Current Problem

[REDACTED] & D staff reported to this writer this morning at about 8:30 AM on 8/01/19 that yesterday when Mr. Epstein was brought back from court the US Marshals asked him to sign a form that noted Mr. Epstein has "suicidal tendencies." This is likely due to the incident on 7/23/19, but as a precaution another Suicide Risk Assessment was conducted.

Mr. Epstein seemed surprised that there was a form noting suicidal tendencies. He denied stating he was suicidal.

He said he saw the DHO today and he said his incident report for the marks on his neck was expunged. He stated even though he has his cpap machine now, he said his cellmate talks at night and he stated this keeps him up. This writer offered to talk to the SHU Lt. to have him housed with a different cellmate, but he stated he wants to give it 3 to 4 days to see if he wants a different cellmate. He complained about the noise in SHU.

He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

RISK AND PROTECTIVE FACTORS ASSESSED:

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

The following **DYNAMIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Current physical pain, Sleep problems

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide: Able to identify reasons to live, Denial of suicidal ideation/intention/plans, Future orientation, Religious beliefs against suicide, Supportive family relationships, View of death as negative, Willingness to engage in treatment

Risk Factors: He was found by staff in his cell in SHU on 7/23/19 with a string loosely tied around his neck, which Mr. Epstein stated he did not remember anything about. It is still unclear at this time if Mr. Epstein had placed the string around his own neck or if someone else did. He has a high profile sex offense case. He stated his lower back hurts and he stated Medical is aware of this. He stated he has difficulty sleeping even with his cpap machine because he stated his cellmate talks at night.

Protective Factors: He denied current suicidal or self harm thoughts and agreed to tell staff if he starts to have these thoughts. He had denied a history of self harm and suicide attempts. He had denied a family history of suicidal and self harm attempts. He had denied having any chronic medical conditions. He denied feeling hopeless. He had denied a history of childhood abuse. He denied fearing for his safety at this time. He denied feeling like a burden to anyone. He stated he lives for and plans to finish this case and to go back to his normal life. He said his friends and Lawyers are emotionally supportive. He said he is Jewish and he said in his religion suicide is against the religion. (b)(6); (b)(7)(A); (b)(7)(C)

Overall, his current protective factors overrule the Freedom of Information and Privacy Act. He is currently psychologically stable. He denied feeling hopeless. He is reporting positive future plans and reasons to live for. He said he has social supports in the community and his Lawyers visit him often. He denied any current suicidal or self harm ideation, intention or plan. Suicide Watch is not indicated at this time.

Focus of Session

Inmate Epstein was seen while on psychological observation today in the hospital area.

Subjective/Objective Presentation

Same presentation today, but he said he thinks his memory for the incident (injury to his neck) may be impaired because of his sleep apnea. He is supposed to get his CPAP machine today. He is aware he will be returning to SHU, but said he is feeling unwell due to his inability to sleep and numbness in his arm. He requested to have one good night of sleep with his CPAP and will return to SHU with a cellmate tomorrow. He then asked if he could remain down here where it is "safe" for the entire week. I told him he can stay down one more night to receive his CPAP and a good night's sleep, but that he would be returned to SHU tomorrow. It was explained that there is no mental health issues precluding him from returning to SHU tomorrow and that we could not house him in the SW/Hospital area because he felt safe or more comfortable for him. It was explained to him that he would be placed in a safe situation in the SHU.

According to his log book and eating/shower chart, he has been eating and drinking when not in his legal visits. He has also been writing and attending his legal visits.

Intervention(s)

Inmate EPSTEIN was provided with brief supportive interventions and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was somewhat receptive to these interventions, but appears more concerned about getting his various needs in the prison (phone calls, recreation, housing placement concerns, etc.)

Progress/Plan

Withheld pursuant to exemption

He will remain on psychological observation today and will transition to the SHU tomorrow. He will be seen by psychology daily to assess his mental status and psychological functioning.

The "Eating/Shower Chart" noted that yesterday he ate breakfast. He stated the feeling he got with the noise of the toilet was similar to when he was in SH-1103 and 1148. He may have something on the Autism spectrum. He said in the movie "Rain Man," the person with Autism had an aversion to noise. He stated he is also really good with numbers.

Focus of Session

Inmate Epstein was seen while on psychological observation in our hospital area.

