Hi [REDACTED]

I ran out of space on my desktop, so I went ahead and loaded the Responsive – Confidential photos and videos from device NYC024362 to the share drive. I've saved them here: <\\Usa.doj.gov\cloud\NYS\StAndrews\Shared\USvEpstein-2018R01618\Investigation\Confidential Images & Videos from Epstein Devices in NY & VI\NYC024362 Responsive Images>
CONFIDENTIAL ONLY

Would you please make sure all of these files are included with the production of Responsive and Confidential photos and videos? And if it's doable, my preference would be to save all of the Responsive – Confidential files from these devices in the "Confidential Images & Videos from Epstein Device sin NY & VI" folder on the share, with a subfolder for each device, please.

Thanks
