  
 20 because it was, like, 15 years old. And the  
 21 fact that it's on 365, 24 days, and on 24 hours  
 22 a day, like, it just constantly goes on. And  
 23 then, when you try to do maintenance, something  
 24 as simple as changing the time, the recording  
 25 would stop for, like, a whole day, day and a

1 half. Because for the drives rebuilding, you  
2 have to change the time.

3 MR. [REDACTED]: Okay.

4 MR. [REDACTED]: And before all of this  
5 happened, I actually put in a camera project.  
6 That's why I was in the middle of a camera  
7 project, to replace everything.

8 MR. [REDACTED]: Now, when you say that  
9 the people you spoke to, you mentioned [REDACTED],  
10 and then, you said the customer service people  
11 --

12 MR. [REDACTED]: Yeah. SigNet.

13 MR. [REDACTED]: -- Signet.

14 MR. [REDACTED]: Yeah. Mainly [REDACTED]  
15 [REDACTED], and I would talk to him.

16 MR. [REDACTED]: [REDACTED] was your  
17 main point of contact?

18 MR. [REDACTED]: Yes.

19 MR. [REDACTED]: What about a [REDACTED]  
20 [REDACTED]? Would you recall --?

21 MR. [REDACTED]: [REDACTED] was the one that came  
22 after Epstein. That's the guy that showed up  
23 when we had to put in the new drives. Because  
24 we ordered the new -. We ordered the new  
25 recorders. But everything was downstairs in

1 MR. [REDACTED]: And what was the system  
2 again?

3 MR. [REDACTED]: Raid (Phonetic Sp.  
4 \*00:21:08).

5 MR. [REDACTED]: Nice Pro, or something  
6 like that?

7 MR. [REDACTED]: I don't -. I know it was  
8 a raid system. A raid array. I remember  
9 that's what he kept saying. Raid array.

10 MR. [REDACTED]: Okay.

11 MR. [REDACTED]: It was raid.

12 MR. [REDACTED]: And do you know what that  
13 means? Raid array?

14 MR. [REDACTED]: Just the way the drives  
15 would go. So, if, the way he explained that to  
16 me, if one drive would go bad, that's not so  
17 bad. But as soon as two drives go bad, that's  
18 when all the recordings pretty much stops.

19 MR. [REDACTED]: So --

20 MR. [REDACTED]: Because it was a redundant  
21 system.

22 MR. [REDACTED]: -- okay. So, when one  
23 drive goes bad, does any, do any recordings  
24 stop?

25 MR. [REDACTED]: No. It will keep

1 the basement. And we weren't really a priority  
2 on the list until, of course, Epstein happened.  
3 That's when SigNet came the next day, and put  
4 the new recorders in.

5 MR. [REDACTED]: Okay. So, prior to  
6 August 10th, 2019, your main point of contact  
7 was SigNet, with [REDACTED]?

8 MR. [REDACTED]: [REDACTED].

9 MR. [REDACTED]: I mean, [REDACTED].

10 MR. [REDACTED]: [REDACTED]. Yes.

11 MR. [REDACTED]: And what was his role and  
12 responsibility with SigNet?

13 MR. [REDACTED]: He is just, like, the guy  
14 we will call if there is a problem, or if  
15 training, or if I don't know the system.  
16 Because, like, this system, I never had  
17 training on it. So, like, when I saw it,  
18 because the last institution I was, was, like,  
19 maybe two versions ahead of this one. So, when  
20 I saw this recording, I was, like, this stuff  
21 is old, like, I don't know anything about it.  
22 Like, what should I do? So, I called [REDACTED],  
23 and [REDACTED], like, pretty much would walk me  
24 through trouble shooting, if there is a  
25 problem.

1 recording.

2 MR. [REDACTED]: So, it will automatically  
3 shift over to the other drive?

4 MR. [REDACTED]: To the other slot. Yes.

5 MR. [REDACTED]: Okay.

6 MR. [REDACTED]: And then, when two drives  
7 go bad, that's when all the recordings stop.

8 MR. [REDACTED]: So, what is the  
9 difference between ours, where is one -. Is  
10 what you're talking about a DVR-1 and a DVR-2?

11 MR. [REDACTED]: No. That's the drive in  
12 the DVRs, because there's 16 drives. That's  
13 what - I think - that's what it was. So, out  
14 of the 16 like, in DVR-1, if one goes bad,  
15 that's not a problem. As soon as the second  
16 drive goes bad, then that's when you have a  
17 problem. And that's when the recording would  
18 stop.

19 MR. [REDACTED]: Okay. So, what is your  
20 understanding of what happened here?

21 MR. [REDACTED]: Oh. The drive went bad.

22 MR. [REDACTED]: One of them?

23 MR. [REDACTED]: Two of them. Yeah.

24 MR. [REDACTED]: Two of them --

25 MR. [REDACTED]: I believe.

1 MR. [REDACTED]: -- did go bad?  
 2 MR. [REDACTED]: Yes. Because that's why -  
 3 -  
 4 MR. [REDACTED]: And is it two of 16, or  
 5 is it two out of two?  
 6 MR. [REDACTED]: Two out of 16.  
 7 MR. [REDACTED]: So, if two out of 16 go  
 8 bad --  
 9 MR. [REDACTED]: Go bad.  
 10 MR. [REDACTED]: -- then --  
 11 MR. [REDACTED]: Mm-hmm.  
 12 MR. [REDACTED]: -- they all.  
 13 MR. [REDACTED]: The recordings stop. Yes.  
 14 MR. [REDACTED]: For all of them?  
 15 MR. [REDACTED]: Yes.  
 16 MR. [REDACTED]: Okay.  
 17 MR. [REDACTED]: On that drive. All the  
 18 recording stops.  
 19 MR. [REDACTED]: And the DVR-1 and DVR-2,  
 20 that's simply the recording system?  
 21 MR. [REDACTED]: Yes.  
 22 MR. [REDACTED]: That's not the anything  
 23 to do with the -. The drives are what's making  
 24 --  
 25 MR. [REDACTED]: (Indiscernible \*00:22:32)

1 from recording.  
 2 MR. [REDACTED]: From recording. Yes.  
 3 MR. [REDACTED]: But the drives on DVR-1  
 4 were all good?  
 5 MR. [REDACTED]: All good. Yes.  
 6 MR. [REDACTED]: Okay.  
 7 MR. [REDACTED]: And another thing I've  
 8 learned also, through my time, is that SigNet  
 9 replied to me this, you could look at the  
 10 camera software, until you physically look at  
 11 the drives, you would think that everything is  
 12 recording. That's something we went over  
 13 recently.  
 14 MR. [REDACTED]: Well, what about a -. I  
 15 was told that there was an application that you  
 16 would have, that was called Supervision.  
 17 MR. [REDACTED]: Yeah. I don't look at  
 18 Supervision.  
 19 MR. [REDACTED]: You don't.  
 20 MR. [REDACTED]: You can. I have access to  
 21 look at it, but I didn't get trained on it, so  
 22 I don't really look at Supervision. I would  
 23 just go in the regular Nice Vision, and look at  
 24 it that way.  
 25 MR. [REDACTED]: Yeah. We were told that,

1 MR. [REDACTED]: -- the recording, but  
 2 they're saving it to DVR-1 --  
 3 MR. [REDACTED]: Yes.  
 4 MR. [REDACTED]: -- and DVR-2.  
 5 MR. [REDACTED]: Yes.  
 6 MR. [REDACTED]: So, what is the  
 7 difference between if a DVR-1 goes bad, but not  
 8 DVR-2? Is that just -?  
 9 MR. [REDACTED]: The physical location over  
 10 it. Because everything on the old system was  
 11 analog. So, like, cameras one through whatever  
 12 are on this drive, on DVR-1, and our other  
 13 cameras are on DVR-2.  
 14 MR. [REDACTED]: So, does each DVR have 16  
 15 drives?  
 16 MR. [REDACTED]: Yes.  
 17 MR. [REDACTED]: All right. So --  
 18 MR. [REDACTED]: So --  
 19 MR. [REDACTED]: -- DVR-1 has 16 drives.  
 20 DVR-2 has 16 drives.  
 21 MR. [REDACTED]: Yes.  
 22 MR. [REDACTED]: And either DVR-1 or DVR-  
 23 2, two of those drives went bad?  
 24 MR. [REDACTED]: Yes.  
 25 MR. [REDACTED]: And stopped that DVR-2

1 in order to determine if there were problems  
 2 with the drives --  
 3 MR. [REDACTED]: The drives. You would  
 4 have to --  
 5 MR. [REDACTED]: -- that's through --  
 6 MR. [REDACTED]: -- yes.  
 7 MR. [REDACTED]: -- yeah, you go into  
 8 Supervision, and that would, in fact, tell you?  
 9 MR. [REDACTED]: And which, I have no  
 10 training on.  
 11 MR. [REDACTED]: So, you've never --  
 12 MR. [REDACTED]: Obviously.  
 13 MR. [REDACTED]: -- looked at that?  
 14 MR. [REDACTED]: No.  
 15 MR. [REDACTED]: Did anyone else have  
 16 health --  
 17 MR. [REDACTED]: At the time, no.  
 18 MR. [REDACTED]: -- did anyone else have  
 19 access?  
 20 MR. [REDACTED]: No.  
 21 MR. [REDACTED]: So, you were the only  
 22 person with access to Supervision?  
 23 MR. [REDACTED]: Yes. Pretty much. Yes.  
 24 MR. [REDACTED]: All right. And do you  
 25 know if someone accessed the application

1 Supervision, they could have taken the drives  
 2 offline, or the recordings offline?  
 3 MR. [REDACTED]: Hmm, yeah. But yeah,  
 4 nobody would have that access.  
 5 MR. [REDACTED]: Would they be able to do  
 6 it from there, though?  
 7 MR. [REDACTED]: Yes. They probably would,  
 8 yes.  
 9 MR. [REDACTED]: But you are confident no  
 10 one had access to it?  
 11 MR. [REDACTED]: No.  
 12 MR. [REDACTED]: Okay. So, you would be  
 13 the one and only person with access to  
 14 Supervision?  
 15 MR. [REDACTED]: Yes.  
 16 MR. [REDACTED]: And there is no, like, if  
 17 you're not there, somebody else has --  
 18 MR. [REDACTED]: There is nobody --  
 19 MR. [REDACTED]: -- a way to --  
 20 MR. [REDACTED]: -- there is nobody. Yeah.  
 21 MR. [REDACTED]: -- how would they do  
 22 that? From SigNet? To get access again.  
 23 MR. [REDACTED]: Oh, no. They would just  
 24 have to know the password, to log in.  
 25 MR. [REDACTED]: Well, that's what I mean.

1 repairs before, when I was trying to figure  
 2 stuff out, and I couldn't figure it out, where  
 3 they would - through a modem - they would  
 4 remote into the -. Well, I would have to grant  
 5 them access to look at the drives, to  
 6 (Indiscernible \*00:25:26) of the drives.  
 7 MR. [REDACTED]: So, how --  
 8 MR. [REDACTED]: And we've done that  
 9 before. Yes.  
 10 MR. [REDACTED]: -- so, you had to grant  
 11 them access. They couldn't go in there --  
 12 MR. [REDACTED]: No  
 13 MR. [REDACTED]: -- without your -.  
 14 MR. [REDACTED]: Physically. And  
 15 physically, you have to put a cable in.  
 16 MR. [REDACTED]: Okay.  
 17 MR. [REDACTED]: Yeah.  
 18 MR. [REDACTED]: So, you are the one and  
 19 only person with access, remotely, that could  
 20 have accessed those servers?  
 21 MR. [REDACTED]: Yes.  
 22 MR. [REDACTED]: Okay. And do you  
 23 remember the last time you would have accessed  
 24 that application?  
 25 MR. [REDACTED]: I have no idea.

1 So, if you ended up not being able to show up,  
 2 or you left, or something like that, how would  
 3 someone gain access to that?  
 4 MR. [REDACTED]: That's something they  
 5 would have to try to figure out, but yeah. I  
 6 don't -.  
 7 MR. [REDACTED]: But to your knowledge,  
 8 you're the only person that had the password to  
 9 access Supervision?  
 10 MR. [REDACTED]: Yes.  
 11 MR. [REDACTED]: Okay. And SigNet  
 12 wouldn't be able to remote in?  
 13 MR. [REDACTED]: No. They have no access  
 14 to remote it. That's BOP. They don't want  
 15 them to be able to backdoor remote in to  
 16 anything.  
 17 MR. [REDACTED]: Okay. And when did you -  
 18 -  
 19 MR. [REDACTED]: Oh. Well, they -. The  
 20 old system, they were able to, if you had a 56K  
 21 (Phonetic Sp. \*00:25:06) modem, they were able  
 22 to do maintenance, and tell me, like, the  
 23 status of the drives. But I would have to  
 24 physically hook up 56k modem. But at the time,  
 25 that wasn't hooked up. Because we did some

1 MR. [REDACTED]: No? Would it have been  
 2 leading up to August 9th, 2019?  
 3 MR. [REDACTED]: Probably. Yeah.  
 4 MR. [REDACTED]: And do you know around  
 5 how long before that?  
 6 MR. [REDACTED]: No.  
 7 MR. [REDACTED]: Is there a way to  
 8 determine? Do they have, like, some thing that  
 9 you can see when your last log ons were, or  
 10 anything like that?  
 11 MR. [REDACTED]: You could call computer  
 12 services, then they could tell you my  
 13 keystrokes or whatever, whatever I logged into.  
 14 But that's, like, the only time. Yeah.  
 15 MR. [REDACTED]: Okay.  
 16 MR. [REDACTED]: But there is really  
 17 nothing to say when I logged in.  
 18 MR. [REDACTED]: But to your recollection,  
 19 you were not accessing Supervision at all?  
 20 MR. [REDACTED]: Hmm. I mean, they showed  
 21 me how to do some stuff on it, but I don't  
 22 really even think I remembered how to - at that  
 23 time - I don't really remember.  
 24 MR. [REDACTED]: But the point being, in  
 25 this case, you didn't find out the recordings

1 had stopped because of that application,  
 2 Supervision. Correct?  
 3 MR. [REDACTED]: I don't believe so. No.  
 4 MR. [REDACTED]: Okay. And you did not  
 5 take the cameras, or recordings, offline from  
 6 Supervision. Correct?  
 7 MR. [REDACTED]: No. I can't. Yeah. No.  
 8 I've never been able to do that. So, no.  
 9 MR. [REDACTED]: So, you don't even -.  
 10 Sorry. I thought you told me before you could  
 11 do it. DO you think --  
 12 MR. [REDACTED]: You have access to do it,  
 13 yes, if you are in Supervision. Yeah. There  
 14 is stuff you can do on Supervision to stop the  
 15 recordings. Yes.  
 16 MR. [REDACTED]: Now, if you weren't  
 17 really familiar with the application, is it  
 18 possible that you were in there, and you  
 19 accidentally knocked them offline?  
 20 MR. [REDACTED]: No.  
 21 MR. [REDACTED]: Okay.  
 22 MR. [REDACTED]: I wouldn't knock anything  
 23 offline.  
 24 MR. [REDACTED]: No. You don't believe  
 25 so?

1 MR. [REDACTED]: Yeah. Supervision has a -  
 2 . Every time you log into Supervision, you see  
 3 a username and who logged in. That's always  
 4 kept on Supervision.  
 5 MR. [REDACTED]: Okay. And do you have  
 6 access to that now, to be able to --  
 7 MR. [REDACTED]: Yes.  
 8 MR. [REDACTED]: -- determine?  
 9 MR. [REDACTED]: Yes.  
 10 MR. [REDACTED]: So, it shows that --  
 11 MR. [REDACTED]: Well, that --  
 12 MR. [REDACTED]: -- it shows -.  
 13 MR. [REDACTED]: -- well, whatever system  
 14 you have, you can log into it, and see what you  
 15 have on it, in Supervision.  
 16 MR. [REDACTED]: And when you logged in,  
 17 and when you logged out?  
 18 MR. [REDACTED]: Yeah.  
 19 MR. [REDACTED]: So, would you still have  
 20 the ability now, to go back to see when you  
 21 logged in and logged out?  
 22 MR. [REDACTED]: For the old system, no.  
 23 MR. [REDACTED]: No? Not for the old  
 24 system.  
 25 MR. [REDACTED]: Old system, no.

1 MR. [REDACTED]: No.  
 2 MR. [REDACTED]: Okay. And what would be  
 3 a reason for you to go into the application,  
 4 Supervision?  
 5 MR. [REDACTED]: Just to see what was going  
 6 on, who's logging on, or just to, if something  
 7 looks funky to me, or just doesn't feel right,  
 8 to see what was going on.  
 9 MR. [REDACTED]: Okay.  
 10 MR. [REDACTED]: Yeah.  
 11 MR. [REDACTED]: And do you have any  
 12 examples, prior to August 9th, 2019, when you  
 13 would have done that?  
 14 MR. [REDACTED]: I know there was one time,  
 15 like, when they remoted in, they were showing  
 16 me stuff on the drives. And I was talking to  
 17 SigNet over the phone, and they were showing me  
 18 how to fix the drives before.  
 19 MR. [REDACTED]: Okay.  
 20 MR. [REDACTED]: But other than that, like,  
 21 I don't really remember me using Supervision  
 22 that much.  
 23 MR. [REDACTED]: And that would have been,  
 24 they would have had a log of when that  
 25 happened?

1 MR. [REDACTED]: Okay. But SigNet would  
 2 probably have a call log of you --  
 3 MR. [REDACTED]: Of who's on.  
 4 MR. [REDACTED]: -- talking with them?  
 5 MR. [REDACTED]: Yes.  
 6 MR. [REDACTED]: Going over --  
 7 MR. [REDACTED]: Supervision.  
 8 MR. [REDACTED]: -- Supervision?  
 9 MR. [REDACTED]: -- yes.  
 10 MR. [REDACTED]: All right. So, SigNet  
 11 should be able to provide us something, with  
 12 regard to --  
 13 MR. [REDACTED]: Supervision. Yes.  
 14 MR. [REDACTED]: -- when they had you in  
 15 there.  
 16 MR. [REDACTED]: Yeah.  
 17 MR. [REDACTED]: And do you think that you  
 18 went in there, though, aside from them showing  
 19 you?  
 20 MR. [REDACTED]: Maybe to check some stuff  
 21 out. But not really.  
 22 MR. [REDACTED]: Okay. All right. So,  
 23 again, August 9th is the first time you think  
 24 that you knew that the cameras weren't  
 25 recording.

1 MR. [REDACTED]: Mm-hmm.  
 2 MR. [REDACTED]: If we were to tell you  
 3 that the cameras actually stopped the recording  
 4 on July 29th, 2019, you said that's news to  
 5 you?  
 6 MR. [REDACTED]: Yes. That's kind of a  
 7 long time for me not to notice that the cameras  
 8 -. That's, like, a week and a half.  
 9 MR. [REDACTED]: Something like that.  
 10 MR. [REDACTED]: Yeah.  
 11 MR. [REDACTED]: Yeah.  
 12 MR. [REDACTED]: For me not to notice that  
 13 they stopped recording.  
 14 MR. [REDACTED]: So -.  
 15 MR. [REDACTED]: But I could see where, if  
 16 I didn't do it, because we were busy with a  
 17 project, maybe I didn't check it. But that's  
 18 kind of hard. And for SIS, or nobody to tell  
 19 me, like, hey, the cameras weren't recording,  
 20 or we've tried to pull video and it wasn't  
 21 working. That's kind of weird, too.  
 22 MR. [REDACTED]: All right. All right.  
 23 So, since you don't remember these, we're going  
 24 to start going into --  
 25 MR. [REDACTED]: Sure.

1 MR. [REDACTED]: And can you just recall  
 2 that conversation, of what they told you, and  
 3 what happened, and where it was?  
 4 MR. [REDACTED]: It's pretty simple. Like,  
 5 hey, [REDACTED], the camera is not working, this  
 6 and that, (Indiscernible \*00:30:03). Like, I  
 7 just go and do my thing.  
 8 MR. [REDACTED]: And did they tell you,  
 9 fix it immediately?  
 10 MR. [REDACTED]: No.  
 11 MR. [REDACTED]: Did they tell you that  
 12 they were informing the captain?  
 13 MR. [REDACTED]: No.  
 14 MR. [REDACTED]: And you don't recall [REDACTED]  
 15 [REDACTED] being involved?  
 16 MR. [REDACTED]: Pfft. This is two years  
 17 (Indiscernible \*00:30:16) get involved, as far  
 18 as I know.  
 19 MR. [REDACTED]: Well -.  
 20 MR. [REDACTED]: I mean, after the fact,  
 21 everybody is involved, but -.  
 22 MR. [REDACTED]: So, the information we  
 23 have is [REDACTED] and [REDACTED] were  
 24 attempting to review video on August 8th --  
 25 MR. [REDACTED]: Oh, okay. 2019.

1 MR. [REDACTED]: -- some of these -. I'm  
 2 just, again, because I assumed you were going  
 3 to remember this stuff, I'm going to cover  
 4 these questions to make sure that I don't miss  
 5 anything.  
 6 MR. [REDACTED]: Mm-hmm.  
 7 MR. [REDACTED]: And then, we will have  
 8 to, maybe, refresh with some of them. So, did  
 9 [REDACTED], [REDACTED], or  
 10 [REDACTED] tell you to fix the cameras on  
 11 August 9th, 2019? On August 8th --  
 12 MR. [REDACTED]: 8th.  
 13 MR. [REDACTED]: -- or 9th, 2019.  
 14 MR. [REDACTED]: Yes. The 8th or 9th.  
 15 Yes.  
 16 MR. [REDACTED]: Okay.  
 17 MR. [REDACTED]: Somebody did tell me about  
 18 the drives.  
 19 MR. [REDACTED]: And who was it that told  
 20 you?  
 21 MR. [REDACTED]: I think it was SIS.  
 22 Somebody in SIS. It might have been [REDACTED].  
 23 But I'm pretty sure it's somebody from SIS that  
 24 told me, hey, the cameras stopped working. Or  
 25 here, there is a problem.

1 MR. [REDACTED]: -- 2019.  
 2 MR. [REDACTED]: Okay. They were looking  
 3 at video --  
 4 MR. [REDACTED]: And --  
 5 MR. [REDACTED]: -- for some reason.  
 6 MR. [REDACTED]: -- and they were looking  
 7 at video. So, they called you.  
 8 MR. [REDACTED]: Okay.  
 9 MR. [REDACTED]: And had you come up. And  
 10 had you determine what was going on.  
 11 MR. [REDACTED]: Okay.  
 12 MR. [REDACTED]: [REDACTED] said,  
 13 on August 8th, she said, make sure that you get  
 14 this thing fixed.  
 15 MR. [REDACTED]: Mm-hmm.  
 16 MR. [REDACTED]: She, then, she said she  
 17 didn't work on August 9th, and the schedule for  
 18 August 9th reflects that.  
 19 MR. [REDACTED]: Okay. So, if that  
 20 happened, I'm not saying this happened, but if  
 21 it that did happen, I probably noticed that the  
 22 drive went back and probably was trying to  
 23 rebuild the drive. But I'm not sure if that's  
 24 exactly -. Honestly, I don't remember the day  
 25 before what happened.

1 MR. [REDACTED]: And that's what I'm  
 2 trying to, you know --  
 3 MR. [REDACTED]: Mm-hmm.  
 4 MR. [REDACTED]: -- refresh your  
 5 recollection. So, on August 8th, 2019, she  
 6 said it happened some time before 2:00 p.m.,  
 7 that's when she spoke to you about this.  
 8 MR. [REDACTED]: So, I would have went in  
 9 there.  
 10 MR. [REDACTED]: And she said --  
 11 MR. [REDACTED]: And if I was upstairs, I  
 12 would have went right in the room.  
 13 MR. [REDACTED]: And she -- yeah -- she said  
 14 that --  
 15 MR. [REDACTED]: But I don't remember.  
 16 MR. [REDACTED]: -- she was under the  
 17 understanding that, on August 8th, you were  
 18 fixing it.  
 19 MR. [REDACTED]: Yeah.  
 20 MR. [REDACTED]: She said, she didn't work  
 21 on August 9th, and she hadn't planned on  
 22 working on August 10th --  
 23 MR. [REDACTED]: Mm-hmm.  
 24 MR. [REDACTED]: -- but she got called in.  
 25 MR. [REDACTED]: Mm-hmm.

1 think I would wait until the 9th to fix it.  
 2 So, if it did happen on the 8th, I don't really  
 3 remember the 8th. I remember the 9th more  
 4 specifically. But it did happen on the 8th. I  
 5 would have went to the room, and just replaced  
 6 the drives, because that's the only thing I  
 7 would do.  
 8 MR. [REDACTED]: All right. I'm going to  
 9 skip ahead and do, I'm going to read you -- and  
 10 I'll continue on with this -- I'm going to --  
 11 MR. [REDACTED]: Yeah.  
 12 MR. [REDACTED]: -- read you the FBI  
 13 interview report from when you --  
 14 MR. [REDACTED]: Mm-hmm.  
 15 MR. [REDACTED]: -- do you remember, you  
 16 said that you were interviewed by the FBI?  
 17 MR. [REDACTED]: Yes. I was.  
 18 MR. [REDACTED]: All right. So, this says  
 19 you were interviewed by the FBI on March 12th,  
 20 2020. Is that correct?  
 21 MR. [REDACTED]: Yes.  
 22 MR. [REDACTED]: All right. So, I'm going  
 23 to just read, I'll just read the whole thing,  
 24 so that we're not missing anything. It says,  
 25 "On March 12, 2020, [REDACTED]," it says

1 MR. [REDACTED]: On August 10th --  
 2 MR. [REDACTED]: August 10th.  
 3 MR. [REDACTED]: -- because of what --  
 4 MR. [REDACTED]: Yeah. Epstein.  
 5 MR. [REDACTED]: -- happened with Epstein.  
 6 MR. [REDACTED]: Yes.  
 7 MR. [REDACTED]: She said, when she saw  
 8 you on August 10th, she had learned that the  
 9 camera system wasn't fixed --  
 10 MR. [REDACTED]: Yeah.  
 11 MR. [REDACTED]: -- and they weren't  
 12 recording.  
 13 MR. [REDACTED]: Yeah.  
 14 MR. [REDACTED]: And she said, [REDACTED], why  
 15 didn't this get fixed? And your response to  
 16 her was, I came in today to do that.  
 17 MR. [REDACTED]: Yeah.  
 18 MR. [REDACTED]: Does that all help you --  
 19 MR. [REDACTED]: Yes.  
 20 MR. [REDACTED]: -- recollect what's going  
 21 on?  
 22 MR. [REDACTED]: Yes.  
 23 MR. [REDACTED]: Does that sound accurate?  
 24 MR. [REDACTED]: It sounds accurate, but --  
 25 So, if something happened on the 8th, I don't

1 your date of birth and telephone number, "was  
 2 interviewed by Assistant United States  
 3 Attorney, [REDACTED] (Phonetic Sp.  
 4 \*00:32:42), Task Force Officer Detective  
 5 [REDACTED] (Phonetic Sp. \*00:32:45), and  
 6 Special Agent [REDACTED], at the United  
 7 States Attorney's Office, Southern District of  
 8 New York, 1 St. Andrew Plaza, New York, New  
 9 York. During the interview, [REDACTED] provided  
 10 the following details." Does that all sound  
 11 correct so far?  
 12 MR. [REDACTED]: Yes.  
 13 MR. [REDACTED]: And we're just going to  
 14 stop after each paragraph, to have you --  
 15 MR. [REDACTED]: Mm-hmm.  
 16 MR. [REDACTED]: -- to check in with you.  
 17 "[REDACTED] started working for the Bureau of  
 18 Prisons in 2003, and worked in both New York  
 19 and Indiana. [REDACTED] had some college  
 20 education, [REDACTED]  
 21 [REDACTED], and had ten years'  
 22 experience in electronics." Correct?  
 23 MR. [REDACTED]: Yes.  
 24 MR. [REDACTED]: "In 2016, [REDACTED] was put  
 25 in charge of all the cameras at the

1 Metropolitan Correctional Center (MCC). [REDACTED]  
2 advised that the camera at MCC were out of  
3 date. The recorders frequently went bad, and  
4 the cameras were all analog, and not maintained  
5 properly."

