**Subject:** interview + lawsuit +Epstein + racketeering, fraud

Angel, Craig and all, I have been very busy and talking with a lot of people. I have talked with several lawyers who believe the information that involve so many people, companies could amount into the tens of billions or more. I am to put together a file over the weekend for their review and also be ready to copy media tomorrow morning. I have thousands of documents to prove David Kendall, [REDACTED], Hillary and her campaign, marc elias, [REDACTED], gc for the [REDACTED] gc of Verizon, [REDACTED] city [REDACTED] counsel for city of Virginia beach, [REDACTED] c for Obama and Biden and dozens more associated with the Democrats have all conspired to purposely put all employees of Verizon, state of Virginia, city Virginia Beach, all citizens of America in potential danger of serious adverse health effects from use and exposure to NCR paper. Most lawyers will have complaints filed against them and possible lose law license.

I have done my best to avoid massive lawsuits and the end of the Democratic party, most of you lawyers losing you license to practice law and huge losses for all you represent. Clinton, Obama, Biden, etc will likely become bankrupt over this, Verizon lose huge stock value, state of Virginia, city of Virginia Beach huge losses, unions out of busniss when this is not necessary.

I simply wanted to be assured warnings regarding NCR paper would be prepared, all my claims and any other pending claims resolved if there are any. You can bet there will be once this is public.

If you guys want to avoid these huge losses, I need to be made aware of that by early this afternoon, a small deposit of \$50,000 put in my bank account and assurances we will work on a contract to be concluded by next Friday and all my claims resolved with Verizon, unions, state of Virginia, city of Virginia Beach, DNC and any others involved. This is a great deal for you guys given all the information I have and all the money, voter losses I can cause. The \$50,000 is just a small amount to back up you want to resolve all issues. My claims will be in the tens of millions given the length of time, number of defendants.

I look forward to hearing from you this afternoon.

Brenda Smith

Bill Clinton is in jeopardy of serious lawsuits, possible civil and even criminal charges by his association and claims of sexual abuse of underage girls on many occasions.

I have copies of hundreds of emails to prove that Bill and Hillary Clinton, the Clinton foundation, Hillary campaign, everything and basically everyone associated with Bill and Hillary Clinton, the DNC and all officers, lawyers etc, unions and almost everyone associated with them have been and are conspiring to purposely put millions of Americans in potential danger for serious adverse health effects from use and exposure to NCR paper and the chemical components including disabilities, birth defects, cancer and death. If Bill and Hillary and most associated have allowed them, protected, conspired with them to purposely put millions in potential danger, why would anyone not believe that Bill and Hillary etc would conspire to allow Bill to be involved in sexual abuse of underage girls.

Let me know by this afternoon if Bill and Hillary, DNC , unions, etc either have or plan to prepare warnings regarding use and exposure to NCR paper and resolve related claims. Should I not hear from you I will assume you are not denying this and I will provide copies of evidence I have to media and others claiming Bill Clinton has been involved with underage girls so they can use this as evidence in possible criminal and civil charges against him.