Subjective/Objective Presentation

Prior to this writer's contact with him, Inmate Epstein showered and dressed himself for his legal visit today. He was smiling and did crack some jokes during the interview. He did elucidate some complaints and suggested being disappointed with this writer as he wants "to trust me and for me to trust him." He stated he remains unhappy with legal visiting procedures as he cannot go to the bathroom as frequently as he would like to since he has a "weak bladder." Inmate Epstein also reported since coming to the psychological observation area, he has felt constipated and needs his Colace. He had self-carry Colace in SHU, but since coming to the observation area, he has not had his medication. This writer immediately notified medical and his pills were being processed during the interview. Inmate Epstein also continues to complain about the conditions of SHU confinement (i.e., feeling punished, smells, noise, and restrictions).

With regard to the events which lead to his initial placement on suicide watch, inmate Epstein stated he has no memory of the event. He asked to speak with his old cellmate "Nick" to see if he can tell him what happened or see if his memory could be triggered. He remarked, "I am still trying to figure out how I got this (pointing to the scab around his neck)." Inmate Epstein denies remembering harming himself and/or being harmed by his cellmate. He does not exhibit symptoms of any cognitive disorder, seizure disorder, psychotic disorder, or dissociative disorder at this time or in the past. Inmate Epstein denied any current suicidal ideation, in Page 106 of 148. He reported wanting to be alive to fight his legal case and go back and live life. He referred to himself as "a coward" and "I'm Jewish." He said he is not the type who likes pain or would ever attempt to harm himself. Withheld pursuant to exemption

While on psychological observation, inmate Epstein has been eating his meals, sleeping and interacting with the inmate companions. He is in legal visiting the majority of the day and in the evenings. His log book and eating/shower chart reflect the same. He has been speaking to inmate companions about investment strategies and about prison adjustment. Correctional Staff report during his legal visits, he is interacting with his attorney, animated, laughing, and joking.

Intervention(s)

Inmate Epstein was provided with supportive and coping skills interventions today. He was receptive to them, but mostly wanted to express his complaints about his current prison confinement status and needs. He wanted this writer to address them.

Progress/Plan

Inmate Epstein will remain on psychological observation in an abundance of caution and pending housing arrangements to be made on Monday. He continues to be vague and reports memory deficits regarding the events which lead to a piece of sheet being placed loosely around his neck and marks with scabs around his neck.

Focus of Session

Inmate Epstein was seen by this writer this morning while on psychological observation in the hospital area of the prison.

Subjective/Objective Presentation

Inmate Epstein was in good spirits today and engaged in reciprocal conversation with this writer this morning. He smiled and remarked, "welcome back" when this writer arrived. He continues to assert he does not remember how he received marks around his neck, remarking "I do not remember anything, maybe you can give me some cues." He stated he just remembers going for a drink of water and the next thing he knew he woke up to the sound of his own snoring. When this writer attempted to get a more detailed account from him, indicating that it would be rare to have such impairments in memory as he does not suffer from an acute cognitive disorder, he smiled and said he understood my position.

Inmate Epstein did reveal he is unhappy with his current confinement in Special Housing (SHU) as he considers it "a punishment cell." He said he finds the restrictions up there unfair as he has not done anything wrong. Inmate Epstein stated he feels it is dangerous in the SHU, he cannot sleep well up there due to noise from the other inmates, it smells, and it is difficult for him to work on his legal case up there. He stated he has not received the phone calls he was promised nor has he been able to receive recreation. It was explained to him that he spends the entire day in the attorney conference room and it is likely that he has missed Page 107 of 148
[REDACTED] staff members have attempted to give him phone calls and recreation. Inmate Epstein also reported complaints about the attorney conference room, stating they do not take him to the bathroom frequently enough. [REDACTED] Withheld pursuant to exemption

Inmate Epstein adamantly denied any suicidality at this time, stating "I am too vested in my case to fight it, I have a life and I want to go back to living my life." He denied any acute symptoms at this time. [REDACTED] (b)(6) ; (b)(7)(A) ; (b)(7)(C)

According to his log book, he has been eating, drinking, sleeping, and interacting with the inmate companions. He has also been attending his daily legal visits.

Intervention(s)

Inmate EPSTEIN was provided with brief supportive interventions and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was mostly receptive to these interventions. He requested to be housed in general population rather than the SHU and stated he wanted to remain on psychological observation due to his concerns with being in the SHU.