6 MR. [REDACTED]: Yes.

7 MR. [REDACTED]: "The camera system was  
8 over 20 years old. Sometimes, the screen would  
9 be active, indicating that the camera was  
10 working. However, the video would not be  
11 recording."

12 MR. [REDACTED]: Yes.

13 MR. [REDACTED]: "[REDACTED] advised that only  
14 one hard drive of the camera system was  
15 working, at the time of the incident, on August  
16 10th, 2019. When a DVR went bad, none of the  
17 cameras recorded. There was a system failure  
18 of DVR-2 on July 29th, 2019, and the  
19 motherboard failed on DVR-2 on August 8th,  
20 2019. The hard drive failure occurred on  
21 August 10th, 2019." Is that something that you  
22 provided to them?

23 MR. [REDACTED]: Yeah. I probably did.  
24 Yes.

25 MR. [REDACTED]: So, can you just explain

1 SigNet didn't have the parts to replace it, so  
2 I had to call with [REDACTED], I contacted another  
3 BOP facility, and then, I took the computer  
4 apart, and he just pretty much replaced the  
5 motherboard, and got the DVR-2 to start  
6 working.

7 MR. [REDACTED]: On the 29th?

8 MR. [REDACTED]: If that's what it says,  
9 yes.

10 MR. [REDACTED]: Well, it just says -. It  
11 doesn't say when you got it to stop working.  
12 It just says there was a system failure of DVR-  
13 2 on July 29th, 2019.

14 MR. [REDACTED]: I believe they probably  
15 spoke to Signet then. I'm not too sure with  
16 the dates because everything is -. I've been  
17 super busy. The dates, I'm not really good  
18 with.

19 MR. [REDACTED]: Okay. But on July 29th,  
20 2019, with the system failure, would have that  
21 stopped the recordings?

22 MR. [REDACTED]: Yes. A system failure  
23 would have stopped the recordings.

24 MR. [REDACTED]: Okay. And is it your  
25 understanding that, after July 29th, the

1 to me what we're talking about here, because it  
2 says -?

3 MR. [REDACTED]: That was -.

4 MR. [REDACTED]: It says, specifically,  
5 there was a system failure --

6 MR. [REDACTED]: Yes.

7 MR. [REDACTED]: -- of DVR-2, on July 29th  
8 --

9 MR. [REDACTED]: 29th.

10 MR. [REDACTED]: -- 2019.

11 MR. [REDACTED]: That was a month before.

12 Well, yeah.

13 MR. [REDACTED]: That's that week and a  
14 half.

15 MR. [REDACTED]: (Indiscernible \*00:34:34).

16 MR. [REDACTED]: That's the July 29th,  
17 2019 --

18 MR. [REDACTED]: Yes.

19 MR. [REDACTED]: -- that we were talking  
20 about. So, what would have happened with the  
21 system failure?

22 MR. [REDACTED]: That's when I had to  
23 replace the motherboard on the DVR-2.

24 MR. [REDACTED]: And what does that mean?

25 MR. [REDACTED]: DVR-2 was really old, and

1 recordings were working?

2 MR. [REDACTED]: Yes.

3 MR. [REDACTED]: All right.

4 MR. [REDACTED]: Because he would have  
5 logged into Nice Vision, and he would have seen  
6 things was working.

7 MR. [REDACTED]: But I thought you said  
8 that --

9 MR. [REDACTED]: And that's, well --

10 MR. [REDACTED]: -- you'll only see if it  
11 was working, if it was live feed. I thought  
12 you said you wouldn't see recording.

13 MR. [REDACTED]: No. If you log into the  
14 Nice Vision, with the live feed, you would  
15 think everything is still recording because  
16 everything looks green. It's when you try to  
17 play back the video and, like, oh, wow, there's  
18 nothing being recorded. That's when you would  
19 know there is a problem.

20 MR. [REDACTED]: Okay. So --

21 MR. [REDACTED]: So, if somebody has --

22 MR. [REDACTED]: -- the way you check --  
23 MR. [REDACTED]: -- to pull the video.

24 Yeah.

25 MR. [REDACTED]: -- like, the way you

1 checked was to try to rewind video?  
 2 MR. [REDACTED]: Yeah. That's the only way  
 3 you could check it, is try to pull video from  
 4 the days prior.  
 5 MR. [REDACTED]: All right. So, you are  
 6 aware, though, on July 29th, 2019, it stopped  
 7 recording, but your understanding was that you  
 8 got it to work again?  
 9 MR. [REDACTED]: Yes. Everything started  
 10 working again.  
 11 MR. [REDACTED]: All right. And do you  
 12 know if you checked on it for say, let's say  
 13 the 30th of July, or -?  
 14 MR. [REDACTED]: I was in the middle of a  
 15 project, so I can't say I was just focused on  
 16 that, because there was a lot going on.  
 17 MR. [REDACTED]: So, you only recall that  
 18 you would have checked on the 29th?  
 19 MR. [REDACTED]: Yeah.  
 20 MR. [REDACTED]: Of July.  
 21 MR. [REDACTED]: Yeah. I don't think I  
 22 would have had reason to check, unless somebody  
 23 told me it wasn't working.  
 24 MR. [REDACTED]: Okay. And it says, "And  
 25 the motherboard failed on DVR-2, on August 8th,

1 the SigNet service call, as well.  
 2 MR. [REDACTED]: Yeah.  
 3 MR. [REDACTED]: So, this is the SigNet  
 4 service request, number 24975.  
 5 MR. [REDACTED]: Mm-hmm. Mm-hmm.  
 6 MR. [REDACTED]: It says, assigned to [REDACTED]  
 7 [REDACTED] --  
 8 MR. [REDACTED]: Mm-hmm.  
 9 MR. [REDACTED]: -- [REDACTED] --  
 10 MR. [REDACTED]: Mm-hmm. (Indiscernible  
 11 \*00:37:33).  
 12 MR. [REDACTED]: -- and [REDACTED].  
 13 Date created, August 8th, 2019.  
 14 MR. [REDACTED]: Okay.  
 15 MR. [REDACTED]: And then, if we go down  
 16 and we look at the, well, we'll read the  
 17 comment section.  
 18 MR. [REDACTED]: Okay.  
 19 MR. [REDACTED]: So, there is a comment by  
 20 [REDACTED] on August 8th, 2019, at 3:38 p.m.  
 21 It says, "Hi, [REDACTED]. Unable to locate anything  
 22 official. The basic steps are as follows.  
 23 Set the raid level to none and save. It will  
 24 restart it with all drives being J. Replace  
 25 any faulty drives. Two, set the raid level to

1 2019." What does that mean?  
 2 MR. [REDACTED]: So, the motherboard,  
 3 that's the one I had to get replaced on August  
 4 8th, 2019.  
 5 MR. [REDACTED]: Right. So, this says  
 6 August 8th. And you've been saying that you  
 7 first learned on August 9th. So, where does  
 8 this come into play? How do we know that the  
 9 motherboard failed on DVR-2 on August 8th,  
 10 2019?  
 11 MR. [REDACTED]: August 8th. That's the  
 12 motherboard I wrote, I must have replaced.  
 13 Because I remember replacing a motherboard.  
 14 MR. [REDACTED]: And what does a  
 15 motherboard do? What is that?  
 16 MR. [REDACTED]: When ago did this happen?  
 17 Everything happened on the Epstein, that was --  
 18 MR. [REDACTED]: Epstein was the 10t .  
 19 MR. [REDACTED]: -- 10th.  
 20 MR. [REDACTED]: And just to help --  
 21 MR. [REDACTED]: So, that's --  
 22 MR. [REDACTED]: -- so, just so we're not  
 23 running in circles --  
 24 MR. [REDACTED]: -- yeah, that --.  
 25 MR. [REDACTED]: -- let me just read you

1 five, and save. It will restart and being, and  
 2 initialization." And obviously, these words  
 3 seem to be wrong. I'm sure --  
 4 MR. [REDACTED]: Mm-hmm.  
 5 MR. [REDACTED]: -- it's supposed to say,  
 6 it will restart and begin initialization.  
 7 MR. [REDACTED]: Mm-hmm.  
 8 MR. [REDACTED]: It talks about the  
 9 password. And it talks about different  
 10 directions to go forward --  
 11 MR. [REDACTED]: Mm-hmm.  
 12 MR. [REDACTED]: -- with. And then, there  
 13 is a comment by [REDACTED] on August 14,  
 14 2019, at 8:02 p.m. This says, "[REDACTED]  
 15 called us on Thursday, August 8th, stating that  
 16 he had two bad drives on his raid unit."  
 17 MR. [REDACTED]: Mm-hmm.  
 18 MR. [REDACTED]: "Of the Nice Vision Pro  
 19 unit, NVR. We advised him to get replacement  
 20 drives."  
 21 MR. [REDACTED]: Mm-hmm.  
 22 MR. [REDACTED]: Once they are replaced,  
 23 they should start to --  
 24 MR. [REDACTED]: Initialize.  
 25 MR. [REDACTED]: -- initialize --

1 MR. [REDACTED]: Yes.  
 2 MR. [REDACTED]: -- to become available  
 3 for the raid array. [REDACTED] did not have  
 4 drives readily available."  
 5 MR. [REDACTED]: Mm-hmm.  
 6 MR. [REDACTED]: "He checked with his  
 7 local CSM," which again --  
 8 MR. [REDACTED]: Mm-hmm.  
 9 MR. [REDACTED]: -- you said was --  
 10 MR. [REDACTED]: [REDACTED].  
 11 MR. [REDACTED]: -- okay. "To see if they  
 12 had any spare replacement drives. Once he  
 13 located replacement drives on Friday, August  
 14 9th, he did not have access to the DVR room to  
 15 replace them. He called SigNet for phone  
 16 support, on Saturday, August 10th --  
 17 MR. [REDACTED]: Mm-hmm.  
 18 MR. [REDACTED]: -- when he gained access  
 19 to the DVR room.  
 20 MR. [REDACTED]: Mm-hmm.  
 21 MR. [REDACTED]: "He attempted to replace  
 22 the drives, and they started to rebuild.  
 23 During the rebuild process of the drives, the  
 24 drives were required to be taken out of the  
 25 raid on DVR-2."

1 MR. [REDACTED]: All right. And it was  
 2 the 8th that someone told you that the  
 3 recorders --  
 4 MR. [REDACTED]: (Indiscernible \*00:40:04),  
 5 and I probably went to go look at the room.  
 6 Yes. And then, I probably went back the next  
 7 day, on the 9th, because the Thursday, when he  
 8 told me to put the drives in, I probably went  
 9 to put the drives in, and replace them. And  
 10 then, Friday, is when I'm stopped to see if the  
 11 drives finished that rebuilding.  
 12 MR. [REDACTED]: I'm sorry. Can you  
 13 repeat this again? What happened?  
 14 MR. [REDACTED]: Okay. Okay. Now, it's  
 15 making more sense.  
 16 MR. [REDACTED]: So, on the 8th, was it -  
 17 can you recall - was it [REDACTED] [REDACTED] that  
 18 told -?  
 19 MR. [REDACTED]: Somebody told me what was  
 20 going on, on the 8th.  
 21 MR. [REDACTED]: At the time, was there  
 22 only two SIS people working there, [REDACTED]  
 23 [REDACTED], and SIS Tech [REDACTED] --  
 24 MR. [REDACTED]: [REDACTED].  
 25 MR. [REDACTED]: -- is it -?

1 MR. [REDACTED]: Yeah.  
 2 MR. [REDACTED]: "Once the drives are  
 3 removed without proper shutdown of the  
 4 recorder, the video database becomes corrupted.  
 5 Typically, any time the raid on a raid five  
 6 configuration loses two drives --  
 7 MR. [REDACTED]: Mm-hmm.  
 8 MR. [REDACTED]: -- the raid needs to be  
 9 rebuilt, and all data is wiped from the raid."  
 10 MR. [REDACTED]: Mm-hmm. Mm-hmm.  
 11 MR. [REDACTED]: Do you want to just  
 12 review that yourself?  
 13 MR. [REDACTED]: Uh-huh.  
 14 MR. [REDACTED]: So that I'm not just  
 15 reading it to you, and tell me if that sounds  
 16 accurate to you.  
 17 MR. [REDACTED]: Yes. That sounds a little  
 18 bit better, like, what happened.  
 19 MR. [REDACTED]: So, is this now  
 20 refreshing your recollection that, actually, on  
 21 August 8th, is when you found out?  
 22 MR. [REDACTED]: Yes. Okay. It was the  
 23 8th,  
 24 MR. [REDACTED]: It was the 8th?  
 25 MR. [REDACTED]: The 8th. Yes.

1 MR. [REDACTED]: [REDACTED].  
 2 MR. [REDACTED]: [REDACTED].  
 3 MR. [REDACTED]: Yes.  
 4 MR. [REDACTED]: Were they -? I think  
 5 they were the only two --  
 6 MR. [REDACTED]: Two working.  
 7 MR. [REDACTED]: -- at the time.  
 8 MR. [REDACTED]: Yes.  
 9 MR. [REDACTED]: So, would it have been  
 10 one of the two of them?  
 11 MR. [REDACTED]: Two of them. Yes.  
 12 MR. [REDACTED]: Okay. And they told you  
 13 that the recording --  
 14 MR. [REDACTED]: Recorders went bad.  
 15 MR. [REDACTED]: -- was -.  
 16 MR. [REDACTED]: Yes.  
 17 MR. [REDACTED]: Okay. So -.  
 18 MR. [REDACTED]: And then, and that's  
 19 probably when I called SigNet, okay, two  
 20 drives, two bad drives. So, I probably got the  
 21 drives. I started to rebuild it. And then,  
 22 the next day, that's when I checked.  
 23 MR. [REDACTED]: But it sounds like, from  
 24 this, you didn't have the drives on the 8th.  
 25 Is that correct?

1 MR. [REDACTED]: I probably - because there  
 2 was spare drives on the room - so, I probably  
 3 started to rebuild on the 8th. I'm not too  
 4 sure. Honestly.  
 5 MR. [REDACTED]: All right. Well, this is  
 6 really important for us to get you to try to  
 7 remember.  
 8 MR. [REDACTED]: I know.  
 9 MR. [REDACTED]: Because this is, like, a  
 10 big piece of this, the fact that the cameras  
 11 were down when Epstein --  
 12 MR. [REDACTED]: Yeah, I know, but I --  
 13 MR. [REDACTED]: -- and --.  
 14 MR. [REDACTED]: -- I was doing, like, a  
 15 million things, and I've been doing a million  
 16 things after, like --  
 17 MR. [REDACTED]: Sure.  
 18 MR. [REDACTED]: -- this happened.  
 19 MR. [REDACTED]: So, on the 8th, you  
 20 actually believe that, from reading this --  
 21 MR. [REDACTED]: This. Yes.  
 22 MR. [REDACTED]: -- you believe that you  
 23 actually did try to rebuild on the 8th --  
 24 MR. [REDACTED]: Yes.  
 25 MR. [REDACTED]: -- and not on the 10th?

1 MR. [REDACTED]: -- so, on the 8th, you  
 2 went to look for drives?  
 3 MR. [REDACTED]: Yes.  
 4 MR. [REDACTED]: Do you think you located  
 5 them on the 8th?  
 6 MR. [REDACTED]: Hmm. I came back the next  
 7 day, and that's when I replaced them.  
 8 MR. [REDACTED]: Well, the next day was  
 9 the 9th --  
 10 MR. [REDACTED]: The 9th.  
 11 MR. [REDACTED]: -- and it says that you  
 12 didn't have access to --  
 13 MR. [REDACTED]: Just to replace --  
 14 MR. [REDACTED]: -- replace.  
 15 MR. [REDACTED]: -- yeah, I can't go in the  
 16 room.  
 17 MR. [REDACTED]: So then, it sounds like,  
 18 so, you didn't do anything on the 8th --  
 19 MR. [REDACTED]: Or the 9th.  
 20 MR. [REDACTED]: -- or the 9th.  
 21 MR. [REDACTED]: Mm-hmm.  
 22 MR. [REDACTED]: You obtained the  
 23 hardware, but then, on the 10th --  
 24 MR. [REDACTED]: That's when I got access  
 25 to the room.

1 MR. [REDACTED]: Not on the 10th. Yes.  
 2 MR. [REDACTED]: All right. Because that  
 3 way that it reads, I thought was that, you  
 4 didn't have them on the 8th. On the 9th, you  
 5 didn't have access, "And then, on the 10th,  
 6 when he gained access to the DVR room, he  
 7 attempted to replace the drives, and they  
 8 started to rebuild." That's how this reads.  
 9 MR. [REDACTED]: That sounds about -. That  
 10 sounds right. Yeah.  
 11 MR. [REDACTED]: So, now you're thinking,  
 12 you actually did it on the 10th, and not the  
 13 8th?  
 14 MR. [REDACTED]: Yeah, I know I replaced  
 15 the drives on the 10th, because that's when  
 16 they told me, like, not to do it, and it got  
 17 crazy.  
 18 MR. [REDACTED]: All right. So, now  
 19 you're thinking it actually you didn't do  
 20 anything on the 8th.  
 21 MR. [REDACTED]: Hmm. I probably know  
 22 about those drives being bad, and I went to go  
 23 get drives.  
 24 MR. [REDACTED]: So --  
 25 MR. [REDACTED]: Yes.

1 MR. [REDACTED]: -- and previously, what  
 2 you told us that, is that you found out on the  
 3 9th, and then on the 10th, you didn't have  
 4 access to the room, so on the 10th, you did  
 5 overtime so that you could do it then.  
 6 MR. [REDACTED]: I was going to be doing  
 7 overtime anyway. So, I was going to be there  
 8 regardless.  
 9 MR. [REDACTED]: You were going to be  
 10 there on the 10th, regardless?  
 11 MR. [REDACTED]: Yeah, because we had TDY  
 12 people there.  
 13 MR. [REDACTED]: Okay. So, you were going  
 14 to be working on the 10th, overtime, regardless  
 15 of this camera issue?  
 16 MR. [REDACTED]: Yeah. Regardless. I was  
 17 -. Because this had nothing to do with my  
 18 overtime. I was doing a project.  
 19 MR. [REDACTED]: All right. Because we  
 20 talked in pretty detail, in July, when [REDACTED]  
 21 and I spoke with you about, like, how someone  
 22 approved your overtime to work on the 10th,  
 23 specifically to work on this camera issue.  
 24 MR. [REDACTED]: No. This was not for  
 25 that.

1 MR. [REDACTED]: And you --  
 2 MR. [REDACTED]: No. And that's --  
 3 MR. [REDACTED]: -- and then, you went on  
 4 where, like, on, in detail about --  
 5 MR. [REDACTED]: No. That's --  
 6 MR. [REDACTED]: -- like, who would have  
 7 approved it --  
 8 MR. [REDACTED]: No. What --  
 9 MR. [REDACTED]: -- would it have been  
 10 [REDACTED]? Would it have been one of the AAs?  
 11 The captain?  
 12 MR. [REDACTED]: I don't know who approved  
 13 it, but we were already working on the camera  
 14 project. So, that's what I was doing.  
 15 MR. [REDACTED]: Okay.  
 16 MR. [REDACTED]: I was already --  
 17 MR. [REDACTED]: So, you weren't --  
 18 MR. [REDACTED]: -- this had nothing to do  
 19 with anything.  
 20 MR. [REDACTED]: -- so, you weren't there  
 21 on --  
 22 MR. [REDACTED]: So, specifically, to just  
 23 deal with this. And if I said, okay, I'll deal  
 24 with it tomorrow, I probably, said, okay, I  
 25 don't have time today, I could deal with it

1 was just in the video room.  
 2 MR. [REDACTED]: He was a telephone  
 3 monitor --  
 4 MR. [REDACTED]: Monitor.  
 5 MR. [REDACTED]: -- guy.  
 6 MR. [REDACTED]: Yes.  
 7 MR. [REDACTED]: But he didn't actually  
 8 work for SIS. Correct?  
 9 MR. [REDACTED]: No. But there would have  
 10 been a reason why I said I'm coming back  
 11 tomorrow because somebody would have been in  
 12 the office tomorrow for me to get access.  
 13 MR. [REDACTED]: So, you believe either  
 14 [REDACTED], or one of the SIS -. So, [REDACTED] could gain  
 15 access without an SIS employee letting him in?  
 16 MR. [REDACTED]: He has the key for the  
 17 room.  
 18 MR. [REDACTED]: He did?  
 19 MR. [REDACTED]: Yes.  
 20 MR. [REDACTED]: All right. So, you  
 21 believe [REDACTED], then, was going to be there on  
 22 Saturday, and he was going to grant you access?  
 23 MR. [REDACTED]: Somebody was going to be  
 24 there to grant me access.  
 25 MR. [REDACTED]: And previously, when you

1 first thing in the morning tomorrow.  
 2 MR. [REDACTED]: Okay. So, if you didn't  
 3 deal with it on the 9th, because you couldn't  
 4 gain access to --  
 5 MR. [REDACTED]: Yes.  
 6 MR. [REDACTED]: -- the SIS room?  
 7 MR. [REDACTED]: Yeah.  
 8 MR. [REDACTED]: How were you going to get  
 9 access to the SIS room --  
 10 MR. [REDACTED]: Somebody was there --  
 11 MR. [REDACTED]: -- (Indiscernible  
 12 \*00:43:42).  
 13 MR. [REDACTED]: -- on Saturday.  
 14 MR. [REDACTED]: Now, someone is always  
 15 there from SIS on Saturday?  
 16 MR. [REDACTED]: Not always, but there was  
 17 going to be somebody there on Saturday --  
 18 MR. [REDACTED]: Okay.  
 19 MR. [REDACTED]: -- because I think I asked  
 20 [REDACTED] if he was going to be there Saturday.  
 21 MR. [REDACTED]: All right. And [REDACTED] --  
 22 MR. [REDACTED]: And there was -.  
 23 MR. [REDACTED]: -- wasn't actually an SIS  
 24 (Indiscernible \*00:43:55)?  
 25 MR. [REDACTED]: Yes. He was an SIS. He

1 said that [REDACTED] was -. You said [REDACTED] was there on  
 2 the 9th, or he was there on the 8th?  
 3 MR. [REDACTED]: That's his main post.  
 4 So, he is always, like, there.  
 5 MR. [REDACTED]: So, he is always in the  
 6 SIS room?  
 7 MR. [REDACTED]: So, for the week, yeah.  
 8 That's what he's -. He's just in the room.  
 9 MR. [REDACTED]: Okay. [REDACTED]. As in,  
 10 [REDACTED].  
 11 MR. [REDACTED]: Yes. I have a couple of  
 12 questions.  
 13 MR. [REDACTED]: Oh, yeah. But what I --  
 14 MR. [REDACTED]: (Indiscernible \*00:44:50).  
 15 MR. [REDACTED]: -- was going to ask is  
 16 if, can you check the roster for the 10th, and  
 17 see if [REDACTED] was scheduled, or [REDACTED] [REDACTED], or  
 18 SIS [REDACTED] [REDACTED]?  
 19 MR. [REDACTED]: Okay. Hold on a minute.  
 20 MR. [REDACTED]: Yeah. (Indiscernible  
 21 \*00:45:01).  
 22 MR. [REDACTED]: She is listed for August  
 23 10th. At 7:00 a.m. to 3:00 p.m. on OST number  
 24 one.  
 25 MR. [REDACTED]: Oh. Is that OST number

1 one, is that the -?  
 2 MR. [REDACTED]: No. That's OSP-1. That's  
 3 outside perimeter. But he still had, would  
 4 have the key. So, he probably would have given  
 5 me access to the room.  
 6 MR. [REDACTED]: And do you believe that  
 7 you actually spoke with him about any of this?  
 8 MR. [REDACTED]: Yeah. We spoke about it,  
 9 like --  
 10 MR. [REDACTED]: Prior to the 10th?  
 11 MR. [REDACTED]: -- yeah.  
 12 MR. [REDACTED]: When would have you  
 13 spoken with him?  
 14 MR. [REDACTED]: When I went in the room,  
 15 like, because he was leaving for the day, he  
 16 was, like, well, you can't have access. I'll  
 17 be back tomorrow. And then, I would have came  
 18 --  
 19 MR. [REDACTED]: Well, and what day did he  
 20 tell you that? On the 8th or the 9th?  
 21 MR. [REDACTED]: That was that Friday.  
 22 MR. [REDACTED]: So, the 9th?  
 23 MR. [REDACTED]: Yeah.  
 24 MR. [REDACTED]: All right. Can you just  
 25 check, was [REDACTED] in on that Friday?

1 MR. [REDACTED]: Right.  
 2 MR. [REDACTED]: -- recording.  
 3 MR. [REDACTED]: Yes.  
 4 MR. [REDACTED]: And that was by an SIS  
 5 official?  
 6 MR. [REDACTED]: Mm-hmm.  
 7 MR. [REDACTED]: Somebody, either a [REDACTED]  
 8 --  
 9 MR. [REDACTED]: Mm-hmm.  
 10 MR. [REDACTED]: -- or a [REDACTED].  
 11 MR. [REDACTED]: Yeah.  
 12 MR. [REDACTED]: On the 9th, you went in  
 13 to go fix it?  
 14 MR. [REDACTED]: Yes.  
 15 MR. [REDACTED]: But you went towards the  
 16 end of your shift, when [REDACTED] was leaving?  
 17 MR. [REDACTED]: I started doing something  
 18 before then, but it was going to be too late  
 19 for the drives to rebuild, so even if I  
 20 replaced them, it wasn't going to be, like,  
 21 right away. The drives were going to start  
 22 working.  
 23 MR. [REDACTED]: Well, didn't you say that  
 24 it took about eight hours for the drives to -?  
 25 MR. [REDACTED]: A whole day. 24 hours.

1 MR. [REDACTED]: Yeah. Let me -. I don't  
 2 see his name on the first couple of pages.  
 3 However, you want to go through the rest.  
 4 MR. [REDACTED]: All right. So, again,  
 5 the way that this reads is -.  
 6 MR. [REDACTED]: I think you said, [REDACTED]?  
 7 MR. [REDACTED]: Excuse me?  
 8 MR. [REDACTED]: [REDACTED] is listed for phone  
 9 monitor.  
 10 MR. [REDACTED]: So, [REDACTED] is there?  
 11 MR. [REDACTED]: Yeah. It looks like he  
 12 was assigned to phone monitor.  
 13 MR. [REDACTED]: All right. And phone  
 14 monitor would have been in the SIS room?  
 15 MR. [REDACTED]: Yes.  
 16 MR. [REDACTED]: All right. And --  
 17 MR. [REDACTED]: In the SIS room.  
 18 MR. [REDACTED]: -- and how do they --  
 19 MR. [REDACTED]: (Indiscernible \*00:47:43).  
 20 MR. [REDACTED]: -- is that [REDACTED]?  
 21 MR. [REDACTED]: It's [REDACTED].  
 22 MR. [REDACTED]: Okay. Great. All right.  
 23 So, he would have been the phone monitor. So,  
 24 your understanding, then, is on the 8th, that's  
 25 when it was noticed that this thing wasn't --

1 MR. [REDACTED]: So --  
 2 MR. [REDACTED]: Not eight hours. Not  
 3 eight hours. A whole 24 hours.  
 4 MR. [REDACTED]: -- so, why wouldn't you  
 5 have rebuilt them --  
 6 MR. [REDACTED]: Mm-hmm.  
 7 MR. [REDACTED]: -- during the day, on the  
 8 9th, so that you could check back in on the --  
 9 MR. [REDACTED]: Probably --  
 10 MR. [REDACTED]: -- 10th?  
 11 MR. [REDACTED]: -- well, like I said, I  
 12 didn't have drives, or I was trying to get the  
 13 drives.  
 14 MR. [REDACTED]: Well, this says that, on  
 15 the 8th, you didn't have the drives. On the  
 16 9th --  
 17 MR. [REDACTED]: Mm-hmm.  
 18 MR. [REDACTED]: -- he had --  
 19 MR. [REDACTED]: Yeah.  
 20 MR. [REDACTED]: -- he did not access to  
 21 the DVR --  
 22 MR. [REDACTED]: Mm-hmm.  
 23 MR. [REDACTED]: -- DVR room.  
 24 MR. [REDACTED]: Mm-hmm.  
 25 MR. [REDACTED]: -- to replace them.

1 MR. [REDACTED]: To replace the drives.  
 2 Yeah. So, it was probably later, in the end of  
 3 the day, I had all the drives, and I went to go  
 4 replace them. And that's when I couldn't go in  
 5 the room.  
 6 MR. [REDACTED]: Okay. And then, you  
 7 talked to [REDACTED] at that time, and said you would  
 8 be back on Saturday to do it?  
 9 MR. [REDACTED]: Yeah. Yeah.  
 10 MR. [REDACTED]: All right. Now, in  
 11 talking to [REDACTED] [REDACTED], she explained  
 12 that this was an extremely urgent matter, and  
 13 that she spoke to - she wrote a memo on it.  
 14 And she talked to the captain, and they said,  
 15 make sure you get this done today. And that --  
 16 MR. [REDACTED]: Yeah.  
 17 MR. [REDACTED]: -- on the 10th, when she  
 18 saw you --  
 19 MR. [REDACTED]: That sounds like --  
 20 MR. [REDACTED]: -- she said --  
 21 MR. [REDACTED]: -- a lot of B.S. I'm  
 22 sorry to say like --  
 23 MR. [REDACTED]: -- okay.  
 24 MR. [REDACTED]: -- that doesn't --  
 25 Because this thing happened so many times, as

1 very (Indiscernible \*00:49:57).  
 2 MR. [REDACTED]: This is a big deal. This  
 3 is, like, you can't leave. You've got to stay  
 4 here.  
 5 MR. [REDACTED]: Well, that's what she  
 6 says, she said she actually wrote a memo,  
 7 provided it to the captain, both said, yes,  
 8 this has got to get done on the 8th.  
 9 MR. [REDACTED]: Well, if that was the  
 10 case, they would have gave, me access and I  
 11 would have stayed in the building. I would  
 12 never get to go home. And that's what I've  
 13 done before in my other institution. Any time  
 14 anything fails, or if there is a big failure,  
 15 you stay until it's fixed.  
 16 MR. [REDACTED]: Right. And that's where  
 17 --  
 18 MR. [REDACTED]: And that's what they are  
 19 doing now.  
 20 MR. [REDACTED]: -- what we're trying to  
 21 reconcile.  
 22 MR. [REDACTED]: Yeah.  
 23 MR. [REDACTED]: Because the memo was  
 24 written on the 8th, provided to the captain.  
 25 They said, "Make sure it's fixed." She's

1 I've been there. Like, why would this day be  
 2 different from the months leading up to it,  
 3 where this kept happening? Like, why would --  
 4 I know Epstein happened. Everybody is trying  
 5 to say --  
 6 MR. [REDACTED]: Yeah.  
 7 MR. [REDACTED]: -- okay, this is what  
 8 happened, but before that, nobody even cared.  
 9 To be honest with you.  
 10 MR. [REDACTED]: So --  
 11 MR. [REDACTED]: I'm just going to be  
 12 honest. Nobody cared that the drives were bad,  
 13 or the recordings aren't working. Oh, those  
 14 recorders weren't working. Okay. Fix it,  
 15 [REDACTED]. And then, we will go from there. But  
 16 nobody, before Epstein, this was, like, a known  
 17 thing.  
 18 MR. [REDACTED]: Okay.  
 19 MR. [REDACTED]: Like, the drives would go  
 20 bad. There would be no video. It was no big  
 21 deal to anybody in that building.  
 22 MR. [REDACTED]: Because you said, in  
 23 every other institution, within the BOP --  
 24 MR. [REDACTED]: Yeah.  
 25 MR. [REDACTED]: -- this would have been

1 saying that the next time she saw you, on the  
 2 10th, and finds out that the video wasn't  
 3 recorded, she says to you, why didn't you fix  
 4 this on the 8th?  
 5 MR. [REDACTED]: Yeah. Good luck. Yeah.  
 6 And because it doesn't even take me a day to  
 7 fix --. Those problems, it takes me a couple of  
 8 days, because I have to rebuild drives. Even  
 9 when I rebuild the drive, the next day it's not  
 10 going to work.  
 11 MR. [REDACTED]: Right.  
 12 MR. [REDACTED]: It's going to take a  
 13 couple of days. And after I rebuild the  
 14 drives, you have no video from the days prior.  
 15 I don't even know what video you have after the  
 16 drives start working. You have to go look to  
 17 see what video you have.  
 18 MR. [REDACTED]: Okay. So, again, I guess  
 19 that's the question of, why didn't you start  
 20 working on it immediately, on the 8th?  
 21 MR. [REDACTED]: Because I have no idea.  
 22 MR. [REDACTED]: Well --  
 23 MR. [REDACTED]: Well, I was working on it,  
 24 but yeah.  
 25 MR. [REDACTED]: -- it was --.

1 MR. [REDACTED]: But, like, it looks like,  
 2 it was a pattern of, okay, [REDACTED], it's a  
 3 priority, but it's not a priority.  
 4 MR. [REDACTED]: Okay.  
 5 MR. [REDACTED]: And for somebody to say  
 6 they wrote a memo to the captain, like, where  
 7 is there a memos before when this happened?  
 8 MR. [REDACTED]: And then, we'll have to  
 9 ask, I guess --  
 10 MR. [REDACTED]: Yeah.  
 11 MR. [REDACTED]: -- (Indiscernible  
 12 \*00:51:16) about previous memos.  
 13 MR. [REDACTED]: Yeah. There's got to be  
 14 previous memos.  
 15 MR. [REDACTED]: Okay.  
 16 MR. [REDACTED]: Yeah. This is - yeah,  
 17 that right there.  
 18 MR. [REDACTED]: So, you don't think that  
 19 that's accurate?  
 20 MR. [REDACTED]: No. I would not say that  
 21 that's accurate. I'm not trying to throw  
 22 anybody under the bus, but to say, like, this,  
 23 this day, like, it's bigger than any other time  
 24 it happening, like, come on, this has been  
 25 happening for months now.

1 they told me to go home. I was, like, well, at  
 2 my other jail, if something wasn't working, I  
 3 couldn't leave. Like, if he radios go down, I  
 4 have to stay there until the radios are fixed.  
 5 Like, two months ago, the radios failed, and -  
 6 oh, three months ago - they failed in Brooklyn.  
 7 They called me from MCC New York, to go to  
 8 Brooklyn to help them with their radio system.  
 9 MR. [REDACTED]: Right.  
 10 MR. [REDACTED]: Their console. So, if  
 11 that was the case, they would have called MCC  
 12 to come, if I couldn't stay to fix the problem.  
 13 So, that's never been previous practice over  
 14 there. No.  
 15 MR. [REDACTED]: Okay.  
 16 MR. [REDACTED]: That's, like, that's news  
 17 to me.  
 18 MR. [REDACTED]: Now, are you aware that  
 19 the captain was notified?  
 20 MR. [REDACTED]: He probably - he should  
 21 have been notified. It's the captain's  
 22 equipment every time the camera is not  
 23 recording.  
 24 MR. [REDACTED]: All right. So, but you  
 25 do recall, you did speak on the 8th with the

1 MR. [REDACTED]: Okay.  
 2 MR. [REDACTED]: It's been happening since  
 3 I got in that building. And I was at a  
 4 previous institution and like I said, if this  
 5 was a big deal, I wouldn't even go home.  
 6 [REDACTED], you've got to stay for overtime.  
 7 You've got to call SigNet. I'm going to give  
 8 you the key for the room.  
 9 MR. [REDACTED]: Well, that's what they  
 10 said that they did. Or at least [REDACTED]  
 11 [REDACTED] is saying that she told you that this is  
 12 a big deal, you've got to do it.  
 13 MR. [REDACTED]: Pfft.  
 14 MR. [REDACTED]: Right now. And --  
 15 MR. [REDACTED]: Oh, yeah. Everybody is  
 16 trying to cover their tracks. No. This is not  
 17 the case. I could honestly say this is not the  
 18 case.  
 19 MR. [REDACTED]: All right.  
 20 MR. [REDACTED]: And it has never been  
 21 previous practice before. I had a facility  
 22 manager, [REDACTED] (Phonetic Sp.  
 23 \*00:52:05), my previous facility manager, I'm,  
 24 like, hey, the first time this happened, I  
 25 remember it because it was so weird to me that

1 [REDACTED], with an --  
 2 MR. [REDACTED]: Yes.  
 3 MR. [REDACTED]: -- one of the two --  
 4 MR. [REDACTED]: (Indiscernible \*00:53:00).  
 5 MR. [REDACTED]: -- SIS.  
 6 MR. [REDACTED]: I talked to somebody on  
 7 the 8th. Yes.  
 8 MR. [REDACTED]: And you just can't  
 9 specifically even kind of put yourself back  
 10 into that?  
 11 MR. [REDACTED]: No.  
 12 MR. [REDACTED]: Do you remember, though,  
 13 on the 10th, [REDACTED] [REDACTED] saying, why  
 14 didn't you fix this?  
 15 MR. [REDACTED]: I was so busy with  
 16 everything else. Like, I don't even remember  
 17 that.  
 18 MR. [REDACTED]: So, you don't remember  
 19 that.  
 20 MR. [REDACTED]: No. I don't.  
 21 MR. [REDACTED]: Do you have any reason to  
 22 believe it wasn't [REDACTED] [REDACTED] that you  
 23 spoke with on the 8th?  
 24 MR. [REDACTED]: No. I don't believe so.  
 25 MR. [REDACTED]: You don't believe you

1 spoke with her, or you don't -.  
 2 MR. [REDACTED]: No. I believe I spoke to  
 3 somebody from SIS. Because that's when who -.  
 4 If they were trying to pull video, and they  
 5 couldn't pull the video, that's when they would  
 6 tell me, hey, [REDACTED] --  
 7 MR. [REDACTED]: Right.  
 8 MR. [REDACTED]: -- there is a problem.  
 9 But other than that --  
 10 MR. [REDACTED]: So --  
 11 MR. [REDACTED]: -- there is no reason for  
 12 me to talk to anybody from SIS.  
 13 MR. [REDACTED]: So, it's a likely that it  
 14 was [REDACTED] ?  
 15 MR. [REDACTED]: Yes.  
 16 MR. [REDACTED]: And is it likely that, on  
 17 the 10th, [REDACTED] asked you why  
 18 wasn't this fixed?  
 19 MR. [REDACTED]: If she was there, yeah.  
 20 MR. [REDACTED]: Okay.  
 21 MR. [REDACTED]: Yeah.  
 22 MR. [REDACTED]: And is it likely that you  
 23 told her, on the 10th, that's why I'm here  
 24 today, to fix it?  
 25 MR. [REDACTED]: Yes.

1 MR. [REDACTED]: -- yes. Happened.  
 2 MR. [REDACTED]: -- that happened. So  
 3 now, these questions might make a little more  
 4 sense.  
 5 MR. [REDACTED]: Okay.  
 6 MR. [REDACTED]: And -.  
 7 MR. [REDACTED]: Hey, can I ask him  
 8 something?  
 9 MR. [REDACTED]: Yeah.  
 10 MR. [REDACTED]: Before we go.  
 11 MR. [REDACTED]: Please.  
 12 MR. [REDACTED]: Okay.  
 13 MR. [REDACTED]: Please do.  
 14 MR. [REDACTED]: So, there is something  
 15 contradictory in between the 302 and the  
 16 SigNet. On the 302, it states that there was a  
 17 motherboard failed on DVR-2, on August 8th.  
 18 MR. [REDACTED]: Mm-hmm.  
 19 MR. [REDACTED]: It doesn't say that the  
 20 hard drives failed. It says the hard drives  
 21 failed on August 10th.  
 22 MR. [REDACTED]: Yeah. Could you -.  
 23 MR. [REDACTED]: That's two different  
 24 things.  
 25 MR. [REDACTED]: Mm-hmm.

1 MR. [REDACTED]: Okay. Is there anything  
 2 that I read to you, from this, on the, you  
 3 know, on the 8th is when you determined; on the  
 4 9th you couldn't gain access; and on the 10th  
 5 is when you gained access to the DVR room --  
 6 MR. [REDACTED]: Mm-hmm.  
 7 MR. [REDACTED]: -- and you attempted to  
 8 replace the drives. Does that all sound  
 9 accurate?  
 10 MR. [REDACTED]: That sounds accurate.  
 11 Yes.  
 12 MR. [REDACTED]: All right. So, it is  
 13 that, on the 8th, you found out; the 9th, you  
 14 couldn't gain access --  
 15 MR. [REDACTED]: (Indiscernible \*00:54:11).  
 16 Yeah.  
 17 MR. [REDACTED]: -- and the 10th -.  
 18 MR. [REDACTED]: It was all (Indiscernible  
 19 \*00:54:15). Yeah.  
 20 MR. [REDACTED]: Okay. So, now going  
 21 forward, though, we can at least have a --  
 22 MR. [REDACTED]: (Indiscernible \*00:54:18).  
 23 MR. [REDACTED]: -- a story of --  
 24 MR. [REDACTED]: For what happened --  
 25 MR. [REDACTED]: -- for what it is --

1 MR. [REDACTED]: So, yeah. So --  
 2 MR. [REDACTED]: So, as --  
 3 MR. [REDACTED]: -- according -.  
 4 MR. [REDACTED]: -- Agent [REDACTED]  
 5 asked, what happened, and when did it happen?  
 6 MR. [REDACTED]: That, you would have to  
 7 call. I'm not too sure the dates of  
 8 everything.  
 9 MR. [REDACTED]: But this is, so, this was  
 10 the, this is the interview of you.  
 11 MR. [REDACTED]: Mm-hmm. Yes.  
 12 MR. [REDACTED]: So, the assumption is,  
 13 that you are the one who provided them this  
 14 information. Correct?  
 15 MR. [REDACTED]: Yes. I am.  
 16 MR. [REDACTED]: So, with you telling them  
 17 that a system failure of DVR-2 occurred on July  
 18 29th, 2019 -?  
 19 MR. [REDACTED]: I don't think I would have  
 20 given them exact dates because I don't remember  
 21 when all that stuff happened, to tell you the  
 22 truth. Me giving exact dates, that's, I can't  
 23 give exact dates.  
 24 MR. [REDACTED]: Okay.  
 25 MR. [REDACTED]: Yeah.

1 MR. [REDACTED]: And then, so you think  
2 that they actually located these dates on  
3 themselves?  
4 MR. [REDACTED]: Yeah. They probably would  
5 have to call SigNet to get the exact dates.  
6 MR. [REDACTED]: So, you don't think that  
7 this is actually the information you provided  
8 them during the interview?  
9 MR. [REDACTED]: No. Because I wouldn't  
10 have gave them -. There is no way I would have  
11 had that, or remembered this. No.  
12 MR. [REDACTED]: Okay. And then, saying  
13 that the motherboard failed on DVR-2, on August  
14 8th, 2019.  
15 MR. [REDACTED]: That's something -. Yeah.  
16 That's information they would have got from  
17 SigNet.  
18 MR. [REDACTED]: So, you don't believe  
19 that this, you actually - this paragraph right  
20 here - that you told them? You think that they  
21 got that information --  
22 MR. [REDACTED]: Yeah. They probably --  
23 MR. [REDACTED]: -- outside of your  
24 interview?  
25 MR. [REDACTED]: -- collaborated it with

1 MR. [REDACTED]: I know.  
2 MR. [REDACTED]: "[REDACTED] was asked about  
3 the cameras."  
4 MR. [REDACTED]: Mm-hmm.  
5 MR. [REDACTED]: Who asked you about the  
6 cameras? Do you recall?  
7 MR. [REDACTED]: Pfft. The warden.  
8 Everybody. Anybody that could think about  
9 asking me questions asked.  
10 MR. [REDACTED]: All right. "There were  
11 two new hard drives to install."  
12 MR. [REDACTED]: Yeah.  
13 MR. [REDACTED]: "But installing the new  
14 hard drives would mean that all prior data --  
15 MR. [REDACTED]: Yeah.  
16 MR. [REDACTED]: -- would be lost.  
17 MR. [REDACTED]: Lost. Yeah. You would  
18 lose all video.  
19 MR. [REDACTED]: Oh. Lose all video or  
20 lose all recording?  
21 MR. [REDACTED]: All the old video. Yes.  
22 MR. [REDACTED]: Oh, so, the recording of  
23 the old video?  
24 MR. [REDACTED]: Yes. Yeah.  
25 MR. [REDACTED]: So, when you install

1 SigNet. Yes. Because me and - I don't even  
2 remember exact dates today. So, like, there's  
3 no way I could remember exact dates.  
4 MR. [REDACTED]: All right. [REDACTED], did  
5 you want to follow up on that?  
6 MR. [REDACTED]: No. I mean, yeah, it  
7 comes from -. So, you're saying that the  
8 statement in the 302 is inaccurate?  
9 MR. [REDACTED]: No.  
10 MR. [REDACTED]: No.  
11 MR. [REDACTED]: No. He's not saying  
12 that's inaccurate.  
13 MR. [REDACTED]: I'm saying it's accurate,  
14 but they probably found out dates.  
15 MR. [REDACTED]: He's saying that he  
16 thinks that they got this information based  
17 upon another source, not from him.  
18 MR. [REDACTED]: Not from me.  
19 MR. [REDACTED]: Okay.  
20 MR. [REDACTED]: Because I can't give you  
21 exact dates. That's all.  
22 MR. [REDACTED]: All right. So, there is  
23 - just while we're on this 302 - there is  
24 another part that says, "After the incident,"  
25 and that's the Epstein incident.

1 these new hard drives --  
2 MR. [REDACTED]: The two new drives, and  
3 everything would be gone.  
4 MR. [REDACTED]: -- everything is wiped.  
5 MR. [REDACTED]: So, whatever video they  
6 were looking for, it would be gone. So,  
7 whatever they were trying to, it would be gone.  
8 MR. [REDACTED]: Okay. It says, "The  
9 Warden wanted video, and so [REDACTED] was told to  
10 start working on the system."  
11 MR. [REDACTED]: Yes.  
12 MR. [REDACTED]: So, at this time, was it  
13 prior to replacing the new, the two new drives?  
14 MR. [REDACTED]: Well, this time, that's  
15 when I probably started replacing the drives.  
16 MR. [REDACTED]: But if --  
17 MR. [REDACTED]: Yeah.  
18 MR. [REDACTED]: -- if you replaced them  
19 and all recording gets --  
20 MR. [REDACTED]: Wiped.  
21 MR. [REDACTED]: -- wiped.  
22 MR. [REDACTED]: Yeah.  
23 MR. [REDACTED]: Then how would you be  
24 able to obtain the video?  
25 MR. [REDACTED]: Yeah, there is no video

1 obtained.  
 2 MR. [REDACTED]: So, that's what I'm just  
 3 trying to make sense of what this states. So,  
 4 "The Warden wanted video, so [REDACTED] --  
 5 MR. [REDACTED]: They wanted me to start --  
 6 MR. [REDACTED]: -- was told -."  
 7 MR. [REDACTED]: -- they wanted me to start  
 8 that day recording video. We will get the  
 9 recorder to work, though --  
 10 MR. [REDACTED]: Oh.  
 11 MR. [REDACTED]: -- (Indiscernible  
 12 \*00:57:52).  
 13 MR. [REDACTED]: Well, he didn't want  
 14 video of the incident --  
 15 MR. [REDACTED]: Incident.  
 16 MR. [REDACTED]: -- he wanted video to  
 17 (Indiscernible \*00:57:56).  
 18 MR. [REDACTED]: And then, he was trying to  
 19 see if there was video from the incident, and  
 20 I'm, like, there is no video. And that's when,  
 21 the next day, I find out there was a video on  
 22 the other recorder --  
 23 MR. [REDACTED]: Okay.  
 24 MR. [REDACTED]: -- that, yeah, that other  
 25 camera.

1 MR. [REDACTED]: Yeah.  
 2 MR. [REDACTED]: Is that correct?  
 3 MR. [REDACTED]: Yes.  
 4 MR. [REDACTED]: So, are you the ones that  
 5 actually removed the two --  
 6 MR. [REDACTED]: The drives.  
 7 MR. [REDACTED]: -- drives?  
 8 MR. [REDACTED]: Yeah.  
 9 MR. [REDACTED]: And you --  
 10 MR. [REDACTED]: And I labeled everything.  
 11 Yeah.  
 12 MR. [REDACTED]: -- and you put the new,  
 13 two new drives in?  
 14 MR. [REDACTED]: Yes.  
 15 MR. [REDACTED]: All right.  
 16 MR. [REDACTED]: And then, the FBI came and  
 17 stopped me in the middle of everything.  
 18 MR. [REDACTED]: It says, "[REDACTED] advised  
 19 that the FBI agent was the one who pulled out  
 20 the DVR."  
 21 MR. [REDACTED]: Yeah. Because I told  
 22 them, if you pull out the drives, that you're  
 23 going to have problems, there's going to be  
 24 corruption, because like I, like I told you  
 25 before, you pull out two drives, like,

1 MR. [REDACTED]: So, that helped explain  
 2 it. When you were saying the warden wanted  
 3 video, you're talking about from that point  
 4 forward, the video --  
 5 MR. [REDACTED]: The video. Yeah.  
 6 MR. [REDACTED]: -- he wanted the  
 7 recording to be working --  
 8 MR. [REDACTED]: Yeah. He --  
 9 MR. [REDACTED]: -- not the video of the  
 10 incident.  
 11 MR. [REDACTED]: -- well, they wanted a  
 12 video of the incident, and the recorder to  
 13 start working. I'm, like, there's no video,  
 14 there's nothing I could do. I can't find any  
 15 video.  
 16 MR. [REDACTED]: Okay.  
 17 MR. [REDACTED]: That recorder is gone.  
 18 MR. [REDACTED]: I gotcha.  
 19 MR. [REDACTED]: So then, it was at that  
 20 point, okay, we'll get the recorder working,  
 21 and do whatever you got to do to get the  
 22 recorder working.  
 23 MR. [REDACTED]: Okay. So, it says,  
 24 "[REDACTED] started removing the bad drives in  
 25 order to rebuild the DVR."

1 everything is wiped. Even if there is a video  
 2 from before. You just, you're, like, out of  
 3 luck. Because it's going to --  
 4 MR. [REDACTED]: Now, can you just explain  
 5 that? What is it that they pulled?  
 6 MR. [REDACTED]: Two of the drives.  
 7 MR. [REDACTED]: They pulled the two  
 8 drives?  
 9 MR. [REDACTED]: Yeah. Yeah. Because I  
 10 was -. See, what happened was, I was going to  
 11 start rebuilding the drives, so I labeled  
 12 everything. It was, it was the best. So, they  
 13 wanted me to -. Let me if I can (Indiscernible  
 14 \*00:59:23). So, everything stopped working. I  
 15 go in the room, [REDACTED], you've got to get the  
 16 recorder working. Well, I got to pull the  
 17 drives out to get the recorder working. So,  
 18 the two drives that I pulled out. And so, the  
 19 two old drives, and the two new drives, I  
 20 labeled them, because I knew that it was going  
 21 to be a big thing. So, I got to pay attention  
 22 to what I'm doing. And then, in the midst of  
 23 all that, that's when they took the drives, and  
 24 said, hey, we need to stop doing everything.  
 25 MR. [REDACTED]: So, who is it that

1 actually pulled the bad drives out? You or the  
 2 FBI?  
 3 MR. [REDACTED]: I pulled the bad drives  
 4 out to replace them with good drives. Yes.  
 5 MR. [REDACTED]: And you put the two new  
 6 drives in?  
 7 MR. [REDACTED]: Drives in. Yes.  
 8 MR. [REDACTED]: So, what is it that the  
 9 FBI pulled?  
 10 MR. [REDACTED]: They pulled all the  
 11 drives.  
 12 MR. [REDACTED]: So, you were rebuilding  
 13 it. And when you rebuilt it, they came in and  
 14 they just pulled them all out?  
 15 MR. [REDACTED]: Yeah. They would pull  
 16 them all.  
 17 MR. [REDACTED]: So, it was never able to  
 18 rebuild?  
 19 MR. [REDACTED]: Yes.  
 20 MR. [REDACTED]: All right. So, they  
 21 pulled all the drives. And so, when they said  
 22 the DVR. Is that different from -?  
 23 MR. [REDACTED]: Yeah. The DVR because  
 24 they pulled everything from DVR-1, and that was  
 25 the one that wasn't working. And then, DVR-2,

1 MR. [REDACTED]: Yes.  
 2 MR. [REDACTED]: So, as far as DVR-2 being  
 3 the bad drive, is the DVR, is that the 16  
 4 drives, or is there a separate box --  
 5 MR. [REDACTED]: No. It's the 16 drives,  
 6 and then, you have, like, the brain, some  
 7 motherboard, you know, the other computer on  
 8 the bottom, but --  
 9 MR. [REDACTED]: So, when you say, when  
 10 they say that the FBI agent was the one who  
 11 pulled out the DVR, you're talking about all 16  
 12 --  
 13 MR. [REDACTED]: All the, they probably  
 14 pulled the --  
 15 MR. [REDACTED]: -- drives and  
 16 motherboard.  
 17 MR. [REDACTED]: -- they probably pulled --.  
 18 Yeah. They probably took all of the  
 19 recordings. But they had it take --. When I'm  
 20 talking about that the next day, because we  
 21 already had the new set, when all this  
 22 happened, SigNet came the next day, and we had  
 23 the new system up and running. Everything was  
 24 in boxes. So, he had to just come in and  
 25 install it.