Progress/Plan

In an abundance of caution, inmate Epstein will remain on psychological observation. He has yet to give an account of how he sustained the marks around his neck, is not revealing much about his mental status, and there are concerns about his adjustment at this time to being housed in the SHU. Inmate Epstein will be seen daily by psychology while on psychological observation.

Risk Factors Assessed:

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self harm.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

The following **DYNAMIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Current physical pain, Fear for own safety

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide: Able to identify reasons to live, Adequate problem solving skills, Denial of suicidal ideation/intention/plans, Future orientation, View of death as negative, Willingness to engage in treatment

Risk Factors: Mr. EPSTEIN has a significant scar around his neck, which is now scabbing over. He reported swelling in this area but denied experiencing any related pain. Mr. EPSTEIN continues to claim a lack of memory for the incident resulting in this scar. The story he provided was vague, such that this writer challenged him a couple of times, but he insisted he was being honest about his lapse in memory. The nature of the incident remain unclear. Mr. EPSTEIN is incarcerated for a very high profile crime with media attention. He was recently denied bail. He also reported difficulty managing his time in the SHU. He reported being fearful for his safety if he is to return to the cell with his previous cell mate.

He explained, although his situation is "not perfect" due to his being incarcerated, he noted he has "lots to do for [his] legal case." He described having a "wonderful life," to include interactions with "interesting people and projects." He said "it would be crazy" to take his life. He furthered, "I would not do that to myself." He denied feelings of hopelessness, although did report being "depressed" and "unhappy" about his current legal situation. He previously denied a history of childhood abuse. He reported he is sleeping adequately now that he is no longer in the SHU. He appear future-oriented as he endorsed an interest in being housed in general population.

Weighing of Risk and Protective Factors: Mr. EPSTEIN adamantly denied suicidality. However, in light of his vague self-report regarding the incident which precipitated his placement on Suicide Watch, combined with his fear for his own safety, reported

difficulty managing his time in the SHU, and the high profile nature of his alleged offense, Mr. EPSTEIN will be stepped down from Suicide Watch to Psychological Observation.

Changes in Risk Factors Assessed

Upon a review of the log book, it was indicated Mr. EPSTEIN has been speaking to the inmate companions about having previously taught mathematics and physics. He has been observed pacing the cell as well as sleeping, eating, and drinking within normal limits.

Upon interview today, Mr. EPSTEIN requested he be provided a toothbrush as well as a shower. His requests were made known to the lieutenants and he was provided a shower prior to attending his legal visit. This writer also provided him a toothbrush, toothpaste, and hygiene products.

Asked about the alleged incident which transpired yesterday resulting in his placement on Suicide Watch, Mr. EPSTEIN said he is frustrated he has been placed in a "punishment cell for no reason." Specifically, Mr. EPSTEIN was referring to his placement in the SHU. Asked to recall the events surrounding the alleged incident, Mr. EPSTEIN said his cell mate was "playing with a bed sheet" and he claimed he does not recall the events thereafter. He said he recalled eating meat and drinking water and claimed the next event for which he has memory is his hearing himself snore and waking up on a stretcher.

Mr. EPSTEIN claimed he does not recall himself or his cell mate tying a string or rope around his neck. He said he has "been trying to remember" and "wracking his mind." Asked if he experienced any interpersonal issues with his cell mate, Mr. EPSTEIN described his cell mate as "agitated" and claimed his cell mate called him a "pedophile" for the first time yesterday. His cell mate was also reportedly reading a newspaper article about Mr. EPSTEIN, which bothered him and it was something he believed to be "strange" for their to be an article about him in his cell. Mr. EPSTEIN recalled throwing away the newspaper photograph of himself by crumpling it and flushing it down the toilet. Asked if his cell mate ever threatened to harm him, he denied this. When the case was told the inmate companions yesterday his cell mate tried to kill him, while also claiming no memory of the incident, Mr. EPSTEIN again said he did not recall the incident and further stated, "I don't know if he put [REDACTED] on me." Mr. EPSTEIN explained he had been experiencing difficulty sleeping in his SHU cell due to his inmate peers banging on the cell door and window, but has not been experiencing any other acute issues other than this.