1 the one that was working, the next day, I had  
 2 to get all the - well, the same day - I could  
 3 get all the important parts of the prison on  
 4 DVR-1, that wasn't working, on DVR-2, which I  
 5 probably should have done the day before, but -  
 6 .  
 7 MR. [REDACTED]: So, it's DVR-2 that we're  
 8 speaking about. Correct?  
 9 MR. [REDACTED]: Yes. That was the good  
 10 drive.  
 11 MR. [REDACTED]: Oh, DVR-2 was the good  
 12 drive?  
 13 MR. [REDACTED]: Yes.  
 14 MR. [REDACTED]: But DVR-1 wasn't. Okay.  
 15 So, DVR.  
 16 MR. [REDACTED]: And what does this say?  
 17 DVR. DVR-2 is the good drive. DVR-1 is the  
 18 bad drive.  
 19 MR. [REDACTED]: Okay. So, DVR-1 --  
 20 MR. [REDACTED]: That's not - no - that's  
 21 not what you said before. You said DVR-1 was  
 22 all good. DVR-2 went bad.  
 23 MR. [REDACTED]: Yes.  
 24 MR. [REDACTED]: Okay. So, DVR-2 was the  
 25 bad drive.

1 MR. [REDACTED]: Okay. So --  
 2 MR. [REDACTED]: So, the next day, the FBI  
 3 took both drives, DVR-1 and 2.  
 4 MR. [REDACTED]: So, on the 11th, the FBI  
 5 came and just took it all?  
 6 MR. [REDACTED]: They took it all. Yes.  
 7 MR. [REDACTED]: Everything?  
 8 MR. [REDACTED]: Everything.  
 9 MR. [REDACTED]: All right. Okay. So, it  
 10 says that, "[REDACTED] also advised that he knew  
 11 that, by replacing both hard drives, the system  
 12 would be wiped.  
 13 MR. [REDACTED]: Mm-hmm.  
 14 MR. [REDACTED]: And that he had advised  
 15 personnel at MCC of that."  
 16 MR. [REDACTED]: Yes.  
 17 MR. [REDACTED]: Now, when you say,  
 18 "wiped," it means just everything --  
 19 MR. [REDACTED]: It means --  
 20 MR. [REDACTED]: -- that was on it before?  
 21 MR. [REDACTED]: -- everything is gone.  
 22 Yes. There is no video. There's nothing.  
 23 MR. [REDACTED]: And do you know how far  
 24 that would have gone back to?  
 25 MR. [REDACTED]: No.

1 MR. [REDACTED]: No?  
 2 MR. [REDACTED]: No.  
 3 MR. [REDACTED]: So, was that the case,  
 4 could have we obtained video off of those -?  
 5 MR. [REDACTED]: Other drives? Yes, before  
 6 I started rebuilding. Yes. But that's what I  
 7 was told to do. So, that's what I was  
 8 (Indiscernible \*01:02:17).  
 9 MR. [REDACTED]: So, just explain that.  
 10 What could have we got off of it? And you're  
 11 talking about DVR-2 now, the bad drive. Right?  
 12 MR. [REDACTED]: DVR-1 is the bad drive.  
 13 MR. [REDACTED]: So, this is where I'm  
 14 getting confused. I thought we just said that  
 15 DVR-2 is the bad drive. I've got to get this  
 16 straight. [REDACTED], you just - I thought we  
 17 said, we did say that, but then you just chimed  
 18 in and said it was DVR-2 that was bad. Which  
 19 one was it? DVR-1 or 2 that was bad?  
 20 MR. [REDACTED]: DVR-1 is bad.  
 21 MR. [REDACTED]: In the initial part of the  
 22 interview, he stated that DVR-2 went bad, and  
 23 DVR-1 drives were all good.  
 24 MR. [REDACTED]: All right. Because yeah,  
 25 on the [REDACTED] thing, it says --

1 recording.  
 2 MR. [REDACTED]: All right.  
 3 MR. [REDACTED]: Because you had two bad  
 4 drives.  
 5 MR. [REDACTED]: So, what video are you  
 6 talking about when we said we could have  
 7 obtained video?  
 8 MR. [REDACTED]: Oh, well, saying that  
 9 stuff there is a possibility in the background,  
 10 even if you have two bad drives that stuff  
 11 could have been recording over it, but that's  
 12 their technical jazz. Like, I don't know  
 13 anything about that.  
 14 MR. [REDACTED]: So, in saying that --  
 15 MR. [REDACTED]: But saying that --  
 16 MR. [REDACTED]: -- it sounds like, okay,  
 17 it is possible that we could have gotten video  
 18 --  
 19 MR. [REDACTED]: Video.  
 20 MR. [REDACTED]: -- for August 9th and  
 21 10th.  
 22 MR. [REDACTED]: Yes. It is a possibility.  
 23 Not a strong possibility, but yeah.  
 24 MR. [REDACTED]: So, it is possible, but  
 25 once the two drives --

1 MR. [REDACTED]: Yeah, because everything  
 2 was on DVR-2.  
 3 MR. [REDACTED]: -- "He attempted to  
 4 replace the drives, and he started to rebuild.  
 5 During the rebuild process of the drives, the  
 6 drives were required to be taken out of raid on  
 7 DVR-2."  
 8 MR. [REDACTED]: Yeah. I would say on DVR-  
 9 2. I'm sorry. I got confused.  
 10 MR. [REDACTED]: All right. So, DVR-2 is  
 11 the bad drive --  
 12 MR. [REDACTED]: The bad drive. Yes.  
 13 MR. [REDACTED]: All right. So, on DVR-2,  
 14 the bad drive --  
 15 MR. [REDACTED]: Yeah.  
 16 MR. [REDACTED]: -- could video have been  
 17 obtained?  
 18 MR. [REDACTED]: Yes, before I started  
 19 doing anything. Yes.  
 20 MR. [REDACTED]: So, prior to you pulling  
 21 them out, we may have been able to obtain video  
 22 from the 9th?  
 23 MR. [REDACTED]: Hmm. No.  
 24 MR. [REDACTED]: August 9th?  
 25 MR. [REDACTED]: No. Because it wasn't

1 MR. [REDACTED]: Yes.  
 2 MR. [REDACTED]: -- were pulled --  
 3 MR. [REDACTED]: Pulled. Yes. That was a  
 4 --  
 5 MR. [REDACTED]: -- that possibility  
 6 became --  
 7 MR. [REDACTED]: Yeah.  
 8 MR. [REDACTED]: -- impossible.  
 9 MR. [REDACTED]: It was gone. Yes.  
 10 MR. [REDACTED]: All right. Now, are  
 11 those two drives, are you -? When the SIS  
 12 official told you on the 8th that they weren't  
 13 able to go back --  
 14 MR. [REDACTED]: To do.  
 15 MR. [REDACTED]: -- and review the video -  
 16 -  
 17 MR. [REDACTED]: Mm-hmm.  
 18 MR. [REDACTED]: -- if something was  
 19 recording in the background, would you have  
 20 been - you know, like you were talking about,  
 21 there is a possibility - would you have been  
 22 able to tell at that time?  
 23 MR. [REDACTED]: No. I wouldn't have been  
 24 able to tell. That's something SigNet would  
 25 have, or some expert, video expert, would have

1 -.  
 2 MR. [REDACTED]: All right.  
 3 MR. [REDACTED]: That's nothing above me.  
 4 MR. [REDACTED]: Was your only course of  
 5 action to replace those two bad drives?  
 6 MR. [REDACTED]: Yes.  
 7 MR. [REDACTED]: So, would, regardless,  
 8 that video have been, at some point, deleted?  
 9 MR. [REDACTED]: Yes.  
 10 MR. [REDACTED]: And you were -. Who  
 11 instructed you to actually pull out those bad  
 12 drives?  
 13 MR. [REDACTED]: I would just have to -  
 14 (Indiscernible \*01:04:53) to SigNet, or -.  
 15 Well, and I told SIS this before, like, if I  
 16 pulled two drives, there is no video,  
 17 especially if it was bad.  
 18 MR. [REDACTED]: Did you talk to anybody  
 19 on August 10th, prior to pulling them, that  
 20 there was a possibility that video of the  
 21 Epstein incident could have been retrieved?  
 22 MR. [REDACTED]: No.  
 23 MR. [REDACTED]: So, you didn't tell  
 24 anybody that?  
 25 MR. [REDACTED]: I'm not saying I didn't

1 going to happen.  
 2 MR. [REDACTED]: But I thought you just  
 3 said that that's something you found out later.  
 4 MR. [REDACTED]: Later. But no, as far as  
 5 there being video on the background.  
 6 MR. [REDACTED]: Oh.  
 7 MR. [REDACTED]: Yeah. As far as --  
 8 MR. [REDACTED]: So -.  
 9 MR. [REDACTED]: -- me pulling out the  
 10 drives, I already knew that before because  
 11 that's what happened the last time, when I  
 12 replaced two drives, that there was no old  
 13 video. It was just the new video.  
 14 MR. [REDACTED]: So, on the 10th, your  
 15 understanding, that there was no video from the  
 16 9th --  
 17 MR. [REDACTED]: Or the 10th.  
 18 MR. [REDACTED]: -- or 10th.  
 19 MR. [REDACTED]: Yes. That was my  
 20 understanding.  
 21 MR. [REDACTED]: So, therefore, yeah, and  
 22 at that time, you didn't know that there was a  
 23 possibility --  
 24 MR. [REDACTED]: Possibility --  
 25 MR. [REDACTED]: If things were recording

1 tell anybody that, but that was -. I think  
 2 that's something I found out later. Because  
 3 that's when SigNet was talking to me. But  
 4 that's not something I would have known before  
 5 Epstein.  
 6 MR. [REDACTED]: All right.  
 7 MR. [REDACTED]: Because that was something  
 8 we talked about, like, the days after that  
 9 happened.  
 10 MR. [REDACTED]: Because this 302 says,  
 11 "[REDACTED] advised that an FBI agent was the one  
 12 who pulled out the DVR. [REDACTED] also advised  
 13 that he knew that, by replacing both hard  
 14 drives, the system would be wiped, and that he  
 15 had advised personnel at MCC of that."  
 16 MR. [REDACTED]: Mm-hmm. There would be no  
 17 video.  
 18 MR. [REDACTED]: When did you do that?  
 19 MR. [REDACTED]: Before I started doing  
 20 anything. If I'm going to change drives,  
 21 you're going to know, like, it's -. Because I  
 22 know this was going to be bigger than just me  
 23 fixing the recorders. Like, there is other  
 24 things that are going to happen, but I'm going  
 25 to tell you, hey, if I do this, this is what's

1 --  
 2 MR. [REDACTED]: -- going in the  
 3 background.  
 4 MR. [REDACTED]: -- in the background.  
 5 MR. [REDACTED]: Yes.  
 6 MR. [REDACTED]: And once the DVR, that  
 7 the two drives were pulled, that possibility  
 8 became --  
 9 MR. [REDACTED]: Became an impossibility.  
 10 MR. [REDACTED]: -- an impossibility.  
 11 MR. [REDACTED]: Yes.  
 12 MR. [REDACTED]: Okay. Before we move on  
 13 from that, did anybody want to clarify any of  
 14 that?  
 15 MR. [REDACTED]: Yeah.  
 16 [REDACTED]: What --  
 17 MR. [REDACTED]: Go ahead.  
 18 [REDACTED]: -- technically, when you pull  
 19 a drive --  
 20 MR. [REDACTED]: Mm-hmm.  
 21 [REDACTED]: -- like, what happens? It  
 22 might be a technical question.  
 23 MR. [REDACTED]: Yeah.  
 24 [REDACTED]: Like, how does everything  
 25 wipe? Is that -?

1 MR. [REDACTED]: Oh, well, it's, like,  
 2 looking for ones and zeros, and if nothing is  
 3 lined up, from what the SigNet explained to me,  
 4 if one drive being bad is not really a problem,  
 5 because the other drives are going to -. It's  
 6 the redundant. So, it's the backup, it's going  
 7 to take over for that drive that's not working.  
 8 [REDACTED]: Okay.  
 9 MR. [REDACTED]: But now, since this drive  
 10 is not working, and this one that's working is  
 11 taking, any drive is taking over for this  
 12 drive, and that drive goes bad, that means we  
 13 have two bad drives. That means nothing is  
 14 going to be recording.  
 15 [REDACTED]: So, they work in conjunction -  
 16 -  
 17 MR. [REDACTED]: Yeah.  
 18 [REDACTED]: -- with the other one?  
 19 MR. [REDACTED]: Yeah.  
 20 [REDACTED]: But the death of --  
 21 MR. [REDACTED]: The redundant.  
 22 [REDACTED]: -- the death of one --  
 23 MR. [REDACTED]: (Indiscernible \*01:07:27).  
 24 [REDACTED]: -- is (Indiscernible  
 25 \*01:07:25). Gotcha.

1 had to replace the drives --  
 2 MR. [REDACTED]: Mm-hmm.  
 3 MR. [REDACTED]: -- when did you obtain  
 4 the new drives?  
 5 MR. [REDACTED]: It had to be some time  
 6 during that day or the next day. I probably  
 7 was looking for drives, because if I --  
 8 MR. [REDACTED]: Because you said --  
 9 MR. [REDACTED]: -- if I knew --  
 10 MR. [REDACTED]: -- you got them, and you  
 11 got them from the CSM?  
 12 MR. [REDACTED]: Yeah.  
 13 MR. [REDACTED]: Okay. And you just don't  
 14 know if that, you got them from CSM on the 8th  
 15 or the 9th?  
 16 MR. [REDACTED]: The 9th. Yeah. I know I  
 17 got some drives from him before because we've  
 18 gotten, I've gotten old drives from him before.  
 19 And I know we've ordered drives. I'm not too  
 20 sure if I ordered a whole bunch of drives to  
 21 just replace all 16, or whatever, how many are  
 22 in the raid. But we were, that was going to be  
 23 the next step, to just rebuild everything.  
 24 MR. [REDACTED]: Now, if it was your  
 25 project, and you are the camera guy, why did he

1 MR. [REDACTED]: And then, when they both  
 2 die, you're done.  
 3 [REDACTED]: Gotcha. And there's no way to  
 4 recover anything?  
 5 MR. [REDACTED]: Well, at the time, they  
 6 told me no, and then they said, well, there is  
 7 a possibility that it could have been recording  
 8 --  
 9 [REDACTED]: Yeah.  
 10 MR. [REDACTED]: -- in the background,  
 11 after the fact.  
 12 [REDACTED]: Okay.  
 13 MR. [REDACTED]: But that was something  
 14 more technical than my understanding, because  
 15 of the time, if something goes bad, just, you  
 16 know, take the drives out, put it in. And  
 17 then, this became a bigger thing. So now,  
 18 we're, like, well, there was still kind of a  
 19 possibility that more things would have been  
 20 happening. From my understanding. That's what  
 21 SigNet told me.  
 22 [REDACTED]: Okay.  
 23 MR. [REDACTED]: All right. And then, for  
 24 clarity purposes, when - again, on the 8th, you  
 25 found out that this was an issue, and that you

1 have the drives and not you?  
 2 MR. [REDACTED]: Because he has all the  
 3 hard drives in the building. Like, me having  
 4 the hard drives is not part of my job  
 5 description. But --  
 6 MR. [REDACTED]: All right. So --  
 7 MR. [REDACTED]: -- I could have them, but  
 8 he's got more, like, readily available ones.  
 9 And everything that I had was from the old  
 10 stuff that wasn't working from before.  
 11 MR. [REDACTED]: Okay.  
 12 MR. [REDACTED]: So, if I pulled something  
 13 from that, something that wasn't working  
 14 before, I don't know if it was bad. That's why  
 15 it's on the shelf. Because nothing was labeled  
 16 bad. It was just on the shelf. That's, it was  
 17 a mess, that whole area was a mess.  
 18 MR. [REDACTED]: Okay. Where was his  
 19 equipment stored?  
 20 MR. [REDACTED]: Oh, the CSM?  
 21 MR. [REDACTED]: Yes.  
 22 MR. [REDACTED]: His is in the server room.  
 23 MR. [REDACTED]: Is that within the SIS,  
 24 near the -?  
 25 MR. [REDACTED]: No. That's downstairs, in

1 the first floor.  
 2 MR. [REDACTED]: Okay. So, the server  
 3 room is in the computer server room?  
 4 MR. [REDACTED]: Yes. Yeah.  
 5 MR. [REDACTED]: Nothing to do with the  
 6 cameras?  
 7 MR. [REDACTED]: No.  
 8 MR. [REDACTED]: All right. So, you would  
 9 have had to have gone to him --  
 10 MR. [REDACTED]: Gone up to him --  
 11 MR. [REDACTED]: -- within the --?  
 12 MR. [REDACTED]: -- with the, yeah, at the  
 13 time, like, hey, [REDACTED], you got some drives? I  
 14 don't have any drives.  
 15 MR. [REDACTED]: Okay. So, what --? Can  
 16 you just explain what steps it is? You found  
 17 out on the 8th. What steps did you take in  
 18 order to resolve this issue? Do you know if  
 19 you --? Did you call SigNet on the 8th, or did  
 20 you call them on the 10th? Because the way  
 21 that this --. The way that this reads, just  
 22 look at these comments. It says this comment  
 23 was made on the 8th, at 3:38 p.m. --  
 24 MR. [REDACTED]: Mm-hmm.  
 25 MR. [REDACTED]: -- and where it says, "Hi

1 instructions that I'm looking at, though, on  
 2 this comment from August 8th, 2019, at 3:38  
 3 p.m.?  
 4 MR. [REDACTED]: Yeah. It looks like  
 5 that's right. When I -- that's where I do the  
 6 rebuild, probably. Those are probably the  
 7 instructions to do the rebuild.  
 8 MR. [REDACTED]: Yeah.  
 9 MR. [REDACTED]: For two drives.  
 10 MR. [REDACTED]: And do you understand who  
 11 it's -- when it says, "Hi [REDACTED]. Unable to  
 12 locate anything official." -- do you know who it  
 13 is that is talking there?  
 14 MR. [REDACTED]: It could be [REDACTED],  
 15 or [REDACTED].  
 16 MR. [REDACTED]: Hey. Can I --  
 17 MR. [REDACTED]: That was [REDACTED].  
 18 MR. [REDACTED]: -- can I clarify that?  
 19 Because I didn't --. We know that that comment  
 20 right there is by [REDACTED] (Phonetic Sp.  
 21 \*01:11:18). He's a Qognify support engineer.  
 22 MR. [REDACTED]: Okay.  
 23 MR. [REDACTED]: And that's the  
 24 instructions that he provided [REDACTED] to give you.  
 25 MR. [REDACTED]: Okay.

1 [REDACTED]. Unable to locate anything official --  
 2 MR. [REDACTED]: Mm-hmm.  
 3 MR. [REDACTED]: -- the basic steps are as  
 4 follows. Set the raid level --  
 5 MR. [REDACTED]: Uh-huh.  
 6 MR. [REDACTED]: -- it none and save. It  
 7 will --." So, what is going on here? What are  
 8 these instructions? This is supposed to be  
 9 specific to this incident.  
 10 MR. [REDACTED]: Mm-hmm.  
 11 MR. [REDACTED]: Do you follow what's  
 12 going on there?  
 13 MR. [REDACTED]: Yeah. Oh, so, I called  
 14 them on Thursday. And I probably started to  
 15 rebuild on Friday. But I couldn't do the  
 16 rebuild on Friday.  
 17 MR. [REDACTED]: So, you called them on  
 18 Thursday? What, to obtain the instructions?  
 19 MR. [REDACTED]: I already knew what I had  
 20 to do. I always just call them to make sure  
 21 I'm doing everything right.  
 22 MR. [REDACTED]: All right. So, on  
 23 Thursday, you called them.  
 24 MR. [REDACTED]: Mm-hmm.  
 25 MR. [REDACTED]: And are these

1 MR. [REDACTED]: Okay.  
 2 MR. [REDACTED]: All right. And do you  
 3 know when you would have received those  
 4 instructions? Would it have been on the 8th?  
 5 MR. [REDACTED]: Yes.  
 6 MR. [REDACTED]: Okay. And you're saying,  
 7 the reason why you didn't do it on the 8th is  
 8 because --  
 9 MR. [REDACTED]: I didn't have the drives.  
 10 MR. [REDACTED]: -- you didn't have the  
 11 drives --  
 12 MR. [REDACTED]: Uh-huh.  
 13 MR. [REDACTED]: -- to do it?  
 14 MR. [REDACTED]: Yeah.  
 15 MR. [REDACTED]: All right. So then, on  
 16 the 9th, you got --  
 17 MR. [REDACTED]: The drives.  
 18 MR. [REDACTED]: -- the drives?  
 19 MR. [REDACTED]: Yes.  
 20 MR. [REDACTED]: But you got them later in  
 21 the day --  
 22 MR. [REDACTED]: Late.  
 23 MR. [REDACTED]: -- is what you're saying?  
 24 MR. [REDACTED]: Yes. And I didn't have  
 25 access to go in the room.

1 MR. [REDACTED]: And [REDACTED] told you that you  
 2 --  
 3 MR. [REDACTED]: Can't go in there.  
 4 MR. [REDACTED]: -- couldn't be in there?  
 5 MR. [REDACTED]: Yes.  
 6 MR. [REDACTED]: And do you specifically  
 7 recall [REDACTED] being the one who said you can't  
 8 come in here?  
 9 MR. [REDACTED]: Well, he's just, like, if  
 10 I'm gone for the day, there was nobody else  
 11 there. He was the only one with the key.  
 12 MR. [REDACTED]: So, again, if we speak to  
 13 him, is he going to say, yeah, I told him he  
 14 can't come in?  
 15 MR. [REDACTED]: Yeah. Yeah. He knows I  
 16 can't come in. Because it's the evidence room,  
 17 too. So, yeah.  
 18 MR. [REDACTED]: Yeah. We talked to SIS  
 19 [REDACTED] about that. She said there was not an  
 20 evidence room in there.  
 21 MR. [REDACTED]: It's still an evidence  
 22 room right now. If you go there.  
 23 MR. [REDACTED]: Mm-hmm.  
 24 MR. [REDACTED]: That's where I --  
 25 MR. [REDACTED]: Well, maybe now, but what

1 out. There should not be anything else mixed  
 2 with the room.  
 3 MR. [REDACTED]: Okay.  
 4 MR. [REDACTED]: And up to this day, there  
 5 is still evidence and garbage in that room.  
 6 MR. [REDACTED]: Okay.  
 7 MR. [REDACTED]: So, it is not a video  
 8 room.  
 9 MR. [REDACTED]: Can you just look on the  
 10 9th, what time did [REDACTED] work until?  
 11 MR. [REDACTED]: Hold on.  
 12 MR. [REDACTED]: Did you say 7:00 to --  
 13 MR. [REDACTED]: On the 9th. Bear with me.  
 14 Nine. So, this falls under either 7:00 to  
 15 3:00, or 8:00 to 4:00.  
 16 MR. [REDACTED]: Okay.  
 17 MR. [REDACTED]: So, it was later than me  
 18 staying for -. And you could just check my  
 19 overtime, too, to see what time I stayed. So,  
 20 if I did overtime that day.  
 21 MR. [REDACTED]: All right. But point  
 22 being, is you didn't go in and fix them on that  
 23 day?  
 24 MR. [REDACTED]: No.  
 25 MR. [REDACTED]: All right. So, when you

1 is it on the 9th?  
 2 MR. [REDACTED]: -- it's always been the  
 3 evidence room.  
 4 MR. [REDACTED]: Because she said, yeah --  
 5 MR. [REDACTED]: It's not going to be --  
 6 MR. [REDACTED]: -- she said there were  
 7 files in there, but there's no evidence.  
 8 MR. [REDACTED]: Yeah. Every contraband  
 9 they get from inmates, that's where they store  
 10 everything.  
 11 MR. [REDACTED]: In that area?  
 12 MR. [REDACTED]: In that area. Yes.  
 13 MR. [REDACTED]: Where the -?  
 14 MR. [REDACTED]: Yes. And if you go there  
 15 --  
 16 MR. [REDACTED]: Where (Indiscernible  
 17 \*01:12:28).  
 18 MR. [REDACTED]: -- right now, there's  
 19 still, there's junk in there. It's not just a  
 20 video room. That's the biggest problem that I  
 21 had with this whole thing, was that at other  
 22 institutions, when you have a video room, you  
 23 just have a video room. There is nothing else  
 24 in there. There's just the com techs. You go  
 25 in, you do whatever you got to do, you come

1 say you didn't have access to the room, you are  
 2 saying you didn't have access to the room after  
 3 3:00 p.m.?  
 4 MR. [REDACTED]: Yes.  
 5 MR. [REDACTED]: And you --  
 6 MR. [REDACTED]: Or whatever time.  
 7 MR. [REDACTED]: -- because usually --  
 8 MR. [REDACTED]: Yeah.  
 9 MR. [REDACTED]: -- your shift was from  
 10 6:00 a.m. to --  
 11 MR. [REDACTED]: 6:00 --  
 12 MR. [REDACTED]: -- 2:00 p.m.  
 13 MR. [REDACTED]: -- 2:00 --  
 14 MR. [REDACTED]: Correct?  
 15 MR. [REDACTED]: -- yeah, but I was doing a  
 16 project. So, I don't know what overtime. I  
 17 was probably doing overtime. So, I was working  
 18 maybe 12 hours, 16 hours.  
 19 MR. [REDACTED]: And this is just one of  
 20 those things we're going to have really  
 21 reconcile here, because --  
 22 MR. [REDACTED]: Mm-hmm.  
 23 MR. [REDACTED]: -- of the, you know, this  
 24 is such a big part of this thing --  
 25 MR. [REDACTED]: Mm-hmm.

1 MR. [REDACTED]: -- that we don't have a  
 2 video. Why didn't you, from 6:00 to 2:00, fix  
 3 this thing?  
 4 MR. [REDACTED]: Because I was doing other  
 5 things. This wasn't -. This was a priority,  
 6 but, and the fact, like I said, this was not,  
 7 like, the main priority in the building. Oh,  
 8 the recorders aren't working? Okay. Well, all  
 9 right, it's not, like, oh, not, this is what  
 10 you have to make. Now, after Epstein, like,  
 11 oh, this is the main thing you have to focus on  
 12 for the day.  
 13 MR. [REDACTED]: Okay. So, you didn't get  
 14 to it until after you took care of a bunch of -  
 15 -  
 16 MR. [REDACTED]: Other stuff.  
 17 MR. [REDACTED]: -- other stuff.  
 18 MR. [REDACTED]: Yes.  
 19 MR. [REDACTED]: And by the time you got  
 20 to it, at the end of your shift, basically, it  
 21 sounds like?  
 22 MR. [REDACTED]: Yes.  
 23 MR. [REDACTED]: That there wasn't enough  
 24 time to do it?  
 25 MR. [REDACTED]: (Indiscernible \*01:14:30).

1 happened, like, you know, if I pulled these,  
 2 there's going to be no video at all.  
 3 MR. [REDACTED]: And is this the  
 4 conversation you had directly with the captain?  
 5 MR. [REDACTED]: No. This would have been  
 6 the warden, or SIS. I really didn't see the  
 7 captain that day. I don't remember seeing the  
 8 captain or talking to the captain.  
 9 MR. [REDACTED]: Was this a big --  
 10 MR. [REDACTED]: I would just --  
 11 MR. [REDACTED]: -- sorry.  
 12 MR. [REDACTED]: -- that day --  
 13 MR. [REDACTED]: -- this was a big  
 14 conversation.  
 15 MR. [REDACTED]: -- yeah, when --  
 16 MR. [REDACTED]: Yeah.  
 17 MR. [REDACTED]: -- everybody was asking me  
 18 questions. It was mainly SIS and the warden I  
 19 was dealing with. I wasn't really dealing with  
 20 anybody else.  
 21 MR. [REDACTED]: But you don't recall  
 22 exactly who you told, hey, I'm about to pull  
 23 the drives, but everything will be wiped?  
 24 MR. [REDACTED]: I'm not too sure. But  
 25 either the SIS or the warden. I'm pretty sure

1 Yeah. Yeah.  
 2 MR. [REDACTED]: But you could have gained  
 3 access between --  
 4 MR. [REDACTED]: 6:00.  
 5 MR. [REDACTED]: -- at least when he was  
 6 working there, 7:00 a.m. to 3:00 p.m.  
 7 MR. [REDACTED]: Yes.  
 8 MR. [REDACTED]: But you just didn't?  
 9 MR. [REDACTED]: No.  
 10 MR. [REDACTED]: Okay. When you --  
 11 MR. [REDACTED]: I have a few questions.  
 12 MR. [REDACTED]: -- yup. Go ahead.  
 13 MR. [REDACTED]: I have a question. I know  
 14 you might have actually answered this question,  
 15 but just I, I probably didn't hear it. But you  
 16 said that you spoke to MCC personnel about the  
 17 date of (Indiscernible \*01:14:57). Who  
 18 specifically did you speak to?  
 19 MR. [REDACTED]: It would be somebody in  
 20 SIS.  
 21 MR. [REDACTED]: It would be somebody  
 22 where?  
 23 MR. [REDACTED]: Or I'm pretty sure I told  
 24 the warden, too, because this was a big deal.  
 25 That on the, on that Saturday, when everything

1 of that.  
 2 MR. [REDACTED]: But again, he explained -  
 3 -  
 4 MR. [REDACTED]: And do you -.  
 5 MR. [REDACTED]: -- that it was his  
 6 understanding that there was nothing on there,  
 7 anyway. He didn't find out until later that  
 8 there could have been some background.  
 9 MR. [REDACTED]: Okay. And then, the final  
 10 question is, when the FBI agent that came in,  
 11 do you remember who that FBI agent was that you  
 12 spoke to?  
 13 MR. [REDACTED]: No. I don't remember his  
 14 name.  
 15 MR. [REDACTED]: Okay.  
 16 MR. [REDACTED]: Okay.  
 17 MR. [REDACTED]: And you told him  
 18 specifically that, hey, listen, I pulled two  
 19 drives --  
 20 MR. [REDACTED]: Two drives. Yeah.  
 21 MR. [REDACTED]: -- and it's in the process  
 22 of being rebuilt?  
 23 MR. [REDACTED]: Yes.  
 24 MR. [REDACTED]: And you advised him that,  
 25 if they pulled the drives, at that point.

1 MR. [REDACTED]: That they were going to be  
 2 - yes. And I was on the phone with SigNet when  
 3 this was going on. So, I could tell them  
 4 exactly what was going on.  
 5 MR. [REDACTED]: Well, let me clarify  
 6 that, then, because you said that you pulled  
 7 the two drives, and that would have wiped the  
 8 system, but you said the FBI came in and just  
 9 took everything.  
 10 MR. [REDACTED]: Yeah, they took --  
 11 MR. [REDACTED]: So --  
 12 MR. [REDACTED]: -- took everything. Yes.  
 13 MR. [REDACTED]: -- so, they didn't pull  
 14 the two drives.  
 15 MR. [REDACTED]: Drives.  
 16 MR. [REDACTED]: They pulled it all?  
 17 MR. [REDACTED]: All. Yes.  
 18 MR. [REDACTED]: You said the -. They  
 19 took all --  
 20 MR. [REDACTED]: Yes.  
 21 MR. [REDACTED]: -- DVR-2 on the 10th --  
 22 MR. [REDACTED]: Well, all the --  
 23 MR. [REDACTED]: -- and they came back on  
 24 the 11th, took the rest --  
 25 MR. [REDACTED]: The rest of it.

1 verified that by reviewing, going back and  
 2 reviewing old footage, to see that the cameras  
 3 were working.  
 4 MR. [REDACTED]: Yes.  
 5 MR. [REDACTED]: And are you sure that you  
 6 did that? Because according to the FBI, based  
 7 on their analysis, it looks like there was a  
 8 catastrophic disc failures, and there is  
 9 nowhere, recordings in there since 7/29 anyway.  
 10 MR. [REDACTED]: I'm going to read you  
 11 what this says.  
 12 MR. [REDACTED]: Okay.  
 13 MR. [REDACTED]: It says, "On," it looks  
 14 like it would have been in September 18th,  
 15 2019, "A meeting was conducted with DVR vendor,  
 16 technical support representative, [REDACTED],  
 17 [REDACTED], of SigNet Technologies. [REDACTED]  
 18 provided an overview of the operation of the  
 19 system. A review of the DVR-2 controller logs  
 20 by [REDACTED] and Senior Advisor, [REDACTED],"  
 21 [REDACTED], "indicated that there had been  
 22 catastrophic disc failures in the array, and no  
 23 recordings would have been available after  
 24 7/29/2019."  
 25 MR. [REDACTED]: So, on the --

1 MR. [REDACTED]: -- of it.  
 2 MR. [REDACTED]: Yes.  
 3 MR. [REDACTED]: Is that correct?  
 4 MR. [REDACTED]: Yes.  
 5 MR. [REDACTED]: So, does that help  
 6 clarify that, [REDACTED]?  
 7 MR. [REDACTED]: Yeah. Now, the last part  
 8 to this, I emailed you guys a snippet. Based  
 9 on the FBI's analysis, it looks like, they  
 10 indicated that there was a catastrophic disc  
 11 failures in their raid. And no reportings  
 12 would have been available after 7/29.  
 13 MR. [REDACTED]: Mm-hmm.  
 14 MR. [REDACTED]: You mentioned earlier in  
 15 the interview that there was a motherboard  
 16 failure.  
 17 MR. [REDACTED]: Yes. That was another  
 18 time.  
 19 MR. [REDACTED]: But that happened around  
 20 July. That's what you initially mentioned.  
 21 MR. [REDACTED]: I have -. If that's what  
 22 I said, then yes. But -.  
 23 MR. [REDACTED]: So, and you said the only  
 24 way you could have corrected that situation  
 25 would have been that, you went in, and you

1 MR. [REDACTED]: It says, [REDACTED]" --  
 2 MR. [REDACTED]: -- (Indiscernible  
 3 \*01:18:31).  
 4 MR. [REDACTED]: -- "[REDACTED]" --  
 5 MR. [REDACTED]: Go ahead.  
 6 MR. [REDACTED]: -- and Computer  
 7 Scientist, [REDACTED], [REDACTED], "were  
 8 provided access to the beginning sectors of the  
 9 16 drives, to see if the structure would  
 10 indicate clues of a possible rebuild. None  
 11 were apparent." So, what it is saying is that,  
 12 and you could read the specific language, this  
 13 would be, like, but what it is saying is that -  
 14 -  
 15 MR. [REDACTED]: Yeah.  
 16 MR. [REDACTED]: -- on the 29th, nothing -  
 17 -  
 18 MR. [REDACTED]: Had been recorded.  
 19 MR. [REDACTED]: -- had recorded.  
 20 MR. [REDACTED]: Yes.  
 21 MR. [REDACTED]: Prior to that, it sounded  
 22 like you were, like, there is no possible that  
 23 that could have happened. I would have known.  
 24 MR. [REDACTED]: Mm-hmm.  
 25 MR. [REDACTED]: So --

1 MR. [REDACTED]: Yeah.  
 2 MR. [REDACTED]: -- now, when you're  
 3 seeing them, and did they go in and they look  
 4 at this, does that seem like they would be  
 5 right, and nothing record after 7/29?  
 6 MR. [REDACTED]: Yes. They're the experts.  
 7 So, they would know that nothing recorded.  
 8 MR. [REDACTED]: All right. So, from 7/29  
 9 to 2019, nothing recorded, but this is the  
 10 first time you are hearing of it?  
 11 MR. [REDACTED]: Yes. That is the first  
 12 time I'm hearing about that.  
 13 MR. [REDACTED]: And during the FBI  
 14 interview, that's not something they discussed  
 15 with you?  
 16 MR. [REDACTED]: No. Nobody told me that  
 17 was on the 29th. That that's the first time.  
 18 That's the first time I've heard that.  
 19 MR. [REDACTED]: Okay. Sorry, [REDACTED]. Do  
 20 you want to go ahead?  
 21 MR. [REDACTED]: Yeah. You mentioned that,  
 22 earlier in the interview, I might have - based  
 23 on my notes here - that you did a motherboard  
 24 rebuilt, and there was (Indiscernible  
 25 \*01:19:44) could have happened around July

1 video. Yes.  
 2 MR. [REDACTED]: But now, it's different.  
 3 Now, you're stating that you went back in, and  
 4 you just looked to see if there was, like, a  
 5 dot --  
 6 MR. [REDACTED]: No, no.  
 7 MR. [REDACTED]: -- to see if it was  
 8 recording.  
 9 MR. [REDACTED]: I'm saying, I did both. I  
 10 would have looked to see if there was video,  
 11 and then I would have looked to see that I got  
 12 the red lights, that everything was recording.  
 13 The initial thing to do is to look to see a red  
 14 lights, that those are working. And then, the  
 15 next thing was to do was to pull back to see if  
 16 there was video. Now, SigNet told me later,  
 17 after all of this happened, even on the new  
 18 recorder that we have, the red lights that  
 19 show, it don't mean that anything is recording.  
 20 The system is not recording. You would have to  
 21 go pull video from, like, a week before, or two  
 22 weeks before, to see if there was a failure.  
 23 But you would not know, like, looking at it,  
 24 that there was a problem.  
 25 MR. [REDACTED]: Okay. But you

1 29th. And if this happened around July 29th,  
 2 are you sure that you went in and you verified  
 3 that the cameras were actually operating? It  
 4 was actually recording?  
 5 MR. [REDACTED]: Yes. I would have to  
 6 verify everything was recording.  
 7 MR. [REDACTED]: Now, if it was recording,  
 8 how was it that, based on their analysis of  
 9 this stuff, that there is no recordings in the  
 10 system after 7/20/2019?  
 11 MR. [REDACTED]: The way I was taught to  
 12 look at the system, was to look at the Nice  
 13 Vision, and if I saw the red lights, like, the  
 14 system is recording. But then, I found out  
 15 later, the red lights on the system recording,  
 16 the way I was looking at it, it doesn't mean  
 17 that there was actual video recording. That's  
 18 something that SigNet told me later.  
 19 MR. [REDACTED]: All right. But then, that  
 20 contradicts what you stated earlier. Earlier,  
 21 you stated that you actually went back in, and  
 22 you reviewed --  
 23 MR. [REDACTED]: Yeah.  
 24 MR. [REDACTED]: -- older footage.  
 25 MR. [REDACTED]: I would have to look for

1 (Indiscernible \*01:21:18) comment by the FBI  
 2 report --  
 3 MR. [REDACTED]: Yes.  
 4 MR. [REDACTED]: -- there was no recording  
 5 for you to go back and pull back --  
 6 MR. [REDACTED]: Back. Yes.  
 7 MR. [REDACTED]: -- (Indiscernible  
 8 \*01:21:21).  
 9 MR. [REDACTED]: Because it happened 29th.  
 10 So, there must have been video that I pulled  
 11 back from maybe before the 29th. When I was  
 12 looking at it.  
 13 MR. [REDACTED]: So, what you're saying is  
 14 that, you reviewed the, you fixed the  
 15 motherboard, but when you checked to see the  
 16 video was recording, you didn't check to see if  
 17 video was recording from the time you checked  
 18 the --  
 19 MR. [REDACTED]: No.  
 20 MR. [REDACTED]: -- fixed the motherboard  
 21 --  
 22 MR. [REDACTED]: No.  
 23 MR. [REDACTED]: -- to the time that you  
 24 checked it, you checked previous to the time  
 25 you fixed --

1 MR. [REDACTED]: Yes.  
 2 MR. [REDACTED]: -- the motherboard.  
 3 MR. [REDACTED]: Yes.  
 4 MR. [REDACTED]: So, therefore, you  
 5 wouldn't have known --  
 6 MR. [REDACTED]: Known that.  
 7 MR. [REDACTED]: -- that it wasn't --  
 8 MR. [REDACTED]: Yeah.  
 9 MR. [REDACTED]: -- recording --  
 10 MR. [REDACTED]: It wasn't recording.  
 11 MR. [REDACTED]: -- at that point.  
 12 MR. [REDACTED]: Yeah. I wouldn't have  
 13 known that. I was just under the assumption  
 14 that everything, because I saw the video from  
 15 before.  
 16 MR. [REDACTED]: So, you saw --  
 17 MR. [REDACTED]: That it was working.  
 18 MR. [REDACTED]: -- the video from before,  
 19 but you would have seen that anyway --  
 20 MR. [REDACTED]: Mm-hmm.  
 21 MR. [REDACTED]: -- what you needed to do,  
 22 actually, was check --  
 23 MR. [REDACTED]: Check.  
 24 MR. [REDACTED]: -- from the point that  
 25 you fixed it --

1 MR. [REDACTED]: I would have -. I had the  
 2 emails before, maybe with [REDACTED], with the  
 3 motherboard.  
 4 MR. [REDACTED]: You do?  
 5 MR. [REDACTED]: Yeah.  
 6 MR. [REDACTED]: Could that --  
 7 MR. [REDACTED]: Because I have the --  
 8 MR. [REDACTED]: -- can that be the third  
 9 thing we ask you for --  
 10 MR. [REDACTED]: -- because I had --  
 11 MR. [REDACTED]: -- if you could get us  
 12 those emails?  
 13 MR. [REDACTED]: -- we have to get it from  
 14 another jail, because they didn't have it. And  
 15 he was the one that walked me through because I  
 16 had to -. He walked me through and I'm, like,  
 17 one of their engineers had to walk me through  
 18 how to pull that thing out. The motherboard.  
 19 MR. [REDACTED]: All right. Can you give  
 20 me all your emails from [REDACTED] and  
 21 [REDACTED]? [REDACTED] and [REDACTED].  
 22 MR. [REDACTED]: Mm-hmm.  
 23 MR. [REDACTED]: That will be the third  
 24 thing I'm going to ask. Is that okay?  
 25 MR. [REDACTED]: Yes.

1 MR. [REDACTED]: To --.  
 2 MR. [REDACTED]: -- to the time --  
 3 MR. [REDACTED]: That I checked.  
 4 MR. [REDACTED]: -- that you checked.  
 5 MR. [REDACTED]: Yeah.  
 6 MR. [REDACTED]: Needed to be that  
 7 recording.  
 8 MR. [REDACTED]: Yes.  
 9 MR. [REDACTED]: And you didn't do that?  
 10 MR. [REDACTED]: There was no video. So.  
 11 MR. [REDACTED]: But are we certain --  
 12 MR. [REDACTED]: There was no.  
 13 MR. [REDACTED]: -- that July 29th, 2019  
 14 would have been the day that you fixed the  
 15 motherboard? That's what this information  
 16 says, but it says the motherboard failed on  
 17 that day, at least, but we don't know that  
 18 specifically, that that's the day that you  
 19 tried to fix it, or do we?  
 20 MR. [REDACTED]: No.  
 21 MR. [REDACTED]: Because the only other  
 22 service request I have for 2019 is this one on  
 23 February 28th, 2019. Would have they put in a  
 24 service request if you were fixing the  
 25 motherboard?

1 MR. [REDACTED]: Can you tell me, this  
 2 service request number, 22855, it says, date  
 3 created February 28th, 2019. It was a [REDACTED]  
 4 [REDACTED], [REDACTED], and [REDACTED]  
 5 again. By looking at this, can you tell me  
 6 what it was -? This is the only other one we  
 7 could we could, we've received with that --  
 8 MR. [REDACTED]: (Indiscernible \*01:23:38).  
 9 MR. [REDACTED]: -- from that calendar  
 10 year. Can you tell me what that would have had  
 11 to do with?  
 12 MR. [REDACTED]: Hmm. Yeah, yeah, yeah.  
 13 Okay. Rebuilt the raid. So, there was a -.  
 14 It doesn't say what drive or anything. Right?  
 15 MR. [REDACTED]: I don't know. I'm asking  
 16 you. Because if it's not as detailed as this  
 17 other one, it's kind of looks like more  
 18 instruction type things.  
 19 MR. [REDACTED]: Yeah, yeah. Hmm.  
 20 MR. [REDACTED]: Because you said that the  
 21 drives had gone bad in the past --  
 22 MR. [REDACTED]: Yes.  
 23 MR. [REDACTED]: -- and you knew that they  
 24 would do it again.  
 25 MR. [REDACTED]: Again.

1 MR. [REDACTED]: Is this what you're  
 2 talking about? Is this February 20 --  
 3 MR. [REDACTED]: Yes.  
 4 MR. [REDACTED]: -- 28th, would that have  
 5 been when the drives went bad last time?  
 6 MR. [REDACTED]: The last time. Yes. And  
 7 it probably went bad a time before that, also.  
 8 MR. [REDACTED]: But on this date, is that  
 9 when you said that you had previously ordered  
 10 the new drives --  
 11 MR. [REDACTED]: Yeah.  
 12 MR. [REDACTED]: -- based upn --  
 13 MR. [REDACTED]: No. This would have been  
 14 --  
 15 MR. [REDACTED]: -- (Indiscernible  
 16 \*01:24:23).  
 17 MR. [REDACTED]: -- it would have been a  
 18 little bit later on, I ordered the drives. It  
 19 would have been before all of this happened,  
 20 that I ordered --  
 21 MR. [REDACTED]: But point being, is you  
 22 told us that the reason why you ordered them is  
 23 because that it had gone bad in the past --  
 24 MR. [REDACTED]: Mm-hmm.  
 25 MR. [REDACTED]: -- and they told you it

1 MR. [REDACTED]: So we know what it is  
 2 that we're talking about, for the future.  
 3 MR. [REDACTED]: Mm-hmm.  
 4 MR. [REDACTED]: I mean, the date is --  
 5 MR. [REDACTED]: Mm-hmm.  
 6 MR. [REDACTED]: -- again, September 29th,  
 7 2021. And I'm making sure, making sure we have  
 8 those. Let me see what else. All right. So,  
 9 when you realized that you could not resolve  
 10 the recording issue on August 8th, 2019, did  
 11 you notify anyone that you needed more time?  
 12 MR. [REDACTED]: No.  
 13 MR. [REDACTED]: No. And why didn't you?  
 14 So, if the SIS told you, hey, we need this  
 15 fixed, why didn't you notify him that it --  
 16 MR. [REDACTED]: past --  
 17 MR. [REDACTED]: -- could (Indiscernible  
 18 \*01:26:14).  
 19 MR. [REDACTED]: -- practice, so just go  
 20 home, [REDACTED]. It's not that important. You  
 21 will come back tomorrow, and deal with it  
 22 tomorrow.  
 23 MR. [REDACTED]: That was past practice.  
 24 But not --  
 25 MR. [REDACTED]: Yes.

1 would go bad --  
 2 MR. [REDACTED]: Bad again.  
 3 MR. [REDACTED]: -- again in the future.  
 4 MR. [REDACTED]: Yes.  
 5 MR. [REDACTED]: Is this the last event  
 6 that, when they went bad? And the reason why  
 7 they would have told you that information.  
 8 MR. [REDACTED]: If that's when I called  
 9 them. That probably would have been the last  
 10 event.  
 11 MR. [REDACTED]: Okay.  
 12 MR. [REDACTED]: Yeah.  
 13 MR. [REDACTED]: So, earlier that year.  
 14 MR. [REDACTED]: Yeah.  
 15 MR. [REDACTED]: Okay. So, approximately  
 16 six months before. Okay. And that's why you  
 17 would have ordered the new drives, though, and  
 18 had them on hand?  
 19 MR. [REDACTED]: Yes.  
 20 MR. [REDACTED]: Okay. Just before we --  
 21 Can you just initial and date these before we  
 22 continue moving on? I just --. Wait. We have  
 23 --. As you know, we have everyone initial and  
 24 date these things.  
 25 MR. [REDACTED]: Mm-hmm.

1 MR. [REDACTED]: -- that didn't actually  
 2 occur on August 8th. That was just your --  
 3 MR. [REDACTED]: Mm-hmm.  
 4 MR. [REDACTED]: -- your experience had  
 5 taught you that you could fix it the next day?  
 6 MR. [REDACTED]: The next day. Just come  
 7 in the next day.  
 8 MR. [REDACTED]: Okay. But no one  
 9 actually told you to come in the next day?  
 10 MR. [REDACTED]: Hmm-mm. No.  
 11 MR. [REDACTED]: Okay. Was it your  
 12 understanding about how important it was that  
 13 the camera issue was resolved before you went  
 14 home?  
 15 MR. [REDACTED]: Pfft. At that  
 16 institution? No.  
 17 MR. [REDACTED]: No?  
 18 MR. [REDACTED]: It was never made clear to  
 19 me, like, this was important. Because this  
 20 happened, like I said, numerous times before.  
 21 MR. [REDACTED]: Okay.  
 22 MR. [REDACTED]: Yes.  
 23 MR. [REDACTED]: So, when SIS [REDACTED]  
 24 [REDACTED] says that it was her understanding that  
 25 she told you that it was not only important,

1 but it had to be fixed on the 8th, you --  
 2 MR. [REDACTED]: Yeah, because --  
 3 MR. [REDACTED]: -- (Indiscernible  
 4 \*01:26:56).  
 5 MR. [REDACTED]: -- if this happened before  
 6 and I was fixing stuff, it wasn't like I fixed  
 7 it that day, and it works that day. It takes a  
 8 couple of days. It's not going to -. And me  
 9 magically (Indiscernible \*01:27:04) my fingers.  
 10 Like, I go in the room and I just fix it, and  
 11 it starts recording. That's not the case.  
 12 MR. [REDACTED]: All right. Would have  
 13 you, then, told her, though, I will get on it  
 14 immediately --  
 15 MR. [REDACTED]: Yeah.  
 16 MR. [REDACTED]: -- but in your mind, you  
 17 knew it would take a few days, but she didn't  
 18 know that? Would that be a possible scenario  
 19 to that?  
 20 MR. [REDACTED]: That's a possibility.  
 21 They might not know how long it would take me  
 22 to fix stuff.  
 23 MR. [REDACTED]: Did you tell them how  
 24 long it would take?  
 25 MR. [REDACTED]: They just would see me

1 spoke with the Captain and wrote a memo  
 2 regarding cameras not working. [REDACTED]  
 3 told her the issue must be resolved ASAP. She  
 4 relayed that to [REDACTED], and [REDACTED] agreed to  
 5 work overtime to resolve that." Does that --?  
 6 MR. [REDACTED]: The same day?  
 7 MR. [REDACTED]: Well, she said that she  
 8 thought it was going to be resolved the same  
 9 day, but she said that you agreed to work  
 10 overtime. So, it sounds like there was some  
 11 miscommunication --  
 12 MR. [REDACTED]: Miscommunication. Yeah.  
 13 It was a miscommunication. They already knew I  
 14 was working on the project. I was going to be  
 15 there. So.  
 16 MR. [REDACTED]: So, were you already --  
 17 And you said you were already working overtime.  
 18 MR. [REDACTED]: Yes.  
 19 MR. [REDACTED]: On other things.  
 20 MR. [REDACTED]: On things. Yes.  
 21 MR. [REDACTED]: And you had TDY people --  
 22 MR. [REDACTED]: People with me.  
 23 MR. [REDACTED]: -- with you?  
 24 MR. [REDACTED]: Yes.  
 25 MR. [REDACTED]: So, does it sound to you

1 back there working. They wouldn't really know  
 2 how intense, or what I was doing.  
 3 MR. [REDACTED]: All right. So, she would  
 4 have said, make sure --  
 5 MR. [REDACTED]: Mm-hmm.  
 6 MR. [REDACTED]: -- you fix this --  
 7 MR. [REDACTED]: Fix this.  
 8 MR. [REDACTED]: -- and you would have --  
 9 MR. [REDACTED]: And I --  
 10 MR. [REDACTED]: -- started --  
 11 MR. [REDACTED]: -- fixing it --  
 12 MR. [REDACTED]: -- working on it --  
 13 MR. [REDACTED]: -- yeah, but it wouldn't  
 14 have been fixed that day. No.  
 15 MR. [REDACTED]: Gotcha. And what  
 16 instructions did you receive from [REDACTED]  
 17 [REDACTED], [REDACTED], or [REDACTED] regarding  
 18 the cameras, the camera issue being resolved  
 19 ASAP?  
 20 MR. [REDACTED]: I can't recall, but I  
 21 don't really ever believe anybody tells me  
 22 anything. (Indiscernible \*01:27:53) resolved  
 23 ASAP. With the recordings. I've never --.  
 24 MR. [REDACTED]: Hmm. Okay. So, what we  
 25 have is, it says, you know, "[REDACTED] [REDACTED]

1 that she did tell you that it needed to be  
 2 resolved ASAP. You did say, I'll work overtime  
 3 to fix it. But you just weren't meaning that  
 4 you were going to fix it that same day?  
 5 MR. [REDACTED]: Hmm. No. That --  
 6 MR. [REDACTED]: Is it --  
 7 MR. [REDACTED]: -- yeah. I won't.  
 8 MR. [REDACTED]: -- is that correct, the  
 9 way I said that?  
 10 MR. [REDACTED]: It wouldn't have been  
 11 fixed that same day. So --  
 12 MR. [REDACTED]: That's what I mean.  
 13 MR. [REDACTED]: -- yeah. (Indiscernible  
 14 \*01:29:05). It wouldn't have --. There is no  
 15 way it would have been fixed that same day.  
 16 MR. [REDACTED]: So, she would have  
 17 understood you're staying that same day,  
 18 overtime, to fix it.  
 19 MR. [REDACTED]: But I, how would I stay if  
 20 I don't have access to the room? That's my  
 21 question.  
 22 MR. [REDACTED]: Well, she said that she  
 23 spoke with you in the room.  
 24 MR. [REDACTED]: In the room. Yeah. But  
 25 after she leaves, after they leave, I don't

1 have access to the room. So, how could I stay  
 2 in the room when I don't have access to it?  
 3 MR. [REDACTED]: Right. And then, the  
 4 following day, when you did come back, and you  
 5 did have access, you actually just didn't go  
 6 until the very end --  
 7 MR. [REDACTED]: End of the day.  
 8 MR. [REDACTED]: -- of the day.  
 9 MR. [REDACTED]: Yes.  
 10 MR. [REDACTED]: And then, you no longer  
 11 had access.  
 12 MR. [REDACTED]: Access. Yes.  
 13 MR. [REDACTED]: And then, you said you  
 14 were going to go back on Saturday, in the  
 15 morning --  
 16 MR. [REDACTED]: Morning. I had, because I  
 17 had the drives. I got the drives from the  
 18 [REDACTED]. Because I remember carrying the drives  
 19 to the room.  
 20 MR. [REDACTED]: All right. And did you  
 21 agree to work overtime on August 8th, 2019, to  
 22 resolve the issue before you went home on  
 23 August 8th, 2019?  
 24 MR. [REDACTED]: No. No. Somebody would  
 25 have had to -. My supervisor would have had to