Reason for Removal from Watch

Mr. EPSTEIN stated, "I have no interest in killing myself." He explained although his situation is "not perfect" due to his being incarcerated, he noted he has "lots to do for [his] legal case." He described having a "wonderful life," to include interactions with "interesting people and projects." He said "it would be crazy" to take his life. He furthered, "I would not do that to myself." Mr. EPSTEIN did express a feeling of safety being housed on Psychological Observation rather than in the SHU. He asked if he could remain on this status for a couple of days, he was advised his housing situation will be re-evaluated on a day-to-day basis. He expressed a desire to be housed in general population rather than in the SHU and asked if there were a "safer" unit for him to be housed in comparison to the one where he was initially placed. Mr. EPSTEIN claimed there were many MS-13 gang members on the initial unit. He was advised he will be maintained on Psychological Observation in the near future, but his long-term housing situation will be revisited, as it is not ideal for one to remain in isolation on Psychological Observation for extended periods of time. Mr. EPSTEIN acknowledged this information and thanked this writer for her explanation and time.

Current Problem

Earlier this morning Mr. Epstein was found by SHU staff in his cell with a string loosely tied around his neck. It is unclear at this time if Mr. Epstein had placed the string around his own neck.

When Mr. Epstein was asked by this writer how he ended up on Suicide Watch, he denied remembering. He stated he got a drink of water last night in his cell and went back to bed. He said the next thing he remembered is hearing himself snore. He said he wants to know why he is on Suicide Watch. He was informed that staff stated he was found in his cell with a string on his neck. According to Medical records, he had been seen by Medical for this and had a rule out of self inflicted injuries.

When this writer reviewed the Staff Suicide Watch Log, it noted that Mr. Epstein told the staff watching him that his cellmate tried to kill him, which Mr. Epstein did not tell this writer when this writer had interviewed Mr. Epstein. This writer was not able to ask Mr. Epstein about this, since Mr. Epstein was now in Legal. The Captain was notified about this notation and the Captain stated they were already aware of this statement.

Focus of Session

Inmate Epstein was seen today for a psychological observation contact in the hospital area by this writer.

Subjective/Objective Presentation

Inmate Epstein appeared well and it was noted in his log book and eating/sleeping chart that he has been eating his meals, sleeping, interacting with the inmate companions, and pacing in his cell. Today, he presented this writer with numerous concerns and requests. He stated he does not want to be housed in the SHU because he is not comfortable there; he wants to be single-celled if he goes to the SHU; he wants Colace, not the Ducolex he received from medical yesterday; he wants to be able to walk around and go to recreation; he does not want to wear an orange uniform to his legal visits because he is treated "like a punished inmate;" he wants a phone call before he leaves the psychological observation area; he wants a shower and towel; he would like to be housed in the cadre (5S) unit; and would like his property, paper, and a pen.

Inmate Epstein's concerns were addressed by this writer and it was explained to him he will not be single-celled or placed in a housing unit for safety and security concerns. His medical concerns (constipation) were discussed with health services as well as his desire to be placed on Colace. Inmate Epstein was provided a shower this morning.

Intervention(s)

Inmate Epstein was provided with supportive intervention and coping skills strategies today. He was receptive to interventions and was able to elucidate his various needs. He did not present with any acute psychopathology and continues to deny any suicidal ideation, intention, or plan. He is looking forward to his bail hearing on Monday but stated he is aware that even if he gets bail, it will take at least two weeks to sort things out so he can leave the jail.

Level of Consciousness: Alert and Oriented

Psychomotor Activity: Normal

General Appearance: Normal

Behavior: Cooperative

Mood: Appropriate to Content

Thought Process: Goal Directed

Thought Content: Normal

RISK AND PROTECTIVE FACTORS ASSESSED:

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Sex offender status, Lack of family connections, High Profile Crime

The following **PROTECTIVE** factors were assessed to be present and decrease the inmate's risk of suicide: Willingness to engage in treatment, View of death as negative, Future orientation, Denial of suicidal ideation/intention/plans, Adequate problem solving skills, Able to identify reasons to live. Inmate Epstein stated he has a support system in the community, including friends and other associates. Overall, inmate Epstein has numerous protective factors at this time that outweigh his risk factors for suicidality. He has a positive outlook regarding his legal case, demonstrates no psychiatric symptoms, has no psychiatric or suicide history, and verbalized a desire to be alive at this time and future orientation.

Inmate Epstein will be seen daily while on psychological observation and will be seen for a psychological observation follow-up session once he is released from observation. Inmate Epstein denied the need for psychological intervention, self-help materials, or follow-up. He has been classified as a CC1-MH inmate at this time. Comments

This writer consulted with Dr. ██████████, Central Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, ██████ staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment.