1 hey, [REDACTED], you have to stay.  
 2 MR. [REDACTED]: All right. So --  
 3 MR. [REDACTED]: Like, I work for [REDACTED], but  
 4 I don't work for [REDACTED].  
 5 MR. [REDACTED]: -- but so --  
 6 MR. [REDACTED]: Mm-hmm.  
 7 MR. [REDACTED]: -- [REDACTED] was out, and  
 8 this something we discussed in our last  
 9 interview.  
 10 MR. [REDACTED]: Mm-hmm.  
 11 MR. [REDACTED]: He wasn't there.  
 12 MR. [REDACTED]: Yeah, there.  
 13 MR. [REDACTED]: And here is an out of  
 14 office assistant that we have from you. You  
 15 sent an email on Friday, August 9th, 2019, at  
 16 6:51 a.m.  
 17 MR. [REDACTED]: Mm-hmm.  
 18 MR. [REDACTED]: To [REDACTED]. It says, "I  
 19 will be out," and his automatic response --  
 20 MR. [REDACTED]: Mm-hmm.  
 21 MR. [REDACTED]: -- was, "I will be out of  
 22 the office on Monday, August 5th through  
 23 Friday, August 9th."  
 24 MR. [REDACTED]: Mm-hmm.  
 25 MR. [REDACTED]: "I will have limited

1 tell me, whoever was in charge, would hey,  
 2 like, [REDACTED], this is, you need to stay and,  
 3 you know, I couldn't just, like, I'm going to  
 4 stay. Like, no.  
 5 MR. [REDACTED]: Okay.  
 6 MR. [REDACTED]: Somebody's got to say,  
 7 well, you have to stay, or we have to, you  
 8 know, talk about what's going on with me  
 9 staying.  
 10 MR. [REDACTED]: Well, she told, well, she  
 11 said that she was with [REDACTED], and her, and  
 12 they said you got to stay to work overtime.  
 13 MR. [REDACTED]: Pfft. That's the -.  
 14 She's not my supervisor. So, that --  
 15 MR. [REDACTED]: Right.  
 16 MR. [REDACTED]: -- doesn't work. It's  
 17 whoever is in charge of main facilities, and [REDACTED]  
 18 [REDACTED] is my, like, supervisor, but there is  
 19 still somebody --  
 20 MR. [REDACTED]: So, who would have --  
 21 MR. [REDACTED]: -- before her.  
 22 MR. [REDACTED]: -- been your supervisor?  
 23 MR. [REDACTED]: It would have been the  
 24 general foreman of facility managers, whoever  
 25 is assigned, and they would have had to say,

1 phone and email access. Acting for me is Ms.  
 2 [REDACTED], on Monday 8/5, and Tuesday 8/6."  
 3 MR. [REDACTED]: Mm-hmm.  
 4 MR. [REDACTED]: "She will be reached at,"  
 5 and then, it says --  
 6 MR. [REDACTED]: The number.  
 7 MR. [REDACTED]: -- the number.  
 8 MR. [REDACTED]: Mm-hmm.  
 9 MR. [REDACTED]: "And/or via radio track  
 10 four. Wednesday through Friday, Mr. [REDACTED]  
 11 [REDACTED] will be Acting, and he will be reached  
 12 at" --  
 13 MR. [REDACTED]: Track four.  
 14 MR. [REDACTED]: -- the phone number.  
 15 MR. [REDACTED]: Yeah.  
 16 MR. [REDACTED]: Or track four radio. So,  
 17 would have you, so, the last time we spoke, you  
 18 were certain that you requested overtime on  
 19 that Saturday --  
 20 MR. [REDACTED]: Yeah.  
 21 MR. [REDACTED]: -- and that your boss  
 22 approved it.  
 23 MR. [REDACTED]: Approved it. Yeah.  
 24 MR. [REDACTED]: Is that still your  
 25 recollection? Because now it sounds like you

1 had, like, a blanket over, a blanket --  
 2 MR. [REDACTED]: We were in the middle of a  
 3 project. So, it was probably just a blanket  
 4 overtime.  
 5 MR. [REDACTED]: So, there wouldn't have  
 6 been somebody that you specifically requested?  
 7 MR. [REDACTED]: No.  
 8 MR. [REDACTED]: All right. Because,  
 9 yeah, that was something we talked about --  
 10 MR. [REDACTED]: (Indiscernible \*01:31:36).  
 11 MR. [REDACTED]: -- for a long time --  
 12 MR. [REDACTED]: Yeah.  
 13 MR. [REDACTED]: -- last time.  
 14 MR. [REDACTED]: Yeah.  
 15 MR. [REDACTED]: So, when you're thinking  
 16 of it, there is not someone that you went to?  
 17 MR. [REDACTED]: If he wasn't actually  
 18 there, they were just acting, it was probably  
 19 just a blanket overtime.  
 20 MR. [REDACTED]: Yeah, and we spoke to all  
 21 three of them, and they said --  
 22 MR. [REDACTED]: Yeah.  
 23 MR. [REDACTED]: -- he never talked to us.  
 24 We didn't even know anything about the camera  
 25 issue. They all - all three of them said you

1 MR. [REDACTED]: -- right.  
 2 MR. [REDACTED]: Said I didn't talk to him.  
 3 MR. [REDACTED]: So, you didn't actually  
 4 speak with anybody about these camera issues,  
 5 prior to going home on the 8th? You just were  
 6 working on it?  
 7 MR. [REDACTED]: I was working on it.  
 8 Yeah.  
 9 MR. [REDACTED]: Okay. So, you didn't  
 10 notify anybody, though, hey, these cameras are  
 11 out, and they're not, it's not resolved?  
 12 MR. [REDACTED]: They would have known  
 13 that, before I left, like, they still - I'm  
 14 still working on it. It was not, like, I'm  
 15 going to do fix it right away.  
 16 MR. [REDACTED]: Okay. Now, this actually  
 17 is, this email from you to [REDACTED], your boss --  
 18 MR. [REDACTED]: Mm-hmm.  
 19 MR. [REDACTED]: -- it looks like these  
 20 are, like, your priority for things that you  
 21 were working on at the time. Is that correct?  
 22 MR. [REDACTED]: Yes.  
 23 MR. [REDACTED]: Why aren't the cameras  
 24 listed on there, if that was on August 9th?  
 25 MR. [REDACTED]: I have no idea. Mm-hmm.

1 never talked to them about overtime. And no  
 2 idea anything about the camera issue.  
 3 MR. [REDACTED]: Yeah.  
 4 MR. [REDACTED]: Does that sound right?  
 5 MR. [REDACTED]: Well --  
 6 MR. [REDACTED]: They knew about it after  
 7 August 10th --  
 8 MR. [REDACTED]: Yes.  
 9 MR. [REDACTED]: -- but they said they  
 10 didn't know about it on the 8th or the 9th.  
 11 MR. [REDACTED]: Well, because they're not  
 12 really in charge. So, that's, like, you can't  
 13 tell them, because they're not -. I would have  
 14 to tell [REDACTED], or whoever is in charge of it.  
 15 MR. [REDACTED]: But he was out. So, who  
 16 --  
 17 MR. [REDACTED]: Yes.  
 18 MR. [REDACTED]: -- would have you spoken  
 19 with?  
 20 MR. [REDACTED]: Whoever was in charge, but  
 21 there, obviously, there is nobody in charge.  
 22 That doesn't even make sense.  
 23 MR. [REDACTED]: Well, the acting, and  
 24 during that time, says, you know --  
 25 MR. [REDACTED]: It was [REDACTED].

1 MR. [REDACTED]: So, if you found out on  
 2 the 8th, which we have clarified that you did,  
 3 this is what you're telling [REDACTED] --  
 4 MR. [REDACTED]: Is going on --  
 5 MR. [REDACTED]: -- is going on in the  
 6 institution --  
 7 MR. [REDACTED]: -- in the institution.  
 8 MR. [REDACTED]: -- and what you need to  
 9 work on.  
 10 MR. [REDACTED]: On. Well, the --  
 11 MR. [REDACTED]: Wouldn't you have put  
 12 that --  
 13 MR. [REDACTED]: -- that --  
 14 MR. [REDACTED]: -- on there?  
 15 MR. [REDACTED]: -- yeah. I would have put  
 16 that on there. But the camera thing was, like,  
 17 a constant thing. It wasn't, like, it wasn't  
 18 anything new. Like, they were having problems  
 19 with the cameras.  
 20 MR. [REDACTED]: But it wasn't new, but it  
 21 wasn't new that the recordings weren't --  
 22 MR. [REDACTED]: Working.  
 23 MR. [REDACTED]: -- weren't recording.  
 24 MR. [REDACTED]: Yeah.  
 25 MR. [REDACTED]: So, should have that been

1 on there?

2 MR. [REDACTED]: It should have been on  
3 there. Yes. It should have been on there.

4 MR. [REDACTED]: So, being that it wasn't  
5 on there, does that make you re-think, huh,  
6 maybe I didn't even work on it on the 9th, or  
7 try to work on it on the 9th?

8 MR. [REDACTED]: I did work on it, if  
9 that's what I said before.

10 MR. [REDACTED]: Okay.

11 MR. [REDACTED]: But yeah.

12 MR. [REDACTED]: Because they were writing  
13 that, it sounds, like, based upon a  
14 conversation with you on the 9th, they don't  
15 know that you don't have access to do them on  
16 the 9th. That's what they're writing, based  
17 upon what you told them.

18 MR. [REDACTED]: Mm-hmm.

19 MR. [REDACTED]: Like, oh, yeah, I'm doing  
20 it today because on the 9th, I couldn't gain  
21 access --

22 MR. [REDACTED]: Yes.

23 MR. [REDACTED]: -- to the room.

24 MR. [REDACTED]: Mm-hmm.

25 MR. [REDACTED]: So, looking at this, and

1 the stuff that I fixed during that week, or  
2 stuff I was looking at.

3 MR. [REDACTED]: Okay.

4 MR. [REDACTED]: Mm-hmm.

5 MR. [REDACTED]: Just, but the reason why  
6 the camera issue isn't on there is why?

7 MR. [REDACTED]: It's a recurring thing.

8 Like, it's not something -. Like --

9 MR. [REDACTED]: Okay.

10 MR. [REDACTED]: -- after I fixed it,  
11 that's where I would give them the stuff I  
12 worked on. It's not if I'm working on, this is  
13 the stuff, like, I've been working on for  
14 (Indiscernible \*01:34:52). This is the stuff  
15 that it's pending, or has to get done. Because  
16 those are work orders.

17 MR. [REDACTED]: So, from your  
18 understanding, the camera issue wouldn't be  
19 listed on this?

20 MR. [REDACTED]: It wouldn't be listed on  
21 here. No.

22 MR. [REDACTED]: And you wouldn't have  
23 notified [REDACTED] that the cameras were down, and  
24 not recording?

25 MR. [REDACTED]: Mmm, no. That would have

1 what you were working, it looks like you sent  
2 them an email of what you were working on that  
3 day. And now that you're seeing what you were  
4 working on that day, and the fact that the  
5 cameras weren't listed on there, were you  
6 actually working on it on the 9th?

7 MR. [REDACTED]: Yes.

8 MR. [REDACTED]: And you are positive you  
9 went on the 9th and tried to gain access --

10 MR. [REDACTED]: Because I had --

11 MR. [REDACTED]: -- to that room?

12 MR. [REDACTED]: -- and I had to get the  
13 drives from [REDACTED]. I did get the drives from  
14 [REDACTED].

15 MR. [REDACTED]: Okay. But you are  
16 positive you actually tried to access that  
17 room, and [REDACTED] told you --?

18 MR. [REDACTED]: After I leave, that's it,  
19 you can't stay.

20 MR. [REDACTED]: All right. And that's  
21 your positive about, on the 9th, even though  
22 it's not listed on your to-do list, on the 8th  
23 --

24 MR. [REDACTED]: Yeah, because that was  
25 probably something in -. This is probably all

1 been up to whoever was in charge. Like, I'm  
2 not -. I'm just the guy that fixes stuff.

3 MR. [REDACTED]: Oh, I thought you said  
4 you tell -. This is your supervisor --

5 MR. [REDACTED]: Direct supervisor.

6 MR. [REDACTED]: -- direct supervisor.

7 MR. [REDACTED]: Yeah.

8 MR. [REDACTED]: I thought you said you  
9 would always tell your direct --

10 MR. [REDACTED]: Supervisor.

11 MR. [REDACTED]: -- supervisor.

12 MR. [REDACTED]: Yeah.

13 MR. [REDACTED]: But you didn't?

14 MR. [REDACTED]: No.

15 MR. [REDACTED]: So, this is just the  
16 things we need to reconcile.

17 MR. [REDACTED]: Reconcile. Okay.

18 MR. [REDACTED]: Is this something that  
19 you should have told him?

20 MR. [REDACTED]: If he wasn't in charge,  
21 then I didn't tell him. No.

22 MR. [REDACTED]: Well, you didn't tell  
23 [REDACTED]. We know that. But he is still your  
24 - you said that he is not my real boss.

25 MR. [REDACTED]: Yeah. I can't tell --

1 MR. [REDACTED]: But [REDACTED] --  
 2 MR. [REDACTED]: -- and I can't tell him  
 3 about cameras, anyway. So, if it was [REDACTED], and  
 4 [REDACTED] and [REDACTED], that's what probably the only  
 5 people that would know about the camera  
 6 situation.  
 7 MR. [REDACTED]: So, from the 8th?  
 8 MR. [REDACTED]: From the 8th. Yes.  
 9 MR. [REDACTED]: And -. Okay. So, from  
 10 looking at this, though, you don't see anything  
 11 wrong with not telling him that, when you're  
 12 talking about your to-do list?  
 13 MR. [REDACTED]: Hmm. He's not in the  
 14 institution. That's, like, yeah.  
 15 MR. [REDACTED]: Okay. So, the camera,  
 16 the camera issue should not have been listed on  
 17 here?  
 18 MR. [REDACTED]: Hmm.  
 19 MR. [REDACTED]: And when we go back --  
 20 MR. [REDACTED]: This is --  
 21 MR. [REDACTED]: -- to [REDACTED], or talk to  
 22 the warden --  
 23 MR. [REDACTED]: -- this is --  
 24 MR. [REDACTED]: -- will they say the same  
 25 thing?

1 MR. [REDACTED]: Mm-hmm.  
 2 MR. [REDACTED]: In retrospect, should  
 3 have you notified [REDACTED] that the camera issues  
 4 weren't working? The cameras weren't  
 5 recording.  
 6 MR. [REDACTED]: The thing about that, if  
 7 you're not in the building, and there is an AW,  
 8 and an SIS told me the cameras are not working,  
 9 like, why should I call you at home to tell you  
 10 the cameras aren't working?  
 11 MR. [REDACTED]: Yeah, yeah.  
 12 MR. [REDACTED]: It's not -. You're not in  
 13 the building.  
 14 MR. [REDACTED]: Okay.  
 15 MR. [REDACTED]: So.  
 16 MR. [REDACTED]: So, is it your  
 17 understanding that, after [REDACTED] left, there was  
 18 no way for you to access that room?  
 19 MR. [REDACTED]: I would have to break  
 20 glass, and write a memo, and all this other  
 21 stuff. So, why I have to stay in the room?  
 22 And it's the evidence room. So, I can't really  
 23 just willy-nilly go in there by myself where I  
 24 shouldn't be, you know?  
 25 MR. [REDACTED]: Okay. And how serious it

1 MR. [REDACTED]: -- this is everything that  
 2 I've closed out over the --  
 3 MR. [REDACTED]: Oh, these are your close  
 4 outs?  
 5 MR. [REDACTED]: -- yeah, this is stuff  
 6 that I've done. Yes.  
 7 MR. [REDACTED]: All right. So --  
 8 MR. [REDACTED]: For the week.  
 9 MR. [REDACTED]: -- and that's why there's  
 10 not much --  
 11 MR. [REDACTED]: (Indiscernible \*01:36:10).  
 12 MR. [REDACTED]: -- there's nothing, other  
 13 than your things.  
 14 MR. [REDACTED]: No.  
 15 MR. [REDACTED]: So, this is the things  
 16 that you've completed?  
 17 MR. [REDACTED]: Completed. Yes.  
 18 MR. [REDACTED]: These aren't things that  
 19 you're working on.  
 20 MR. [REDACTED]: Working on. No.  
 21 MR. [REDACTED]: Okay. And you are sure  
 22 of that?  
 23 MR. [REDACTED]: Yes.  
 24 MR. [REDACTED]: Perfect. All right. Can  
 25 you initial and date that?

1 is if you have to break the glass, to obtain  
 2 those keys?  
 3 MR. [REDACTED]: I just have to write a  
 4 memo and tell the [REDACTED] why I would have  
 5 to stay behind. But I was coming back the next  
 6 day. So, and I was probably working overtime  
 7 all week. And it was just time for me to go.  
 8 MR. [REDACTED]: Okay.  
 9 MR. [REDACTED]: I've been doing some long  
 10 hours.  
 11 MR. [REDACTED]: Okay. So, because you  
 12 had worked the hours, you made it, you made  
 13 that decision based upon your own experience  
 14 that I'm going to work it on the next day, I'm  
 15 not going to fix it today?  
 16 MR. [REDACTED]: Mm-hmm. Yeah.  
 17 MR. [REDACTED]: So, you --  
 18 MR. [REDACTED]: And the past practice of  
 19 just deal with it tomorrow. But I've been told  
 20 by my other supervisors, hey, just deal with it  
 21 tomorrow.  
 22 MR. [REDACTED]: Okay. But you weren't  
 23 told, in this situation --  
 24 MR. [REDACTED]: No.  
 25 MR. [REDACTED]: -- you made that

1 independent decision on your own, though.  
 2 Correct?  
 3 MR. [REDACTED]: Yes. From what I've been  
 4 experienced from before. Yes.  
 5 MR. [REDACTED]: Okay. But you could have  
 6 broken the glass, wrote a memo, and stayed to  
 7 fix it?  
 8 MR. [REDACTED]: Yes.  
 9 MR. [REDACTED]: Okay. And you did not  
 10 ask the captain, and any AWS, or the warden if  
 11 you could come back the following day to fix  
 12 it?  
 13 MR. [REDACTED]: I was already coming back  
 14 for overtime. So.  
 15 MR. [REDACTED]: Right. Point being is to  
 16 notify them, hey, these cameras, the recordings  
 17 are still down?  
 18 MR. [REDACTED]: The recordings were down  
 19 months at a time. I'm sorry. Like --  
 20 MR. [REDACTED]: Whoa, whoa, whoa. Tell  
 21 us more about that.  
 22 MR. [REDACTED]: -- you --  
 23 MR. [REDACTED]: So, there were --  
 24 MR. [REDACTED]: I'm sorry.  
 25 MR. [REDACTED]: -- there were --

1 MR. [REDACTED]: Well then --  
 2 MR. [REDACTED]: This happened before.  
 3 MR. [REDACTED]: -- well then, tell us.  
 4 So, here. Open, open discussion. Tell us  
 5 exactly what was going on with these  
 6 recordings, and when they weren't working.  
 7 MR. [REDACTED]: Well, when I first got to  
 8 the institution, that's why I started a  
 9 project. I would look for video, and they  
 10 would tell me there is a problem, and I'm,  
 11 like, oh, you can't keep running the  
 12 institution like this. If there is no video,  
 13 you have to fix the system. You have to get  
 14 the updates. I've called SigNet about the  
 15 problem. And I informed everybody, hey, this  
 16 is a problem. You can't have a jail where you  
 17 can't find video whenever you need video. Or  
 18 the recorder is always failing.  
 19 I was in (Indiscernible \*01:39:08) for a  
 20 your and a jail. I don't remember, maybe a  
 21 couple times where something - as far as video,  
 22 pulling back video, you would always find a  
 23 video. There was never a time where you  
 24 couldn't find a video. Maybe some cameras  
 25 weren't working, but as far as pulling back

1 MR. [REDACTED]: -- I'm sorry.  
 2 MR. [REDACTED]: -- no, no, no. We need  
 3 to know this stuff. So --  
 4 MR. [REDACTED]: I'm sorry.  
 5 MR. [REDACTED]: -- this is --  
 6 MR. [REDACTED]: Like, this is not, like,  
 7 everybody -. It looks like I'm the fault guy,  
 8 or, like, something isn't working, like, you  
 9 keep asking me the same question. The thing  
 10 about these cameras, these cameras weren't  
 11 working for, like, weeks at a time. Like, this  
 12 hasn't been the first time where these  
 13 recordings weren't working, and nobody checked  
 14 them.  
 15 MR. [REDACTED]: Well, that's what we need  
 16 to know.  
 17 MR. [REDACTED]: Yes.  
 18 MR. [REDACTED]: And we didn't -. So,  
 19 this is the first we're hearing that there was  
 20 weeks at a time that the --  
 21 MR. [REDACTED]: Yes. Of course --  
 22 MR. [REDACTED]: -- recordings weren't  
 23 working.  
 24 MR. [REDACTED]: -- there was weeks at a  
 25 time.

1 video for a jail, there is no time where you  
 2 can't find video. And my experience, when I  
 3 got there, was, like, oh, it's not a big deal,  
 4 it's not a big deal.  
 5 And I'm, like, well, this is a jail, with  
 6 funding and whatever else problems they had.  
 7 Nobody considered anything here a priority or  
 8 an emergency. So, after Epstein, that's when  
 9 it was, like, oh, well, now you've got to stay,  
 10 now you have to do everything. And I've been  
 11 screaming at the hilltop when I got there.  
 12 Like, hey, you have a problem, you've got to  
 13 fix it. That's why I did the money for a  
 14 project, hey, you need to get new recorders in,  
 15 you've got to put the -. You've got to  
 16 upgrades. Like, you haven't done anything at  
 17 all. Like, you have to spend money. Like,  
 18 this stuff is old.  
 19 MR. [REDACTED]: But tell us specifically  
 20 about times where there was weeks at a time  
 21 that the recorders --  
 22 MR. [REDACTED]: Well, not weeks --  
 23 MR. [REDACTED]: -- were down.  
 24 MR. [REDACTED]: -- at a time, but I'm just  
 25 saying, like, if this happened at this time,

1 right, and I replaced the drives the other  
2 time, weren't they looking for video, and  
3 another time they couldn't find video, and I  
4 fixed it, and then, they were, like, oh, well,  
5 everything is fine now. And then, a month  
6 later, or two months later, we have the same  
7 problem again. Oh, can't find video. They  
8 were just concerned about video they could find  
9 for that specific time. They were never  
10 concerned about finding a video for the whole  
11 time.

12 MR. [REDACTED]: Okay. So, it - from what  
13 we have, from our records - it suggests that,  
14 in February, was the last time --

15 MR. [REDACTED]: No.

16 MR. [REDACTED]: -- (Indiscernible  
17 \*01:40:26).

18 MR. [REDACTED]: This happened before.  
19 That's why I --

20 MR. [REDACTED]: This was the last time?

21 MR. [REDACTED]: -- yes.

22 MR. [REDACTED]: Okay. It may --

23 MR. [REDACTED]: The last time.

24 MR. [REDACTED]: -- have happened before  
25 February --

1 what they're saying that, like, you're saying  
2 that it wasn't a priority for them to install a  
3 whole new system, but it did sound like it was  
4 a priority, once the recordings went down --

5 MR. [REDACTED]: Down. Yes.

6 MR. [REDACTED]: -- that they need to be  
7 fixed.

8 MR. [REDACTED]: Fixed. Yeah. They need  
9 to be fixed. Yes.

10 MR. [REDACTED]: Right. So, that's where  
11 I want to make sure we're clarifying, when you  
12 make a statement such as, it would be weeks at  
13 a time that there is no recordings.

14 MR. [REDACTED]: I'm just not, weeks at a  
15 time, but there would be days where there is no  
16 video.

17 MR. [REDACTED]: Okay.

18 MR. [REDACTED]: Like, they always try to  
19 get video, there is no video. This isn't the  
20 first time --

21 MR. [REDACTED]: Right.

22 MR. [REDACTED]: -- this happened.

23 MR. [REDACTED]: And that was what  
24 happened, it looks like, back in February --

25 MR. [REDACTED]: Yes.

1 MR. [REDACTED]: Yeah. Yeah. But there  
2 was more times where it happened before  
3 February. Since I touched down and got to MCC,  
4 New York, this was a problem.

5 MR. [REDACTED]: So, it was a constant  
6 reoccurring problem --

7 MR. [REDACTED]: Yes.

8 MR. [REDACTED]: -- where this was  
9 happening?

10 MR. [REDACTED]: Yes.

11 MR. [REDACTED]: And what have you been  
12 telling them all along was that we need to fix  
13 --

14 MR. [REDACTED]: The problem.

15 MR. [REDACTED]: -- recurring --

16 MR. [REDACTED]: Yes.

17 MR. [REDACTED]: -- problem.

18 MR. [REDACTED]: Yes. So, that's why I had  
19 a brand-new hard drive downstairs. And it  
20 wasn't a priority.

21 MR. [REDACTED]: Right.

22 MR. [REDACTED]: Because you've got other  
23 things to worry about.

24 MR. [REDACTED]: But when the -. And  
25 correct me if I'm wrong, though. I understand

1 MR. [REDACTED]: -- it would have been  
2 about six months before --

3 MR. [REDACTED]: And this happened --

4 MR. [REDACTED]: -- (Indiscernible  
5 \*01:41:23).

6 MR. [REDACTED]: -- before then, and it  
7 happened a couple times before then --

8 MR. [REDACTED]: Right.

9 MR. [REDACTED]: -- because that's when I  
10 started -. Whenever I started working at that  
11 prison, I probably noticed it within the next,  
12 the first three to four months I was there.  
13 Like, hey, what's going on with the recorders?  
14 Why is there no video?

15 MR. [REDACTED]: Right.

16 MR. [REDACTED]: And then, especially when  
17 I had to do the time change, because we had to  
18 do a time change in October, on the year  
19 changes, and I'm, like, why is it taking a  
20 whole day and a half for them, for the  
21 recordings to start rebuild and change the time  
22 on the recordings. It shouldn't take a whole  
23 day to do that.

24 MR. [REDACTED]: And --

25 MR. [REDACTED]: Because you have to stop

1 and start stuff, and it's, like, well, why is  
 2 the system so old? Like, what are you guys  
 3 doing?  
 4 MR. [REDACTED]: And did you already have  
 5 a new system to install at this point?  
 6 MR. [REDACTED]: No, I didn't.  
 7 MR. [REDACTED]: It wasn't on there?  
 8 MR. [REDACTED]: No. I had to submit a  
 9 project. I went with the engineering tech --  
 10 MR. [REDACTED]: No, no, no. Prior to  
 11 August 10th, 2019.  
 12 MR. [REDACTED]: Yeah.  
 13 MR. [REDACTED]: Did you already have a  
 14 new system --  
 15 MR. [REDACTED]: Yes.  
 16 MR. [REDACTED]: -- at that time?  
 17 MR. [REDACTED]: At the time. At the  
 18 location. Yes.  
 19 MR. [REDACTED]: So, you did have a new  
 20 system --  
 21 MR. [REDACTED]: System.  
 22 MR. [REDACTED]: -- you just hadn't  
 23 installed --  
 24 MR. [REDACTED]: Installed it.  
 25 MR. [REDACTED]: -- it yet.

1 MR. [REDACTED]: That's not you?  
 2 MR. [REDACTED]: -- that's not me.  
 3 MR. [REDACTED]: As the camera guy, you  
 4 wouldn't have anything to do with it?  
 5 MR. [REDACTED]: No. That's upper  
 6 management, and SigNet.  
 7 MR. [REDACTED]: So --  
 8 MR. [REDACTED]: Or [REDACTED]. Like, hey,  
 9 when is this thing --? But that's not my call.  
 10 It's here. Like, you know, they have to  
 11 schedule it and work that out.  
 12 MR. [REDACTED]: So, if it's on the  
 13 premises, and you have the new system at the  
 14 MCC, how long was it actually at the MCC prior  
 15 to this time?  
 16 MR. [REDACTED]: It was a few months.  
 17 MR. [REDACTED]: So, the new system --  
 18 MR. [REDACTED]: Yes.  
 19 MR. [REDACTED]: -- probably was ordered  
 20 after the February timeframe.  
 21 MR. [REDACTED]: No. It was ordered way  
 22 before then.  
 23 MR. [REDACTED]: So, maybe --  
 24 MR. [REDACTED]: It was ordered because it  
 25 was -. This happened in 2019. The new system

1 MR. [REDACTED]: Yes.  
 2 MR. [REDACTED]: And why didn't you  
 3 install it, prior?  
 4 MR. [REDACTED]: Because it wasn't a  
 5 priority. Like I said before.  
 6 MR. [REDACTED]: Okay. But your priority,  
 7 or whose priority?  
 8 MR. [REDACTED]: Whoever - SigNet - or  
 9 whoever is on the list for them to install the  
 10 new, our recorders.  
 11 MR. [REDACTED]: Okay. So, you don't --  
 12 MR. [REDACTED]: They have a list.  
 13 MR. [REDACTED]: -- install it?  
 14 MR. [REDACTED]: No. I do not install it.  
 15 I help the --  
 16 MR. [REDACTED]: SigNet would have --  
 17 MR. [REDACTED]: -- technician who will  
 18 come and install it. Yes.  
 19 MR. [REDACTED]: -- and when was SigNet  
 20 scheduled to install this?  
 21 MR. [REDACTED]: I have no idea.  
 22 MR. [REDACTED]: Whose job would it be to  
 23 call SigNet and to schedule them to install the  
 24 new recorders?  
 25 MR. [REDACTED]: That's not my --

1 was here, and the money from 2018.  
 2 MR. [REDACTED]: So, you've had this new  
 3 camera system on hand for almost a year, if not  
 4 --  
 5 MR. [REDACTED]: Not a year, but a few  
 6 months. Yeah. We had --  
 7 MR. [REDACTED]: So, a few months.  
 8 MR. [REDACTED]: -- it for a few months.  
 9 Yeah.  
 10 MR. [REDACTED]: And it obviously can't be  
 11 SigNet's decision --  
 12 MR. [REDACTED]: Decision.  
 13 MR. [REDACTED]: -- to put it in.  
 14 MR. [REDACTED]: It's --  
 15 MR. [REDACTED]: Is it?  
 16 MR. [REDACTED]: -- no, it's not SigNet's.  
 17 The facility. Who is in charge of the  
 18 facility?  
 19 MR. [REDACTED]: So, who is the person  
 20 that was in charge of getting that new camera  
 21 system installed?  
 22 MR. [REDACTED]: Whoever was in charge.  
 23 MR. [REDACTED]: Who?  
 24 MR. [REDACTED]: That would be the facility  
 25 manager. Whoever was --

1 MR. [REDACTED]: So, [REDACTED]?  
 2 MR. [REDACTED]: -- well, he just got  
 3 there. We were at limbo. There was nobody in  
 4 charge.  
 5 MR. [REDACTED]: So, there was no one to  
 6 actually schedule this thing to get --  
 7 MR. [REDACTED]: Installed. Yeah.  
 8 MR. [REDACTED]: -- and --  
 9 MR. [REDACTED]: Nobody to take charge and  
 10 say, hey, I can't call Signet, hey, I need you  
 11 to come -. I'm -. What am I?  
 12 MR. [REDACTED]: Who knew that the new  
 13 camera system was there?  
 14 MR. [REDACTED]: I did. I think I did, and  
 15 that was probably about it. Because --  
 16 MR. [REDACTED]: Okay. Was that anyone's  
 17 --  
 18 MR. [REDACTED]: -- it was too much -.  
 19 Like, at the time, we didn't have a general  
 20 foreman or a facility manager. There was  
 21 nobody that really -. We started a project.  
 22 It was just, like, a whole big mess of  
 23 confusion.  
 24 MR. [REDACTED]: All right.  
 25 MR. [REDACTED]: There was really nobody --

1 implemented.  
 2 MR. [REDACTED]: So, I know you said,  
 3 like, oh, it looks like you're saying, well,  
 4 you know, I'm the fall guy. Well, I'm asking  
 5 you, who is? Who is the guy that should have  
 6 made sure that that was fixed?  
 7 MR. [REDACTED]: I'm just the maintainer of  
 8 the system.  
 9 MR. [REDACTED]: Right, right, right.  
 10 MR. [REDACTED]: I'm not the installer of  
 11 the system.  
 12 MR. [REDACTED]: And I'm not saying that  
 13 you are the guy.  
 14 MR. [REDACTED]: Yeah.  
 15 MR. [REDACTED]: I'm asking you the  
 16 question.  
 17 MR. [REDACTED]: I helped install --  
 18 MR. [REDACTED]: Who -?  
 19 MR. [REDACTED]: -- the system.  
 20 MR. [REDACTED]: So -.  
 21 MR. [REDACTED]: I maintained the system.  
 22 I fixed the problem when you tell me, hey,  
 23 [REDACTED], there is a problem. I go check it out.  
 24 I call SigNet. And we work on the issue.  
 25 MR. [REDACTED]: And -.

1 MR. [REDACTED]: Because (Indiscernible  
 2 \*01:44:12).  
 3 MR. [REDACTED]: -- to say, hey, this is,  
 4 you know -.  
 5 MR. [REDACTED]: So, you always say that  
 6 the cameras are the captain's baby. Would it  
 7 have been the captain that should have taken  
 8 responsibility for that, to say, like, hey, get  
 9 these --  
 10 MR. [REDACTED]: These cameras --  
 11 MR. [REDACTED]: -- these new cameras -?  
 12 MR. [REDACTED]: -- you got the new  
 13 recorders, hey, get them in. Yeah. But -.  
 14 Yeah.  
 15 MR. [REDACTED]: Because you keep on  
 16 saying, hey, this has been an ongoing problem.  
 17 Well, it looks like the problem - the solution  
 18 was there.  
 19 MR. [REDACTED]: Yes. But nobody --  
 20 MR. [REDACTED]: But there was never  
 21 actually --  
 22 MR. [REDACTED]: -- (Indiscernible  
 23 \*01:44:33).  
 24 MR. [REDACTED]: -- implemented.  
 25 MR. [REDACTED]: No. It was never

1 MR. [REDACTED]: That's it. That's all I  
 2 do.  
 3 MR. [REDACTED]: And I'm asking questions.  
 4 I'm not making accusations.  
 5 MR. [REDACTED]: Accusations.  
 6 MR. [REDACTED]: Not once did I say you're  
 7 responsible --  
 8 MR. [REDACTED]: You're responsible.  
 9 MR. [REDACTED]: -- what I'm asking is,  
 10 who is responsible?  
 11 MR. [REDACTED]: It would be probably be  
 12 the facility manager, or the general foreman,  
 13 or -,  
 14 MR. [REDACTED]: And because there was no  
 15 one there --  
 16 MR. [REDACTED]: Yeah.  
 17 MR. [REDACTED]: -- who, then, would  
 18 become responsible?  
 19 MR. [REDACTED]: Well, then it would be the  
 20 AW. Whoever is in charge.  
 21 MR. [REDACTED]: And who was the AW in  
 22 charge at that time?  
 23 MR. [REDACTED]: [REDACTED], probably.  
 24 MR. [REDACTED]: So, it would be [REDACTED], not  
 25 [REDACTED]?

1 MR. [REDACTED]: Oh. Oh. She was -. Oh,  
 2 yeah. [REDACTED] was there, too. Yeah.  
 3 MR. [REDACTED]: So, one of the two?  
 4 MR. [REDACTED]: One of the two. Oh, well,  
 5 [REDACTED], and [REDACTED] was. Before them, it was [REDACTED]  
 6 (Phonetic Sp. \*01:45:34), because I remember, I  
 7 had to talk to him about this whole camera  
 8 thing.  
 9 MR. [REDACTED]: And who is [REDACTED]?  
 10 MR. [REDACTED]: He was another AW, before  
 11 [REDACTED] took over. This is, like, before  
 12 all this got started, it was -. Back  
 13 (Indiscernible \*01:45:44) manager and [REDACTED],  
 14 when I was telling them, hey, you need to  
 15 upgrade your camera system.  
 16 MR. [REDACTED]: Okay. All right. And  
 17 there was nothing on -. Nothing scheduled to  
 18 actually get the new system installed?  
 19 MR. [REDACTED]: No. And from what I know,  
 20 we weren't on the list to get anything  
 21 installed.  
 22 MR. [REDACTED]: And the reason why you  
 23 were able to install it, you said on the 11th?  
 24 MR. [REDACTED]: It's because of whatever  
 25 happened with Epstein.

1 MR. [REDACTED]: -- with you?  
 2 MR. [REDACTED]: Yeah. Well, I put the  
 3 rack in, and helped him. Well, he pretty much  
 4 did everything. But get the rack and the UPS  
 5 in.  
 6 MR. [REDACTED]: All right. And who  
 7 contacted [REDACTED] to make sure he came  
 8 down?  
 9 MR. [REDACTED]: I was on the phone with  
 10 SigNet after all this happened. I was on the  
 11 phone the whole time with SigNet.  
 12 MR. [REDACTED]: So, who made the ultimate  
 13 decision to, hey, it's time now to get this new  
 14 system installed?  
 15 MR. [REDACTED]: Probably [REDACTED], when he  
 16 got a hold of what was going on.  
 17 MR. [REDACTED]: Okay. So, [REDACTED] would  
 18 have --  
 19 MR. [REDACTED]: Yeah.  
 20 MR. [REDACTED]: -- been able to make that  
 21 decision?  
 22 MR. [REDACTED]: Make that decision. Or  
 23 maybe when I was -. Because I think I, when I  
 24 was on the phone with [REDACTED], that they were,  
 25 like, well, we got to get out there right away,

1 MR. [REDACTED]: So, Epstein happened.  
 2 You had this --  
 3 MR. [REDACTED]: Everything (Indiscernible  
 4 \*01:46:06)  
 5 MR. [REDACTED]: -- new system already  
 6 there.  
 7 MR. [REDACTED]: Yes.  
 8 MR. [REDACTED]: So, on the 11th, you were  
 9 able to immediately --  
 10 MR. [REDACTED]: Immediately.  
 11 MR. [REDACTED]: -- install it.  
 12 MR. [REDACTED]: Install it no problem.  
 13 MR. [REDACTED]: So then, the day after --  
 14 MR. [REDACTED]: (Indiscernible \*01:46:11).  
 15 MR. [REDACTED]: -- Epstein's found, there  
 16 is a new camera system there?  
 17 MR. [REDACTED]: There is a new camera  
 18 there.  
 19 MR. [REDACTED]: Who installed it?  
 20 MR. [REDACTED]: It was [REDACTED] and  
 21 myself.  
 22 MR. [REDACTED]: So, he flew in?  
 23 MR. [REDACTED]: Yes.  
 24 MR. [REDACTED]: And installed it --  
 25 MR. [REDACTED]: With me.

1 because whatever is going on.  
 2 MR. [REDACTED]: Now, was [REDACTED], was he,  
 3 did he have knowledge that this camera system  
 4 was old and needed to be replaced?  
 5 MR. [REDACTED]: Yes.  
 6 MR. [REDACTED]: So, should have he had  
 7 the -. He should have made this a priority, to  
 8 make sure that the new camera system was put in  
 9 place, since he had been there for, I think, a  
 10 few months?  
 11 MR. [REDACTED]: Well, we already started  
 12 the project. I don't think anybody knew the  
 13 gravity of the recorders at the time. Like, if  
 14 I knew how important the recording was.  
 15 Everybody else, they were just, like, oh, it's  
 16 just, it's broken again. And I'm, like, well,  
 17 you know, it's not just broken again, it  
 18 shouldn't be broken at all.  
 19 MR. [REDACTED]: Okay. And then, did you  
 20 tell people that?  
 21 MR. [REDACTED]: Yes.  
 22 MR. [REDACTED]: And who did you tell  
 23 that?  
 24 MR. [REDACTED]: I've talked to my co-  
 25 workers, and I've talked to my facility manager

1 about the problem. And I even talked to the  
2 regional com tech, because we have a regional  
3 guy in charge of the cameras, and that work  
4 stuff, like, like, this stuff is unacceptable.  
5 Like, when I came and, like, the way the  
6 building was laid out, and some of the wiring  
7 issues in the building, this was just not  
8 acceptable.

9 MR. [REDACTED]: Okay. But [REDACTED] knew,  
10 prior to August 10th, how important this was to  
11 get this new camera system in?

12 MR. [REDACTED]: It was. That's why we  
13 started the project. Yeah.

14 MR. [REDACTED]: And when you say you  
15 started the project, what did you start on the  
16 project?

17 MR. [REDACTED]: Trying to figure out how  
18 we were going to upgrade, like, because not  
19 only did the recorder was bad, it was also the  
20 housing units, there was only one camera in the  
21 housing unit. So, if anything was to happen on  
22 the housing unit, you would see no video.

23 MR. [REDACTED]: Okay.

24 MR. [REDACTED]: It would just be a blanket  
25 camera footage of the common area. There would

1 was, if it was on back order, it probably  
2 arrived some time in, what, '19 versus '18?

3 MR. [REDACTED]: I am not too sure when it  
4 arrived.

5 [REDACTED]: Okay.

6 MR. [REDACTED]: So, because --

7 MR. [REDACTED]: Can I ask a question?

8 MR. [REDACTED]: -- yeah. Go ahead.

9 Please.

10 MR. [REDACTED]: Mr. [REDACTED], based on your  
11 understanding, how important is it that the  
12 cameras are recording on a day to day basis?

13 MR. [REDACTED]: It's very important. And  
14 it should be checked on a day to day basis.  
15 And the way, at my last institution, that I was  
16 aware that anything wasn't working, was I would  
17 actually get a report from SIS, this camera is  
18 bad, that camera is out. This camera is not  
19 working. Now, after Epstein happened, they  
20 wanted to task me with that job. I refused  
21 because I can't be the same person cooking the  
22 food, telling you that the cameras are bad, or  
23 the food is good. So then, it became up to  
24 somebody else to check the cameras. Daily.  
25 Now, they check it every day. There is a

1 be no additional video.

2 [REDACTED]: And you said the new system  
3 was purchased with year-ends '18 --

4 MR. [REDACTED]: Mm-hmm.

5 [REDACTED]: -- money?

6 MR. [REDACTED]: Yeah.

7 [REDACTED]: So then, how long was this  
8 system sitting around? You said a couple  
9 months, but that's more than a (Indiscernible  
10 \*01:48:37).

11 MR. [REDACTED]: A few. It's a few months.  
12 I'm not too sure when everything got ordered,  
13 or when it was sitting around. Because even if  
14 we ordered it, I think everything was on back  
15 order. That's why it didn't come right away,  
16 the recorder.

17 [REDACTED]: Oh, okay.

18 MR. [REDACTED]: The recorder.

19 [REDACTED]: Okay.

20 MR. [REDACTED]: Yeah.

21 [REDACTED]: But it was post that February  
22 date?

23 MR. [REDACTED]: Before the -. I'm sorry.  
24 Can you repeat that, please?

25 [REDACTED]: Yeah. So, I mean, it was, it

1 report that's sent up. But before Epstein,  
2 there was never a daily report of the cameras  
3 are recording, or we have an issue. There was  
4 never anything set up at MCC, as far as that  
5 goes.

6 MR. [REDACTED]: So, you think before  
7 Epstein had happened, no one had a day to day  
8 responsibility to make sure the cameras were  
9 working?

10 MR. [REDACTED]: No.

11 MR. [REDACTED]: Who would have been the  
12 next - if no one had the day to day  
13 responsibility - who could have checked?

14 MR. [REDACTED]: That would have been SIS's  
15 responsibility, because my --

16 MR. [REDACTED]: Okay.

17 MR. [REDACTED]: -- my previous jail, SIS  
18 would be the one telling me, hey, [REDACTED], there  
19 is a camera out, or there is other issues,  
20 because I don't just work on cameras. I work  
21 on all the communications in the building. So,  
22 cameras are, yes, that is, like, one my main  
23 things, but if there is other issues in the  
24 building, like, I can't just focus on cameras.  
25 And at the time, I was by myself. I was the

1 only electronics technician in the building for  
 2 a while.  
 3 [REDACTED]: What other types of things do  
 4 you do? I know you fix the (Indiscernible  
 5 \*01:50:45).  
 6 MR. [REDACTED]: Fire alarm. Cameras.  
 7 Radios. And I install the network. Like, if  
 8 you need a cat five (Phonetic Sp. \*01:50:50)  
 9 cable, or anything communication lines --  
 10 [REDACTED]: Mm-hmm.  
 11 MR. [REDACTED]: -- in the building. The  
 12 fire alarm for the building. The doors.  
 13 MR. [REDACTED]: All right. I'm just  
 14 going to --  
 15 [REDACTED]: I'll get [REDACTED] back on again.  
 16 MR. [REDACTED]: -- oh, he dropped again?  
 17 [REDACTED]: Looks like he dropped. Yeah.  
 18 MR. [REDACTED]: Hey. Hey. Can you hear  
 19 me?  
 20 [REDACTED]: Yeah.  
 21 MR. [REDACTED]: Yeah.  
 22 MR. [REDACTED]: Hey. I apologize. A call  
 23 reception is going in and out. I apologize for  
 24 that.  
 25 MR. [REDACTED]: Okay.

1 MR. [REDACTED]: I did. Before I got the  
 2 money approved for the new camera system, I got  
 3 together with the engineering tech, and I wrote  
 4 -. I also, I wrote a work order over \$10,000,  
 5 because the camera system as an asset is worth  
 6 over \$10,000. To get that fixed. Because I  
 7 had that problem, I had also the fire alarm  
 8 was, I had a problem with that. I had a proble  
 9 with that. I had a problem with the voicemail  
 10 system. Everything. When I got to the  
 11 building, everything was just at a pretty bad  
 12 state. That wasn't the only thing that was  
 13 looked over as, like, oh, we need to get this  
 14 fixed. The whole building was, as far as  
 15 communication wise, it was pretty bad.  
 16 MR. [REDACTED]: Yeah. But the question I  
 17 had was, did you write any reports or --  
 18 MR. [REDACTED]: I -.  
 19 MR. [REDACTED]: -- any emails to upper  
 20 management --  
 21 MR. [REDACTED]: Yes.  
 22 MR. [REDACTED]: -- saying, hey, listen -?  
 23 MR. [REDACTED]: Yes.  
 24 MR. [REDACTED]: Okay. Do you recall who  
 25 you sent it to?

1 MR. [REDACTED]: Based on the question I  
 2 was asking, if, you said there was a few  
 3 instances where the cameras went down, it  
 4 wasn't working for a few days.  
 5 MR. [REDACTED]: Yes.  
 6 MR. [REDACTED]: How bad do you think that  
 7 (Indiscernible \*01:51:45) is, where the camera  
 8 is not recording for a few days?  
 9 MR. [REDACTED]: I think it's pretty bad  
 10 when you're in a prison, and, you know, like,  
 11 in my experience, because I was custody  
 12 (Indiscernible \*01:51:52) before, like, there  
 13 has been assaults on inmate on inmate, among  
 14 our staff, or somebody possibly bringing  
 15 contraband in the building. And you have no  
 16 recording to see what was going on. Then you  
 17 have pretty bad video at that, that it was a  
 18 priority.  
 19 MR. [REDACTED]: Okay.  
 20 MR. [REDACTED]: Yeah. All that stuff  
 21 should be fixed.  
 22 MR. [REDACTED]: And based on those  
 23 instances, did you ever write up any reports --  
 24 MR. [REDACTED]: Yes, I did.  
 25 MR. [REDACTED]: -- did you send it to -?

1 MR. [REDACTED]: I would have sent it to  
 2 [REDACTED], and he was my first facility  
 3 manager.  
 4 MR. [REDACTED]: [REDACTED]?  
 5 MR. [REDACTED]: [REDACTED].  
 6 MR. [REDACTED]: Can you spell that last  
 7 name?  
 8 MR. [REDACTED]: [REDACTED]. [REDACTED]. I don't  
 9 know.  
 10 MR. [REDACTED]: Is it [REDACTED] --  
 11 MR. [REDACTED]: [REDACTED].  
 12 MR. [REDACTED]: -- or [REDACTED]?  
 13 MR. [REDACTED]: [REDACTED].  
 14 MR. [REDACTED]: So, it would be [REDACTED]  
 15 MR. [REDACTED]: No. He spells it weird.  
 16 [REDACTED]. Oh, [REDACTED]  
 17 MR. [REDACTED]: All right. So, can that  
 18 be the fourth request, then? So, we talked  
 19 about the emails between SigNet --  
 20 MR. [REDACTED]: And then, my --  
 21 MR. [REDACTED]: -- (Indiscernible  
 22 \*01:53:53), but also --  
 23 MR. [REDACTED]: -- and then, [REDACTED]  
 24 [REDACTED]. He's the engineering tech. He's the  
 25 one that actually wrote up the report to get

1 sent to the regional office, as far as the  
 2 money for the camera project.  
 3 MR. [REDACTED]: All right. So, those  
 4 emails. And any other emails --  
 5 MR. [REDACTED]: And then --  
 6 MR. [REDACTED]: -- you can find.  
 7 MR. [REDACTED]: -- [REDACTED] He was  
 8 also the general foreman when this happened,  
 9 too.  
 10 MR. [REDACTED]: All right. So, can you,  
 11 at least those three people, as well as anybody  
 12 else.  
 13 MR. [REDACTED]: Mm-hmm.  
 14 MR. [REDACTED]: So, all the emails from  
 15 SigNet, and any, really, emails with regard to  
 16 --  
 17 MR. [REDACTED]: Okay.  
 18 MR. [REDACTED]: -- the cameras issue --  
 19 MR. [REDACTED]: Camera issue,  
 20 MR. [REDACTED]: -- that you can provide  
 21 to us. That would be greatly beneficial for  
 22 us, that we know who was notified, when --  
 23 MR. [REDACTED]: Mm-hmm.  
 24 MR. [REDACTED]: -- who, you know --  
 25 MR. [REDACTED]: That's fine.

1 this, and I want you to tell me if it's  
 2 accurate or not.  
 3 MR. [REDACTED]: Okay.  
 4 MR. [REDACTED]: So, it says, "Per [REDACTED]  
 5 [REDACTED] from SigNet," regarding, this is still  
 6 regarding a system failure, "this looks to be  
 7 an error coming from the video management  
 8 server.  
 9 MR. [REDACTED]: Mm-hmm.  
 10 MR. [REDACTED]: There is an application  
 11 within the video management system software  
 12 called Supervision. This application monitors  
 13 connection between the main application server,  
 14 which manages authentication --  
 15 MR. [REDACTED]: Authentication.  
 16 MR. [REDACTED]: -- for users to access  
 17 live recorded video, and an ability to export  
 18 video, along with many other customizable  
 19 features. And system devices, such as DVRs,  
 20 cameras, video encoders, or video decoders. If  
 21 this is the case, then this would have been the  
 22 message from the Supervision application,  
 23 showing that there was a lost connection to  
 24 DVR-2."  
 25 MR. [REDACTED]: DVR-2. Right.

1 MR. [REDACTED]: -- what actions should  
 2 have been taken, and when they should have been  
 3 taken.  
 4 MR. [REDACTED]: Mm-hmm.  
 5 MR. [REDACTED]: I just want to real  
 6 quickly follow up on these things, to make sure  
 7 what we have is accurate. Specifically, with  
 8 regard to the FBI report that said, "There was  
 9 a system failure of DVR-2 on July 29th, 2019,  
 10 and a motherboard failed on DVR-2 on August  
 11 8th, 2019. The hard drive failure occurred on  
 12 August 10th, 2019." Again, is that information  
 13 that you provided to them, or did they obtain  
 14 that themselves?  
 15 MR. [REDACTED]: I think they obtained that  
 16 themselves. They would have --  
 17 MR. [REDACTED]: All right. And do you  
 18 know --  
 19 MR. [REDACTED]: -- the exact dates.  
 20 MR. [REDACTED]: -- do you know the  
 21 difference between, like, a system failure, a  
 22 motherboard failure, and a hard drive failure?  
 23 MR. [REDACTED]: Yes.  
 24 MR. [REDACTED]: All right. So, I'm going  
 25 to read you what we have obtained regarding

1 MR. [REDACTED]: Does that sound accurate  
 2 to you?  
 3 MR. [REDACTED]: Yes. It's -. Yeah.  
 4 MR. [REDACTED]: So, they would have  
 5 obtained this information, it sounds like, from  
 6 that application, Supervision?  
 7 MR. [REDACTED]: Yes.  
 8 MR. [REDACTED]: Okay. But you didn't  
 9 check that. Correct?  
 10 MR. [REDACTED]: No.  
 11 MR. [REDACTED]: All right. So, do you  
 12 know what caused that system failure on July --  
 13 MR. [REDACTED]: No. I have --  
 14 MR. [REDACTED]: -- 29th?  
 15 MR. [REDACTED]: -- I have -. No.  
 16 MR. [REDACTED]: But you said you were  
 17 working on the mother -. Or you were --  
 18 MR. [REDACTED]: Yeah.  
 19 MR. [REDACTED]: -- you were working on  
 20 the system right around that time?  
 21 MR. [REDACTED]: Yes.  
 22 MR. [REDACTED]: All right. So, likely,  
 23 it was whenever you were working on the system  
 24 around July 29th, 2019, that caused the DVR,  
 25 the recorders to stop recording?

1 MR. [REDACTED]: No. I checked everything  
 2 before I -.  
 3 MR. [REDACTED]: Well, we just talked  
 4 about previously, is that you checked  
 5 everything when you were working on it, for the  
 6 time prior --  
 7 MR. [REDACTED]: Prior to me --  
 8 MR. [REDACTED]: -- to when you worked on  
 9 it.  
 10 MR. [REDACTED]: -- to me working on it.  
 11 Yeah.  
 12 MR. [REDACTED]: So, likely, that's when  
 13 the --  
 14 MR. [REDACTED]: When the --  
 15 MR. [REDACTED]: -- recorders stopped?  
 16 MR. [REDACTED]: -- yeah.  
 17 MR. [REDACTED]: Okay. So, whatever,  
 18 whatever work you were doing on it, likely  
 19 stopped the recordings, but no one presented  
 20 the issue to you until August 8th, 2019?  
 21 MR. [REDACTED]: Yeah, but I always check  
 22 everything after I'm done. That's very strange  
 23 that I --  
 24 MR. [REDACTED]: Well, again, we think you  
 25 checked it, but it looks like, it sounds like

1 MR. [REDACTED]: I'm pretty sure I checked.  
 2 I'm more than definite. After I fixed it, I  
 3 would have checked to make sure it was working.  
 4 MR. [REDACTED]: Because the information  
 5 we have is that there is no video from July  
 6 29th --  
 7 MR. [REDACTED]: 29th.  
 8 MR. [REDACTED]: -- on.  
 9 MR. [REDACTED]: On. Yes.  
 10 MR. [REDACTED]: So -.  
 11 MR. [REDACTED]: And that's the last time I  
 12 worked on it. That's what it says, right?  
 13 MR. [REDACTED]: No, it doesn't. It just  
 14 says that there was a system failure of DVR-2  
 15 on July 29th, 2019.  
 16 MR. [REDACTED]: Yeah.  
 17 MR. [REDACTED]: And just from talking  
 18 with you, it sounded like you knew that there  
 19 was a system failure, prior to that time, and  
 20 that's when you worked on it, and thought you  
 21 resolved the issue.  
 22 MR. [REDACTED]: I probably -. Hmm. Can  
 23 you - I'm sorry - can you repeat that one more  
 24 time for me?  
 25 MR. [REDACTED]: We spoke an hour or so

1 you checked it for the time --  
 2 MR. [REDACTED]: Yeah.  
 3 MR. [REDACTED]: -- period prior to when  
 4 you fixed, you thought you fixed it.  
 5 MR. [REDACTED]: I fixed it. Yeah.  
 6 MR. [REDACTED]: So -.  
 7 MR. [REDACTED]: But that doesn't sound  
 8 like me. I'm sorry. Just how I am --  
 9 MR. [REDACTED]: Well, no, no, no, this is  
 10 what you told us.  
 11 MR. [REDACTED]: -- yeah.  
 12 MR. [REDACTED]: So --  
 13 MR. [REDACTED]: Yes, yes. But I would  
 14 have checked to make sure, like, a couple days  
 15 later, okay, it's still working. Or --  
 16 MR. [REDACTED]: And do you recall  
 17 (Indiscernible \*01:57:17).  
 18 MR. [REDACTED]: -- because I'm pretty sure  
 19 I looked at the Nice Vision, and the Nice  
 20 Vision looked like it was fine. But there  
 21 could have been another problem. But I don't  
 22 pull video. Like, I don't go back to pull  
 23 video for, I told you, I don't.  
 24 MR. [REDACTED]: So, you just don't recall  
 25 if you ever went back and checked?

1 ago --  
 2 MR. [REDACTED]: Uh-huh.  
 3 MR. [REDACTED]: -- about how, prior to  
 4 this issue, you knew about a system failure --  
 5 MR. [REDACTED]: Failure.  
 6 MR. [REDACTED]: -- and you went in and  
 7 you fixed --  
 8 MR. [REDACTED]: Fixed the issue --  
 9 MR. [REDACTED]: -- the issue --  
 10 MR. [REDACTED]: -- yeah.  
 11 MR. [REDACTED]: -- or you thought --  
 12 MR. [REDACTED]: That I fixed the issue.  
 13 MR. [REDACTED]: -- you fixed the issue.  
 14 MR. [REDACTED]: Okay.  
 15 MR. [REDACTED]: So, what this is saying,  
 16 that there was a system failure on July 29th,  
 17 2019. And the information that we have is,  
 18 there was no --  
 19 MR. [REDACTED]: Follow ups.  
 20 MR. [REDACTED]: -- recordings --  
 21 MR. [REDACTED]: For after that.  
 22 MR. [REDACTED]: -- from the 29th --  
 23 MR. [REDACTED]: Yeah.  
 24 MR. [REDACTED]: -- so, the 29th on.  
 25 MR. [REDACTED]: On. Yes.

1 MR. [REDACTED]: So, it sounds like you  
 2 thought you fixed the issue --  
 3 MR. [REDACTED]: The issue --  
 4 MR. [REDACTED]: -- but you actually  
 5 didn't.  
 6 MR. [REDACTED]: -- didn't. Yeah.  
 7 MR. [REDACTED]: So, does that sound  
 8 right?  
 9 MR. [REDACTED]: That sounds right. Yes.  
 10 MR. [REDACTED]: Okay. And you don't know  
 11 -. Did you know - and I can't recall, at this  
 12 point - what would have caused it? You said it  
 13 was of old age? Because it says, "Per [REDACTED]  
 14 [REDACTED], the situation could have been caused  
 15 by a power outage, or improper shut down of the  
 16 DVR."  
 17 MR. [REDACTED]: I have no reason to shut  
 18 it down, and it had an UPS on it. So.  
 19 MR. [REDACTED]: So, you don't think  
 20 either it would have been a power outage, or  
 21 improper shut down?  
 22 MR. [REDACTED]: I think the way  
 23 everything, the old system was wired up, it  
 24 probably wasn't wired up correctly. I would  
 25 have to say that he is probably right about

1 reason why you found this out is he went into  
 2 the application, Supervision.  
 3 MR. [REDACTED]: Yeah. I know. Okay. I'm  
 4 going to read that now. And July 29th, that  
 5 would have been -. Because we do do our  
 6 generator test monthly, but I don't know if it  
 7 was the 29th of July.  
 8 MR. [REDACTED]: Mm-hmm. I'll add that as  
 9 the fifth request, find, provide any  
 10 information with regard to the system failure  
 11 issue.  
 12 MR. [REDACTED]: That's - no, the time --  
 13 MR. [REDACTED]: (Indiscernible  
 14 \*02:00:23).  
 15 MR. [REDACTED]: -- do they know what time,  
 16 or they just have the thing?  
 17 MR. [REDACTED]: No. It just says July  
 18 29th.  
 19 MR. [REDACTED]: Yeah.  
 20 MR. [REDACTED]: All right. And do you  
 21 know when - the system failure - do you know  
 22 when you found out about that, and how?  
 23 MR. [REDACTED]: Hmm. As far as what now?  
 24 MR. [REDACTED]: The system failure was  
 25 the July 29th issue, not August 9th, or 8th,

1 there being a power issue.  
 2 MR. [REDACTED]: There would be a what?  
 3 MR. [REDACTED]: A power issue.  
 4 MR. [REDACTED]: So, even though you're  
 5 saying that there was some kind of serge  
 6 protector type of thing on there -?  
 7 MR. [REDACTED]: There is a UPS on it. But  
 8 I don't think everything was maintained the way  
 9 it should have been maintained.  
 10 MR. [REDACTED]: So, you think it was  
 11 likely caused by a power, some kind of power  
 12 outage?  
 13 MR. [REDACTED]: If it was a power outage,  
 14 that would explain what the problem is.  
 15 MR. [REDACTED]: But you don't know  
 16 anything about it, there a power outage?  
 17 MR. [REDACTED]: No. I didn't know  
 18 anything about power outages.  
 19 MR. [REDACTED]: And you don't -. Do you  
 20 remember ever shutting down the DVR system,  
 21 prior, when you were working on it?  
 22 MR. [REDACTED]: Hmm. No. Can you find  
 23 out if there was a generator test on the 20 -.  
 24 When was -? You said the 29th of July, right?  
 25 MR. [REDACTED]: Well, it looks like the

1 9th, or 10th.  
 2 MR. [REDACTED]: Oh. Not until you guys  
 3 told me there was a system failure. The only  
 4 thing I knew about was the, oh, that was the --  
 5 MR. [REDACTED]: This is the thing you  
 6 said you worked on.  
 7 MR. [REDACTED]: -- oh. The AMS. I had to  
 8 restart the AMS. Yeah. That was --  
 9 MR. [REDACTED]: So, you did restart it?  
 10 MR. [REDACTED]: -- yeah.  
 11 MR. [REDACTED]: So, you did shut it down?  
 12 MR. [REDACTED]: Yeah. I shut it down and  
 13 restart it. That simple.  
 14 MR. [REDACTED]: So, when it says that it  
 15 could have been caused by an improper --  
 16 MR. [REDACTED]: Shut down.  
 17 MR. [REDACTED]: -- shut down.  
 18 MR. [REDACTED]: Yes.  
 19 MR. [REDACTED]: Could have that been it,  
 20 too?  
 21 MR. [REDACTED]: No. Once you restart it,  
 22 it's, like, it's a pretty small thing, like,  
 23 restarting the AMS doesn't mess anything up,  
 24 really.  
 25 MR. [REDACTED]: Okay. All right. But

1 you did restart it?  
 2 MR. [REDACTED]: Yeah. After the shut  
 3 down.  
 4 MR. [REDACTED]: So, technically, it is a  
 5 possibility, then, because it says you --  
 6 MR. [REDACTED]: No.  
 7 MR. [REDACTED]: -- no?  
 8 MR. [REDACTED]: No.  
 9 MR. [REDACTED]: You don't think that --  
 10 MR. [REDACTED]: Hey, once you do the AMS,  
 11 that's just the communication thing, like, if -  
 12 . And not everything is talking, that's when  
 13 everything would start working.  
 14 MR. [REDACTED]: Okay. And you said you  
 15 never would access Supervision.  
 16 MR. [REDACTED]: Mm-hmm.  
 17 MR. [REDACTED]: We talked about all of  
 18 this. So, it says, this is now issues, "The  
 19 motherboard failed on DVR-2. Per [REDACTED]  
 20 [REDACTED], in the case of a motherboard failure,  
 21 this would cause the operating system, such as  
 22 Windows, to shut down or fail. When this  
 23 happens, it would stop recording to the hard  
 24 drive, because the recorder software requires  
 25 Windows Operating System to be operational, to

1 up. Or failure power. Or something. But it  
 2 was the motherboard. Because I do remember  
 3 doing that.  
 4 MR. [REDACTED]: All right. And do you  
 5 know if this would have been caused by a power  
 6 outage or an improper shut down, or anything?  
 7 MR. [REDACTED]: Hmm. No.  
 8 MR. [REDACTED]: No.  
 9 MR. [REDACTED]: Huh-uh.  
 10 MR. [REDACTED]: Now, this is just  
 11 something I'm thinking out loud. Being that  
 12 you told us that you fixed this issue on the  
 13 29th, but you also pulled the drives on the  
 14 10th, is what it would have deleted at that  
 15 point, back to the 29th, when you had last  
 16 worked on the system?  
 17 MR. [REDACTED]: Hmm.  
 18 MR. [REDACTED]: Do you follow what I'm  
 19 asking?  
 20 MR. [REDACTED]: I -.  
 21 MR. [REDACTED]: Or it just deleted  
 22 everything?  
 23 MR. [REDACTED]: I -. I don't -. I mean,  
 24 I don't know.  
 25 MR. [REDACTED]: Because you said that,

1 record data to the hard drives."  
 2 MR. [REDACTED]: Mm-hmm.  
 3 MR. [REDACTED]: "Also, when the  
 4 motherboard fails, the network connectivity is  
 5 lost because the network card is dependent on  
 6 the motherboard to be functioning. And Windows  
 7 to be running, for the network card driver to  
 8 be operational. If and when the motherboard  
 9 failed, this would have caused the network card  
 10 to shut off, thus triggering the above message  
 11 of a system failure, of DVR-2. Because it can  
 12 no longer communicate with the DVR." Does this  
 13 sound accurate?  
 14 MR. [REDACTED]: Yes.  
 15 MR. [REDACTED]: All right. Do you know  
 16 what caused the motherboard failure?  
 17 MR. [REDACTED]: No.  
 18 MR. [REDACTED]: Do you remember, do you  
 19 know what affect it had?  
 20 MR. [REDACTED]: I just remember I did the  
 21 electronics thing, I just did a smell test, and  
 22 I knew something on the motherboard burned up.  
 23 You could smell that. Because I, when I took  
 24 the motherboard out, you could tell it was a  
 25 problem. Something on the motherboard burned

1 you pulled the two bad drives, it's going to  
 2 wipe --  
 3 MR. [REDACTED]: I (Indiscernible  
 4 \*02:03:40).  
 5 MR. [REDACTED]: -- you're not going to be  
 6 able to get --  
 7 MR. [REDACTED]: (Indiscernible \*02:03:41).  
 8 MR. [REDACTED]: -- recordings.  
 9 MR. [REDACTED]: Yes.  
 10 MR. [REDACTED]: So, I guess what I'm  
 11 asking is --  
 12 MR. [REDACTED]: But there was --  
 13 MR. [REDACTED]: -- wouldn't that wipe it  
 14 back to the last time you worked on it?  
 15 MR. [REDACTED]: -- no. It would have  
 16 wiped out everything before that. Not the last  
 17 --  
 18 MR. [REDACTED]: So --  
 19 MR. [REDACTED]: -- time I would have  
 20 (Indiscernible \*02:03:53).  
 21 MR. [REDACTED]: -- it would have just  
 22 wiped it all out?  
 23 MR. [REDACTED]: Yeah.  
 24 MR. [REDACTED]: All right.  
 25 MR. [REDACTED]: So, there was video after

1 I left. I fixed it. Because there was video.  
 2 MR. [REDACTED]: All right.  
 3 MR. [REDACTED]: It looked like it was  
 4 recording, but it wasn't recording.  
 5 MR. [REDACTED]: All right. So, if it  
 6 wipes everything, how --  
 7 MR. [REDACTED]: How does it -?  
 8 MR. [REDACTED]: -- how would the FBI be  
 9 able to obtain knowledge that there was no  
 10 recordings, prior to -? Because in the more  
 11 detailed report, [REDACTED], doesn't it say that  
 12 there is no recordings prior to July 29th?  
 13 MR. [REDACTED]: Bear with me. I'm just  
 14 pulling up the report.  
 15 MR. [REDACTED]: Yeah, but the point  
 16 being, you're not sure?  
 17 MR. [REDACTED]: As far as -?  
 18 MR. [REDACTED]: As far as the recordings  
 19 not working, between July 29th, 2019, and  
 20 August 8th, 2019.  
 21 MR. [REDACTED]: No.  
 22 MR. [REDACTED]: You know that they  
 23 weren't recording on August 8th.  
 24 MR. [REDACTED]: Yeah, because I had to --  
 25 MR. [REDACTED]: But you didn't --

1 system is recoverable by replacing the drive  
 2 and letting it rebuild. If there were two  
 3 drives simultaneously failed, then the recorded  
 4 video data is lost, and unrecoverable due to  
 5 the raid array needing a new configuration as  
 6 new drives are added." Does this sound  
 7 accurate?  
 8 MR. [REDACTED]: Yes.  
 9 MR. [REDACTED]: Does this sound like what  
 10 happened?  
 11 MR. [REDACTED]: That's -. Yes.  
 12 MR. [REDACTED]: Okay. Is [REDACTED]  
 13 really the person to explain this versus you?  
 14 He's the expert on this, correct?  
 15 MR. [REDACTED]: [REDACTED] and [REDACTED]. Yes.  
 16 MR. [REDACTED]: They are the two. So -.  
 17 MR. [REDACTED]: And then, if you don't,  
 18 [REDACTED] knows the engineer, the engineer of -.  
 19 Those are the guys that would know.  
 20 MR. [REDACTED]: So --  
 21 MR. [REDACTED]: [REDACTED] would know somebody  
 22 else.  
 23 MR. [REDACTED]: -- more so than you? You  
 24 get your information from them. Correct?  
 25 MR. [REDACTED]: Yes.

1 MR. [REDACTED]: -- check it, yeah.  
 2 MR. [REDACTED]: -- know anything prior --  
 3 MR. [REDACTED]: About it.  
 4 MR. [REDACTED]: -- to that.  
 5 MR. [REDACTED]: Yeah.  
 6 MR. [REDACTED]: And the July 29th issue  
 7 is news to you?  
 8 MR. [REDACTED]: Yes.  
 9 MR. [REDACTED]: Okay. Well, we'll look  
 10 into that.  
 11 MR. [REDACTED]: It doesn't state clearly  
 12 if they -. Was anything was retrieved, but  
 13 prior to 29th, (Indiscernible \*02:04:54) FBI.  
 14 MR. [REDACTED]: Okay. All right. Now,  
 15 regarding the hard drive failure. It says,  
 16 "Per [REDACTED], if there was a message that  
 17 stated this is in the Supervision application  
 18 of the video management system, this would  
 19 indicate that the failed motherboard had been  
 20 either recovered, repaired, or replaced, and  
 21 now functioning because this would allow  
 22 Windows Operating System to run, allowing the  
 23 recording to be in operation, and communication  
 24 to the application management server restored.  
 25 If there is one hard drive failure, the

1 MR. [REDACTED]: Okay. So, when they  
 2 provide us with this information, we can rely  
 3 on it to be accurate?  
 4 MR. [REDACTED]: Yes. That is accurate.  
 5 Yes.  
 6 MR. [REDACTED]: Okay. And what, do you  
 7 know what caused the hard drive failure?  
 8 MR. [REDACTED]: No. I just think it's  
 9 wear and tear because everything is so old.  
 10 MR. [REDACTED]: Okay. But that occurred  
 11 on August 10th. So, it sounded like the hard  
 12 drive failure occurred because the two drives -  
 13 -  
 14 MR. [REDACTED]: Yes.  
 15 MR. [REDACTED]: -- were pulled?  
 16 MR. [REDACTED]: Oh. I don't know.  
 17 MR. [REDACTED]: Okay. But it says, "Per  
 18 [REDACTED], this could have been caused by  
 19 normal wear and tear --  
 20 MR. [REDACTED]: Tear.  
 21 MR. [REDACTED]: -- and age of the hard  
 22 drives."  
 23 MR. [REDACTED]: Uh-huh. Yes.  
 24 MR. [REDACTED]: Is that accurate?  
 25 MR. [REDACTED]: Yes.

1 MR. [REDACTED]: And you believe that's  
2 what happened?  
3 MR. [REDACTED]: Yes.  
4 MR. [REDACTED]: And do you know what  
5 affect the hard drive failure had?  
6 MR. [REDACTED]: I just know there would be  
7 no video, or, you know, the drives would be  
8 bad. You can't take anything off the drives.  
9 MR. [REDACTED]: Okay. And again, you are  
10 the one who replaced the two drives. The FBI  
11 just came and took everything.  
12 MR. [REDACTED]: They took everything.  
13 Yes.  
14 MR. [REDACTED]: Okay. All right. We  
15 covered everything else earlier in the  
16 interview. Is there anything else, [REDACTED] or  
17 [REDACTED], that we want to cover?  
18 MR. [REDACTED]: I've got a couple of  
19 follow up questions.  
20 MR. [REDACTED]: Please.  
21 MR. [REDACTED]: Mr. [REDACTED], the two hard  
22 drives that you pulled on August 10th, to  
23 replace it, were those two the two drives you  
24 had previously replaced, or are those the  
25 different ones?

1 replaced on this other date. There's -. I  
2 can't tell you what was fixed, or when, how it  
3 was fixed. There was no maintenance log of  
4 what was changed, or repaired.  
5 MR. [REDACTED]: Okay. And we were told by  
6 [REDACTED] that, previously, when you  
7 had to stay and work in the camera room --  
8 MR. [REDACTED]: Yes.  
9 MR. [REDACTED]: -- there were situations  
10 where that you had to do work in the camera  
11 room, and if she or [REDACTED] had to leave, she  
12 would leave the keys with the captain, and you  
13 could continue doing the work --  
14 MR. [REDACTED]: Yes.  
15 MR. [REDACTED]: -- in the captain's room.  
16 MR. [REDACTED]: That is correct. Yes.  
17 MR. [REDACTED]: How come, on August 8th,  
18 you couldn't do that?  
19 MR. [REDACTED]: There was no captain.  
20 MR. [REDACTED]: There was no captain on  
21 August 8th?  
22 MR. [REDACTED]: No. There was an acting  
23 captain. I don't think there was a captain.  
24 There was nobody --  
25 MR. [REDACTED]: [REDACTED].

1 MR. [REDACTED]: Those are new drives.  
2 MR. [REDACTED]: New drives meaning that it  
3 wasn't previously replaced by you?  
4 MR. [REDACTED]: Mm-hmm.  
5 MR. [REDACTED]: I'm sorry. I didn't hear  
6 you.  
7 MR. [REDACTED]: I'm sorry?  
8 MR. [REDACTED]: I don't know if you said  
9 yes or no. That's why. I couldn't hear you.  
10 MR. [REDACTED]: Oh, the two new drives  
11 were from the computer services. The drives  
12 that I had replaced.  
13 MR. [REDACTED]: No, no, no. The question  
14 was, do you know the two drives that you said  
15 went bad, that you had to replace, right?  
16 MR. [REDACTED]: Yes.  
17 MR. [REDACTED]: Were those two drives  
18 previously replaced by you?  
19 MR. [REDACTED]: I have no idea. There is  
20 no way of me knowing what was replaced, or  
21 there was no system --  
22 MR. [REDACTED]: Okay.  
23 MR. [REDACTED]: -- in place to see if I  
24 wrote down a list, like, one through 16, I  
25 replaced on this date, and one through 16, I

1 MR. [REDACTED]: -- yeah, there was no -.  
2 But he wasn't there.  
3 MR. [REDACTED]: So, we know, on August  
4 9th, he was there until at least 7:00 p.m.  
5 MR. [REDACTED]: 7:00. Oh. Oh, he's  
6 probably not -. He was probably not in his  
7 office, then. Because the office is right next  
8 to the room.  
9 MR. [REDACTED]: Yeah. "On August 8th,  
10 SIS [REDACTED] went right next to him,  
11 in his office, and provided him the memo  
12 regarding the issue." On August 9th is when  
13 you said that you couldn't gain access to the  
14 room, but we do, in fact, know that [REDACTED] was  
15 there until at least 7:00 p.m.  
16 MR. [REDACTED]: The thing about this memo  
17 part, that I don't get it, is that there could  
18 have been memos from before, like, that  
19 decision make any sense to me. Because this is  
20 not the only time the recorder failed. So, to  
21 have a memo this one time, when Epstein  
22 happens, like, that just doesn't make sense to  
23 me.  
24 MR. [REDACTED]: Okay. So --  
25 MR. [REDACTED]: Is it --

1 MR. [REDACTED]: -- and the fact that --  
 2 MR. [REDACTED]: -- sorry.  
 3 MR. [REDACTED]: -- there is this memo --  
 4 MR. [REDACTED]: Yeah.  
 5 MR. [REDACTED]: -- what do you think that  
 6 suggests?  
 7 MR. [REDACTED]: Somebody is trying to say  
 8 they did their job where they didn't do their  
 9 job.  
 10 MR. [REDACTED]: So, you think that the  
 11 memo was, in fact, created on the 10th, instead  
 12 of the 8th?  
 13 MR. [REDACTED]: I don't know when it was  
 14 created. I'm just saying, people are trying to  
 15 cover their tracks. To say they were notified,  
 16 and they told this person, and that person.  
 17 When I got there, and I was trying to explain  
 18 to everybody how important most of the systems  
 19 were, everybody just looked at me like I'm  
 20 spinning two heads. Like, I'm not telling you  
 21 -. I'm, like, I came from a compound. There  
 22 was a medium. There is a high. There is a  
 23 low. There is a death row. If something  
 24 doesn't work, it's a jail, you have to stay.  
 25 Now, after Epstein happens, everybody wants to

1 MR. [REDACTED]: Right, right, right.  
 2 MR. [REDACTED]: But I'm pretty sure you  
 3 guys want to get it over with yourself. So.  
 4 MR. [REDACTED]: Anything else, [REDACTED]?  
 5 MR. [REDACTED]: No. That's it.  
 6 MR. [REDACTED]: No.  
 7 MR. [REDACTED]: [REDACTED]?  
 8 [REDACTED]: Nothing from me.  
 9 MR. [REDACTED]: Okay. We're going to end  
 10 this, then.  
 11 MR. [REDACTED]: Yeah.  
 12 MR. [REDACTED]: Anything you want to add?  
 13 MR. [REDACTED]: No. Just send me the  
 14 emails, and I will try to get you some  
 15 information.  
 16 MR. [REDACTED]: Okay.  
 17 MR. [REDACTED]: Yeah. Thank you, guys. I  
 18 know this is not easy for you guys --  
 19 MR. [REDACTED]: No.  
 20 MR. [REDACTED]: -- to go over the same  
 21 thing.  
 22 MR. [REDACTED]: And we appreciate your  
 23 cooperation. Thank you.  
 24 MR. [REDACTED]: Yeah.  
 25 MR. [REDACTED]: It is --.

1 do their job. So, that's the long and short of  
 2 it.  
 3 MR. [REDACTED]: Okay.  
 4 MR. [REDACTED]: I'm not trying to say that  
 5 anybody did anything. But I'm just saying,  
 6 like, now everybody wants to write memos, and  
 7 have statements, when all this stuff was  
 8 happening before, is there records of you  
 9 calling and saying there was a problem? I have  
 10 records of me saying there was a problem, and  
 11 I'm trying to fix the problem. And I stayed  
 12 and fixed the problem. But these other people  
 13 that are saying stuff, man.  
 14 MR. [REDACTED]: Yeah. So, in any --  
 15 MR. [REDACTED]: That doesn't make sense to  
 16 me.  
 17 MR. [REDACTED]: -- any of those records,  
 18 you can give us, again, that's going to be  
 19 greatly appreciated. I'm going to follow up  
 20 with an email, asking what we talked about, but  
 21 anything else that you think will be helpful,  
 22 to help us?  
 23 MR. [REDACTED]: Yeah. I just, I'm sorry  
 24 you guys have to go through this, because I, I  
 25 mean, I'm still going through it.

1 MR. [REDACTED]: Oh, and the job failure.  
 2 Was that on my part? Like, not doing my job,  
 3 or not notifying anybody, or what -?  
 4 MR. [REDACTED]: Well, when we're talking  
 5 to people, we're telling everybody the same  
 6 thing.  
 7 MR. [REDACTED]: Thing, yeah.  
 8 MR. [REDACTED]: It's not our decision,  
 9 really, to make, you know --  
 10 MR. [REDACTED]: Mm-hmm.  
 11 MR. [REDACTED]: -- to say --  
 12 MR. [REDACTED]: What --  
 13 MR. [REDACTED]: -- we're going to  
 14 basically --  
 15 MR. [REDACTED]: -- (Indiscernible  
 16 \*02:11:18).  
 17 MR. [REDACTED]: -- provide the  
 18 information --  
 19 MR. [REDACTED]: Information.  
 20 MR. [REDACTED]: -- to the BOP.  
 21 MR. [REDACTED]: Yeah.  
 22 MR. [REDACTED]: They determine --  
 23 MR. [REDACTED]: Determine --  
 24 MR. [REDACTED]: -- you know, the actions  
 25 --

1 MR. [REDACTED]: -- oh, he should have said  
 2 this. Yeah.  
 3 MR. [REDACTED]: -- you know, and all that  
 4 kind of stuff --  
 5 MR. [REDACTED]: But look --  
 6 MR. [REDACTED]: I mean, we will have our,  
 7 you know --  
 8 MR. [REDACTED]: -- the thing about this  
 9 whole thing, I'm just going to add my part,  
 10 because I came from another institution. If  
 11 there is a problem, and, like, especially the  
 12 cameras, somebody should be notified. Okay.  
 13 I'm the guy that fixes it. Okay. [REDACTED], what  
 14 are you doing? Have you fixed it? Now, after  
 15 Epstein happens, and we've had recorder issues  
 16 now, and that was what I sent the email, okay,  
 17 I fixed this, I did this, I did that. But  
 18 before that, it was not happening.  
 19 MR. [REDACTED]: Right.  
 20 MR. [REDACTED]: That's the only part I  
 21 want to add. That's -. Now, everybody covers  
 22 their tracks. But before this, sad to say this  
 23 had to cause the whole Bureau to wake up. But  
 24 -.  
 25 MR. [REDACTED]: Right.
